Word Mark OLSBERG

Goods and Services IC 006. US 002 012 013 014 023 025 050. G & S: Base metals and their alloys, unwrought or semi-wrought; base metals, raw or partial machined; thin sheets of aluminium; iron, raw or partial machined; copper, raw or partial machined; brass, raw or partial machined; steel, raw or partial machined; unprocessed and partial-processed common metal, not specified for use; sheet metal; cast iron, raw or partial machined; iron castings; furnace fireguards of metal; chimney pots of metal; chimney cowls of metal; prefabricated chimneys of metal; chimney shafts of metal; chests of metal; paving slabs of metal; metal doors; metal door handles; metal latches; metal moulds for iron casting; foundry chill-moulds; aluminium moulds for iron casting; component parts and accessories for all above-mentioned goods, included in this class

IC 007. US 013 019 021 023 031 034 035. G & S: Machines and machine tools for treatment of materials and production, namely, automated machines for the manufacture of cigarettes, bending machines, bending machines for metalworking, boring machines, boring machines for metalworking, cigarette machines for industrial purposes, cutting machines, cutting machines for metalworking, drilling machines, drilling machines and parts therefor, drilling machines for metalworking, gear cutting and finishing machines, grinding machines for the treatment of ceramics and metal, grinding machines for metalworking, honing machines for metalworking, industrial machine presses, lapping machines for metalworking, machine tool holders, machine tools for forming, riveting, swaging and flaring of metals and plastics, powered machines for cutting or shaping or finishing metals or other materials, machines and machine tools for the cutting and forming of materials machines for manufacturing and dispensing packing material, meat processing machines, metal sawing machines, machining centers, milling machines, milling machines and grinding machines for the treatment of ceramics and metal, milling machines for the treatment of ceramics and metal, milling machines for metalworking, milling-drilling machines, mixing machines, packing machines, packing machines and parts thereof, paper cutting machines, tobacco processing machines; component parts for driving motors other than for land vehicles; component parts for machines for the textile industry, namely, carding machines, chemical fiber drying machines, chemical fiber spinning machines, clothes washing machines, electric washing machines for industrial purposes, electric washing machines for household purposes, electrically-powered knitting machines, felt carding machines, felt milling machines, industrial sewing machines, knitting machines, mangles, sewing machines, textile calendaring machines, textile scutching machines, textile washing machines for industrial purpose, washing machines for clothes, washing machines for household purposes, yarn spinning machine, yarn stretching machines, yarn twisting machines, yarn winding machines; cylinders for machines; feeders being component parts of automated machines for the manufacture of cigarettes, bending machines, bending machines for metalworking, boring machines, boring machines for metalworking, cigarette machines for industrial purposes, cutting machines, cutting machines for metalworking, drilling machines, drilling machines and parts therefor, drilling machines for metalworking, gear cutting and finishing machines, grinding machines for the treatment of ceramics and metal, grinding machines for metalworking, honing machines for metalworking, industrial machine presses, lapping machines for metalworking, machine tool holders, machine tools for forming, riveting, swaging and flaring of metals and plastics, powered machines for cutting or shaping or finishing metals or other materials, machines and machine tools for the cutting and forming of materials,

