With a single focal point of contact, transparent accounting and reporting procedures are all handled with unbelievable ease.

The Management and staff of Shaheen Freight Services are committed to excel in services and to deliver more of our customers all over Pakistan. We believe in growth through all types of technological advancements in our operating equipments, innovations and constant improvement in our operations.

A strong belief exists all across the network that in today's ever changing environment it is not hours, not minutes but even seconds that matter. This has led us to continuously invest in upgrading our infrastructure and in house IT capabilities. Recognizing the fact that our people are our greatest assets and our ambassadors, a lot of importance is placed on employee development and motivation.

Looking to the future, we are all set to venture into several new activities & areas as part of our countrywide expansion strategy.

SHAHEEN  
HOUSE

# OUR SERVICES

We do not believe in only loading the cargo on the vehicles and move but every conceivable endeavor is exercised to execute the trust of our valued patrons. We offer our services with a professional and dedicated approach that keep on moving the wheels throughout Pakistan in services to our customers. For all this, we offer a clean and most economical tariff packages.

With a well integrated and trusted network around the country, our clients can surely depend on us. Our innovative solutions and effective use of today's technology, keeps all time deadlines intact. From industrial equipment to consumer goods, Shaheen Freight Services has a dependable infrastructure to meet your diverse needs.

We promise to deliver you the peace of mind.

## MOVEMENT OF RIGS

The oil and gas industry demands the highest standards in logistics management. The complexity and scale of the projects, in some of the most difficult areas and most remote locations, require expertise and reliability. Shaheen Freight Services has the expertise to provide the transportation services for Drilling Rigs, Oversize Packages and Cementing materials with trained and technical workforce, fleet of vehicles, Forklifts, Wheel loaders and hydraulic cranes owned by our firm to our valued Oil and Gas sector clients.

# LIQUID CARGO

Shaheen Freight Services is also providing transportation services for liquid cargo, crude oil and petroleum products. Domestic crude oil production is lifted by Freight Service from far flung oil fields to the refineries located at Karachi and Rawalpindi by employing its integral fleet of liquid cargo bowsers that satisfies the logistics needs of our clients.

## MOVEMENT OF PROJECTS AND BULK CARGO

We are also providing transportation services for Industrial projects, heavy equipments, containers and bulk cargo i.e. Wheat, Fertilizer, Coal, P.T.A, Phosphate Rock, Iron / Steel scrap, and loose Plant / Machinery direct from the port and also from inland warehouses. We have adequate arrangements to deal with the bulk cargo in any part of country and to any destination.

# CONTAINER STORAGE FACILITIES

Shaheen Freight Services is in the business of empty equipment management and operating container ports and terminals all over Pakistan. Our Container Storage are designed in such a way that the loading and discharging process of the container runs smoothly.

## Faisalabad Container Storage Facility

The Faisalabad Container Storage is spread over an area of 06 Acre. The land has been filled with Tough tiles. A total of 2500 containers can be stored at this Container Storage at one time at four heights. To handle the equipment's an empty handler and heavy cranes owned by our firm has been provided to work round the clock.

## Islamabad Container Storage Facility

The area of the Container Storage is 02 Acre with a storage capacity of 400 containers. In order to maintain a comprehensive and up to date management information data, all the transactions of container movements are being monitored on a computer system installed at our head office. Our Containers inventory control system is being updated on daily basis to have an effective control for the purpose of Container's Inventory Management. The services at the Container Storage are available round the clock.

## Lahore Container Storage Facility

The Container Storage at Lahore has also been constructed by providing solid earth enriched with ramps of iron and concrete. The area of the Container Storage is 05 Acre feet with a storage capacity of 2000 containers at four heights. At Lahore, to provide smooth and 24-hours services heavy duty cranes and fork owned by the firm has been provided.

## Bhalwal Container Storage Facility

It is proud privilege for us to bring to that for the first time in the history of Pakistan Shaheen Freight Services has established a Refrigerated Container Storage for Exporters, Shipping Lines at Bhalwal, District Sargodha. At this Container Storage all the required facilities are being provided at one window. This innovative Container Storage is spread over 6 acre having 8.5 Ft. high boundary wall.

