Financial Report 1Q19

3 Credit Suisse results

45 Treasury, risk, balance sheet and off-balance sheet

75 Condensed consolidated financial statements – unaudited

156	List of abbreviations
157	Investor information
158	Financial calendar and contacts
159	Cautionary statement regarding forward-looking information

For purposes of this report, unless the context otherwise requires, the terms “Credit Suisse,” “the Group,” “we,” “us” and “our” mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the direct bank subsidiary of the Group, is substantially similar to the Group, and we use these terms to refer to both when the subject is the same or substantially similar. We use the term “the Bank” when we are only referring to Credit Suisse AG and its consolidated subsidiaries.

Abbreviations are explained in the List of abbreviations in the back of this report.

Publications referenced in this report, whether via website links or otherwise, are not incorporated into this report.

In various tables, use of “–” indicates not meaningful or not applicable.

Credit Suisse at a glance

Credit Suisse

Our strategy builds on Credit Suisse's core strengths: its position as a leading global wealth manager, its specialist investment banking capabilities and its strong presence in our home market of Switzerland. We seek to follow a balanced approach with our wealth management activities, aiming to capitalize on both the large pool of wealth within mature markets as well as the significant growth in wealth in Asia Pacific and other emerging markets. Founded in 1856, we today have a global reach with operations in about 50 countries and 46,200 employees from over 150 different nations. Our broad footprint helps us to generate a geographically balanced stream of revenues and net new assets and allows us to capture growth opportunities around the world. We serve our clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by two other divisions specializing in investment banking capabilities: Global Markets and Investment Banking & Capital Markets. Our business divisions cooperate closely to provide holistic financial solutions, including innovative products and specially tailored advice.

Swiss Universal Bank

The Swiss Universal Bank division offers comprehensive advice and a wide range of financial solutions to private, corporate and institutional clients primarily domiciled in our home market Switzerland, which offers attractive growth opportunities and where we can build on a strong market position across our key businesses. Our Private Clients business has a leading franchise in our Swiss home market and serves ultra-high-net-worth individual, high-net-worth individual, affluent and retail clients. Our Corporate & Institutional Clients business serves large corporate clients, small and medium-sized enterprises, institutional clients, external asset managers, financial institutions and commodity traders.

Asia Pacific

In the Asia Pacific division, our wealth management, financing and underwriting and advisory teams work closely together to deliver integrated advisory services and solutions to our target ultra-high-net-worth, entrepreneur and corporate clients. Our Wealth Management & Connected business combines our activities in wealth management with our financing, underwriting and advisory activities. Our Markets business represents our equities and fixed income sales and trading businesses, which support our wealth management activities, but also deals extensively with a broader range of institutional clients.

Investment Banking & Capital Markets

The Investment Banking & Capital Markets division offers a broad range of investment banking services to corporations, financial institutions, financial sponsors and ultra-high-net-worth individuals and sovereign clients. Our range of products and services includes advisory services related to mergers and acquisitions, divestitures, takeover defense mandates, business restructurings and spin-offs. The division also engages in debt and equity underwriting of public securities offerings and private placements.

International Wealth Management

The International Wealth Management division through its Private Banking business offers comprehensive advisory services and tailored investment and financing solutions to wealthy private clients and external asset managers in Europe, the Middle East, Africa and Latin America, utilizing comprehensive access to the broad spectrum of Credit Suisse's global resources and capabilities as well as a wide range of proprietary and third-party products and services. Our Asset Management business offers investment solutions and services globally to a broad range of clients, including pension funds, governments, foundations and endowments, corporations and individuals.

Global Markets

The Global Markets division offers a broad range of financial products and services to client-driven businesses and also supports Credit Suisse's global wealth management businesses and their clients. Our suite of products and services includes global securities sales, trading and execution, prime brokerage and comprehensive investment research. Our clients include financial institutions, corporations, governments, institutional investors, such as pension funds and hedge funds, and private individuals around the world.

Operating environment

Global economic growth slowed in 1Q19. Global equity markets ended the quarter significantly higher. Major government bond yields were generally lower, and the US dollar had a mixed performance against major currencies.

Economic environment

Global economic growth slowed in 1Q19 compared to the previous quarter. The manufacturing sector weakened, with global industrial production growth falling to a standstill. US economic growth continued to ease gradually. In Asia, trade data suggested activity fell sharply in the beginning of the quarter, but started to rebound later in the quarter. European manufacturing continued to deteriorate. Despite the manufacturing slump, labor markets in developed economies remained tight. Gradually increasing wage growth continued to put upward pressure on inflation. Trade negotiations between the US and China were ongoing.

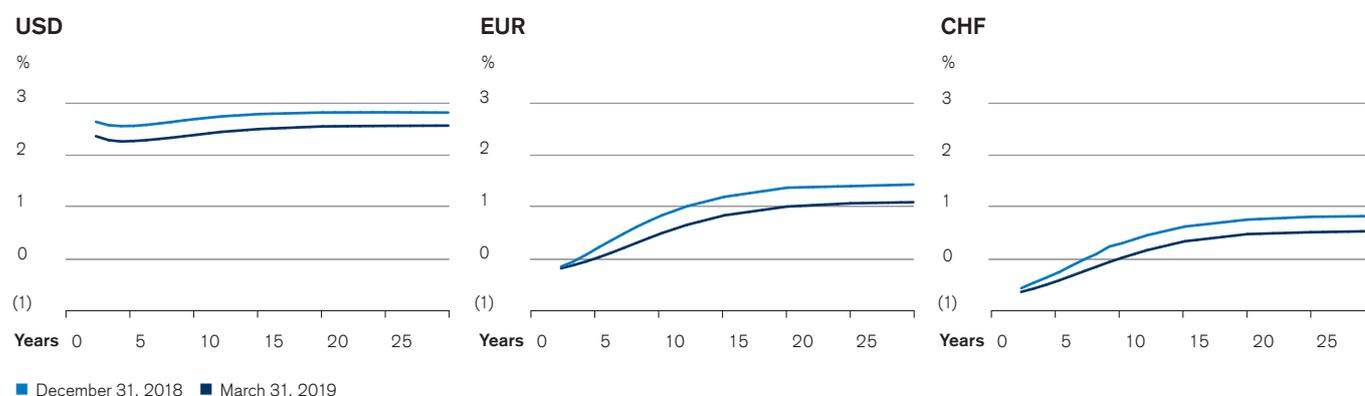

The US Federal Reserve (Fed) kept rates unchanged at its March meeting. The Fed made moderate adjustments to its economic projections and announced a plan to end the reduction of its balance sheet. The European Central Bank (ECB) announced a new series of targeted longer-term refinancing operations and extended forward guidance to indicate interest rates would remain on hold until at least the end of 2019. The Swiss National Bank (SNB) and the Bank of England kept policy rates unchanged. For the most part, central banks elsewhere did not take any significant actions in 1Q19.

Global equity prices increased significantly in 1Q19 and ended 12.6% higher compared to 4Q18. US stock indices led the performance, followed by European indices. Emerging markets increased 9.9%, correcting the negative performance of 4Q18 (refer to the charts under “Equity markets”). Information technology, industrials and energy were the strongest sectors. In contrast, health care, financials and utilities underperformed. The Chicago Board Options Exchange Market Volatility Index (VIX) was lower compared to 4Q18 levels (refer to the charts under “Equity markets”). The Credit Suisse Hedge Fund Index increased 4% in 1Q19.

In fixed income, bonds rallied significantly given the global growth concern and moderate actions by central banks. In US dollar rates, the spread between the 3-month and 10-year US treasury yields inverted for the first time since 2007. In euro and Swiss franc rates, the yield curve decreased across all maturities. In credit, both global developed and emerging market corporate bonds showed a robust quarterly return, with spreads continuing to tighten over the quarter. Emerging market hard-currency and local-currency sovereign bond performance was resilient despite some idiosyncratic issues in countries such as Turkey. Refer to the charts under “Yield curves” and “Credit spreads” for further information.

Yield curves

Major government bond yields decreased across all maturities in 1Q19.

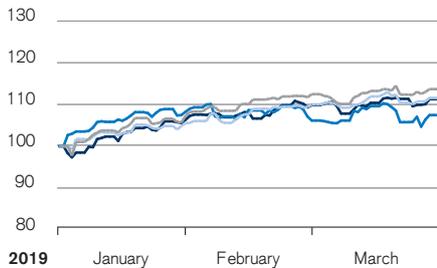

Source: Datastream, Credit Suisse

Equity markets

Global equity markets ended 1Q19 significantly higher, mainly driven by US stocks. European bank stocks further underperformed global equities. Volatility ended 1Q19 lower.

The US dollar demonstrated a mixed performance in 1Q19. The Swiss franc and the euro weakened slightly against the US dollar. The British pound strengthened against the US dollar despite the uncertainties regarding the expected withdrawal of the UK from the EU. Emerging market currencies were mixed against the US dollar in 1Q19, with the Argentine peso and Turkish lira depreciating markedly, while the Russian ruble gained against the US dollar.

The Credit Suisse Commodities Benchmark rose significantly in 1Q19, gaining 13.8%. Energy was the strongest sector driven by oil, which increased 32.4% following OPEC production cuts. Industrial metals increased 10.1% following announcements of Chinese stimulus and optimism around a positive US-China trade outcome. Meanwhile, precious metals only increased slightly and the agriculture sub-index was the only sector which showed a decline in 1Q19.

Credit spreads

Credit spreads decreased in 1Q19.

Sector environment

Global bank stocks ended 1Q19 6.7% higher compared to 4Q18, but 5.9% lower than global stocks, continuing the underperformance from 2018. European bank stocks increased 4.8% in 1Q19.

In private banking, the industry has experienced a long-term fundamental growth trend fueled by economic growth and a generally supportive investment environment. Financial markets started the year well in 1Q19, led by equity markets which recovered the losses experienced in the fourth quarter of 2018. Against these supportive market trends, challenges included political instability, worry over the threat from greater protectionism among the largest trade partners and the uncertainty over the impact of central banks' withdrawal from a policy of quantitative easing. In addition, the private banking sector continued to face pressure as it adapts to structural and regulatory changes while pursuing new opportunities and efficiencies arising from digital technology.

In investment banking, equity trading volumes decreased globally and in Europe compared to 4Q18 and 1Q18. Announced mergers and acquisitions (M&A) increased globally compared to 4Q18 and were lower compared to 1Q18. In Europe, announced M&A decreased compared to 4Q18 and 1Q18. Completed M&A decreased globally compared to 4Q18 and 1Q18. In Europe, completed M&A decreased significantly compared to 4Q18 but increased compared to 1Q18. European equity underwriting volumes were lower globally and in Europe compared to 4Q18 and 1Q18. Global and European debt underwriting volumes were higher compared to 4Q18 and lower compared to 1Q18. Investment grade syndicated lending decreased compared to 4Q18 but increased compared to 1Q18. Compared to 4Q18 and 1Q18, total US fixed income trading volumes were higher, mainly driven by an increase in mortgage-backed volumes.

Credit Suisse

In 1Q19, we recorded net income attributable to shareholders of CHF 749 million. Return on equity and return on tangible equity were 6.9% and 7.8%, respectively. As of the end of 1Q19, our CET1 ratio was 12.6%.

¹ Represent revenues on a product basis which are not representative of business results within our business segments as segment results utilize financial instruments across various product types. In 4Q18, we were involved in a tender offer of an issuer with respect to its own common shares that resulted in negative trading revenues, offset by positive net interest income as a result of a related dividend distribution by the same issuer.

² Based on tangible shareholders' equity, a non-GAAP financial measure, which is calculated by deducting goodwill and other tangible assets from total shareholders' equity as presented in our balance sheet. Management believes that these metrics are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Credit Suisse reporting structure

Credit Suisse includes the results of our reporting segments and the Corporate Center.

Corporate reporting developments

Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center. Certain activities such as legacy funding costs, legacy litigation provisions and noncontrolling interests without significant economic interest, which were previously part of the Strategic Resolution Unit, have been moved into the Corporate Center and are not reflected in the Asset Resolution Unit. Historical data for the Strategic Resolution Unit prior to January 1, 2019 has not been restated.

Results summary

1Q19 results

In 1Q19, Credit Suisse reported net income attributable to shareholders of CHF 749 million compared to CHF 694 million in 1Q18 and CHF 259 million in 4Q18. In 1Q19, Credit Suisse reported income before taxes of CHF 1,062 million, compared to CHF 1,054 million in 1Q18 and CHF 595 million in 4Q18.

Results details

Net revenues

In 1Q19, we reported net revenues of CHF 5,387 million, which decreased 4% compared to 1Q18, primarily reflecting lower net revenues in Investment Banking & Capital Markets, Asia Pacific

and Global Markets. The decrease in Investment Banking & Capital Markets was driven by lower revenues from debt and equity underwriting, reflecting a decline in the industry-wide fee pool and lower revenues from advisory and other fees. The decrease in Asia Pacific was driven by lower revenues in its Wealth Management & Connected business, reflecting lower Private Banking and advisory, underwriting and financing revenues, and lower revenues in its Markets business, mainly reflecting lower equity sales and trading revenues. The decrease in Global Markets was driven by less favorable market conditions across its equity and debt underwriting businesses, partially offset by higher trading revenues, particularly in its International Trading Solutions (ITS) franchise.

1Q19 included negative net revenues of CHF 91 million in the Corporate Center, which beginning in 1Q19 included the impact of the Asset Resolution Unit.

Compared to 4Q18, net revenues increased 12%, primarily reflecting higher net revenues in Global Markets and Asia Pacific, partially offset by lower net revenues in Investment Banking & Capital Markets. The increase in Global Markets reflected improved market conditions and a seasonal increase in trading client activity. The increase in Asia Pacific was driven by higher revenues in its Markets business across all revenue categories and higher revenues in its Wealth Management & Connected business, reflecting higher Private Banking and advisory, underwriting and financing revenues. The decrease in Investment Banking & Capital Markets was mainly driven by lower revenues from advisory and other fees, partially offset by higher equity and debt underwriting revenues.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center.

Provision for credit losses

In 1Q19, provision for credit losses was CHF 81 million, primarily related to net provisions of CHF 29 million in Swiss Universal Bank, CHF 17 million in Asia Pacific, CHF 11 million in Global Markets and CHF 10 million in International Wealth Management.

