Strategic report

The director presents his strategic report and the financial statements for the year ended 31 December 2019. On 1st November 2018, the company changed its name to Sectigo Limited as part of a company rebrand.

Principal activity and review of the business

The principal activity of the company is that of acting as a Certification Authority ('CA') to secure customer transactions on the internet.

On the close of business on October 27, 2017, Condor Buyer Ltd acquired a majority of the stock of Sectigo Ltd, and Comodo Holdings (BVI) Limited a previous owner, acquired the remaining stock.

As of the date of the Acquisition, FP completed a series of transactions resulting in the creations of Condor Top Holdco Ltd (Holdco) whereby Holdco held 100% of the interests in Condor Intermediate Holdco Ltd (Intermediate), and Intermediate held 100% of the interests in Condor Buyer, the sole shareholder of Sectigo Ltd.

The key financial performance indicators during the year were as follows:

Gross sales have increased by \$3.2m compared with the prior period primarily as a result of increased market share.

	2019	2018	Change
	\$000	\$000	%
Gross sales	77,980	74,700	4.2%

Principal risks and uncertainties

The director is seeking to build an increasing profitable business by utilising its resources and relationships and at the same time carefully managing the risks to the operation. Such risks include competitor, business execution and technology risks (such as new encryption protocols and methods).

Foreign currency risk

As of January 1, 2017, the company changed its reporting & functional currency to USD.

Monetary assets and liabilities denominated in foreign currencies are re-measured using the rate of exchange at the balance sheet date, and revenue and expenses are translated at the average exchange rates during the year. The resulting gains and losses on re-measurement are included on the statement of operations.

This is monitored by management in order to ensure any necessary actions are taken. The company does not make use of forward foreign currency contracts.

Credit risk

The company's objective is to reduce the risk of financial loss due to a counter party's failure to honour its obligations. The majority of the company's customers pay in advance for purchases. Where sales are made without advance payment, a credit review of the customer is undertaken and exposures are monitored with customers to ensure that the company's exposure to bad debts is not significant. The company's maximum exposure to credit risk is the carrying value as at the balance sheet date (note 11).

Strategic report

Principal risks and uncertainties (continued)

Legislative risk

The potential impact of legislative changes to both UK and Overseas operations are constantly monitored by management.

Directors' report

The director presents his report and financial statements for the year ended 31 December 2019.

Results and dividends

The profit/(loss) for the year after taxation amounted to \$6,981m, (2018 – loss of \$5,269m). The director does not recommend a final dividend (2018 – \$nil).

Future developments

The markets we operate in offer significant scope for growth and we will continue to invest in the infrastructure and people required to launch new and innovative products during the year as the business develops.

Financial instruments

The Company's financial instruments comprise cash and liquid resources, balances with group undertakings and various items such as trade debtors, trade creditors that arise directly from its operations. The main purpose of these financial instruments is to raise finance for the company's operations.

It is, and has been throughout the period under review, the company's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the company's financial instruments are foreign currency risk and credit risk which are described in the strategic report. Exposure to interest risk and liquidity risk are not considered to be material to the results of the company. The policies described for managing each of these risks have remained unchanged during the period.

Directors

The director who served the company during the year was:

B Decker

Political and charitable contributions

The company made no political or charitable donations in the current or prior year.

Going concern

At 31 December 2019 the company's liabilities do not exceed its assets (2018 - \$3,795,000). The company is party to group borrowing facilities under which it and other subsidiaries have provided cross guarantees secured over the assets of the Company. The director has reviewed the group's budgets and financial forecasts, including cash flow forecasts, and have considered appropriate sensitivities. He believes that the company has adequate resources to continue in operation for the foreseeable future. Accordingly, he continues to adopt the going concern basis in preparing the financial statements.

On behalf of the Board

Director
28th September 2020

Statement of directors' responsibilities

The director is responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial year. Under that law the director has selected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the director must not approve the financial statements unless he is satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. He is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

1. Accounting policies

Statement of compliance

Sectigo Limited is a private company limited by shares incorporated in England registration number 04058690. The registered office is 3rd Floor, Building 26, Office Village, Exchange Quay, Salford, Manchester M5 3EQ.

The company's financial statements have been prepared in compliance with FRS 102 as it applies to the financial statements of the company for the year ended 31 December 2019.