### Scope of Services

- 1 Container Pre Trip Inspection (PTI)
- 2 Refrigerated/Dry Empty Containers Repositioning.
- 3 Refrigerated Container Pre Cooling
- 4 Container Lift On/Lift Off with Empty Handler & Cranes
- 5 EDI On-line Reporting
- 6 En-route Vehicle Tracking
- 7 24 Hours Container Receiving & Delivery
- 8 Container Washing
- 9 Safety control by armed Security Guards
- 10 Accommodation for the staff of Shipping Lines
- 11 All facilities for Truck Owners & Drivers

## MOVEMENT OF EMPTY CONTAINER FOR SHIPPING LINES:

We are moving dry and loaded containerized cargo of our valued clients to and from all the destinations of the country. We are making the repositioning of empty containers of Shipping Lines from ports of Karachi to all up-country storage depots and also feeding from up-country locations to various Container Storage. In order to maintain a comprehensive and up-to-date management data of empty container movements, all movements of containers are monitored on a web-based on-line computer system installed at our head office. Our inventory control system is being updated after every two hours on daily basis to have an effective control for the purpose of Container's inventory Management. The handling services at the Container Storage are available round the clock. This facility not only enables the Clients to receive empty containers for Export without any loss of time but also reduces the costs of transportation and container detentions. Since we are on the approved panel of all the leading shipping companies operating in Pakistan, a higher priority is accorded by the shipping lines to the forwarding/handling of cargo transported through us.

## QUALITY, HEALTH SAFETY & ENVIRONMENT (QHSE)

All our movements are made strictly in compliance with QHSE standards. The Main objective of our organization's QHSE policy is to:-

- 1 Promote the conviction that accidents can be avoided.
- 2 Minimize risk by investigating incidents to determine their causes and as well as impact, both physical and financial, to develop actions and policies that suitably prevent recurrence.
- 3 Train its personnel in Quality Health, Safety and Environment protection.
- 4 To maintain a high level of safety review meetings, internal auditing and general communications.
- 5 Persist and promote protective equipment culture at all our working areas.
- 6 Develop and implement emergency evacuation procedures to minimize the consequences of accidents at our working areas.
- 7 Have its operating areas, storage facilities and other locations regularly inspected and audited by management and independent auditors.
- 8 Incorporate QHSE principles, policies and procedures into the key responsibilities of all personnel and ensure that their QHSE performance is accurately reflected in their appraisals.
- 9 Actively participate with the government and other responsible institutions in meeting applicable national and international Quality Health, Safety, Environment rules and regulations.
- 10 Develop and implement procedures for proper storage and transportation.
- 11 Actively encourage its employees to participate in the conduct and management of QHSE by means of achieving defined objectives and standards.

## JOURNEY MANAGEMENT AND DRIVING STANDARDS

### Educated & Trained Drivers

Driving is the key that exposes our employees to the greatest risk of a catastrophic event. To control this risk, the standards are implemented, as a minimum, at all company locations. To ultimately eliminate driving related crashes that cause fatalities and injuries to employees, families, contractor, third parties and to minimize the damages to equipment through careful management of all phases of the transportation process by :-

- 1 Identifying and managing unnecessary exposure through active journey management.
- 2 Preventing and mitigating the residual risk through the proper selection and preparation of people, vehicles, equipment and routes.
- 3 For vehicle drivers training as defined in the QHSE training and certification catalogue is mandatory for any employee who operates a vehicle.

### Connectivity with Tracking System:

Advance connectivity with the drivers and vehicles via tracker system base installed at our Head Office and Workshop. Every driver has a cell phone and all drivers are connected with the Head Office and the Operation Department round the clock.

### Journey Management

Management at every level appraises the need for all journeys and always search a way to eliminate the journey or find an alternative means of achieving the trip objective.

### Skill Assessment

Our skill assessment is an assessment that measures a driver's ability to safely drive and maneuver a specific vehicle type in a specific driving condition.

### Insurance

The firm has provided a comprehensive insurance coverage to its entire working, office and field staff against accidental/natural death, permanent or partial disablement jointly by the Jubilee General Insurance Company Limited and State Life Insurance Corporation of Pakistan.