Total operating expenses

In 2018, we completed our Group-wide three-year restructuring plan. During its term, operating expenses relating to the restructuring plan were disclosed separately, in line with the disclosure requirements for such a program.

Compared to 1Q18, total operating expenses of CHF 4,244 million decreased 6%, primarily reflecting a 6% decrease in general and administrative expenses, mainly relating to lower litigation provisions and lower professional services fees. 1Q18 included restructuring expenses of CHF 144 million.

Compared to 4Q18, total operating expenses increased 2%, primarily reflecting an 18% increase in compensation and benefits, primarily relating to higher salaries and variable compensation expenses, partially offset by a 10% decrease in general and administrative expenses, mainly relating to lower professional services fees and lower litigation provisions. 4Q18 included restructuring expenses of CHF 136 million.

Income tax expense

In 1Q19, income tax expense of CHF 313 million mainly reflected the impact of the geographical mix of results, non-deductible funding costs and litigation costs. The Credit Suisse effective tax rate was 29.5% in 1Q19. Overall, net deferred tax assets decreased CHF 41 million to CHF 4,464 million during 1Q19, mainly driven by earnings and pension liabilities, partially offset by own credit movements and foreign exchange impacts. Deferred tax assets on net operating losses decreased CHF 33 million to CHF 1,614 million during 1Q19.

Regulatory capital

As of the end of 1Q19, our Bank for International Settlements (BIS) common equity tier 1 (CET1) ratio was 12.6% and our risk-weighted assets were CHF 290.1 billion.

In 1Q19, risk-weighted assets reflected increases of CHF 3.2 billion from externally mandated regulatory methodology and policy changes relating to a new accounting standard for leases and CHF 2.1 billion from externally mandated model and parameter updates, primarily relating to residential real estate loans in Swiss Universal Bank and a change from a model approach to a standardized approach for certain loans across all divisions.

Reconciliation of adjusted results

Adjusted results referred to in this document are non-GAAP financial measures that exclude certain items included in our reported results. During the implementation of our strategy, it was important to measure the progress achieved by our underlying business performance. Management believes that adjusted results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results to the most directly comparable US GAAP measures.

² Excludes the headcount of certain managed service resources which are related to fixed fee projects.

Other information

Format of presentation

In managing our business, revenues are evaluated in the aggregate, including an assessment of trading gains and losses and the related interest income and expense from financing and hedging positions. For this reason, specific individual revenue categories in isolation may not be indicative of performance.

Certain reclassifications have been made to prior periods to conform to the current presentation.

Return on regulatory capital

Credit Suisse measures firm-wide returns against total shareholders' equity and tangible shareholders' equity (a non-GAAP financial measure). In addition, it also measures the efficiency of the firm and its divisions with regard to the usage of capital as determined by the minimum requirements set by regulators. This regulatory capital is calculated as the worst of 10% of risk-weighted assets and 3.5% of leverage exposure. Return on regulatory capital is calculated using income/(loss) after tax and assumes a tax rate of 30% and capital allocated based on the worst of 10% of average risk-weighted assets and 3.5% of average leverage exposure. These percentages are used in the calculation in order to reflect the 2019 fully phased in Swiss regulatory minimum requirements for Basel III CET1 capital and leverage ratio. For Global Markets and Investment Banking & Capital Markets, return on regulatory capital is based on US dollar denominated numbers. Adjusted return on regulatory capital is calculated using adjusted results, applying the same methodology used to calculate return on regulatory capital.

End of / in 1Q19 (CHF billion)

Shareholders' equity		43.8
Return on equity	6.9%	
Tangible shareholders' equity		38.8
Return on tangible equity	7.8%	5.0
Regulatory capital		31.6
Return on regulatory capital	9.5%	7.2

Fair valuations

Fair value can be a relevant measurement for financial instruments when it aligns the accounting for these instruments with how we manage our business. The levels of the fair value hierarchy as defined by the relevant accounting guidance are not a measurement of economic risk, but rather an indication of the observability of prices or valuation inputs.

As of the end of 1Q19, 38% and 25% of our total assets and total liabilities, respectively, were measured at fair value.

The majority of our level 3 assets are recorded in our investment banking businesses. As of the end of 1Q19, total assets at fair value recorded as level 3 decreased CHF 0.2 billion to CHF 16.1 billion compared to the end of 4Q18, primarily reflecting net transfers, net purchases and net issuances, all mainly in trading assets, partially offset by net realized/unrealized gains, mainly in trading assets, and a positive foreign exchange impact.

As of the end of 1Q19, our level 3 assets comprised 2% of total assets and 5% of total assets measured at fair value, compared to 2% and 6%, respectively, as of the end of 4Q18.

We believe that the range of any valuation uncertainty, in the aggregate, would not be material to our financial condition; however, it may be material to our operating results for any particular period, depending, in part, upon the operating results for such period.

→ Refer to "Fair valuations" in II – Operating and financial review – Credit Suisse in the Credit Suisse Annual Report 2018 and "Note 31 – Financial instruments" in III – Condensed consolidated financial statements – unaudited for further information.

Regulatory developments and proposals

Government leaders and regulators continued to focus on reform of the financial services industry, including capital, leverage and liquidity requirements, changes in compensation practices and systemic risk.

On April 8, 2019, the Board of Governors of the Federal Reserve System (Fed) proposed rules that would establish a categorization system to tailor the US enhanced prudential standards applicable to

large foreign banking organizations (FBOs) based on size, complexity and risk. If adopted as proposed, the rules would subject our US intermediate holding company (IHC) for the first time to standardized US liquidity requirements implementing the Basel III liquidity coverage ratio and proposed net stable funding ratio, and increase the stringency of the US single counterparty credit limits applicable to our US IHC. However, the proposals may provide modest relief for our US IHC from certain capital and stress testing requirements. The Fed invited public comment on all aspects of the proposals, and their final impact on us cannot be predicted at this time.

On April 11, 2019, the European Council agreed to a flexible extension of the UK's withdrawal from the EU until a date as late as October 31, 2019 to allow for the ratification of the withdrawal agreement. However, the delay will be extended only until May 31, 2019 if the UK does not hold upcoming elections to the European Parliament and does not ratify the withdrawal agreement by May 22, 2019. As negotiations on the terms of the withdrawal agreement are still ongoing, current discussions between the UK and EU may result in any number of outcomes, including a further extension or delay of the UK's withdrawal from the EU or a withdrawal without an agreement in place. Credit Suisse continues to work to address the implications of the consequences of these changes and to minimize disruption for our clients.

On April 16, 2019, the Fed and the Federal Deposit Insurance Corporation proposed a rule to provide relief from the Dodd-Frank Wall Street Reform and Consumer Protection Act requirement that large FBOs file annual resolution plans describing the strategy for rapid and orderly resolution under the US Bankruptcy Code or other applicable insolvency regimes. Under the proposal, our combined US operations would be permitted to file a resolution plan every three years, instead of annually, alternating between a full resolution plan and a less extensive targeted resolution plan that would focus on capital, liquidity and material changes from the previous full plan. If the proposal is adopted, we would be required to submit a full resolution plan by July 1, 2021, with our next submission date on July 1, 2024, in the form of a targeted resolution plan. We would also respond to the feedback provided on our 2018 plan by July 1, 2020.

→ Refer to "Regulation and supervision" in I – Information on the company in the Credit Suisse Annual Report 2018 for further information and "Regulatory framework" and "Regulatory developments and proposals" in II – Treasury, risk, balance sheet and off-balance sheet – Liquidity and funding management and Capital management, respectively, for further information.

Swiss Universal Bank

In 1Q19, we reported income before taxes of CHF 550 million and net revenues of CHF 1,379 million. Income before taxes decreased slightly compared to 1Q18 and increased 10% compared to 4Q18.

Results summary

1Q19 results

In 1Q19, income before taxes of CHF 550 million decreased slightly compared to 1Q18. Net revenues of CHF 1,379 million decreased 4%, reflecting lower revenues across all revenue categories. 1Q19 included gains on the sale of real estate of CHF 30 million and 1Q18 included a gain on the sale of Euroclear of CHF 37 million, both reflected in other revenues. Provision for credit losses was CHF 29 million compared to CHF 34 million in 1Q18. Total operating expenses decreased 4%. 1Q18 included restructuring expenses of CHF 28 million.

Compared to 4Q18, income before taxes increased 10%. Net revenues were stable, with higher transaction-based revenues and the gains on the sale of real estate reflected in other revenues, offset by lower net interest income and slightly lower

recurring commissions and fees. Provision for credit losses was CHF 29 million compared to CHF 26 million in 4Q18. Total operating expenses were 6% lower, mainly reflecting lower general and administrative expenses, partially offset by higher compensation and benefits. 4Q18 included restructuring expenses of CHF 21 million.

Capital and leverage metrics

As of the end of 1Q19, we reported risk-weighted assets of CHF 76.8 billion, stable compared to the end of 4Q18, primarily driven by external model and parameter updates, mainly reflecting the phase-in of the Swiss mortgage multipliers, offset by internal model and parameter updates, mainly reflecting lower operational risk as a result of updated allocation keys. Leverage exposure of CHF 259.4 billion was CHF 3.9 billion higher compared to the end of 4Q18, mainly driven by an increase in high-quality liquid assets (HQLA) and business growth.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income. Other revenues include fair value gains/(losses) on synthetic securitized loan portfolios and other gains and losses.

Private Clients

Results details

In 1Q19, income before taxes of CHF 273 million was slightly higher compared to 1Q18, driven by lower total operating expenses, partially offset by slightly lower net revenues. Compared to 4Q18, income before taxes decreased slightly, reflecting higher provision for credit losses, partially offset by slightly lower total operating expenses.

Net revenues

Compared to 1Q18, net revenues of CHF 742 million decreased slightly, mainly driven by lower net interest income, decreased transaction-based revenues and slightly lower recurring commissions and fees. 1Q19 included the gains on the sale of real estate of CHF 30 million and 1Q18 included a gain on the sale of Euroclear of CHF 19 million, both reflected in other revenues. Net interest income of CHF 412 million was 4% lower with stable loan margins and lower deposit margins on slightly higher average loan and deposit volumes. Transaction-based revenues of CHF 101

million were 7% lower, mainly due to decreased client activity, partially offset by higher revenues from ITS. Recurring commissions and fees of CHF 199 million decreased slightly, primarily reflecting lower discretionary mandate management fees and decreased security account and custody services fees.

Compared to 4Q18, net revenues were stable, with higher other revenues reflecting the gains on the sale of real estate and higher transaction-based revenues, offset by lower net interest income and lower recurring commissions and fees. Transaction-based revenues were 19% higher, primarily reflecting increased revenues from ITS. Net interest income decreased 6% with stable loan margins and lower deposit margins on stable average loan and deposit volumes. Recurring commissions and fees were 5% lower, mainly due to seasonally lower revenues from our investment in Swisscard, decreased investment advisory fees, slightly lower discretionary mandate management fees and slightly lower security account and custody services fees.

Provision for credit losses

The Private Clients loan portfolio is substantially comprised of residential mortgages in Switzerland and loans collateralized by securities and, to a lesser extent, consumer finance loans.

In 1Q19, Private Clients recorded provision for credit losses of CHF 11 million compared to provision for credit losses of CHF 10 million in 1Q18 and a release of provision for credit losses of CHF 4 million in 4Q18. The provisions were primarily related to our consumer finance business.

Total operating expenses

Compared to 1Q18, total operating expenses of CHF 458 million decreased 6%. 1Q18 included restructuring expenses of CHF 22 million. General and administrative expenses of CHF 167 million were slightly higher, reflecting increases across various expense categories. Compensation and benefits of CHF 266 million decreased 4%, with lower salary expenses and lower discretionary compensation expenses, partially offset by higher pension expenses.

Compared to 4Q18, total operating expenses decreased slightly, with higher compensation and benefits and lower general and administrative expenses. 4Q18 included restructuring expenses of CHF 10 million. Compensation and benefits increased 6%, mainly due to higher discretionary compensation expenses and higher

deferred compensation expenses from prior-year awards. General and administrative expenses were 7% lower, primarily reflecting lower allocated corporate function costs and lower advertising and marketing expenses.

Margins

Our **gross margin** was 143 basis points in 1Q19, a decrease of four basis points compared to 1Q18, reflecting lower net interest income, decreased transaction-based revenues and slightly lower recurring commissions and fees, partially offset by the gains on the sale of real estate, on stable average assets under management. Compared to 4Q18, our gross margin was one basis point lower, reflecting lower net interest income and decreased recurring commissions and fees on stable average assets under management, partially offset by the gains on the sale of real estate and higher transaction-based revenues.

→ Refer to "Assets under management" for further information.

Our **net margin** was 53 basis points in 1Q19, an increase of two basis points compared to 1Q18, primarily reflecting lower total operating expenses, partially offset by slightly lower net revenues, on stable average assets under management. Compared to 4Q18, our net margin was one basis point lower, primarily due to higher provision for credit losses on stable average assets under management.

Assets under management

As of the end of 1Q19, assets under management of CHF 210.7 billion were CHF 12.7 billion higher compared to the end of 4Q18, mainly driven by favorable market movements and net new assets of CHF 3.3 billion. Net new assets reflected positive contributions from all businesses.

Corporate & Institutional Clients

Results details

In 1Q19, income before taxes of CHF 277 million was 7% lower compared to 1Q18, mainly reflecting lower net revenues, partially offset by lower provision for credit losses. Compared to 4Q18, income before taxes was 26% higher, driven by lower total operating expenses and lower provision for credit losses.

Net revenues

Compared to 1Q18, net revenues of CHF 637 million decreased 5%, driven by lower recurring commissions and fees and slightly

lower transaction-based revenues. 1Q18 included a gain on the sale of our investment in Euroclear of CHF 18 million reflected in other revenues. Recurring commissions and fees of CHF 160 million were 8% lower, mainly due to lower security account and custody services fees and decreased banking services fees. Transaction-based revenues of CHF 187 million were slightly lower mainly due to lower client activity and lower revenues from our Swiss investment banking business, partially offset by higher revenues from ITS. Net interest income of CHF 307 million was stable, with higher deposit margins on stable average deposit volumes and stable loan margins on higher average loan volumes.