machines for manufacturing and dispensing packing material, meat processing machines, metal sawing machines, machining centers, milling machines, milling machines and grinding machines for the treatment of ceramics and metal, milling machines for the treatment of ceramics and metal, milling machines for metalworking, milling-drilling machines, mixing machines, packing machines, packing machines and parts thereof, paper cutting machines, tobacco processing machines; feeders being component parts of carding machines, chemical fiber drying machines, chemical fiber spinning machines, clothes washing machines, electric washing machines for industrial purposes, electric washing machines for household purposes, electrically-powered knitting machines, felt carding machines, felt milling machines, industrial sewing machines, knitting machines, mangles, sewing machines, textile calendaring machines, textile scutching machines, textile washing machines for industrial purpose, washing machines for clothes, washing machines for household purposes, yarn spinning machine, yarn stretching machines, yarn twisting machines, yarn winding machines; moulds being component parts of injection moulding machines; gear box housings for torque converters other than for land vehicles; housings for machines, namely, automated machines for the manufacture of cigarettes, bending machines, bending machines for metalworking, boring machines, boring machines for metalworking, cigarette machines for industrial purposes, cutting machines, cutting machines for metalworking, drilling machines, drilling machines and parts therefor, drilling machines for metalworking, gear cutting and finishing machines, grinding machines for the treatment of ceramics and metal, grinding machines for metalworking, honing machines for metalworking, industrial machine presses, lapping machines for metalworking, machine tool holders, machine tools for forming, riveting, swaging and flaring of metals and plastics, powered machines for cutting or shaping or finishing metals or other materials, machines and machine tools for the cutting and forming of materials, machines for manufacturing and dispensing packing material, meat processing machines, metal sawing machines, machining centers, milling machines, milling machines and grinding machines for the treatment of ceramics and metal, milling machines for the treatment of ceramics and metal, milling machines for metalworking, milling-drilling machines, mixing machines, packing machines, packing machines and parts thereof, paper cutting machines, tobacco processing machines, carding machines, chemical fiber drying machines, chemical fiber spinning machines, clothes washing machines, electric washing machines for industrial purposes, electric washing machines for household purposes, electrically-powered knitting machines, felt carding machines, felt milling machines, industrial sewing machines, knitting machines, mangles, sewing machines, textile calendaring machines, textile scutching machines, textile washing machines for industrial purpose, washing machines for clothes, washing machines for household purposes, yarn spinning machine, yarn stretching machines, yarn twisting machines, yarn winding machines, and housings for motors and engines, not for land vehicles; housings for electric generators; gear box housings other than for land vehicles; housings for compressors; machine parts, namely, bearing housings; lids for bearings, namely, component parts of engine bearings, wind turbines, roller bearings for machines; machine parts, namely, shields for bearings in the nature of bearing housings; component parts for robot machines, namely, industrial robots, robotic arms for industrial purposes; machine fly-wheels; belt pulleys being parts of machines; component parts for yarn spinning machines; stators being parts of machines; motors, engines and drives for motors other than for land vehicles, including general or generic structural machine parts in this class; parts of motors and engines, namely, engine rods; cylinders for motors and engines; shaft couplings other than for land vehicles; component parts for turbines other than for land vehicles, namely, wind turbines; component parts of automated machines for the manufacture of cigarettes, bending machines, bending machines for metalworking, boring machines, boring machines for metalworking, cigarette machines for industrial purposes, cutting machines, cutting machines for metalworking, drilling machines, drilling machines and parts therefor, drilling machines for metalworking, gear cutting and finishing machines, grinding machines for the treatment of ceramics and metal, grinding machines for metalworking, honing machines for metalworking, industrial machine presses, lapping machines for metalworking, machine tool holders, machine tools for forming, riveting, swaging and flaring of metals and plastics, powered machines for cutting or shaping or finishing metals or other materials, machines and machine tools for the cutting and forming of materials, machines for manufacturing and dispensing packing material, meat processing machines, metal sawing machines, machining centers, milling machines, milling machines and grinding machines for the treatment of ceramics and metal, milling machines for the treatment of ceramics and metal, milling machines for metalworking, milling-drilling machines, mixing machines, packing machines, packing machines and parts thereof, paper cutting machines, tobacco processing machines, namely, machine frames; component parts for carding machines, chemical fiber drying machines, chemical fiber spinning machines, clothes washing machines, electric washing machines for industrial purposes, electric washing machines for household purposes, electrically-powered knitting machines, felt carding machines, felt milling machines, industrial sewing machines, knitting machines, mangles, sewing machines, textile calendaring machines, textile scutching machines, textile washing machines for industrial purpose, washing machines for clothes, washing machines for household purposes, yarn spinning machine, yarn stretching machines, yarn twisting machines, yarn winding machines, namely, machine frames; component parts of automated machines for the manufacture of cigarettes, bending machines, bending machines for metalworking, boring machines, boring machines for metalworking, cigarette machines for industrial purposes, cutting machines, cutting machines for metalworking, drilling machines, drilling machines and parts therefor, drilling machines for metalworking, gear cutting and finishing machines, grinding machines for the treatment of ceramics and metal, grinding machines for metalworking, honing machines for metalworking, industrial machine presses, lapping machines for metalworking, machine tool holders, machine tools for forming, riveting, swaging and flaring of metals and plastics, powered machines for cutting or shaping or finishing metals or other materials, machines and machine tools for the cutting and forming of materials, machines for manufacturing and dispensing packing material, meat processing machines, metal sawing machines, machining centers, milling machines, milling machines and grinding machines for the treatment of

