

Welcome

Since 1956 Model Engineering Corp. has been providing our customers with precision machined parts. Utilizing CNC Milling and CNC turning along with years of experience we work with a wide variety of materials (aluminum, plastics, steel, stainless steel, titanium, exotic alloys etc.) to serve a range of industries (medical, military, water purification, packaging, industrial) with prototype as well as production quantities. We have a dedicated QA inspector and hold ISO 9001:2015 certification. We look forward to working with you on your projects large and small. In addition we work with terrific local companies to provide any additional finishing services required.

Capabilities:

CNC Milling

CNC Turning

Engraving

Manual machining

Assembly and packaging
