Word Mark GRI3D

Goods and Services IC 001. US 001 005 006 010 026 046. G & S: Chemicals used in industry, science, and agriculture, except fungicides, herbicides, insecticides, and parasiticides; adhesives for use in industry; Biologically compatible materials, namely, hydrogels used to create polymeric networks used in the manufacture of living tissue; Biologically compatible materials, namely, crosslinked hydrogels used to create polymeric networks used in the manufacture of living tissue; Biologically compatible materials, namely, pre-formed hydrogels used to create polymeric networks used in the manufacture of living tissue; Biologically compatible materials, namely, structured pre-formed hydrogels used to create polymeric networks used in the manufacture of living tissue; Biologically compatible materials, namely, structured, pre-formed, and crosslinked hydrogel plates used to create polymeric networks used in the manufacture of living tissue

IC 009. US 021 023 026 036 038. G & S: Cell culture apparatuses for laboratories, namely cell culture dishes, tissue culture dishes, cell culture flasks, tissue culture flasks, culture plates, multi-well culture plates, microtiter plates, screening plates, and assay plates; cell culture apparatuses for laboratories, namely, cell culture dishes having hydrogel structures or hydrogel inserts, tissue culture dishes having hydrogel structures or hydrogel inserts, cell culture flasks having hydrogel structures or hydrogel inserts, tissue culture flasks having hydrogel structures or hydrogel inserts, culture plates having hydrogel structures or hydrogel inserts, multi-well culture plates having hydrogel structures or hydrogel inserts, microtiter plates having hydrogel structures or hydrogel inserts, screening plates having hydrogel structures or hydrogel inserts, and assay plates having hydrogel structures or hydrogel inserts; scientific apparatuses for laboratory use, namely, containers having a three-dimensional insert for cultivating organic material; scientific apparatuses for laboratory use, namely, containers made of multiple different materials having a support structure and a three-dimensional insert for cultivating organic material made of another material; downloadable software for computers, tablets, and smartphones for use in database management, for use as a spreadsheet, for word processing, for use in laboratory management, for automatization, and for management of scientific experiments and for use in data analysis

IC 042. US 100 101. G & S: Scientific and technological services as well as research and design services relating thereto, namely, scientific research, new product design services, scientific research and development in the field of cell culture experiments, cell culture growing services, assays, preparation and conduction of assays, and data analysis; industrial analysis and research services in the field of biological, medical, and chemical experiment management; design and development of computers and non-downloadable software design and development of computers and non-downloadable software for analyzing, measuring, and recording data related to cell cultures
