3 ACCOUNTING POLICIES

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except any items disclosed in the accounting policies as being shown at fair value and are presented in sterling, which is the functional currency of the entity.

Going concern

At 31 March 2020 the company had net liabilities amounting to £141,210, including an amount of £143,940 due to its parent undertaking.

This company has indicated that it will continue to support the company and provide working capital in the forthcoming years. As a consequence, the director believes the company is well placed to manage its business risks successfully despite the current economic outlook.

The directors have considered the potential effects of the current COVID crisis and the directors' view is that there will be minimal effect. The company has few fixed overheads and has been able to continue to trade throughout the pandemic restrictions as the director is able to work remotely and the company's services have remained in demand.

Based on the above, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the going concern basis has been adopted in preparing the financial statements.

Notes to the Financial Statements for the Year Ended 31 March 2020

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, rebates and discounts.

The company recognises turnover from services provided evenly over the period in which they are provided.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.
