HOGG ROBINSON GROUP LIMITED (FORMERLY HOGG ROBINSON GROUP PLC)

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2020

The Directors present their Strategic Report of Hogg Robinson Group Limited (the "Company") for the year ended 31 December 2020.

Principal Activities

The principal activity of the Company is that of a holding company and it is intended that it will continue to be so for the foreseeable future. The Company's ultimate parent company is GBT JerseyCo Limited, (the ultimate parent company and together with direct and indirect subsidiaries and associates, the "Group").

Business Review and Future Developments

The Company is a wholly owned subsidiary of Global Business Travel Holdings Limited and acts as a holding company for the HRG group of companies.

The Company reported a profit for the year ended 31 December 2020 of £960,000 which has been added to reserves (2019: profit of £2,618,946).

The net assets of the Company as at 31 December 2020 amounted to £248,350,421 (2019: £247,390,421).

The business operations of the Company are expected to continue in line with the current year for the foreseeable future.

Significant Event

During 2020, the outbreak of the novel strain of the coronavirus, COVID-19 (the "COVID-19 pandemic"), severely restricted the level of economic activity around the world and continues to have an unprecedented effect on the global travel and hospitality industry. In response to the COVID-19 pandemic, many governments around the world implemented, and continue to implement, a variety of measures to reduce the spread of COVID-19 pandemic, including travel restrictions, practicing social distancing, quarantine advisories and closure of non-essential businesses. The various government measures to contain spread of Covid-19 pandemic significantly reduced business travel and hotel bookings and continue to have a material adverse impact on the number of new bookings.

While many countries have begun the process of vaccinating their residents, the rate and pace of vaccination in the broader population, the severity and duration of resurgence, as well as uncertainty over the efficacy of the vaccines against new variants of the virus, may contribute to delays in economic recovery. Overall, the ultimate impact and duration of COVID-19 pandemic remains uncertain and will depend upon future developments, which are difficult to predict.

Exceptional items

No exceptional costs have been incurred during the year.

Financial Reporting Framework

The financial statements were prepared in accordance with Financial Reporting Standard ("FRS") 102 applicable in the United Kingdom and Republic of Ireland as issued in August 2014.

Corporate Governance

Section 172 Statement

Section 172 of the Companies Act 2006 requires the Board of directors to promote the success of the Company for the benefit of its members as a whole and, in doing so, to have regard to the interests of stakeholders. In forming this section 172 statement, the Company has adopted a group approach. This group corporate governance statement is available from the financial statements of GBT UK TopCo Limited, the Company's intermediate parent company, for the year ended 31 December 2020 filed with the UK Companies House.

Principal Risks and Uncertainties

From the perspective of the Company, the principal risks and uncertainties are integrated with the principal risks of the Group and are not managed separately. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on financial performance. Risk management for the Company is carried out by the Group's central treasury department (Group Treasury) under policies approved by the Board of Directors of the ultimate parent company. Group Treasury identifies and evaluates financial risks and uses derivative financial instruments to hedge certain risk exposures, if applicable. The treasury policy does not allow transactions of a speculative nature.

Key Performance Indicators ("KPIs")

Given the straightforward nature of the business, the Company's Directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or financial position of the business.

Future Developments

Dividends

No dividend was paid or proposed during the year ended 31 December 2020 (2019: £nil).

No dividend was received during the year ended 31 December 2020 (2019: £nil).

Risk Management

Please refer to accounting policies in note 1 for the Company's risk management policies.

Going Concern

The Company has net current assets of £62,751,478 as at 31 December 2020 (2019: £78,206,498). The financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons.

The directors have made an assessment for a period of 12 months from the date of approval of these financial statements which indicate that, taking account of reasonably possible downsides, the Company will have sufficient funds, through funding from its ultimate parent company, GBT JerseyCo Limited, to meet its liabilities as they fall due for that period.

The assessment is dependent on GBT JerseyCo Limited providing additional financial support during that period, if it becomes necessary. GBT JerseyCo Limited has indicated its intention to continue to make available such funds as are needed by the Company. As with any Company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

While COVID-19 has generally resulted in a reduction in business travel and related transactions, the *Group remains well positioned in the industry and maintains a financially stable outlook*. In response to the impact of the COVID-19 pandemic, the GBT Group initiated mitigating actions to optimise efficiency and reduce costs, which included reduction in non-essential capital expenditure and operating expenses, pay reductions, reduction in workforce through voluntary and involuntary terminations of employees and facility closures, and continues to consider additional cost reduction measures as they become necessary. The GBT Group also accessed government funding by way of furlough income. Additionally, to strengthen and maintain its liquidity the Group sourced additional finance.

Consequently, the directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

HOGG ROBINSON GROUP LIMITED (FORMERLY HOGG ROBINSON GROUP PLC)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020 (Continued)

1 Accounting Policies (Continued)

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. A financial liability is a contractual obligation to deliver cash or another financial asset to a third party.

Taxation and Deferred Taxation

Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in shareholders' funds. In this case, the tax is also recognised in other comprehensive income or directly in shareholders' funds, respectively.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Final dividends are recognised in the period in which the dividends are approved by the Company's shareholders.

Share Capital and Share Premium

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds.

The premium received on the issue of shares in excess of the nominal value of shares is credited to the share premium account and included within shareholders' equity.
