

Mission First | User Focused | Problem Solvers | Delivery Obsessed

CORE COMPETENCIES

Cloud/ DevOps Platform

Continuous Delivery | Continuous Integration | Configuration Management | Test Automation | Infrastructure As Code | Monitoring & Logging | DevSecOps | Source Control (Git ,Bitbucket, SVN) | Automation (Puppet, Chef, Ansible, Terraform) | Deployment Automation & Orchestration (Jenkins, VSTS, Octopus Deploy) | Container Concepts (LXD, Docker) | Orchestration (Kubernetes, Mesos, Swarm) | Cloud (AWS, Azure, Google Cloud, Openstack) | Service Mesh (Istio) | AWS and Azure | Strategy | ROI Analysis | Infrastructure | App Deployment & Scaling

User Experience (UX) & Application Modernization

Creative | User Research | Wireframes | Information Architecture | Usability Testing | Front End Development | Web / Portal Design and Implementation | Enterprise Application Architecture and Integration Strategy | Knowledge Management (KM) | Content Management and Support | Service-Oriented | Microservices | Responsive design and development (HTML5)

Technology

Cloud/DevOps/ Platform : AWS, Azure, Puppet, Chef, Jenkins, Terraform, Istio, Prometheus, Grafana, Helm Charts, GitLab | Data: Hadoop, MapReduce, HDFS, Pig, Hive, Yarn, Spark, MongoDB, Teradata, Kafka | Data Mining/Machine Learning: SAS, R, Mahout, Spark Mlib | Portal & Web Content Management: Drupal, Sitecore, Adobe, TeamSite, SharePoint, Documentum | Enterprise: Oracle, Microsoft, Amazon, Apache, Adobe, Salesforce | BI : MicroStrategy, Tableau, Qlik, Pentaho, Power BI | ETL: Alteryx, Kettle RPA : UI Path

Data & Analytics

Data Strategy, Design, Implementation and Support | EDW, Datamart, Big Data, ODS, DMP, Hadoop | OLTP, OLAP, NoSQL, Graph | Machine Learning, | Database Architecture and Management | Data Mining | Ingestion, Mapping, ETL, Virtualization | Data Visualization, Reporting, Scorecards, Business Intelligence, Dashboards | Predictive, Descriptive, Prescriptive Analytics, Insights, Recommendations and Modeling | Data Quality, Security & Governance

HIGHLIGHTS

- Omni is a commercially rooted firm, adapted to Federal
- Omni brings “user-centered” (top-down) blended with “data-driven” (bottoms-up) approach to multi-tenant enterprise application development
- Extensive industry-leading experience building software factories, bringing modernization and delivering platform-level technologies
- User focused / Technology agnostic mindset in refactoring and modernizing legacy systems
