AN/"Federated Wireless": 23 patents.

Hits 1 through 23 out of 23

PAT. NO.	Title
1	10,911,312  Cloud-based network architecture centered around a software-defined spectrum controller
2	10,764,933  Predictive connectivity service layers
3	10,644,953  Cloud-based network architecture centered around a software-defined spectrum controller
4	10,624,103  System and method for spectrum sharing and interference management between wireless systems
5	10,568,104  System and method for heterogenous spectrum sharing between commercial cellular operators and legacy incumbent users in wireless networks
6	10,548,150  Radio resource management
7	10,492,233  System and method for switching frequencies in a wireless access solution based on dynamic spectrum allocation
8	10,462,828  Policy and billing services in a cloud-based access solution for enterprise deployments
9	10,405,194  Method and system for providing spectrum sensing capability in a shared network
10	10,313,891  Spectrum sharing between primary users and co-existence groups of secondary users
11	10,219,306  Cloud based access solution for enterprise deployment
12	10,133,987  Categorizing radio signals while obfuscating characteristics of federal radio signals
13	10,128,898  Method, system, and apparatus for spectrum sensing of radar signals
14	10,117,256  System and method for spectrum sharing and interference management between wireless systems
15	10,111,243  Computerized methods and apparatus for spectrum access
16	10,098,005  Spectrum sharing between primary users and co-existence groups of secondary users
17	10,057,782  Method and system for providing spectrum sensing capability in a shared network
18	10,028,317  Policy and billing services in a cloud-based access solution for enterprise deployments
19	10,020,900  Apparatus and method for providing spectrum information using spectrum-related functions
20	9,647,719  Method, system, and apparatus for spectrum sensing of radar signals
21	9,544,778  System and method for network sharing between public safety users and commercial users
22	9,516,508  System and method for heterogenous spectrum sharing between commercial cellular operators and legacy incumbent users in wireless networks