Basis of preparation

The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards.

The financial statements are presented in USD, being the functional currency of the company, and to the nearest thousand.

At 31 December 2019 the company's liabilities do not exceed its assets (2018 - \$3,795,000). The company is also party to group borrowing facilities under which it and other subsidiaries have provided cross guarantees secured over the assets of the Company. The directors have reviewed the group's budgets and financial forecasts, including cash flow forecasts, and have considered appropriate sensitivities. They believe that the company has adequate resources to continue in operation for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Group financial statements

The Company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by FRS 102:

- The requirements of Section 4 Statement of Financial Position paragraph 4.12(a)(iv);
- The requirements of Section 7 Statement of Cash Flows;
- The requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- The requirements of Section 33 Related Party Disclosures paragraph 33.7;
- The requirements of Section 11 Financial Instruments paragraphs 11.41(b), 11.41(c), 11.41(e), 11.41(f), 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b) and 11.48(c);
- The requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b) and 12.29A.

Summary of disclosure exemptions

In accordance with s405(2) of the Companies Act 2006 the company does not prepare group financial statements as its subsidiaries are not material for the purposes of giving a true and fair view. These financial statements present to results of the company and not of the group.

Intangible fixed assets

Intangible fixed assets purchased separately from a business are capitalised at their cost.

Trademarks purchased by the company are amortised to \$nil by equal instalments over their useful economic lives which have been estimated at 5 years. Patents are amortised over ten years.

The carrying values of intangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Software that is not integral to the related hardware is treated as an intangible asset and amortised over its useful life of 10 years.

Statement of financial position

at 31 December 2019

Tangible fixed assets

Tangible fixed assets are recognised at net book value, that is cost less accumulated depreciation and amortisation. Depreciation is provided to write off the cost less estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic life, as follows:

Leasehold improvements	–	life of lease
Fixtures, fittings, tools and equipment	–	4 years
Computer equip. root keys/software management systems.	–	8 to 20 years 10 years

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Investments

Entities in which the company holds an interest and which are jointly controlled by the company and one or more joint ventures under a contractual arrangement are treated as joint ventures. Investments in subsidiaries/joint ventures are carried at cost less impairment. The carrying values of investments are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Turnover

Turnover represents sales of goods exclusive of VAT.

Turnover primarily relates to the sale of digital certificates which are valid for between one and five years. Our authentication services are provided over time and the associated revenues from these services are generally recognised over the contractual term or product lifetime as appropriate.

Turnover includes amounts recognised in respect of transactions involving the swapping or exchanging of dissimilar goods and services where the transaction has commercial substance. The transaction is measured at the fair value of the goods or services received, adjusted for any cash transferred.

Cash

Cash in the balance sheet comprise cash at banks and in hand. For the purpose of the statement of cash flows, cash consists of cash as defined above.

Short term debtors and creditors

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the income statement in other operating expenses.

Deferred taxation

Deferred tax is recognised in respect of all timing differences which are differences between taxable profits and total comprehensive income that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements except that;

- Unrelieved tax losses and other deferred tax assets are recognised only to the extent that the directors consider that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains and losses on translation are included in the profit and loss account.

Statement of financial position

at 31 December 2019

Lease commitments

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the group, and hire purchase contracts are capitalised in the balance sheet and are depreciated over the shorter of the lease term and the asset's useful lives. A corresponding liability is recognised for the lower of the fair value of the leased asset and the present value of the minimum lease payments in the balance sheet. Lease payments are apportioned between the reduction of the lease liability and finance charges in the income statement so as to achieve a constant rate of interest on the remaining balance of the liability.

Operating lease rentals are charged to income on a straight-line basis over the period of the lease.

Pensions

Since April 2016 the company has implemented the statutory workplace pension rules and contribution requirements. Contributions are charged to the profit and loss account as incurred.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcome could differ from those estimates.

Judgement is required in determining the period over which turnover from the sale of digital certificates is recognised.

2. Turnover

Gross sales represent the value, excluding VAT, of certificates issued to customers during the period for which non-refundable payments have been received.

Turnover is recognised evenly over the life of the certificate. The difference between the value of the certificate sold to the customer and the amounts recognised as revenue in the financial statements is shown as deferred revenue (note 12 and 13).

3. Operating loss

This is stated after charging/(crediting):

	2019	2018