Compared to 4Q18, net revenues were stable, mainly reflecting higher transaction-based revenues offset by lower net interest income. Transaction-based revenues increased 15%, mainly due to higher revenues from ITS, partially offset by lower revenues from our Swiss investment banking business. Net interest income decreased 4% with higher deposit margins on stable average deposit volumes and stable loan margins on slightly higher average loan volumes. Recurring commissions and fees were stable, with higher fees from lending activities, offset by decreased banking services fees.

Provision for credit losses

The Corporate & Institutional Clients loan portfolio has relatively low concentrations and is mainly secured by real estate, securities and other financial collateral.

In 1Q19, Corporate & Institutional Clients recorded provision for credit losses of CHF 18 million relating to several individual cases compared to CHF 24 million in 1Q18. In 4Q18, provision for credit losses of CHF 30 million were recorded.

Total operating expenses

Compared to 1Q18, total operating expenses of CHF 342 million were stable, reflecting higher general and administrative expenses and lower commission expenses. 1Q18 included restructuring

expenses of CHF 6 million. General and administrative expenses of CHF 103 million increased 7%, mainly reflecting higher allocated corporate function costs. Compensation and benefits of CHF 209 million were stable, primarily driven by lower discretionary compensation expenses offset by higher allocated corporate function costs.

Compared to 4Q18, total operating expenses decreased 11%, mainly reflecting lower general and administrative expenses, partially offset by increased compensation and benefits. 4Q18 included restructuring expenses of CHF 11 million. General and administrative expenses decreased 27%, mainly due to lower litigation provisions. Compensation and benefits increased 4%, primarily driven by higher discretionary compensation expenses and higher pension expenses.

Assets under management

As of the end of 1Q19, assets under management of CHF 395.9 billion were CHF 47.2 billion higher compared to the end of 4Q18, mainly driven by net new assets of CHF 27.6 billion and favorable market movements. Net new assets primarily reflected inflows from our pension business.

International Wealth Management

In 1Q19, we reported income before taxes of CHF 523 million and net revenues of CHF 1,417 million. Income before taxes was 8% higher compared to 1Q18 and 28% higher compared to 4Q18.

Results summary

1Q19 results

In 1Q19, income before taxes of CHF 523 million increased 8% compared to 1Q18. Net revenues of CHF 1,417 million were stable with higher transaction- and performance-based revenues, offset by lower other revenues and lower net interest income. Other revenues in 1Q18 included a gain on the sale of our investment in Euroclear of CHF 37 million in Private Banking. Provision for credit losses was CHF 10 million compared to a release of provision for credit losses of CHF 1 million in 1Q18. Total operating expenses decreased 4%. 1Q18 included restructuring expenses of CHF 26 million.

Compared to 4Q18, income before taxes increased 28%. Net revenues were stable, with higher transaction- and performance-based revenues, offset by lower net interest income and lower recurring commissions and fees. Provision for credit losses was CHF 10 million compared to CHF 16 million in 4Q18. Total operating expenses were 9% lower. 4Q18 included restructuring expenses of CHF 33 million.

Capital and leverage metrics

As of the end of 1Q19, we reported risk-weighted assets of CHF 42.6 billion, 6% higher compared to the end of 4Q18, primarily driven by internal model and parameter updates, mainly reflecting higher operational risk as a result of updated allocation keys, and business growth. Leverage exposure of CHF 100.6 billion increased CHF 2.0 billion compared to the end of 4Q18, mainly driven by business growth.

Private Banking

Results details

In 1Q19, income before taxes of CHF 402 million was stable compared to 1Q18, reflecting lower total operating expenses, offset by slightly lower net revenues and an increase in provision for credit losses. Compared to 4Q18, income before taxes increased 35%, mainly reflecting higher net revenues and slightly lower total operating expenses.

Net revenues

Compared to 1Q18, net revenues of CHF 1,019 million decreased slightly as 1Q18 included the gain on the sale of our investment in Euroclear of CHF 37 million reflected in other revenues. Transaction- and performance-based revenues increased while net interest income and recurring commissions and fees decreased. Transaction- and performance-based revenues of CHF 354 million increased 14%, primarily driven by higher revenues from ITS, higher corporate advisory fees related to integrated solutions and higher levels of structured product issuances. Net interest income

of CHF 370 million decreased 5% with lower treasury revenues and higher deposit margins and lower loan margins on higher average deposit and loan volumes. Recurring commissions and fees of CHF 295 million decreased 4% with lower discretionary mandate management fees and lower investment product management fees, partially offset by higher fees from lending activities.

Compared to 4Q18, net revenues increased 8%, mainly driven by significantly higher transaction- and performance-based revenues, partially offset by lower net interest income and slightly lower recurring commissions and fees. Transaction- and performance-based revenues increased 55%, primarily reflecting higher client activity with higher levels of structured product issuances and higher revenues from ITS. Net interest income decreased 8% with lower treasury revenues and higher deposit margins and stable loan margins on stable average deposit and loan volumes. Recurring commissions and fees decreased slightly, mainly reflecting lower fees from lending activities.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction- and performance-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction- and performance-based income.

¹ Net revenues divided by average assets under management.

² Income before taxes divided by average assets under management.

Provision for credit losses

In 1Q19, provision for credit losses was CHF 10 million, compared to a release of provision for credit losses of CHF 1 million in 1Q18 and provision for credit losses of CHF 16 million in 4Q18.

Total operating expenses

Compared to 1Q18, total operating expenses of CHF 607 million decreased 6%, mainly driven by lower general and administrative expenses. 1Q18 included restructuring expenses of CHF 18 million. General and administrative expenses of CHF 157 million decreased 11%, mainly reflecting a release of litigation provisions, partially offset by higher allocated corporate function costs. Compensation and benefits of CHF 413 million were stable, mainly driven by higher salary expenses, including severance payments, offset by lower discretionary compensation expenses.

Compared to 4Q18, total operating expenses decreased slightly. 4Q18 included restructuring expenses of CHF 25 million. General and administrative expenses decreased 15%, mainly driven by the release of litigation provisions and lower professional services fees, partially offset by higher allocated corporate function costs. Compensation and benefits increased 8%, mainly reflecting higher discretionary compensation expenses and higher deferred compensation expenses from prior-year awards.

Margins

Our **gross margin** was 113 basis points in 1Q19, a decrease of one basis point compared to 1Q18, reflecting lower other revenues due to the gain on the sale of our investment in Euro-clear in 1Q18, lower net interest income and decreased recurring commissions and fees, partially offset by higher transaction- and performance-based revenues and slightly lower average assets under management. Compared to 4Q18, our gross margin was ten basis points higher, primarily driven by significantly higher transaction- and performance-based revenues and slightly lower average assets under management, partially offset by lower net interest income.

→ Refer to "Assets under management" for further information.

Our **net margin** was 45 basis points in 1Q19, an increase of one basis point compared to 1Q18, reflecting lower total operating expenses and the slightly lower average assets under management, partially offset by slightly lower net revenues and higher provision for credit losses. Our net margin was twelve basis points higher compared to 4Q18, mainly reflecting higher net revenues, slightly lower total operating expenses and the slightly lower average assets under management.

Assets under management

As of the end of 1Q19, assets under management of CHF 356.4 billion were CHF 1.1 billion lower compared to the end of 4Q18, mainly reflecting structural effects, partially offset by favorable market movements. Net new assets of CHF 1.3 billion mainly reflected solid growth in the high-net-worth client segment and a recovery of inflows in Europe. However, net new assets were impacted by lower inflows in the ultra-high-net-worth client segment in emerging markets.

Asset Management

Results details

Income before taxes of CHF 121 million increased 46% compared to 1Q18, reflecting higher net revenues. Compared to 4Q18, income before taxes increased 8%, driven by lower total operating expenses, partially offset by lower net revenues.

In 4Q18, we completed a business disposal involving a spin-off relating to our securitized products fund, while retaining an economic interest in the new management company and the fund. Beginning in 1Q19, revenues from this interest are recognized as investment and partnership income rather than management fees and performance and placement revenues as previously reported. Prior periods have been reclassified to conform to the current presentation.

Net revenues

Compared to 1Q18, net revenues of CHF 398 million increased 11%, mainly reflecting significantly higher investment and partnership income and slightly higher management fees. Investment and partnership income increased CHF 29 million to CHF 102 million,

mainly driven by a gain on a partial sale of an economic interest in a third-party manager relating to a private equity investment, partially offset by lower revenues from a single manager hedge fund and lower income from the real estate sector. Management fees of CHF 266 million increased CHF 6 million, mainly driven by slightly higher average assets under management. Performance and placement revenues of CHF 30 million increased 11%, mainly reflecting higher placement fees, partially offset by lower performance fees.

Compared to 4Q18, net revenues decreased 13%, reflecting lower revenues across all revenue categories. Investment and partnership income decreased CHF 45 million, mainly as 4Q18 included revenues from a business disposal, partially offset by a higher gain on a partial sale of an economic interest in a third-party manager relating to a private equity investment. Management fees were slightly lower reflecting lower transactions fees and lower average assets under management. Performance and placement revenues decreased CHF 8 million, driven by lower placement fees, partially offset by investment-related gains compared to losses in 4Q18.

Management fees include fees on assets under management, asset administration revenues and transaction fees related to the acquisition and disposal of investments in the funds being managed. Performance revenues relate to the performance or return of the funds being managed and includes investment-related gains and losses from proprietary funds. Placement revenues arise from our third-party private equity fundraising activities and secondary private equity market advisory services. Investment and partnership income includes equity participation income from seed capital returns and from minority investments in third-party asset managers, income from strategic partnerships and distribution agreements, and other revenues.

¹ Prior periods have been reclassified to conform to the current presentation.

Total operating expenses

Compared to 1Q18, total operating expenses of CHF 277 million were stable, reflecting lower compensation and benefits, offset by higher general and administrative expenses. 1Q18 included restructuring expenses of CHF 8 million. Compensation and benefits of CHF 165 million decreased 6%, primarily reflecting lower deferred compensation expenses from prior-year awards. General and administrative expenses of CHF 95 million increased 22%, mainly driven by higher professional services fees and higher allocated corporate function costs.

Compared to 4Q18, total operating expenses decreased 20%, mainly reflecting lower compensation and benefits. 4Q18 included restructuring expenses of CHF 8 million. Compensation and benefits decreased 27%, primarily driven by lower salary expenses,

decreased discretionary compensation expenses and lower deferred compensation expenses from prior-year awards, mainly reflecting the 4Q18 business disposal. General and administrative expenses were stable.

Assets under management

As of the end of 1Q19, assets under management of CHF 404.5 billion were CHF 15.8 billion higher compared to the end of 4Q18, mainly reflecting favorable market movements. Net asset outflows of CHF 0.5 billion mainly reflected outflows from emerging market joint ventures, partially offset by inflows from traditional investments.

Asia Pacific

In 1Q19, we reported income before taxes of CHF 183 million and net revenues of CHF 854 million. Income before taxes was 22% lower compared to 1Q18 and increased significantly compared to 4Q18.

Results summary

1Q19 results

In 1Q19, income before taxes of CHF 183 million decreased 22% compared to 1Q18. Compared to 1Q18, net revenues of CHF 854 million decreased 14%, driven by lower revenues in our Wealth Management & Connected business, reflecting lower Private Banking and advisory, underwriting and financing revenues, and lower revenues in our Markets business, mainly reflecting lower equity sales and trading revenues. Total operating expenses of CHF 654 million decreased 12%, mainly due to lower litigation provisions, compensation and benefits and commission expenses.

Compared to 4Q18, income before taxes increased significantly. Net revenues increased 26%, driven by higher revenues in our Markets business across all revenue categories and higher revenues in our Wealth Management & Connected business,

reflecting higher Private Banking and advisory, underwriting and financing revenues. Total operating expenses increased slightly, primarily due to higher compensation and benefits. 4Q18 included restructuring expenses of CHF 26 million.

Capital and leverage metrics

As of the end of 1Q19, we reported risk-weighted assets of CHF 37.8 billion, an increase of CHF 0.7 billion compared to the end of 4Q18, primarily driven by internal model and parameter updates, mainly reflecting higher operational risk as a result of updated allocation keys, and a foreign exchange impact, partially offset lower business usage. Leverage exposure was CHF 110.7 billion, an increase of CHF 4.3 billion compared to the end of 4Q18, mainly driven by higher business usage in Markets, higher lending activity in Wealth Management & Connected and a foreign exchange impact.

Wealth Management & Connected

Results details

Income before taxes of CHF 170 million decreased 17% compared to 1Q18, mainly reflecting lower net revenues, partially offset by lower total operating expenses. Compared to 4Q18, income before taxes increased 23%, mainly reflecting higher net revenues, partially offset by higher total operating expenses.

Net revenues

Net revenues of CHF 565 million decreased 15% compared to 1Q18, mainly reflecting lower transaction-based revenues, advisory, underwriting and financing revenues and net interest

income. Transaction-based revenues decreased 22% to CHF 145 million, primarily reflecting lower brokerage and product issuing fees. Advisory, underwriting and financing revenues decreased 20% to CHF 167 million, primarily due to lower fees from M&A transactions and lower equity underwriting revenues, partially offset by higher financing revenues. Net interest income decreased 8% to CHF 146 million, mainly reflecting lower loan margins on lower average loan volumes and lower deposit margins on higher average deposit volumes. Recurring commissions and fees decreased 4% to CHF 107 million, primarily reflecting lower discretionary mandate management and wealth structuring solutions fees.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income.

¹ Net revenues divided by average assets under management.

² Income before taxes divided by average assets under management.

Compared to 4Q18, net revenues increased 12%, mainly reflecting higher transaction-based revenues, advisory, underwriting and financing revenues and recurring commissions and fees, partially offset by lower net interest income. Transaction-based revenues increased 34%, primarily reflecting higher brokerage and product issuing fees. Advisory, underwriting and financing revenues increased 13%, primarily due to higher debt underwriting and financing revenues as well as higher fees from M&A transactions. Recurring commissions and fees increased 15%, mainly due to higher wealth structuring solutions, discretionary mandate management and investment product management fees. Net interest income decreased 6%, reflecting lower loan margins on stable average loan volumes, lower treasury revenues and lower deposit margins on slightly higher average deposit volumes.

Provision for credit losses

The Wealth Management & Connected loan portfolio primarily comprises Private Banking lombard loans, mainly backed by listed securities, and secured and unsecured loans to corporates.

In 1Q19, Wealth Management & Connected recorded a provision for credit losses of CHF 17 million, mainly related to a single case. In both 1Q18 and 4Q18, we recorded provisions for credit losses of CHF 9 million.

