Form 990 (2018)

Form 990, Part III, Line 4a:

Inpatient Care: In 2019 Oroville Hospital provided 48,429 days of care for 13,889 patients. There were 2,044 surgeries, 1,202,899 lab tests, and 24,020 medical images performed. 448 babies were delivered to the people of Oroville and the surrounding foothill communities.

Form 990, Part III, Line 4b:

Oroville Hospital also provides a variety of outpatient Medical Imaging services, including a Women's Imaging Center and a Radiation Oncology Center. It has Outreach Laboratory Services, Home Health Services, Ambulatory Services, and Outpatient Surgery. Oroville Hospital had 170,834 outpatient visits, 8,151 Home Health visits and performed 3,896 outpatient surgeries in 2019.

Form 990, Part III, Line 4c:

Rural Health Clinics: Oroville's Hospital has a variety of clinics available to the community surrounding Oroville. Total visits to the clinics during 2019 were 311,465, of which 36% were Medi-Cal, 41% were Medicare and 23% were Other Payors. Oroville Hospital continues to examine the health needs of the community and works to provide those services. Through the development of hospital-based community clinics, Oroville Hospital has improved and increased access to health services throughout the Oroville community. The majority of our outpatient services accept all insurance plans including the State of California's Medi-Cal program. Our community has a disproportionate share of low/no income families. Access to health care services would be extremely difficult for this group were it not for hospital-based clinics. The State of California's Medi-Cal program reimbursement payments to physicians are set at a rate that makes it difficult for an independent physician to accept Medi-Cal patients. As a result, many health care providers throughout the state and our community have eliminated Medi-Cal patients from their roster. Oroville Hospital also provides a medical concierge service. The Medical Concierge is a patient advocate that works closely with individuals to determine their needs and improve access to providers. They navigate patients through the healthcare system by coordinating and identifying a primary care provider, specialists, surgeons and many other needs. Health Services provided in the clinics are: Anti-Coagulation * Gastroenterology * Oncology * Podiatry * Cardiology * General Surgery * Ophthalmology * Pulmonary * Chiropractic * Internal Medicine * Orthopedics * Urgent Care * Dermatology * Nephrology * Pain Mgmt * Urology * Primary Care * OB/GYN * Pediatrics * Vascular Surgery * ENT * Neurology * Endocrinology *

a	A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?		
b	A family member of a person described in (a) above?		
c	A 35% controlled entity of a person described in (a) or (b) above? <i>If "Yes" to a, b, or c, provide detail in Part VI.</i>		

Section B. Type I Supporting Organizations

		Yes	No
1	Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2	Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised or controlled the supporting organization.</i>		

Section C. Type II Supporting Organizations

		Yes	No
1	Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		

Section D. All Type III Supporting Organizations

		Yes	No
1	Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2	Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization (s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3	By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		