ceramics and metal, milling machines for the treatment of ceramics and metal, milling machines for metalworking, milling-drilling machines, mixing machines, packing machines, packing machines and parts thereof, paper cutting machines, tobacco processing machines, namely, machine columns; component parts for carding machines, chemical fiber drying machines, chemical fiber spinning machines, clothes washing machines, electric washing machines for industrial purposes, electric washing machines for household purposes, electrically-powered knitting machines, felt carding machines, felt milling machines, industrial sewing machines, knitting machines, mangles, sewing machines, textile calendaring machines, textile scutching machines, textile washing machines for industrial purpose, washing machines for clothes, washing machines for household purposes, yarn spinning machine, yarn stretching machines, yarn twisting machines, yarn winding machines, namely, machine columns; tables for machines, namely, tables specially adapted to hold powered machinery; pumps, namely, compressed air pumps, diffusers used in machines for wastewater and clean water treatment, electric pumps, electrical waterpumps, pump control valves, pump impellers, screw pumps; vacuum pumps; component parts for pumps for machines, engines or motors; automatic vending machines; component parts and accessories for all above-mentioned goods, and excluding valves in the field of hydraulics

IC 009. US 021 023 026 036 038. G & S: Apparatus and instruments for conducting, switching, transforming, storing, regulating or controlling electricity, namely, electric accumulators, controls for electric dynamic and static storage heaters; electrical distribution boxes, all the aforesaid goods not for steering hydraulics; thermostats; room thermostats; test weights; electrical controllers, namely, central control apparatus for electric storage heaters; electrical controllers, namely, control apparatus for apparatus and installations for ventilating, air conditioning and air purification; electrical controllers, namely, control units for apparatus and installations for ventilating, air conditioning and air purification; electrical controllers, namely, control apparatus for heating apparatus and installations; electrical controllers, namely, control units for heating apparatus and installations

IC 011. US 013 021 023 031 034. G & S: Burners, namely, oil and gas burners; boilers, namely, electric boilers, heating boilers; heaters, namely, gas patio heaters, gas water heaters; individual heating and drying apparatus, namely, touchless hand drying apparatus, pavement heating apparatus; apparatus and installations for heating, ventilating, air conditioning and air purification, namely, heating boilers, ventilating exhaust fans; gas stoves; coal stoves; portable tile stoves and wood burning stoves; pellet stoves; oil stoves; sauna heater; incinerators, furnaces; domestic fireplaces; structural plates sold as parts of ovens made of metal; oven fittings made of fireclay, namely, bricks sold as parts of ovens; furnace grates being component parts of furnaces; electric heating apparatus, namely, electric space heaters, electric heating fans; heating apparatus for solid fuels, namely, wood burning stoves, pellet stoves, coal stoves; heating apparatus for liquid fuels, namely, oil burners for domestic use, oil heaters, ethanol fireplaces; heating apparatus for gaseous fuels, namely, gas burners, gas stoves; solid fuel, oil, gas and electric heating inserts, namely, heat exchangers, solid fuel burners; gas fired heaters, namely, gas fired water heaters, gas fired patio heaters; electric heating apparatus, namely, electric storage heaters for central or decentralized individual room heating; direct electric heating apparatus, namely, electric panel heaters; radiant heating apparatus, namely, electric panel heaters; infra-red heating apparatus, namely, glass radiation convectors, glass radiation heaters; convection heaters, namely, quick heaters; heating elements; central heating radiators; radiators; electric radiators; heating apparatus, namely, electric heating fans, electric patio heaters; rapid heating apparatus, namely, electric heating fans, electric patio heaters; hot air apparatus, namely, hot air blowers, electric hot air hand dryers; electric fan heaters; air heaters, namely, electric heating fans, electric patio heaters; floor heating apparatus; gas boilers, namely, floor tempering system; heating boilers; heat recovery units, namely, heat recovery ventilators; storage heaters, namely, heating and ventilation system composed of a distributed ventilation unit which includes an integrated heat reclamation unit and a central heating unit; electric ventilation unit; heat exchangers, not parts of machines; hot water heating installations; chimney flues; ventilation apparatus, namely, ventilation hoods, air impellers for ventilation; electric fans for personal use; air conditioning apparatus; air freshening apparatus, namely, dispensing units for air fresheners, electric dispenser for air fresheners; air deodorizing apparatus, namely, electric air deodorizers; sauna bath installations; water conduits apparatus and water conduits installations, namely, regulating accessories for water apparatus and pipes, mixer faucets for water pipes; electric water heating apparatus for continuous flow heating and as hot water tank; water heaters; apparatus for the residential ventilation and residential air conditioning, namely, ventilating louvers, air conditioning apparatus; cooking apparatus, namely, electric yurt heaters; electric cooking apparatus, namely, cooking ranges, electric cooking ovens; fireplace hearths; cookers, namely, cooking ranges, electric cooking ovens, gas grills, barbecue smokers; rotisseries; charcoal barbecue grills; outdoor stoves, namely, portable stoves, wood burning stoves, gas stoves; furnace ash boxes being component parts of furnaces; regulators as parts of apparatus and installations for ventilating, air conditioning and air purification, namely, air pressure regulators, air volume flow regulator, air temperature regulator, air quality regulator; regulators as parts of heating apparatus and installations, namely, air pressure regulators, air volume flow regulator, air temperature regulator, air quality regulator; regulating and safety accessories for apparatus and installations mentioned above, namely, air pressure regulators, air volume flow regulator, air temperature regulator, air quality regulator; component parts and accessories for all mentioned goods, included in this class