Total operating expenses

Total operating expenses of CHF 378 million decreased 16% compared to 1Q18, mainly reflecting lower general and administrative expenses and compensation and benefits. General and administrative expenses decreased 32% to CHF 109 million, mainly due to lower litigation provisions. Compensation and benefits decreased 5% to CHF 256 million, primarily driven by lower discretionary compensation expenses.

Compared to 4Q18, total operating expenses increased 5%, mainly reflecting higher compensation and benefits. 4Q18 included restructuring expenses of CHF 10 million. Compensation and benefits increased 17%, primarily driven by higher discretionary compensation expenses. General and administrative expenses decreased slightly, mainly due to lower professional services fees.

Margins

Margin calculations are aligned with the performance metrics of our Private Banking business and its related assets under management within the Wealth Management & Connected business.

Our **gross margin** was 75 basis points in 1Q19, seventeen basis points lower compared to 1Q18, reflecting lower net revenues and a 7.4% increase in average assets under management. Compared to 4Q18, our gross margin was five basis points higher, reflecting higher transaction-based revenues and recurring commissions and fees, partially offset by lower net interest income and a 3.1% increase in average assets under management.

→ Refer to "Assets under management" for further information.

Our **net margin** was 25 basis points in 1Q19, nine basis points lower compared to 1Q18, mainly reflecting lower net revenues. Compared to 4Q18, our net margin was six basis points higher, mainly reflecting higher net revenues.

Assets under management

Assets under management and net new assets relate to our Private Banking business within the Wealth Management & Connected business. As of the end of 1Q19, assets under management of CHF 219.0 billion were CHF 17.3 billion higher compared to the end of 4Q18, primarily reflecting favorable market movements, and net new assets of CHF 5.0 billion. Net new assets primarily reflected inflows from Greater China and Southeast Asia.

Markets

Results details

Income before taxes of CHF 13 million decreased 55% compared to 1Q18, mainly reflecting lower net revenues, partially offset by lower total operating expenses. Compared to a loss before taxes of CHF 101 million in 4Q18, the increase of CHF 114 million primarily reflected higher net revenues.

Net revenues

Net revenues of CHF 289 million decreased 12% compared to 1Q18, reflecting lower equity sales and trading revenues. Equity sales and trading revenues decreased 19% to CHF 198 million, mainly due to lower revenues from cash equities and prime

services, reflecting decreased client activity. Fixed income sales and trading revenues increased 7% to CHF 91 million, mainly due to higher revenues from credit products, partially offset by lower revenues from emerging markets rates products.

Compared to 4Q18, net revenues increased 69%, reflecting higher fixed income and equity sales and trading revenues. Fixed income sales and trading revenues increased significantly, mainly driven by higher revenues from credit products, structured products, foreign exchange and developed market rates products, reflecting improved trading performance and higher client activity. Equity sales and trading revenues increased 17%, mainly due to higher revenues from equity derivatives.

Total operating expenses

Total operating expenses of CHF 276 million decreased 7% compared to 1Q18, mainly reflecting lower commission expenses and lower compensation and benefits. Compensation and benefits decreased 6% to CHF 132 million, primarily driven by lower discretionary compensation expenses. General and administrative expenses were stable.

Compared to 4Q18, total operating expenses were stable, mainly reflecting higher compensation and benefits in 1Q19 and restructuring expenses of CHF 16 million in 4Q18. Compensation and benefits increased 19%, primarily driven by higher discretionary compensation expenses. General and administrative expenses were stable.

Global Markets

In 1Q19, we reported income before taxes of CHF 282 million and net revenues of CHF 1,472 million. Net revenues decreased 5% compared to 1Q18, reflecting a significant slowdown in market-wide underwriting activity, partially offset by higher trading revenues, particularly in our ITS franchise.

Results summary

1Q19 results

In 1Q19, we reported income before taxes of CHF 282 million and net revenues of CHF 1,472 million. Net revenues decreased 5% compared to 1Q18, driven by less favorable market conditions across our equity and debt underwriting businesses, partially offset by higher trading revenues, particularly in our ITS franchise. Total operating expenses of CHF 1,179 million decreased 5%, reflecting lower general and administrative expenses. 1Q18 included restructuring expenses of CHF 42 million.

Compared to 4Q18, net revenues increased 53%, reflecting improved market conditions and a seasonal increase in trading

activity. Total operating expenses increased slightly compared to 4Q18, reflecting higher compensation and benefits, partially offset by lower general and administrative expenses. 4Q18 included restructuring expenses of CHF 80 million.

Capital and leverage metrics

As of the end of 1Q19, we reported risk-weighted assets of USD 58.3 billion, a decrease of USD 1.5 billion compared to the end of 4Q18, driven by internal model and parameter updates, mainly reflecting lower operational risk as a result of updated allocation keys. Leverage exposure was USD 260.2 billion, an increase of USD 11.1 billion compared to the end of 4Q18, primarily due to higher business activity.

Results details

Fixed income sales and trading

In 1Q19, fixed income sales and trading revenues of CHF 890 million increased slightly compared to 1Q18, reflecting higher results across most businesses. Global credit products revenues increased significantly, primarily due to higher leveraged finance and increased investment grade trading activity. Emerging markets revenues increased significantly, albeit from subdued levels, reflecting significantly higher trading activity in Brazil due to more favorable market conditions and higher financing and structured credit revenues across regions. In addition, macro products revenues increased, due to significantly improved results in our rates business. This was partially offset by lower securitized products revenues compared to a strong 1Q18, which included increased client activity and more favorable market conditions, although there was continued positive momentum in asset finance.

Compared to a subdued 4Q18, fixed income sales and trading revenues increased 88%, reflecting a seasonal increase in client activity across all businesses and improved market conditions. Global credit products revenues increased significantly compared to subdued levels, primarily due to higher leveraged finance trading activity reflecting tightened credit spreads and increased investment grade trading activity. Macro products revenues increased significantly, reflecting improved results in our rates and foreign exchange businesses. Securitized products revenues increased, reflecting higher agency and non-agency revenues, notwithstanding the significant gain in 4Q18 from the sale of an investment acquired in the normal course of business. Furthermore, emerging markets revenues increased, reflecting higher trading and financing in Latin America and Europe, Middle East and Africa (EMEA) due to a seasonal increase in client activity.

Equity sales and trading

In 1Q19, equity sales and trading revenues of CHF 540 million increased 10% compared to 1Q18, primarily due to continued momentum in equity derivatives. Equity derivatives revenues increased compared to a strong 1Q18, reflecting significantly higher structured derivatives revenues due to increased client activity. Prime services revenues increased slightly, reflecting higher client financing revenues. These increases were partially offset by lower cash equities revenues, as reduced underwriting issuance activity negatively impacted secondary trading volumes.

Compared to 4Q18, equity sales and trading revenues increased 52%, reflecting a seasonal increase in client activity and more favorable market conditions. Equity derivatives revenues increased significantly, mainly reflecting higher client activity in structured derivatives. In addition, prime services revenues increased, primarily due to higher client financing revenues. Cash equities revenues increased slightly despite challenging trading conditions.

Underwriting

In 1Q19, underwriting revenues of CHF 141 million decreased 51% compared to 1Q18, reflecting challenging market conditions including the US government shutdown, which negatively impacted issuance activity. Debt underwriting revenues decreased significantly, primarily due to lower leveraged finance issuance activity. In addition, equity underwriting revenues decreased, reflecting significantly lower equity issuance activity.

Compared to 4Q18, underwriting revenues decreased 42%, primarily reflecting lower debt issuance activity. Debt underwriting revenues decreased significantly, primarily reflecting lower leveraged finance results. Equity underwriting revenues decreased slightly due to lower market-wide issuance activity.

Provision for credit losses

In 1Q19, we recorded provision for credit losses of CHF 11 million, compared to CHF 4 million in 1Q18 and CHF 5 million in 4Q18.

Total operating expenses

In 1Q19, total operating expenses of CHF 1,179 million decreased 5% compared to 1Q18, reflecting lower general and administrative expenses, partially offset by increased compensation and benefits. 1Q18 included restructuring expenses of CHF 42 million. General and administrative expenses decreased, reflecting reduced allocated corporate function costs and lower professional services fees. Compensation and benefits increased slightly, primarily reflecting higher deferred compensation expenses from prior-year awards, offset in part by lower discretionary compensation expenses.

Compared to 4Q18, total operating expenses increased slightly, reflecting higher compensation and benefits, partially offset by lower general and administrative expenses. 4Q18 included restructuring expenses of CHF 80 million. Compensation and benefits increased, reflecting higher discretionary compensation and deferred compensation expenses from prior-year awards and increased salary expenses. General and administrative expenses decreased, reflecting lower allocated corporate function costs.

Investment Banking & Capital Markets

In 1Q19, we reported a loss before taxes of CHF 93 million and net revenues of CHF 356 million. Client activity was significantly lower compared to 1Q18, impacted by challenging market conditions across capital markets.

Results summary

1Q19 results

In 1Q19, we reported a loss before taxes of CHF 93 million compared to income before taxes of CHF 59 million in 1Q18. The results in 1Q19 reflected lower market activity across debt and equity underwriting, which was negatively impacted by the US government shutdown, investor concerns over a slowdown in US corporate earnings and gross domestic product (GDP) growth and the uncertain geopolitical environment. Net revenues of CHF 356 million decreased 33%, driven by lower revenues from debt and equity underwriting, reflecting a decline in the industry-wide fee pool and lower revenues from advisory and other fees. Debt underwriting revenues decreased 27%, primarily driven by lower leveraged finance activity and equity underwriting revenues decreased 44%, mainly driven by lower initial public offering (IPO) issuances and follow-on activity. Revenues from advisory and other fees decreased 19%. Other revenues decreased CHF 25 million, primarily reflecting negative valuation changes in our corporate lending portfolio due to tightening credit spreads in 1Q19. Total operating expenses decreased 6%. 1Q18 included restructuring expenses of CHF 30 million.

Compared to 4Q18, net revenues decreased 25%, mainly driven by lower revenues from advisory and other fees and lower other revenues, partially offset by higher equity and debt underwriting revenues. Equity underwriting revenues increased 287%, compared to weak 4Q18 results, which included a loss on a single block trade. Debt underwriting revenues were slightly higher, while revenues from advisory and other fees decreased 49%, reflecting fewer deal closings. Total operating expenses of CHF 441 million increased 21%, driven by higher compensation and benefits. 4Q18 included restructuring expenses of CHF 6 million.

Capital and leverage metrics

As of the end of 1Q19, risk-weighted assets were USD 24.8 billion, an increase of USD 0.3 billion compared to the end of 4Q18. Leverage exposure was USD 42.3 billion, an increase of USD 1.2 billion compared to the end of 4Q18, primarily driven by growth in the corporate lending portfolio and underwriting commitments.

Results details

Advisory and other fees

In 1Q19, revenues from advisory and other fees of CHF 140 million decreased 19% compared to 1Q18, primarily driven by lower revenues from completed M&A transactions due to the timing of deal closings and regulatory delays.

Compared to a strong 4Q18, revenues from advisory and other fees decreased 49%, mainly reflecting lower revenues from completed M&A transactions.

Debt underwriting

In 1Q19, debt underwriting revenues of CHF 186 million decreased 27% compared to 1Q18, primarily driven by lower leveraged finance, impacted by lower industry-wide activity.

Compared to 4Q18, debt underwriting revenues increased slightly, primarily driven by increased revenues from leveraged finance.

Equity underwriting

In 1Q19, equity underwriting revenues of CHF 58 million decreased 44% compared to 1Q18, mainly driven by lower IPO issuances and follow-on activity, reflecting challenging market conditions due to the US government shutdown.

Compared to 4Q18, equity underwriting revenues increased 287%, driven by increased revenues from follow-on activity, which in 4Q18 included a loss on a single block trade.

Provision for credit losses

In 1Q19, we recorded provision for credit losses of CHF 8 million, compared to CHF 1 million in 1Q18 and CHF 5 million in 4Q18, reflecting in each period adverse developments on non-fair valued loans in our corporate lending portfolio.

Total operating expenses

In 1Q19, total operating expenses of CHF 441 million decreased 6% compared to 1Q18, which included restructuring expenses of CHF 30 million. Compensation and benefits of CHF 311 million decreased slightly, reflecting lower discretionary compensation expenses. General and administrative expenses of CHF 127 million increased 5%, primarily driven by real estate disposal allocations.

Compared to 4Q18, total operating expenses increased 21%, primarily driven by higher compensation and benefits. Compensation and benefits increased 29%, mainly driven by higher discretionary compensation expenses and higher deferred compensation from prior year awards. 4Q18 included restructuring expenses of CHF 6 million.

Global advisory and underwriting revenues

The Group's global advisory and underwriting business operates across multiple business divisions that work in close collaboration with each other to generate these revenues. In order to reflect the global performance and capabilities of this business and for enhanced comparability versus its peers, the following table aggregates total advisory and underwriting revenues for the Group into a single metric in US dollar terms.

	in			% change

of which equity underwriting	138	85	239	62	(42)

Corporate Center

In 1Q19, we reported a loss before taxes of CHF 383 million compared to CHF 172 million in 1Q18 and income before taxes of CHF 35 million in 4Q18.

Corporate Center composition

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group, including costs associated with the evolution of our legal entity structure to meet developing and future regulatory requirements, and certain other expenses and revenues that have not been allocated to the segments. Corporate Center further includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

Treasury results include the impact of volatility in the valuations of certain central funding transactions such as structured notes issuances and swap transactions. Treasury results also include additional interest charges from transfer pricing to align funding costs to assets held in the Corporate Center and, since 1Q19, legacy funding costs previously reported in the Strategic Resolution Unit.

As previously disclosed, beginning in 1Q19 the Strategic Resolution Unit ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately presented within our Corporate Center disclosures, including related asset

funding costs. Certain activities not linked to the underlying portfolio such as legacy funding costs, legacy litigation provisions and noncontrolling interests without significant economic interest, which were previously part of the Strategic Resolution Unit, are recorded in the Corporate Center and are not reflected in the Asset Resolution Unit. Prior periods have not been restated.