Section E. Type III Functionally-Integrated Supporting Organizations

Supplemental Information

Return Reference	Explanation
Part X : FIN48 Footnote	FASB ASC 740, Income Taxes, clarifies the accounting for uncertainty in income taxes recognized in the Hospitals financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return. In addition, FASB ASC 740 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Hospital presently recognizes income tax positions based on managements estimate of whether it is reasonably possible that a liability has been incurred for unrecognized income tax effects by applying FASB ASC 450, Contingencies.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7 - Explanation of Costing Methodology	The costs were determined using a cost-to-charge ratio. The cost-to-charge computation is based on hospital specific data included in the audited financial statements. The formula used for the computation equals financial statement data as follows: Total Operating Expense less the sum of Non Patient Care Activities, Mcal Provider Taxes and Total Community Benefit & Building Expense. This amount is then divided by the Gross Patient Care Charges reduced by charges for Community Benefit Programs. The ratio for 2019 equaled 28.88%.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense	Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluation and the specific circumstances of the account. Ratios are determined from those actual historical collection experiences and applied to outstanding receivables. Payments on patients accounts reduce the outstanding receivables. Discounts on patients accounts are recorded as an adjustment to revenue, not bad debt expense.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	It is our belief that \$2,627,860 amount of bad debt should be included as community benefit. As a tax-exempt hospital we must provide necessary services regardless of the patient's ability to pay for the service provided. As a not-for-profit, patient care is provided to all, regardless of ability to pay for that care. Making quality patient care available to all in our community, regardless of their economic means, qualifies bad debts as a community benefit. We applied a percentage based on our historical experiences to our total amount of bad debt for self-pay patients to estimate the portion of self-pay bad debt that is likely attributable to individuals eligible for the hospital's financial assistance policy.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 4 - Bad Debt Expense	<p>Patient Accounts Receivable The Hospital reports patient accounts receivable for services rendered at net realizable amounts from third-party payors, patients, and others. The Hospital provides an allowance for doubtful accounts based upon a review of outstanding receivables, historical collection information, and existing economic conditions. As a service to the patient, the Hospital bills third-party payors directly and bills the patient when the patient's liability is determined. Patient accounts receivable are due in full when billed. Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluation and specific circumstances of the account. No interest is charged to patients for delinquent accounts.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	Medicare Cost Reports that the hospital is required to file does not include all of the costs required to treat Medicare patients. Therefore the amount reflected on the Cost report will likely differ from actual costs. The hospital's DSH payments and Uncompensated Care Payments are \$6,762,132. The excess is used to subsidize charity and bad debt, and to improve patient care through programs, training, and acquired capital.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 9b - Provisions On Collection Practices For Qualified Patients	Any self-pay, uninsured patient who indicates an inability to pay is screened for a charity discount. Additionally, "high cost" patients as defined are also screened for a charity discount when the patient requests such screening. Screening for discounts will occur only after all other potential resources have been exhausted. The screening process will optimally occur at the time of service but may occur anytime during the collection process including post assignment to an outside collection agency.

Part VI, Line 2 - Needs Assessment	<p>As part of the 2010 Patient Protection and Affordable Care Act, Oroville Hospital has developed an ongoing, community-based assessment that has become part of the strategic plan on a long-term, continuing basis. This 2019 Community Health Needs Assessment (CHNA) includes the community's perspective regarding health care needs and available services. Special consideration has been taken to ensure input was received from community representatives that possess broad interests of the community served by Oroville Hospital, including those who have particular knowledge or expertise in public health. Poor health status can result from a variety of factors including: genetic, environmental, behavioral, and socioeconomic. The best way to address this is by identifying the causes of these diseases, conditions and challenges and developing interventions in order to decrease the incidence or prevalence of these conditions. Oroville Hospital has a partnership with Together We Can! Healthy Living in Butte County and two other Butte County Hospitals, Enloe Medical Center (Chico) and Orchard Hospital (Gridley) to better identify, strategize and implement action plans. Together We Can! Healthy Living is a county-wide Community Health Assessment that started in May 2014. This effort brought together about 100 different organizations across the county. The group as a whole is currently working on activities to improve the health of Butte County that were developed in the Community Health Improvement Plan. These new partnerships offer future capability to address a broader scope of the community's needs rather than just Oroville Hospital's clinical abilities. Primary Data was collected from the following sources and methods: Two versions of the 2019 Community Health Needs Survey were developed using the framework of the 2013 and 2016 Community Health Needs Surveys. The first version was targeted to residents of Oroville Hospital's Primary Medical Service Area, and the second version was targeted to employees of Oroville Hospital. Adjustments were made to the 2013 and 2016 Community Health Needs Surveys to ensure the content and feedback that we received was applicable to current times. Three focus groups were conducted throughout the Oroville community, targeting the medically underserved, low-income and minority populations. In addition to the focus groups that targeted a specific population, Oroville Hospital also hosted a Community Meeting that was open to the general public to collect input from the community. Invitations were sent out to all residents living within Oroville Hospital's primary medical service area. The purpose of the focus groups and meeting was to seek out and utilize the input of groups that represent medically underserved, low-income and minority populations. Input that was received was used to help identify and prioritize the health needs facing our community, resources available or new resources that could help mitigate these needs and how past action plans provided by Oroville Hospital have assisted the community in addressing the identified health needs. Questionnaires were sent to community leaders to obtain their vision for the community, and how Oroville Hospital can assist in achieving that vision and how our past action plans have been received. Respondents included members of Butte County Public Health, the University of California Agriculture and Natural Resources and Prestige Assisted Living at Oroville. Secondary data was retrieved and compiled from local, state, national and other data resources. The sources include: United States Census Bureau Center for Disease and Prevention (CDC) United States Department of Health and Human Services United States Department of Agriculture (USDA) Substance Abuse and Mental Health Services Administration (SAMHSA) World Health Organization National Coalition for the Homeless Healthy People 2020 UCLA Center for Health Policy Research California Department of Public Health California Center for Public Health Advocacy Butte County Department of Public Health Butte County Coroners Office Butte County-wide Homeless Continuum of Care Butte County Health Rankings Identified Primary Health Concerns of the Community Primary and secondary data collection and analysis identified the following as the most significant health needs for residents of the Oroville Hospital primary medical service area: *Substance Abuse*Overweight/Obesity (Access to Health Food/Food Insecurity)*Mental Health Issues*Access to Health Care*Heart Disease/High Blood Pressure*Diabetes*Homelessness and Poverty Hospital Action Plans: The health concerns identified in the 2016 CHNA have been adapted and added to meet the needs of the 2019 health concerns. After identifying the community's top health concerns, Oroville Hospital has new and existing action plans in place. Since there are many similar prioritized health concerns between the 2016 and 2019 Community Health Needs Assessments, many of the Action Plan</p>