IC 012. US 019 021 023 031 035 044. G & S: Axle bridges being component parts of land vehicle axles; trailer hitches; parts for driving motors for land vehicles, namely, component parts for engines for land vehicles; housings for engines for land vehicles; housings for electric motors for land vehicles; housings for parts of land vehicles, other than for engines, namely, gear boxes for land vehicles, axles, transmission cases for land vehicles, land vehicle drive gears, transaxles; housings for torque converters for land vehicles; gear box

housings for land vehicles; clutches for land vehicles; housings for transmissions for land vehicles; housings for reduction gears for land vehicles; shaft couplings for land vehicles; component parts for rolling stock for railways; component parts for forklift trucks; vehicle parts, namely, suspension struts; land vehicle console parts, namely, wiring harnesses for control, monitoring and protection of industrial gasoline and diesel and electric engines; land vehicle parts, namely, deflection levers; pendulum bridges being structural chassis components for motor utility vehicles; land vehicle parts, namely, water boxes; component parts and accessories for all above-mentioned goods, included in this class; excluding valves in the field of hydraulics

IC 040. US 100 103 106. G & S: Customized production casting and machine shop services in the nature of machining precision high quality industrial parts, castings, goods of metal and assembly services of all kinds of parts, castings and goods of metal for others; treatment of materials, namely, grinding, burnishing by abrasion, welding, drilling of metals, enameling of metals, machining of metal, namely, treatment of metal, and material treatment by laser beams; material treatment information; metal working, namely grinding, abrasion, welding, drilling, enameling; metal treatment, namely, enameling, pressing, punching, shaping, forming, coating, finishing, pressing, stamping, and cutting of metal; metal casting; contract moulding services, namely, custom molding of iron and metals for others; contract manufacturing services in the nature of casting and machine shop services in the nature of machining precision high quality industrial parts, castings and goods of metal; custom assembling of materials for others; production of heat, namely, production of energy

Mark Drawing Code (3) DESIGN PLUS WORDS, LETTERS, AND/OR NUMBERS

Design Search Code 26.01.21 - Circles that are totally or partially shaded.
26.01.28 - Circles with irregular circumferences; Miscellaneous circular designs with an irregular circumference

Serial Number 79172850

Filing Date November 15, 2014

Current Basis 66A

Original Filing Basis 66A

Published for Opposition April 4, 2017

Registration Number 5225142

International Registration Number 1265779

Registration Date June 20, 2017

Owner (REGISTRANT) **Olsberg GmbH** GmbH FED REP GERMANY Hüttenstraße 38 59939 Olsberg FED REP GERMANY

Attorney of Record Stewart L. Gitler

Priority Date June 3, 2014

Disclaimer NO CLAIM IS MADE TO THE EXCLUSIVE RIGHT TO USE "OLSBURG" APART FROM THE MARK AS SHOWN

Description of Mark Color is not claimed as a feature of the mark. The mark consists of the stylized wording "OLSBURG". Above and to the left of the letter "O" is a circular design split into four quadrants with a circle in the center.

Type of Mark TRADEMARK. SERVICE MARK