Other revenues primarily include required elimination adjustments associated with trading in own shares, treasury commissions charged to divisions, the cost of certain hedging transactions executed in connection with the Group's risk-weighted assets and valuation hedging impacts from long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Compensation and benefits include fair value adjustments on certain deferred compensation plans not allocated to the segments, certain deferred compensation retention awards intended to support the restructuring of the Group, mainly relating to Asia Pacific. Since 3Q18, compensation and benefits have also included fair value adjustments on certain other long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center.

Results summary

1Q19 results

In 1Q19, we reported a loss before taxes of CHF 383 million compared to CHF 172 million in 1Q18 and income before taxes of CHF 35 million in 4Q18. The 1Q19 results reflected the transfer of the residual portfolio of the Strategic Resolution Unit, which is now managed in an Asset Resolution Unit.

Net revenues

In 1Q19, we reported negative net revenues of CHF 91 million compared to CHF 60 million in 1Q18 and net revenues of CHF 84 million in 4Q18.

Negative treasury results of CHF 118 million in 1Q19 mainly reflected losses of CHF 84 million with respect to structured notes volatility, negative revenues of CHF 69 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs, and losses of CHF 15 million on fair-valued money market instruments. Negative revenues and losses were partially offset by gains of CHF 30 million relating to fair value option volatility on own debt and gains of CHF 20 million relating to hedging volatility. In 1Q18, negative treasury results of CHF 109 million reflected losses of CHF 134 million relating to funding activities, partially offset by gains of CHF 35 million with respect to structured notes volatility. In 4Q18, positive treasury results of CHF 132 million reflected gains of CHF 82 million relating to hedging volatility, gains of CHF 55 million with respect to structured notes volatility, primarily from valuation model enhancements, gains of CHF 35 million relating to fair value option volatility on own debt and gains of CHF 19 million on fair-valued money market instruments, partially offset by negative revenues of CHF 59 million relating to funding activities.

Negative net revenues from the Asset Resolution Unit of CHF 35 million in 1Q19 reflected asset funding costs of CHF 56 million, partially offset by revenues from portfolio assets of CHF 21 million.

Other revenues of CHF 62 million increased CHF 13 million compared to 1Q18, mainly reflecting a positive valuation impact from long-dated legacy deferred compensation and retirement

programs and the impact from the gross recognition of sublease rental income under the new accounting standard for leases, partially offset by the elimination of gains from trading in own shares compared to losses in 1Q18. Compared to 4Q18, other revenues increased CHF 110 million, mainly reflecting a positive valuation impact from long-dated legacy deferred compensation and retirement programs, a fair value gain on a legacy convertible bond position compared to a loss on the same position in 4Q18 and decreased costs relating to hedging transactions executed in connection with the Group's risk-weighted assets.

Provision for credit losses

In 1Q19, we recorded provision for credit losses of CHF 6 million, which related to the Asset Resolution Unit, compared to no provision for credit losses in 1Q18 and 4Q18.

Total operating expenses

Total operating expenses of CHF 286 million increased 155% compared to 1Q18, mainly reflecting increases in general and administrative expenses and compensation and benefits. General and administrative expenses of CHF 140 million increased CHF 103 million, primarily reflecting legacy litigation provisions and general and administrative expenses related to the Asset Resolution Unit. Compensation and benefits of CHF 130 million increased CHF 75 million, primarily reflecting compensation and benefits related to the Asset Resolution Unit, higher expenses for long-dated legacy deferred compensation and retirement programs and higher deferred compensation expenses from prior-year awards.

Compared to 4Q18, total operating expenses increased 484%, mainly reflecting increases in compensation and benefits and general and administrative expenses. Compensation and benefits increased CHF 194 million, primarily reflecting higher deferred compensation expenses from prior-year awards, higher expenses for long-dated legacy deferred compensation and retirement programs, compensation and benefits related to the Asset Resolution Unit and higher discretionary compensation expenses. General and administrative expenses increased CHF 33 million, primarily reflecting legacy litigation provisions and general and administrative expenses related to the Asset Resolution Unit, partially offset by the impact of corporate function expense allocations.

Capital and leverage metrics

As of the end of 1Q19, we reported risk-weighted assets of CHF 50.1 billion, an increase of CHF 20.4 billion compared to the end of 4Q18, mainly reflecting the transfer of the residual portfolio from the Strategic Resolution Unit and the new accounting standard for leases. Leverage exposure was CHF 129.6

billion as of the end of 1Q19, an increase of CHF 24.4 billion compared to the end of 4Q18, mainly reflecting the transfer of the residual portfolio from the Strategic Resolution Unit and the new accounting standard for leases, partially offset by a decrease of cash held with central banks.

Assets under management

As of the end of 1Q19, assets under management were CHF 1,431.3 billion, an increase of CHF 84.0 billion compared to the end of 4Q18, with net new assets of CHF 35.8 billion in 1Q19.

Assets under management

Assets under management comprise assets that are placed with us for investment purposes and include discretionary and advisory counterparty assets. Discretionary assets are assets for which the client fully transfers the discretionary power to a Credit Suisse entity with a management mandate. Discretionary assets are reported in the business in which the advice is provided as well as in the business in which the investment decisions take place. Assets managed by the Asset Management business

of International Wealth Management for other businesses are reported in each applicable business and eliminated at the Group level. Advisory assets include assets placed with us where the client is provided access to investment advice but retains discretion over investment decisions.

Assets under management and net new assets include assets managed by consolidated entities, joint ventures and strategic participations. Assets from joint ventures and participations are counted in proportion to our share in the respective entity.

Net new assets

Net new assets include individual cash payments, delivery of securities and cash flows resulting from loan increases or repayments.

Interest and dividend income credited to clients and commissions, interest and fees charged for banking services as well as changes in assets under management due to currency and market volatility are not taken into account when calculating net new assets. Any such changes are not directly related to the Group's success in acquiring assets under management. Similarly structural effects mainly relate to asset inflows and outflows due to acquisition or divestiture, exit from businesses or markets or exits due to new regulatory requirements and are not taken into account when calculating net new assets. The Group reviews relevant policies regarding client assets on a regular basis. Following such reviews, with effect from January 1, 2019, the Group updated its assets under management policy primarily to introduce more specific criteria to evaluate whether client assets qualify as assets under management. The introduction of this updated policy resulted in a reclassification of CHF 18.8 billion of assets under management to assets under custody which has been reflected as a structural effect in 1Q19.

1Q19 results details

As of the end of 1Q19, assets under management of CHF 1,431.3 billion increased CHF 84.0 billion compared to the end of 4Q18. The increase was primarily driven by favorable market movements and net new assets of CHF 35.8 billion, partially offset by structural effects, mainly reflecting the introduction of the updated assets under management policy.

Net new assets of CHF 35.8 billion mainly reflected inflows across the following businesses. Net new assets of CHF 27.6 billion in the Corporate & Institutional Clients business of Swiss Universal Bank primarily reflected inflows from the pension business. Net new assets of CHF 5.0 billion in the Private Banking business of Asia Pacific mainly reflected inflows from Greater China and Southeast Asia. Net new assets of CHF 3.3 billion in the Private Clients business of Swiss Universal Bank reflected positive contributions from all businesses.

II – Treasury, risk, balance sheet and off-balance sheet

Liquidity and funding management	46
Capital management	50
Risk management	64
Balance sheet and off-balance sheet	72

Liquidity and funding management

In 1Q19, we maintained a strong liquidity and funding position. The majority of our unsecured funding was generated from core customer deposits and long-term debt.

Liquidity management

Securities for funding and capital purposes have historically been issued primarily by the Bank, our principal operating subsidiary and a US registrant. In response to regulatory reform, we have focused our issuance strategy on offering long-term debt securities at the Group level. Proceeds from issuances are lent to operating subsidiaries and affiliates on both a senior and subordinated basis, as needed; the latter typically to meet capital requirements and the former as desired by management to support business initiatives and liquidity needs.

Our liquidity and funding profile reflects our strategy and risk appetite and is driven by business activity levels and the overall operating environment. Our internal liquidity risk management framework is subject to review and monitoring by the Swiss Financial Market Supervisory Authority FINMA (FINMA), other regulators and rating agencies.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on liquidity and funding management.

Regulatory framework

BIS liquidity framework

The Basel Committee on Banking Supervision (BCBS) established the Basel III international framework for liquidity risk measurement, standards and monitoring. The Basel III framework includes a liquidity coverage ratio (LCR) and a net stable funding ratio (NSFR). Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements).

The LCR addresses liquidity risk over a 30-day period. The LCR aims to ensure that banks have unencumbered HQLA available to meet short-term liquidity needs under a severe stress scenario. The LCR is comprised of two components, the value of HQLA in stressed conditions and the total net cash outflows calculated according to specified scenario parameters. Under the BCBS framework, the minimum required ratio of liquid assets over net cash outflows is 100%.

The NSFR establishes criteria for a minimum amount of stable funding based on the liquidity of a bank's on- and off-balance sheet activities over a one-year horizon. The NSFR is a complementary measure to the LCR and is structured to ensure that illiquid assets are funded with an appropriate amount of stable

long-term funds. The NSFR is defined as the ratio of available stable funding over the amount of required stable funding and, once implemented by national regulators, should always be at least 100%.

Swiss liquidity requirements

The Swiss Federal Council adopted a liquidity ordinance (Liquidity Ordinance) that implements Basel III liquidity requirements into Swiss law. Under the Liquidity Ordinance, as amended, systemically relevant banks like Credit Suisse are subject to a minimum LCR requirement of 100% at all times and the associated disclosure requirements.

In connection with the implementation of Basel III, regulatory LCR disclosures for the Group and certain subsidiaries are required. Further details on our LCR can be found on our website.

→ Refer to [credit-suisse.com/regulatorydisclosures](https://www.credit-suisse.com/regulatorydisclosures) for additional information.

FINMA requires us to report the NSFR to FINMA on a monthly basis during an observation period that began in 2012. The reporting instructions are generally aligned with the final BCBS NSFR requirements. The Federal Council has decided to postpone the introduction of the NSFR as a minimum standard, which was originally planned for January 1, 2018, and will reconsider this matter at the end of 2019.

Our liquidity principles and our liquidity risk management framework as agreed with FINMA are in line with the Basel III liquidity framework.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on the BIS liquidity framework and Swiss liquidity requirements.

Liquidity risk management

Our liquidity and funding policy is designed to ensure that funding is available to meet all obligations in times of stress, whether caused by market events or issues specific to Credit Suisse. We achieve this through a conservative asset/liability management strategy aimed at maintaining long-term funding, including stable deposits, in excess of illiquid assets. To address short-term liquidity stress, we maintain a liquidity pool that covers unexpected outflows in the event of severe market and idiosyncratic stress.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on our approach to liquidity risk management, governance and contingency planning.

Liquidity metrics

Liquidity pool

Treasury manages a sizeable portfolio of liquid assets comprised of cash held at central banks and securities. The liquidity pool may be used to meet the liquidity requirements of our operating companies.

We centrally manage this liquidity pool and hold it at our main operating entities. Holding securities in these entities ensures that we can make liquidity and funding available to local entities in need without delay.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on our liquidity pool.

As of the end of 1Q19, our liquidity pool managed by Treasury and the global liquidity group had an HQLA value of CHF 160.7 billion. The liquidity pool consisted of CHF 86.0 billion of cash held at major central banks, primarily the SNB, the Fed and the ECB, and CHF 74.7 billion market value of securities

issued by governments and government agencies, primarily from the US, UK and France.

In addition to the liquidity portfolio, there is also a portfolio of unencumbered liquid assets managed by the global liquidity group and by various businesses, primarily in the Global Markets and Asia Pacific divisions. These assets generally include high-grade bonds and highly liquid equity securities that form part of major indices. In coordination with the businesses and the global liquidity group, Treasury can access these assets to generate liquidity if required.

As of the end of 1Q19, the portfolio of liquid assets that is not managed by Treasury and the global liquidity group had a market value of CHF 34.4 billion, consisting of CHF 10.6 billion of high-grade bonds and CHF 23.8 billion of highly liquid equity securities. Under our internal model, an average stress-level haircut of 17% is applied to these assets. The haircuts applied to these portfolios reflect our assessment of overall market risk at the time of measurement, potential monetization capacity taking into account increased haircuts, market volatility and the quality of the relevant securities.

Liquidity pool – Group

End of					1Q19	4Q18
	Swiss franc	US dollar	Euro	Other currencies	Total	Total
Liquid assets (CHF million)						
Cash held at central banks	61,135	15,254	6,889	2,737	86,015	85,494
Securities	6,219	38,599	9,112	20,791	74,721	74,360
Liquid assets¹	67,354	53,853	16,001	23,528	160,736	159,854

Calculated using a three-month average, which is calculated on a daily basis.

¹ Reflects a pre-cancellation view.

Liquidity Coverage Ratio

Our calculation methodology for the LCR is prescribed by FINMA and uses a three-month average that is measured using daily calculations during the quarter. The FINMA calculation of HQLA takes into account a cancellation mechanism (post-cancellation view) and is therefore not directly comparable to the assets presented in the financial statements that could potentially be monetized under a severe stress scenario. The cancellation mechanism effectively excludes the impact of certain secured financing transactions from available HQLA and simultaneously adjusts the level of net cash outflows calculated. Application of the cancellation mechanism adjusts both the numerator and denominator of the LCR calculation, meaning that the impact is mostly neutral on the LCR itself.

Our HQLA measurement methodology excludes potentially eligible HQLA available for use by entities of the Group in certain jurisdictions that may not be readily accessible for use by the Group as a whole. These HQLA eligible amounts may be restricted for reasons such as local regulatory requirements, including large exposure requirements, or other binding

constraints that could limit the transferability to other Group entities in other jurisdictions.

On this basis, the level of our LCR was 191% as of the end of 1Q19, an increase from 184% as of the end of 4Q18, representing an average HQLA of CHF 161.4 billion and average net cash outflows of CHF 84.5 billion. The ratio reflects a conservative liquidity position, including ensuring that the Group's branches and subsidiaries meet applicable local liquidity requirements.

The increase in the LCR in 1Q19 primarily reflected a decrease in net cash outflows, while the level of HQLA was stable compared to the prior quarter. The decrease in net cash outflows was primarily driven by a reduction in net cash outflows associated with secured wholesale funding and secured lending activities and an increase in cash inflows from fully performing loan exposures.

The spot balance of HQLA held on the last business day of 1Q19 was CHF 155.0 billion, which was CHF 2.4 billion lower than the spot balance of HQLA held on the last business day of 4Q18.

