

CAPABILITY STATEMENT

Core Competencies:

NPI Services, Inc. (NPI), an **Electronics Manufacturing Services** company, offers **full and partial turnkey assembly** with the ease of one purchase order, 48 to 72 hour quote turnaround time, and **no purchase order minimums**. NPI excels in supporting **quick turn electronic PCB assembly requirements** (Qty's 1 to 10,000) of **R&D engineering prototypes, pre-production/pilot runs, and low volume scheduled production**. "When Quick Turn Matters," turn to NPI, an **ITAR registered, AS9100, ISO 9001, ISO 13485, Woman Owned Small Business (WOSB)**.

Full and Partial Turnkey Services Include:

Engineering Design (Electronic/Mechanical), PCB Layout Design (Allegro/Mentor/Altium), PCB Fabrication, Component Kitting, Cable Assembly, PCB Assembly, Box Build, Test, Conformal Coat, Environmental Test and Precision CNC Machining.

Company Data:

1. Electronic Manufacturing Services - Space Flight, Defense, Aerospace and more.
2. Privately owned for 20 years with strong financials.
3. NPI consistently achieves over 99% for quality acceptance and delivery.

Industry Certifications:

ITAR registered, AS9100, WOSB, ISO 9001, ISO 13485.

NPI Security Policy:

Compliant with NIST Special Publication 800-171 (DFARS 252.204-7012).

NAICS:

541330 - Engineering Services

Secondary:

334418 - Printed Circuit Assembly (Electronic Assembly) Manufacturing

334412 - Bare Printed Circuit Board Manufacturing

332710 - Machine Shops

CAGE Code: 3TKL4

DUNS: 015962611

FEIN: 33-0923628

Accept credit and purchase cards.

Awards:

- 2018 SBA - Small Business Week Awards - Small Business Person of the Year Runner-up, NPI Services, Inc. Founder and President, Judy Greenspon
- 2018 & 2017 Orange County Business Journal Top Women-Owned Business - NPI Services, Inc.

Differentiators:

1. Single lot date code component traceability.
2. J-STD-001 Performance with Space Addendum.
3. Legacy Product File Regeneration - Gerber creation and update to all MIL and IPC standards on drawing notes.
4. BGA/CSP placement down to 0.3mm pitch.
5. Passive placement down to 01005 footprint.

Past Performance:

Lockheed Martin Space Systems - California

Delivered Qty: 31 Diode boards with Manned Space Flight requirement for the ORION Program in 2015 as a sub-tier. Included: Material, PCB Assembly, Ionic Test, Bonding (5753-A/B), Conformal Coat (CE-1155), Test. Lockheed Contact: Quality Control Analyst: Dan Causky, dan.r.causky@lmco.com. DCMA Contact: Joseph Gregg, joseph.gregg@dcma.mil.

MAC's: SSC Pacific (SPAWAR Systems Center Pacific):

SSC Pacific Centerwide Contracting Strategy - Custom Circuit Boards and Electronic Components Fabrication MAC

Multiple Award Contract (MAC) vehicle for Custom Circuit Boards and Electronic Components Fabrication - awarded on 30 January 2017.

This MAC supports the Center's RAPID Prototyping Initiative. Award made to: N66001-17-D-0098 - NPI Services of Costa Mesa

Raytheon Missile Systems:

AMRAAM Missile

Production qualified vendor as a sub-tier supplier

Government Contract # FA8675-15-C-0022 (DO-A2 Rating)

PCB Fabrication, PCB Assembly, Component Kitting,

Conformal Coating

Contract Prime Contact: Saul Ibarra, sauli@hirelco.net