The Camp Fire Disaster drastically changed the population and health needs of the county. Oroville Hospital is and will continue to evaluate the effects of the disaster and contnue to work with its recent Health Needs Assessment. We anticipate our action pla n will be flexible to meet ongoing community health needs.

Part VI, Line 3 - Patient Education of Eligibility for Assistance	<p>Oroville Hospital's Financial Assistance Policy is available on the hospital's website, and signs are posted in the business office, the admitting and registration areas and the emergency department informing patients about our financial assistance policies and the availability of charity discounts. The plain language summary includes instructions on how an individual can obtain a copy of the Financial Assistance Policy and FAP Application by mail. Additionally, patient statements include standard language informing patients that they may request financial screening to determine eligibility for charity discounts and how that request may be made. All statements sent to patients contain a plain language summary of the patient's rights pursuant to AB 774 and the Rosenthal Fair Debt Collection Practices Act. Once a charity determination has been made, the outcome is communicated to the patient by a letter and/or phone call and is documented in the patient's account notes.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4 - Community Information	<p>Oroville Hospital is in a rural setting, predominately agricultural based and located in Butte County. Butte County encompasses 1636.46 square miles. The highest point is Humboldt Peak (7,870 feet) and the lowest point is 90 feet above sea level. The primary medical service area population for Oroville Hospital is approximately 67,632. which is comprised of approximately 62.6% Caucasian, 17.3% Hispanic, 6.5% Asian and 1.6% African American, 1.5% Native American. Approximately 43% of the population is 55 years of age or older. The total population of the secondary medical service area is 341,735. 37% of the residents in the primary medical service area live on an annual income of less than \$30,000 per year. 15% of the hospital's revenue was derived from Medi-Cal. The hospital's primary medical service area includes Bangor, Berry Creek, Biggs, Gridley, Oroville, and Palermo. There is one other hospital, Orchard Hospital in Gridley, serving the community. Rural, isolated adults, seniors (many living alone) and families and special populations who are at risk for poor health outcomes and behavior are the targeted populations for the Community Benefit Plan. The challenges involved in meeting the ongoing needs of a rural population are many. The majority of adults do not identify with a particular faith community. Many adults and seniors lack a social support system and have limited knowledge on how to effectively access healthcare services and resources. Frequent visits to emergency services and ongoing chronic health conditions are common among the rural adult population.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4 - Community Building Activities	<p>While Oroville Hospital provides vital health care services to a rural community, it is also the second largest employer in Oroville, offering many economic benefits to the area. As a large organization, the hospital employed 2,154 individuals in various service areas for a total of 2,832,000 hours worked during 2019. This results in a workforce that stimulates the local economy by spending a portion of its income in Oroville and the surrounding areas. Being located in a rural area, it is essential to have organizations that employ many people in order to drive economic growth in industries such as real estate, energy and social services. Oroville Hospital is proud to be a mainstay in this community that draws skilled individuals from all economic and educational backgrounds to the city. By offering employment for many, skilled professionals are encouraged to settle in Oroville and nearby towns and cities. In addition, Oroville Hospital strives to purchase goods and services from local suppliers whenever possible, creating ripple effects that provide additional economic value in the form of income and job creation for businesses in the community. For the multi-year Doves Landing project expansion, the hospital hired many local contractors and, when possible, purchased supplies and furniture from businesses in the north state to outfit the 68,000-square-foot building. Because the hospital has the ability to provide jobs for many in order to offer quality health care, it is also an organization that presents job stability for its employees. Staff totals increased by approximately nine percent from 2018 to 2019. The hospital offers full health care benefits and also contributes to retirement funds for eligible staff members, making it a desirable employer for the citizens of Oroville and Butte County.</p>