Liquidity coverage ratio – Group

End of	1Q19		4Q18
	Unweighted value ¹	Weighted value ²	Weighted value ²
High-quality liquid assets (CHF million)			
High-quality liquid assets ³	–	161,401	161,231
Cash outflows (CHF million)			
Retail deposits and deposits from small business customers	160,529	20,775	20,765
Unsecured wholesale funding	222,181	89,051	89,065
Secured wholesale funding	–	53,940	54,879
Additional requirements	166,567	36,562	36,921
Other contractual funding obligations	56,811	56,811	65,526

Inflows from fully performing exposures	68,058	33,006	31,785
Other cash inflows	58,631	58,631	67,273
Total cash inflows	255,075	177,802	184,736
Liquidity coverage ratio			
High-quality liquid assets (CHF million)	–	161,401	161,231
Net cash outflows (CHF million)	–	84,505	87,811
Liquidity coverage ratio (%)	–	191	184

Calculated using a three-month average, which is calculated on a daily basis.

¹ Calculated as outstanding balances maturing or callable within 30 days.

² Calculated after the application of haircuts for high-quality liquid assets or inflow and outflow rates.

³ Consists of cash and eligible securities as prescribed by FINMA and reflects a post-cancellation view.

Funding management

Funding sources

We fund our balance sheet primarily through core customer deposits, long-term debt, including structured notes, and shareholders' equity. We monitor the funding sources, including their concentrations against certain limits, according to their counterparty, currency, tenor, geography and maturity, and whether they are secured or unsecured.

A substantial portion of our balance sheet is match funded and requires no unsecured funding. Match funded balance sheet items consist of assets and liabilities with close to equal liquidity durations and values so that the liquidity and funding generated or required by the positions are substantially equivalent.

Cash and due from banks and reverse repurchase agreements are highly liquid. A significant part of our assets, principally unencumbered trading assets that support the securities business, is comprised of securities inventories and collateralized receivables that fluctuate and are generally liquid. These liquid assets are available to settle short-term liabilities.

Loans, which comprise the largest component of our illiquid assets, are funded by our core customer deposits, with an excess coverage of 16% as of the end of 1Q19, compared to 18% as of the end of 4Q18, reflecting stable deposits and a small increase in loans. We fund other illiquid assets, including real estate, private equity and other long-term investments as well as the haircut for the illiquid portion of securities, with long-term debt and equity, in which we try to maintain a substantial funding buffer.

Our core customer deposits totaled CHF 340 billion as of the end of 1Q19, compared to CHF 341 billion as of the end of 4Q18, reflecting a stable customer deposit base in the private banking and corporate & institutional clients businesses in 1Q19. Core customer deposits are from clients with whom we have a broad and longstanding relationship. Core customer deposits exclude deposits from banks and certificates of deposit. We place a priority on maintaining and growing customer deposits, as they have proven to be a stable and resilient source of funding even in difficult market conditions. Our core customer deposit funding is supplemented by the issuance of long-term debt.

→ Refer to the chart "Balance sheet funding structure" and "Balance sheet" in Balance sheet and off-balance sheet for further information.

Balance sheet funding structure

as of March 31, 2019 (CHF billion)

Assets		Match funded	Liabilities and Equity	
Reverse repurchase agreements	55		70	Repurchase agreements
Encumbered trading assets	40	25	Short positions	
Funding-neutral assets ¹	75	75	Funding-neutral liabilities ¹	
		6	Other short-term liabilities ²	
Cash & due from banks	96	47	Due to banks	
		27	Short-term borrowings	
Unencumbered liquid assets ³	130	103	time	
		138	demand	
Loans ⁴	293	66	savings	
		33	fiduciary	
		160	Long-term debt	
Other illiquid assets	105	44	Total equity	
Assets	794	794	Liabilities and Equity	

116% coverage

¹ Primarily includes brokerage receivables/payables, positive/negative replacement values and cash collateral.

² Primarily includes excess of funding neutral liabilities (brokerage payables) over corresponding assets.

³ Primarily includes unencumbered trading assets, unencumbered investment securities and excess reverse repurchase agreements, after haircuts.

⁴ Excludes loans with banks.

⁵ Excludes due to banks and certificates of deposit.

Debt issuances and redemptions

As of the end of 1Q19, we had outstanding long-term debt of CHF 160.3 billion, which included senior and subordinated instruments. We had CHF 51.7 billion and CHF 15.1 billion of structured notes and covered bonds outstanding, respectively, as of the end of 1Q19 compared to CHF 48.1 billion and CHF 17.2 billion, respectively, as of the end of 4Q18.

→ Refer to "Issuances and redemptions" in Capital management for information on capital issuances, including buffer and progressive capital notes.

Short-term borrowings increased to CHF 26.6 billion as of the end of 1Q19 compared to CHF 21.9 billion as of the end of 4Q18, mainly due to issuances of commercial paper (CP).

The following table provides information on long-term debt issuances, maturities and redemptions in 1Q19, excluding structured notes.

→ Refer to "Debt issuances and redemptions" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2018 for further information.

Debt issuances and redemptions

in 1Q19	Senior	Senior bail-in	Subordinated	Long-term debt
Long-term debt (CHF billion, notional value)				
Issuances	0.2	1.4	0.3	1.9
of which unsecured	0.0	1.4	0.3	1.7
of which secured ¹	0.2	0.0	0.0	0.2
Maturities / Redemptions	2.3	0.0	0.0	2.3
of which unsecured	0.0	0.0	0.0	0.0
of which secured ¹	2.3	0.0	0.0	2.3

Excludes structured notes.

¹ Includes covered bonds.

Credit ratings

The maximum impact of a simultaneous one, two or three-notch downgrade by all three major rating agencies in the Bank's long-term debt ratings would result in additional collateral requirements or assumed termination payments under certain derivative instruments of CHF 0.3 billion, CHF 1.0 billion and CHF 1.2 billion, respectively, as of the end of 1Q19, and would not be material to our liquidity and funding planning. If the downgrade does not involve all three rating agencies, the impact may be smaller.

→ Refer to "Credit ratings" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2018 for further information relating to credit ratings and additional risks relating to derivative instruments.

Capital management

As of the end of 1Q19, our BIS CET1 ratio was 12.6% and our BIS tier 1 leverage ratio was 5.2%.

Regulatory framework

Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements), which include capital, liquidity, leverage and large exposure requirements and rules for emergency plans designed to maintain systemically relevant functions in the event of threatened insolvency.

References to phase-in and look-through included herein refer to Basel III capital requirements and Swiss Requirements. Phase-in reflects that, for the years 2013 – 2022, there is a phase-out of certain capital instruments. Look-through assumes the phase-out of certain capital instruments. Our capital metrics fluctuate during any reporting period in the ordinary course of business.

→ Refer to "Capital management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information.

BIS requirements

The BCBS, the standard setting committee within the BIS, issued the Basel III framework, with higher minimum capital requirements and conservation and countercyclical buffers, revised risk-based capital measures, a leverage ratio and liquidity standards. The framework was designed to strengthen the resilience of the banking sector and requires banks to hold more capital, mainly in the form of common equity. The new capital standards became fully effective on January 1, 2019 for those countries that have adopted Basel III.

→ Refer to "BIS requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of the BIS requirements.

Swiss Requirements

The legislation implementing the Basel III framework in Switzerland in respect of capital requirements for systemically relevant banks, including Credit Suisse, goes beyond the Basel III minimum standards for systemically relevant banks.

Under the Capital Adequacy Ordinance, Swiss banks classified as systemically important banks operating internationally, such as Credit Suisse, are subject to two different minimum requirements

for loss-absorbing capacity: global systemically important banks (G-SIBs) must hold sufficient capital that absorbs losses to ensure continuity of service (going concern requirement) and they must issue sufficient debt instruments to fund an orderly resolution without recourse to public resources (gone concern requirement).

Going concern capital and gone concern capital together form our total loss-absorbing capacity (TLAC). The going concern and gone concern requirements are generally aligned with the FSB's total loss-absorbing capacity standard.

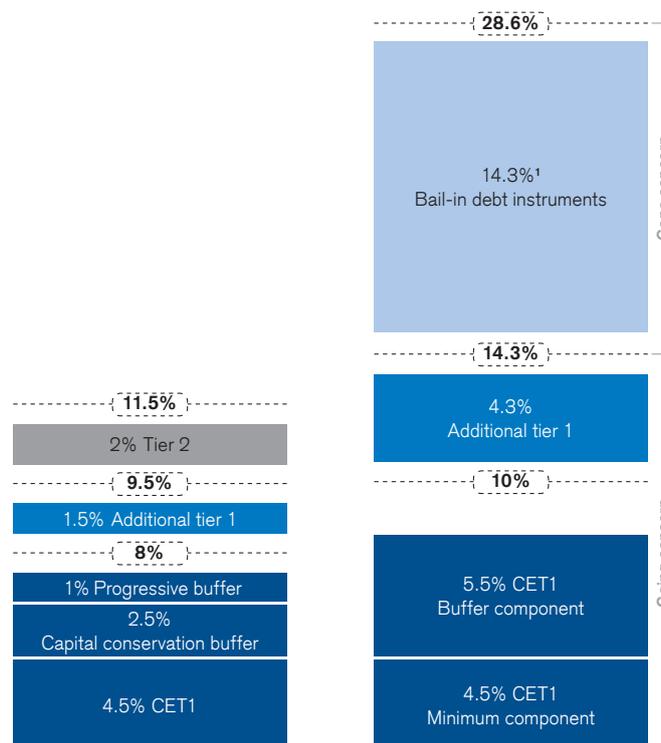

Capital frameworks for Credit Suisse

BIS Requirements

Countercyclical buffer up to 2.5% CET1

Swiss Requirements

Countercyclical buffer up to 2.5% CET1

¹ Does not include any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital.

Both the going concern and the gone concern requirements are subject to a phase-in, with gradually increasing requirements as well as grandfathering provisions for certain outstanding instruments and have to be fully applied by January 1, 2020.

Additionally, there are FINMA decrees that apply to Credit Suisse, as a systemically important bank operating internationally, including capital adequacy requirements as well as liquidity and risk diversification requirements.

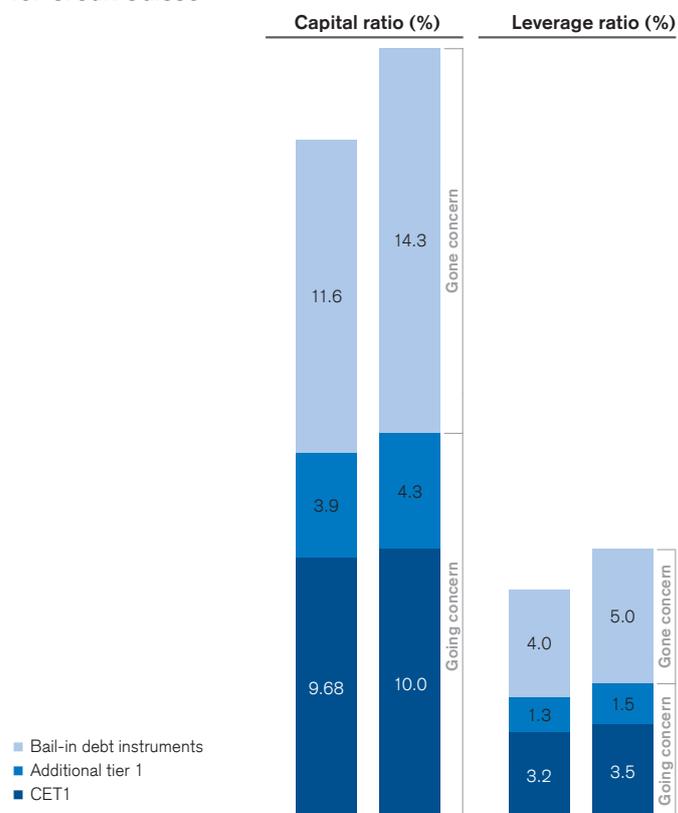

→ Refer to "Swiss Requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of the Swiss Requirements.

Other regulatory disclosures

In connection with the implementation of Basel III, certain regulatory disclosures for the Group and certain of its subsidiaries are required. The Group's Pillar 3 disclosure, regulatory disclosures, additional information on capital instruments, including the main features and terms and conditions of regulatory capital instruments and total loss-absorbing capacity-eligible instruments that form part of the eligible capital base and total loss-absorbing capacity resources, G-SIB financial indicators, reconciliation requirements, leverage ratios and certain liquidity disclosures as well as regulatory disclosures for subsidiaries can be found on our website.

→ Refer to "credit-suisse.com/regulatorydisclosures" for additional information.

Swiss capital and leverage phase-in requirements for Credit Suisse

Effective as of January 1, for the applicable year	2019	2020	2019	2020
Capital components (%)				
CET1 – minimum	4.9	4.5	1.7	1.5
Additional tier 1 – maximum	3.1	3.5	1.3	1.5
Minimum component	8.0	8.0	3.0	3.0
CET1 – minimum	4.78	5.5	1.5	2.0
Additional tier 1 – maximum	0.8	0.8	0.0	0.0
Buffer component	5.58	6.3	1.5	2.0
Going concern	13.58	14.3	4.5	5.0
of which base requirement	12.86	12.86	4.5	4.5
of which surcharge	0.72	1.44	0.0	0.5
Gone concern	11.6	14.3	4.0	5.0
of which base requirement	10.52	12.86	3.625	4.5
of which surcharge	1.08	1.44	0.375	0.5
Total loss-absorbing capacity	25.18	28.6	8.5	10.0

Does not include the effects of the countercyclical buffers and any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital. As of the end of 1Q19, the Swiss countercyclical buffer for the Group and the Bank was CHF 546 million, which is equivalent to 0.2% of CET1 capital, and the required extended countercyclical buffer was insignificant. As of the end of 1Q19, the rebate for resolvability relating to the Group and the Bank's capital ratios was 1.856%, resulting in a gone concern requirement of 9.744%, and 0.64% relating to the leverage ratios, resulting in a gone concern leverage requirement of 3.36%.

