Qualitative Information on Consolidated Financial Results for the Quarter under Review

1. Qualitative Information on Consolidated Business Results

* Overview of the First Quarter of Fiscal 2018 (April 1 – June 30, 2018)

The fiscal year ending March 31, 2019 is the second year of 19th Mid-Term Management Plan in which we make significant progress in our “RICOH Ignite” growth strategy. We will improve the earning power of our Office Printing segment and expand growth areas which can serve as the pillars of new business. In addition, all employees will work as one to further implement thorough work process reforms and business selection, continuing to carry out and enhance our measures for building a solid company’s essential character.

Ricoh’s sales for the first quarter decreased by 0.3% as compared to the previous corresponding period, to ¥490.9 billion. While sales in the Office Service segment increased, sales in the Office Printing segment and the Commercial Printing segment decreased as compared to the previous corresponding period.

During this period, the average exchange rates of Japanese yen against U.S. dollar and Euro were ¥109.14 (down ¥2.02 from previous year) and ¥130.14 (up ¥8.03 from previous year) respectively. Sales decreased by 1.4% as compared to the previous corresponding period when excluding the impact of such foreign currency exchange fluctuations.

The Japanese economy continued to show some signs of a gradual recovery. Under such market conditions, sales mainly in the Office Service segment remained solid. As a result, the sales in the domestic market increased by 3.7% as compared to the previous corresponding period.

As for the overseas market, the U.S. economy continued to show a gradual recovery and the European economy remained solid in spite of uncertainty with respect to the Brexit. In addition, there were some signs of an economic recovery in China and other developing countries in Asia. Under such market conditions, while sales in the Office Service segment, the Industrial Printing segment and the Thermal Media segment increased, sales mainly in the Office Printing segment decreased as compared to the previous corresponding period. As for overseas sales by region, sales in the Americas decreased by 6.8% (a decrease of 5.1% excluding foreign currency exchange fluctuations,) sales in Europe, Middle East and Africa increased by 3.4% (a decrease of 2.9% excluding foreign currency exchange fluctuations) and sales in Other region, which includes China, South East Asia and Oceania, decreased by 4.8% (a decrease of 6.4% excluding foreign currency exchange fluctuations.)

As a result, sales in the overseas market decreased by 2.8% as compared to the previous corresponding period. Excluding effects of foreign currency fluctuations, sales in overseas would have decreased by 4.5% as compared to the previous corresponding period.

Gross profit decreased by 2.8%, as compared to the previous corresponding period, to ¥194.4 billion, mainly due to a decrease in sales and an increase in the sales composition ratio of the Office Service segment.

Selling, general and administrative expenses decreased by 6.6%, as compared to the previous corresponding period, to ¥175.7 billion mainly due to the result of structural reforms conducted in the previous fiscal year.

Other income decreased as compared to the previous corresponding period due to gain recognized in the previous corresponding period on sales of contracts by transferring customers who were provided direct sales and services from Ricoh group to each region’s distributors in the Americas as a part of optimization of direct and indirect sales channel.

As a result, operating profit increased by 4.1% as compared to the previous corresponding period, to ¥19.7 billion.

As for finance income and costs, interest income increased as compared to the previous corresponding period.

Profit before income tax expenses increased by 6.6% as compared to the previous corresponding period, to ¥17.9 billion.

Income tax expenses increased by 52.1%, as compared to the previous corresponding period, to ¥6.9 billion mainly due to recognition of deferred tax liabilities as a result of determination of the period of settlement of temporary differences related to investments when the share transfer agreement of Ricoh Logistics System Co., Ltd. was concluded.

As a result, profit attributable to owners of the parent decreased by 14.0% as compared to the previous corresponding period, to ¥9.2 billion.

Comprehensive income decreased by 70.7%, as compared to the previous corresponding period, to ¥7.8 billion due to the decrease in cumulative translation adjustments and profit.

* Review by Business Segment

Office Printing

Sales in the Office Printing segment decreased by 3.8%, as compared to the previous corresponding period, to ¥273.7 billion. Sales primarily in the overseas market decreased mainly in the Americas where Ricoh conducted optimization of direct and indirect sales channel and of related consumable supplies in Europe, Middle East and Africa. While optimization of sales prices focusing on profitability limited a decline in unit prices, gross profit decreased along with a decrease in sales. In addition, gain was recognized in the previous corresponding period on sales of contracts by transferring customers who were provided direct sales and services from Ricoh group to each region's distributors in the Americas as a part of optimization of direct and indirect sales channel. As a result, operating profit in the Office Printing segment decreased by 3.9%, as compared to the previous corresponding period, to ¥30.1 billion.

Office Service

Sales in the Office Service segment increased by 9.7%, as compared to the previous corresponding period, to ¥108.0 billion. Sales of IT infrastructure or application increased mainly in the domestic market. As a result, operating profit in the Office Service segment increased by ¥2.6 billion, as compared to the previous corresponding period, to ¥2.2 billion. (Operating profit (loss) of the previous corresponding period was ¥0.4 billion (loss).)

Commercial Printing

Sales in the Commercial Printing segment decreased by 7.2%, as compared to the previous corresponding period, to ¥42.4 billion. Sales decreased primarily in the overseas market mainly due to the sluggish sales in the Americas. As a result, operating profit in the Commercial Printing segment decreased by 31.1%, as compared to the previous corresponding period, to ¥4.9 billion.

Industrial Printing

Sales in the Industrial Printing segment increased by 35.0%, as compared to the previous corresponding period, to ¥5.8 billion. Sales of Inkjet heads remained solid primarily in the overseas market, while costs accompanying business expansion increased. As a result, operating loss in the Industrial Printing segment remained flat, as compared to the previous corresponding period, at ¥0.1 billion of loss. (Operating profit (loss) of the previous corresponding period was ¥0.1 billion (loss).)