Form and Line Reference	Explanation
<p>Part VI, Line 5 - Promotion of Community Health</p>	<p>IMPROVING ACCESS Through the development of hospital-based community clinics, Oroville Hospital has improved and increased access to health services throughout the Oroville community. The majority of our outpatient services accept all insurance plans including the State of California's Medi-Cal program. Our community has a disproportionate share of low/no income families. Access to health care services would be extremely difficult for this group were it not for hospital-based clinics. The State of California's Medi-Cal program reimbursement payments to physicians are set at a rate that makes it difficult for an independent physician to accept Medi-Cal patients. As a result many health care providers throughout the state and our community have eliminated Medi-Cal patients from their roster. EXPANDING COMMUNITY MEDICAL SERVICES Access to a wide variety of medical services is necessary when it comes to delivering comprehensive medical care to patients. As a health system providing care to a large region of the North State, Oroville Hospital has prioritized the recruitment of specialty and primary care providers to deliver quality and timely health care to patients. Since primary care providers are the foundation for excellent health, Oroville Hospital's addition of six primary care medical staff and a new walk-in clinic enables patients to receive the medical attention needed to live a healthy life. The continued growth of outpatient services further illustrates the hospital's commitment to delivering comprehensive medical services, including advanced procedures and state-of-the-art technology, to patients here at home. HELPING BUTTE COUNTY AND OUR COMMUNITY With the past Paradise fire in 2018, employees that no longer had jobs at Feather River Hospital are now employed by Oroville Hospital. With the changes to Paradise, Oroville's population and patient base has grown. Oroville Hospital began to emphasize on recruitment to meet the growing needs. A COMMITMENT TO EDUCATION Oroville Hospital relies on a robust team of medical professionals to serve and facilitate care for its patients. Medical professionals, from physicians, to phlebotomists and nurses, all receive focused training in order to specialize in their chosen field. However, training does not end once they have graduated from medical school or completed a licensing program. At Oroville Hospital, medical professionals routinely complete continuing education classes that provide in-depth material and guidelines for treating a specific disease such as sepsis, or discuss new advancements in medical techniques or treatments. Classes are taught by Oroville Hospital doctors or medical experts from leading health care institutions around the country. Receiving hands-on training in the medical field is one of the first steps in developing the next generation of community medical providers. Training gives students firsthand experience when it comes to working with patients, providing real-time diagnoses and analyses for determining the best treatment options based on a patient's medical history. It's a required component of each medical education program. As an organization that encourages innovation and continuing medical education, Oroville Hospital plays an active role in providing educational opportunities for medical professionals. The hospital partners with occupational training programs, colleges and universities throughout the country to provide externships and guidance to allied health, nursing and medical students. COMMUNITY EDUCATION Education plays a large role in creating a healthy community; a community that seeks preventive health care and encourages wellness to combat future illness and disease. Oroville Hospital recognizes that education efforts have the ability to positively impact the citizens of Oroville and those living in surrounding rural communities. With this responsibility in mind, our Let's Discuss Health speaker series was implemented in 2016 to encourage public discussion and education on important health topics relevant to the community. HEALTH FAIRS For those individuals who do not have health insurance, Oroville Hospital hosts Biannual Health Fairs in June and September. These health fairs provide free educational information, free health care advice, free health screenings such as COPD screening, blood pressure monitoring, oxygen saturation checks, cholesterol checks, pulse checks and blood glucose checks and free flu shots. REDUCED HOSPITAL CHARGES A 3.0% reduction in charges was adopted December 1, 2015, to improve access to health care among Oroville Hospital constituents. The hospital spent three years negotiating with health insurance companies to reduce its charges and make health care more affordable for its patients. New Hospital Expansion Oroville Hospital has plans underway for a new five-story medical tower located adjacent to the existing hospital. Upgrades will also be made to the emergency services, dietary and pharmacy departments.</p>

