	PAT. NO.	Title
1	9,329,381	Target feature integrated laser field and amplifier compensation system
2	9,329,081	Target feature integrated laser phase compensation system
3	9,304,313	Simplified system and method for compensated laser beam propagation
4	6,707,594	Method and device for switching wavelength division multiplexed optical signals using two-dimensional micro-electromechanical mirrors
5	6,580,845	Method and device for switching wavelength division multiplexed optical signals using emitter arrays
6	6,539,138	System and method for switching optical signals through free space
7	6,538,818	Method and device for wavelength switching, wavelength division multiplexing, and time division multiplexing
8	6,532,115	High throughput optical switching system, device and method
9	6,313,936	Method and device for switching wavelength division multiplexed optical signals using micro-electromechanical mirrors