Thermal Media

Sales in the Thermal Media segment increased by 12.0%, as compared to the previous corresponding period, to ¥16.2 billion. Sales in both the domestic market and the overseas market remained solid, while operating expenses increased mainly due to the sharp rise in the prices of raw materials. As a result, operating profit in the Thermal Media segment decreased by 62.4%, as compared to the previous corresponding period, to ¥0.6 billion.

Other

Sales in the Other segment decreased by 0.5%, as compared to the previous corresponding period, to ¥44.6 billion. While the semiconductor business sell-offs caused a decrease in sales, due to improvement of profitability relating to industrial optical components/modules and cameras, operating profit in the Other segment increased by ¥0.4 billion, as compared to the previous corresponding period, to ¥0.4 billion. (Operating profit (loss) of the previous corresponding period was ¥0.0 billion (loss).)

2. Analysis of Consolidated Financial Position

*Assets, Liabilities and Equity

Total assets increased by ¥30.2 billion as compared to the previous corresponding period, to ¥2,671.3 billion, mainly due to the increase in "Cash and cash equivalents" and "Inventories".

Total liabilities increased by ¥22.5 billion as compared to the previous corresponding period, to ¥1,674.8 billion, mainly due to the increase in "Bonds and borrowings".

Total Equity increased by ¥7.7 billion as compared to the previous corresponding period, to ¥996.5 billion, due to an increase in "Retained earnings" caused mainly by the cumulative effects from changes in accounting policy or profit for the period despite of a decrease in "Other components of equity".

*Cash Flows (Three months from April 1, 2018 to June 30, 2018)

Net cash provided by operating activities increased by ¥16.5 billion as compared to the previous corresponding period, to ¥21.5 billion, mainly due to the decrease in income taxes paid.

Net cash provided by investing activities increased by ¥25.3 billion as compared to the previous corresponding period, to ¥27.1 billion, mainly due to proceeds from sales of securities.

Net cash provided by financing activities increased by ¥8.3 billion as compared to the previous corresponding period, to ¥13.8 billion, mainly due to proceeds from debts.

As a result, the balance of cash and cash equivalent at the end of period increased by ¥63.6 billion as compared to the end of previous year, to ¥224.2 billion.

3. Qualitative Information on Forecasted Consolidated Financial Results

Since the business results and the business environment including foreign currency fluctuations in the first quarter were within expectation, there was no change on the forecast of sales, operating profit, profit before income tax expenses and profit attributable to owners of the parent from those previously announced in April.

Ricoh maintains the assumed exchange rates set forth in April of ¥105 against the U.S. dollar and of ¥130 against the euro in and after the second quarter while the actual exchange rates during the first quarter have been incorporated into exchange rate assumptions for the full year.

Exchange Rate Assumptions for the full year ending March 31, 2019

US\$ 1 = ¥106.04 (¥110.91 in previous fiscal year)

EURO 1 = ¥130.04 (¥129.67 in previous fiscal year)

(7) Changes in accounting policies

Significant accounting policies which apply in Condensed Consolidated Statement of Financial Position are same as previous fiscal year excepting the table below.

IFRSs	Title	Summaries of new IFRSs/amendments
IFRS 9	Financial instruments	Classification of financial instruments, revisions concerning the measurement and recognition and adoption of provisions with regard to impairment loss based on the expected credit loss model.
IFRS 15	Revenue from contracts with customers	Presentation of a unified framework applied to accounting treatment related to revenue recognition

1. Adoption of IFRS 9 'Financial Instruments'

Ricoh implemented IFRS 9 'Financial Instruments' as of April 1, 2018. Ricoh applied this standard in compliance with the transitional provisions, thereby recognizing the cumulative effects of adoption of this standard as an adjustment to the opening balance of retained earnings as at the beginning of the current fiscal year.

Ricoh made an irrevocable election at initial recognition to present subsequent changes in fair value with regards to equity instruments previously classified as available for sale under the prior standard in other comprehensive income in principle, while part of equity instruments previously classified as available for sale under the prior standard were classified as equity instruments measured at fair value through profit and loss. As a result, ¥27,856 million was reclassified from other components of equity to retained earnings as at the beginning of the current fiscal year. Accordingly, the changes caused a decrease by ¥27,856 in profit for the period as compared to the case where the prior standard would be applied.

In respect of equity instruments measured at fair value through other comprehensive income, changes in fair value are recognized as other comprehensive income. When the fair value significantly declines or the equity instruments are derecognized, accumulated other comprehensive income are reclassified to retained earnings.

Impairment losses are recognized with respect to the financial assets based on the expected credit loss model.

As a result, retained earnings increased by ¥661 million as at the beginning of the current fiscal year. There was no material impact on profit and loss of the first quarter of the current fiscal year from the changes.

2. Adoption of IFRS 15 'Revenue from contracts with customers'

Ricoh implemented IFRS 15 'Revenue from contracts with customers' as of April 1, 2018. Ricoh applied this standard in compliance with the transitional provisions, thereby recognizing the cumulative effects of adoption of this standard as an adjustment to the opening balance of retained earnings as at the beginning of the current fiscal year.

Ricoh recognizes the incremental costs of obtaining a contract with a customer as an asset and amortizes subsequently in accordance with recognition of revenue. As a result, retained earnings increased by ¥5,174 million respectively as at the beginning of the current fiscal year in comparison with the case where the prior standard would be applied. There was no material impact on profit and loss of the first quarter of the current fiscal year from the changes.