Regulatory developments

In April 2019, the Swiss Federal Department of Finance initiated a consultation on an amendment to the Capital Adequacy Ordinance. The proposed amendment provides that the requirements under the total loss-absorbing capacity regime for the Group should also be applicable to Credit Suisse AG on a stand-alone basis (Bank parent company). Under the proposed amendment, the Bank parent company would be subject to two separate minimum requirements for loss absorbing capacity, which include a

going concern requirement as well as a proposed gone concern requirement. The proposed gone concern requirement would need to be fulfilled primarily with bail-in debt instruments that are designed to absorb losses in a restructuring scenario. These bail-in debt instruments would be issued by the Bank parent company and held by the Group. The proposed amendment also includes an increase of the risk-weights under the standardized approach for credit risk for domestic residential investment properties with high loan-to-value ratios. If adopted, this amendment would become effective in January 2020.

Capital instruments

Issuances and redemptions

	Currency	Amount (million)	Interest rate (%)	Description	Year of maturity
Issuances – callable bail-in instruments					
First quarter of 2019	USD	120	–	Zero coupon accreting senior notes	2049
	USD	120	–	Zero coupon accreting senior notes	2049
	USD	100	–	Zero coupon accreting senior notes	2049
	USD	1,050	floored floating rate	Senior notes	2024
April 2019 to date	USD	100	floored floating rate	Senior notes	2023

Higher Trigger Capital Amount

The capital ratio write-down triggers for certain of our outstanding capital instruments take into account the fact that other outstanding capital instruments that contain relatively higher capital ratios as part of their trigger feature are expected to convert into equity or be written down prior to the write-down of such capital instruments. The amount of additional capital that is expected to be contributed by such conversion into equity or write-down is referred to as the Higher Trigger Capital Amount.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5.125%, the Higher Trigger Capital Amount was CHF 5.8 billion and the Higher Trigger Capital Ratio

(i.e., the ratio of the Higher Trigger Capital Amount to the aggregate of all risk-weighted assets (RWA) of the Group) was 2.0%, both as of the end of 1Q19.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5%, the Higher Trigger Capital Amount was CHF 10.5 billion and the Higher Trigger Capital Ratio was 3.6%, both as of the end of 1Q19.

- Refer to the table "BIS capital metrics" for further information on the BIS metrics used to calculate such measures.
- Refer to "Higher Trigger Capital Amount" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management – Capital instruments in the Credit Suisse Annual Report 2018 for further information on the Higher Trigger Capital Amount.

¹ Includes regulatory adjustments not subject to phase-in, including a cumulative dividend accrual.

² Net of deferred tax liability.

³ Includes cash flow hedge reserve.

⁴ Reflects 100% phased-in deductions since 2018, including goodwill, other intangible assets and certain deferred tax assets.

Our CET1 ratio was 12.6% as of the end of 1Q19, stable compared to the end of 4Q18. Our tier 1 ratio was 16.2% as of the end of 1Q19, stable compared to the end of 4Q18. Our total capital ratio was 17.6% as of the end of 1Q19, compared to 17.7% as of the end of 4Q18.

CET1 capital was CHF 36.6 billion as of the end of 1Q19, an increase compared to CHF 35.8 billion as of the end of 4Q18, mainly reflecting net income attributable to shareholders, methodology changes and a positive foreign exchange impact, partially offset by the repurchase of shares under the share buyback program.

Additional tier 1 capital was CHF 10.5 billion as of the end of 1Q19, an increase compared to CHF 10.2 billion as of the end of 4Q18, mainly reflecting a positive foreign exchange impact and valuation impacts.

Tier 2 capital was CHF 3.9 billion as of the end of 1Q19, a decrease compared to CHF 4.2 billion as of the end of 4Q18, mainly reflecting a decrease in the impact of the prescribed amortization requirement as instruments move closer to their maturity date.

Total eligible capital was CHF 50.9 billion as of the end of 1Q19, an increase compared to CHF 50.2 billion as of the end of 4Q18, primarily reflecting higher CET1 capital.

¹ Includes US GAAP cumulative translation adjustments and the foreign exchange impact on regulatory CET1 adjustments.

² Reflects the impact of a new accounting standard relating to leases.

³ Includes the net effect of share-based compensation and pensions, the impact of a dividend accrual and a change in other regulatory adjustments (e.g., the net regulatory impact of (gains)/losses on fair-valued financial liabilities due to changes in own credit risk).

⁴ Primarily reflects valuation impacts and Contingent Capital Awards.

⁵ Primarily reflects the impact of the prescribed amortization requirement as instruments move closer to their maturity date.

Risk-weighted assets

Our balance sheet positions and off-balance sheet exposures translate into RWA, which are categorized as credit, market and operational RWA. When assessing RWA, it is not the nominal size, but rather the nature (including risk mitigation such as collateral or hedges) of the balance sheet positions or off-balance sheet exposures that determines the RWA.

→ Refer to "Risk-weighted assets" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of RWA.

For capital purposes, FINMA, in line with BIS requirements, uses a multiplier to impose an increase in market risk capital for every regulatory value-at-risk (VaR) backtesting exception above four in the prior rolling 12-month period. In 1Q19, our market risk capital multiplier remained at FINMA and BIS minimum levels and we did not experience an increase in market risk capital.

→ Refer to "Market risk review" in Risk management for further information.

RWA increased 2% to CHF 290.1 billion as of the end of 1Q19 compared to CHF 284.6 billion as of the end of 4Q18, mainly resulting from increases resulting from methodology and policy changes, external model and parameter updates and movements in risk levels, all mainly in credit risk, and a positive foreign exchange impact. These increases were partially offset by decreases relating to movements in risk levels, mainly in market risk, and internal model and parameter updates, mainly in operational risk and market risk.

Excluding the foreign exchange impact, the increase in **credit risk** was primarily driven by increases in methodology and policy changes, external model and parameter updates and movements in risk levels, mainly attributable to book size. Methodology and policy changes mainly reflected the impact of the new accounting standard relating to leases. External model and parameter updates reflected a mandated adjustment relating to residential real estate loans in Swiss Universal Bank and a change from a model approach to a standardized approach for certain loans across all divisions. It also included an additional phase-in of multipliers on income producing real estate (IPRE) and non-IPRE exposures, both within Swiss Universal Bank, and an additional phase-in of a multiplier on certain investment banking corporate exposures in Investment Banking & Capital Markets, Global Markets and Asia Pacific. The increase in risk levels attributable to book size was mainly driven by increases in lending risk exposures in the Corporate Center and International Wealth Management, increases in banking book securitization exposures in Global Markets and Swiss Universal Bank and increases in advanced credit valuation adjustment (CVA) exposures in Global Markets and Swiss Universal Bank.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center.

² Represents changes in portfolio size.

³ Represents changes in average risk weighting across credit risk classes.

⁴ Represents movements arising from internally driven updates to models and recalibrations of model parameters specific only to Credit Suisse.

⁵ Represents movements arising from externally mandated updates to models and recalibrations of model parameters specific only to Credit Suisse.

⁶ Represents movements arising from externally mandated regulatory methodology and policy changes to accounting and exposure classification and treatment policies not specific only to Credit Suisse.

These increases were partially offset by decreases in lending risk exposures in Asia Pacific, Investment Banking & Capital Markets and Global Markets, decreases in banking book securitization exposures in Investment Banking & Capital Markets and the Corporate Center and decreases in advanced CVA exposures in the Corporate Center. The increase in risk levels attributable to book quality was mainly due to an increase in lending risk with corporate and private clients in Asia Pacific and International Wealth Management.

Excluding the foreign exchange impact, the decrease in **market risk** was primarily driven by movements in risk levels. The decrease in movements in risk levels was primarily in Global Markets, International Wealth Management and Asia Pacific. The decrease in internal model and parameter updates mainly related to time series updates and model enhancements to VaR, which caused decreases in Global Markets and Asia Pacific, which were partially offset by an increase in International Wealth Management.

The decrease in **operational risk** was mainly driven by internal model and parameter updates related to the annual recalibration of the advanced measurement approach model, primarily in the Corporate Center and Global Markets. In addition, internal model and parameter updates also reflected updated operational risk

allocation keys resulting in lower operational RWA in Global Markets and Swiss Universal Bank, offset by higher operational RWA in International Wealth Management, Asia Pacific and Investment Banking & Capital Markets.

Leverage metrics

Credit Suisse has adopted the BIS leverage ratio framework, as issued by the BCBS and implemented in Switzerland by FINMA. Under the BIS framework, the leverage ratio measures tier 1 capital against the end-of-period exposure. As used herein, leverage exposure consists of period-end balance sheet assets and prescribed regulatory adjustments.

The leverage exposure was CHF 901.8 billion as of the end of 1Q19, an increase compared to CHF 881.4 billion as of the end of 4Q18, reflecting higher operating activities and the foreign exchange translation impact.

→ Refer to "Balance sheet and off-balance sheet" for further information on the reduction in the Group's consolidated balance sheet.

Shareholders' equity

Our total shareholders' equity was CHF 43.8 billion as of the end of 1Q19 compared to CHF 43.9 billion as of the end of 4Q18.

Total shareholders' equity was negatively impacted by losses on fair value elected liabilities relating to credit risk, transactions relating to the settlement of share-based compensation awards and the repurchase of shares under the share buyback program, partially offset by net income attributable to shareholders and an increase in the share-based compensation obligation.

For 2019, the Board of Directors of the Group approved a share buyback program of Group ordinary shares of up to CHF 1.5 billion. We commenced the 2019 share buyback program on January 14, 2019, and in 1Q19 we repurchased 21.3 million ordinary shares totaling CHF 261 million.

→ Refer to the "Consolidated statements of changes in equity (unaudited)" in III – Condensed consolidated financial statements – unaudited for further information on shareholders' equity.

¹ Management believes that tangible shareholders' equity and tangible book value per share, both non-GAAP financial measures, are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Risk management

In 1Q19, gross impaired loans of CHF 2.1 billion were stable at 0.8% of our gross loan portfolio of CHF 294.0 billion. Our economic risk capital decreased 1% to CHF 29.1 billion and average risk management VaR decreased 4% to USD 27 million.

Overview and risk-related developments

Prudent risk taking in line with our strategic priorities is fundamental to our business. The primary objectives of risk management are to protect our financial strength and reputation, while ensuring that capital is well deployed to support business growth and activities. Our risk management framework is based on transparency, management accountability and independent oversight.

→ Refer to "Key risk developments", "Risk management oversight", "Risk appetite framework" and "Risk coverage and management" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management in the Credit Suisse Annual Report 2018 for further information and additional details of our current risk management framework and activities, including definitions of certain terms and relevant metrics.

Key risk developments

Global economy

Uncertainty surrounding global GDP growth remained in 1Q19 due to weaker world trade and the structural economic slowdown in China. We have designed a suite of stress scenarios related to a possible recession in the US and in Europe or severe economic weakness in China. We are continuing to closely monitor global economic developments and the monetary policy decisions of major central banks as well as associated risks in our portfolio.

Withdrawal of the UK from the EU

Uncertainty over the outcome of the negotiations surrounding the anticipated withdrawal of the UK from the EU persisted in early 2019. That uncertainty continued to have a negative impact on the UK economy in early 2019 and was also a factor contributing to the economic slowdown in the eurozone. In early April the EU agreed that the UK's withdrawal from the EU could be delayed until as late as October 31, 2019, if certain conditions are met. We are continuing to closely monitor this situation and its potential impact on the Group.

Ship finance

The shift towards a more protectionist foreign trade policy by the US and the uncertainty surrounding global GDP growth continued

to impact world trade and shipping markets. The industry remains highly volatile with earnings and values extremely sensitive to changes in demand and supply. We continue to execute a rigorous credit risk monitoring process given the uncertainty in the shipping industry.

Economic risk capital review

Economic risk capital is used as a consistent and comprehensive tool for capital management, limit monitoring and performance management. Economic risk capital is a Group-wide risk management tool for measuring and reporting the combined impact from quantifiable risks such as market, credit, operational, pension and expense risks, each of which has an impact on our capital position.

Economic risk capital measures risks in terms of economic realities rather than regulatory or accounting rules and estimates the amount of capital needed to remain solvent and in business under extreme market, business and operating conditions over the period of one year, given our target financial strength (our long-term credit rating). Economic risk capital is set to a level needed to absorb unexpected losses at a confidence level of 99.97%. Our economic risk capital model is a set of methodologies used for measuring quantifiable risks associated with our business activities on a consistent basis. It is calculated separately for position risk (reflecting our exposure to market and credit risks), operational risk and other risks.

We regularly review and update our economic capital methodology in order to ensure that the model remains relevant as markets and business strategies evolve. In the event of material methodology changes and dataset and model parameter updates, prior-period balances are restated in order to show meaningful trends. In 1Q19, there were no material changes to our economic risk capital methodology.

→ Refer to "Economic risk capital review" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on economic risk capital.

¹ Includes primarily high- and low-trigger capital instruments, adjustments to unrealized gains on owned real estate, reduced recognition of deferred tax assets and adjustments to treatment of pension assets and obligations. Economic adjustments are made to BIS CET1 capital to enable comparison between economic risk capital and available economic capital under the Basel III framework.

² Reflects the net difference between the sum of the position risk categories and the position risk on the total portfolio.

³ Includes owned real estate risk, expense risk, pension risk, foreign exchange risk between available economic capital and economic risk capital, interest rate risk on treasury positions, diversification benefits and the impact from deferred share-based compensation awards.

⁴ Ratio of available economic capital to economic risk capital.

Available economic capital trends

As of the end of 1Q19, our available economic capital for the Group was CHF 50.7 billion, an increase of CHF 1.5 billion from the end of 4Q18. BIS CET1 capital increased CHF 0.7 billion,

mainly reflecting net income attributable to shareholders. Economic adjustments increased CHF 0.8 billion, mainly driven by unrealized gains on our portfolio of owned real estate and the foreign exchange impact on our contingent capital instruments.

Economic risk capital by division

	End of period			Average

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center. 1Q19 average economic risk capital of the Strategic Resolution Unit is included in the Corporate Center.

² Included primarily operational risk and expense risk.