Form and Line Reference	Explanation
Part VI, Line 5 - Promotion of Community Health	<p>. Expanded services are ambulatory care, labor and delivery, intensive care unit and medical surgical floors. In addition, a new parking lot will provide ample parking for guests and patients. The tower will have state-of-the-art equipment, private patient rooms and will connect with the original facility via enclosed passageways on the first and second floors. The total investment for the entire project will cost in excess of \$200 million. FREE HEALTH CLINIC Oroville Hospital partnered with the Oroville Seventh-day Adventist Church and the Adventist Medical Evangelism Network to provide free medical, laboratory, imaging and financial counseling services for community members. Oroville Hospital provided supplies such as dressings, lidocaine, sutures, alcohol swabs, exam tables, syringes and an ultrasound machine for use during routine medical exams. Oroville Hospital providers and other participating physicians conducted health screenings and spent time educating patients on preventive measures. Financial and insurance counselors were present to educate patients on Covered California and discuss the best insurance plan options based on an individual's need. DIABETES: Nutrition Consultations Oroville Hospital's Registered Dietitians offer consultations for patients needing assistance with blood glucose disorders. Butte County Public Health (BCPH) offers local nutrition and physical activity workshops and classes taught by Health Education Specialists. BCPH also provides outreach events in local communities. ADDITIONAL SERVICES Monthly Educational Talks Oroville Hospital hosts monthly community educational events. The educational events are free and open to the public, but do require reservation in advance. Future talks will focus on the top health concerns identified in the Community Benefit report.</p>

Facility: Oroville Hospital - Part V, Section B, Line 5	<p>Methodology of the Community Health Needs Assessment Primary data was collected from the following sources and methods:</p> <ol style="list-style-type: none"> 1. Together We Can! Healthy Living in Butte County Community Health Assessment (CHA) Survey A Community Health Assessment Survey was developed by the Together We Can! Healthy Living in Butte County collaboration to gain insight into issues that affect the health of those living and working in Butte County. The survey consisted of 47 questions. Participation in the survey was voluntary, and care was taken to ensure that respondents answers were confidential in accordance with laws pertaining to privacy of personal and protected health information. The survey was made available in English, Spanish and Hmong; and in both paper and electronic formats for each language. For the purpose of this CHNA, participant surveys from the Oroville Hospital primary service area were stratified and analyzed. A total of 170 surveys were completed. Data analysis was completed by the California State University, Chico Center for Healthy Communities (CHC). 2. Focused Conversations Together We Can! Healthy Living in Butte County conducted focused conversations to collect input from community members all over Butte County. Three focus groups were conducted throughout the Oroville community, targeting the medically underserved, low-income and minority populations. The first focus group was located at the African American Family and Cultural Center and had a total of 12 participants. The second focus group was located at the Feather River Senior Center and had a total of 51 participants. The last focus group was at the Hmong Cultural Center of Butte County and had a total of 10 participants. A fourth focus group had been planned to target the business owners and community leaders from throughout the primary medical service area, but due to a lack of participation, the focus group was canceled. 3. Follow-Up Focused Conversations Focused conversation guidelines were prepared by the CHC and adapted from Together We Can! Healthy Living in Butte County. In addition to focus groups that of which targeted a specific population, Oroville Hospital also hosted a Community Meeting that was open to the general public. Invitations were sent out to all residents living within Oroville Hospital's primary medical service area. A total of 45 participants were present at the meeting. Secondary Data Secondary data was retrieved and compiled from local, state, national and other data resources. Local sources included Butte County Department of Public Health, Butte County Coroners Office and Butte County-wide Homeless Continuum of Care.