Economic risk capital trends

Compared to the end of 4Q18, our economic risk capital decreased 1% to CHF 29.1 billion, mainly due to a decrease in position risk, partially offset by an increase in other risks. The decrease in position risk was primarily driven by lower traded risk and lower credit risk, partially offset by higher securitized products risk. Traded risk decreased primarily due to a reduction in equity and interest rate higher order risks in Global Markets. Credit risk decreased mainly due to enhanced data capturing for benefits from hedging transactions executed in connection with the Group's risk-weighted assets and increased benefits from credit default swap hedges in Global Markets as well as lower corporate loan exposures in Swiss Universal Bank. Higher securitized products risk primarily reflected decreased benefit from equity derivatives hedges in Global Markets. The increase in other risks was mainly due to higher pension risk related to the impact of market movements on plan assets in our Swiss, UK and US pension plans in 4Q18 in Swiss Universal Bank, International Wealth Management and Global Markets and a decreased benefit of deferred share-based compensation awards across all business divisions, partially offset by lower expense risk in the Corporate Center and Swiss Universal Bank reflecting lower average adjusted operating expenses. Operational risk was stable.

As part of our overall risk management, we hold a portfolio of hedges. Hedges are impacted by market movements, similar to other trading securities, and may result in gains or losses which offset losses or gains on the portfolios they were designated to hedge. Due to the varying nature and structure of hedges, these gains or losses may not wholly offset the losses or gains on the portfolios.

Market risk review

Market risk is the risk of financial loss arising from movements in market risk factors. Market risks arise from both our trading and non-trading business activities. The classification of assets and liabilities into trading book and banking book portfolios determines the approach for analyzing our market risk exposure. Our principal market risk measurement for the trading book is VaR. In addition, our market risk exposures are reflected in scenario analysis, as included in our stress testing framework, position risk, as included in our economic risk capital, and sensitivity analysis.

For the purpose of this disclosure, market risk in the trading book is mainly measured using VaR and market risk in our banking book is mainly measured using sensitivity analysis on related market factors.

→ Refer to "Market risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on market risk including our VaR methodology.

Trading book

Market risks from our trading book relate to our trading activities, primarily in Global Markets (which includes International Trading Solutions) and Asia Pacific. We are active globally in the principal trading markets, using a wide range of trading and hedging products, including derivatives and structured products. Structured products are customized transactions often using combinations of derivatives and are executed to meet specific client or internal needs. As a result of our broad participation in products and markets, our trading strategies are correspondingly diverse and exposures are generally spread across a range of risks and locations.

VaR is a risk measure which quantifies the potential loss on a given portfolio of financial instruments over a certain holding period and that is expected to occur at a certain confidence level. VaR is an important tool in risk management and is used for measuring quantifiable risks from our activities exposed to market risk on a daily basis. In addition, VaR is one of the main risk measures for limit monitoring, financial reporting, calculation of regulatory capital and regulatory backtesting.

We regularly review our VaR model to ensure that it remains appropriate given evolving market conditions and the composition of our trading portfolio. In 1Q19, there were no material changes to our VaR methodology.

We have approval from FINMA, as well as from other regulators for our subsidiaries, to use our regulatory VaR model in the calculation of market risk capital requirements. Ongoing enhancements to our VaR methodology are subject to regulatory approval or notification depending on their materiality, and the model is subject to regular reviews by regulators and the Group's independent model risk management function.

Information required under Pillar 3 of the Basel framework related to risk is available on our website.

→ Refer to "credit-suisse.com/regulatorydisclosures" for further information.

The tables entitled "One-day, 98% trading book risk management VaR" and "Average one-day, 98% trading book risk management VaR by division" show our trading-related market risk exposure, as measured by one-day, 98% risk management VaR in Swiss francs and US dollars. As we measure trading book VaR for internal risk management purposes using the US dollar as the base currency, the VaR figures were translated into Swiss francs using daily foreign exchange translation rates. VaR estimates are computed separately for each risk type and for the whole portfolio using the historical simulation methodology. The different risk types are grouped into five categories including interest rate, credit spread, foreign exchange, commodity and equity.

One-day, 98% trading book risk management VaR

Average risk management VaR (USD million)								
1Q19	0	2	11	22	-	3	(11)	27
4Q18	0	2	14	23	3	0	(14)	28

Excludes risks associated with counterparty and own credit exposures. Investment Banking & Capital Markets has only banking book positions.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center.

² Difference between the sum of the standalone VaR for each division and the VaR for the Group.

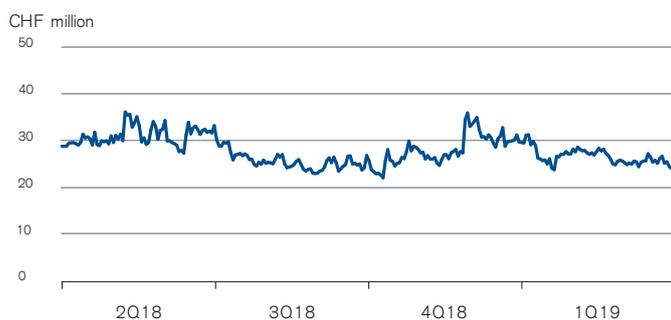

We measure VaR in US dollars, as the majority of our trading activities are conducted in US dollars.

Period-end risk management VaR of USD 24 million as of the end of 1Q19 decreased 20% compared to the end of 4Q18, primarily driven by reduced equity derivatives exposures within

Global Markets and reduced Korean won rates exposures within Asia Pacific. Average risk management VaR of USD 27 million in 1Q19 decreased 4% compared to 4Q18.

The chart entitled "Daily risk management VaR" shows the aggregated market risk in our trading book on a consolidated basis.

Daily risk management VaR (rolling four quarters)

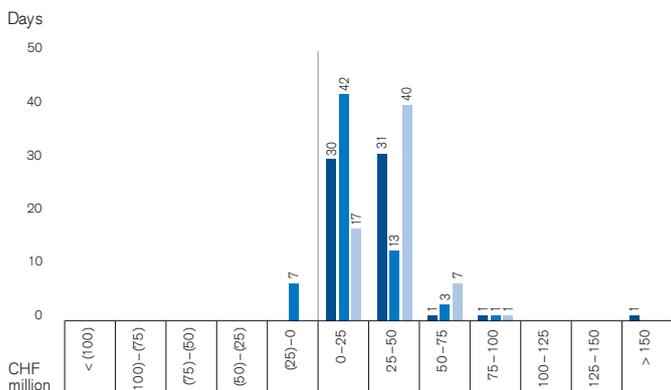

— One-day risk management VaR (98%)

Excludes risks associated with counterparty and own credit exposures.

The histogram entitled “Actual daily trading revenues” compares the actual daily trading revenues for 1Q19 with those for 4Q18. The dispersion of trading revenues indicates the day-to-day volatility in our trading activities. In 1Q19, we had no trading loss days, compared to seven trading loss days in 4Q18.

Actual daily trading revenues

■ 1Q19 ■ 4Q18 ■ 1Q18

Trading revenues exclude valuation adjustments associated with counterparty and own credit exposures.

VaR backtesting

Backtesting is one of the techniques used to assess the accuracy and performance of the VaR model used by the Group for risk management and regulatory capital purposes and serves to highlight areas of potential enhancements. Backtesting is used by regulators to assess the adequacy of regulatory capital held by the Group, calculated using VaR. Backtesting involves comparing the results produced by the VaR model with the hypothetical trading revenues on the trading book. A backtesting exception occurs when a hypothetical trading loss exceeds the daily VaR estimate.

For capital purposes and in line with BIS requirements, FINMA increases the capital multiplier for every regulatory VaR

backtesting exception above four in the prior rolling 12-month period, resulting in an incremental market risk capital requirement for the Group. For the rolling 12-month period through the end of 1Q19, we had one backtesting exception in our regulatory VaR model, remaining in the regulatory “green zone”.

→ Refer to “Market risk” in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on VaR backtesting.

→ Refer to “Risk-weighted assets” in Capital management for further information on the use of our regulatory VaR model in the calculation of trading book market risk capital requirements.

Banking book

Market risks from our banking book primarily relate to asset and liability mismatch exposures, equity participations and investments in bonds and money market instruments. Our businesses and the treasury function have non-trading portfolios that carry market risks, mainly related to changes in interest rates but also to changes in foreign exchange rates, equity prices and, to a lesser extent, commodity prices.

Interest rate risk on banking book positions is measured by estimating the impact resulting from a one basis point parallel increase in yield curves on the present value of interest rate-sensitive banking book positions. This is measured on the Group's entire banking book. As of the end of 1Q19, the interest rate sensitivity of a one basis point parallel increase in yield curves was negative CHF 2.7 million, compared to negative CHF 1.5 million as of the end of 4Q18. The change was mainly driven by client activity and the related hedging strategy in the Swiss Universal Bank.

Credit risk review

All transactions that are exposed to potential losses arising as a result of a borrower or counterparty failing to meet its financial obligations or as a result of deterioration in the credit quality of the borrower or counterparty are subject to credit risk exposure measurement and management. Credit risk arises from the execution of our business strategy in the divisions and reflects exposures directly held in the form of lending products (including loans and credit guarantees) or derivatives, shorter-term exposures such as underwriting commitments, and settlement risk related to the exchange of cash or securities outside of typical delivery versus payment structures.

→ Refer to “Credit risk” in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on credit risk.

→ Refer to “Note 18 – Loans, allowance for loan losses and credit quality” and “Note 31 – Financial instruments” in III – Condensed consolidated financial statements – unaudited for further information on loans and impaired loans and counterparty credit risk, respectively.

Loans

Compared to the end of 4Q18, gross loans increased CHF 5.5 billion to CHF 294.0 billion as of the end of 1Q19, mainly driven by higher commercial and industrial loans, increased loans collateralized by securities, higher consumer mortgages, increased consumer finance loans and the US dollar translation impact. The net increase of CHF 2.6 billion in commercial and industrial loans mainly reflected increases in Asia Pacific, International Wealth Management, Global Markets and Investment Banking & Capital Markets. The net increase of CHF 1.1 billion in loans collateralized by securities mainly reflected increases in International Wealth Management, Swiss Universal Bank and Asia Pacific. Consumer

mortgages increased CHF 0.9 billion, primarily reflecting increases in Swiss Universal Bank. The net increase of CHF 0.6 billion in consumer finance loans was driven by increases in International Wealth Management and Swiss Universal Bank.

On a divisional level, gross loans increased, CHF 1.5 billion in International Wealth Management, CHF 1.4 billion in Global Markets, CHF 1.2 billion in Swiss Universal Bank, CHF 1.1 billion in Asia Pacific and CHF 0.5 billion in Investment Banking & Capital Markets. At the beginning of 1Q19, the Strategic Resolution Unit ceased to exist as a separate division of the Group and the residual loan portfolio of CHF 1.4 billion reported as of the end of 4Q18 was transferred to the Corporate Center.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center.

² Impaired loans are only based on loans that are not carried at fair value.

³ Includes gross impaired loans of CHF 60 million and CHF 62 million as of the end of 1Q19 and 4Q18, respectively, which are mostly secured by guarantees provided by investment-grade export credit agencies.

Impaired loans

Compared to the end of 4Q18, gross impaired loans decreased CHF 44 million to CHF 2.1 billion as of the end of 1Q19, mainly reflecting lower potential problem loans and lower restructured loans in Swiss Universal Bank. These decreases were partially offset by higher potential problem loans in International Wealth Management, higher non-performing loans in International Wealth Management and Asia Pacific and higher non-interest-earning loans in Swiss Universal Bank.

In Swiss Universal Bank, gross impaired loans decreased CHF 136 million, mainly driven by repayments in commodity trade finance. In International Wealth Management, gross impaired loans increased CHF 79 million, primarily driven by newly impaired positions in ship finance and European mortgages. In Asia Pacific, gross impaired loans increased CHF 16 million, mainly reflecting a newly impaired position in aviation finance. At the beginning of 1Q19, the residual impaired loan portfolio of CHF 151 million reported as of the end of 4Q18 in the Strategic Resolution Unit was transferred to the Corporate Center.

² Allowance for loan losses is only based on loans that are not carried at fair value.

Allowance for loan losses

Compared to the end of 4Q18, the allowance for loan losses increased CHF 64 million to CHF 966 million as of the end of 1Q19, primarily due to increases in Swiss Universal Bank,

International Wealth Management and Asia Pacific, mainly reflecting net new provisions for loan losses and interest, partially offset by decreases related to write-offs of impaired loans.

Loan metrics

Selected European credit risk exposures

→ Refer to "Selected European credit risk exposures" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk review and results in the Credit Suisse Annual Report 2018 for further information on selected European credit risk exposures.

Balance sheet and off-balance sheet

As of the end of 1Q19, total assets of CHF 793.6 billion increased 3% and total liabilities of CHF 749.7 billion increased 3% compared to the end of 4Q18, reflecting higher operating activities and the foreign exchange translation impact.

The majority of our transactions are recorded on our balance sheet. However, we also enter into transactions that give rise to both on and off-balance sheet exposure.

Balance sheet

Total assets were CHF 793.6 billion as of the end of 1Q19, an increase of CHF 24.7 billion, or 3%, from the end of 4Q18, reflecting higher operating activities and the foreign exchange translation impact. Excluding the foreign exchange translation impact, total assets increased CHF 18.7 billion. Compared to the end of 4Q18, trading assets increased CHF 11.3 billion, or 8%, primarily due to higher equity securities, partially offset by lower debt securities. Net loans increased CHF 5.4 billion, or 2%,

mainly driven by higher commercial and industrial loans, increased loans collateralized by securities, higher consumer mortgages and increased consumer finance loans. Brokerage receivables increased CHF 3.4 billion, or 9%, primarily due to an increase in open trades with customers, partially offset by decreases in margin lending and open trades with banks. Central bank funds sold, securities purchased under resale agreements and securities borrowing transactions were stable. Cash and due from banks decreased CHF 5.3 billion, or 5%, mainly driven by lower cash positions at the SNB. All other assets increased CHF 10.9 billion, or 12%, mainly reflecting increases of CHF 7.8 billion, or 19%, in securities received as collateral and CHF 3.0 billion, or 8%, in other assets, primarily reflecting recognition of right-of-use assets due to the adoption of Accounting Standards Update (ASU) 2016-02 on January 1, 2019.

Balance sheet summary

Total shareholders' equity	43,825	43,922	0
Noncontrolling interests	106	97	9
Total equity	43,931	44,019	0
Total liabilities and equity	793,636	768,916	3

Total liabilities were CHF 749.7 billion as of the end of 1Q19, an increase of CHF 24.8 billion, or 3%, from the end of 4Q18, reflecting higher operating activities and the foreign exchange translation impact. Excluding the foreign exchange translation impact, total liabilities increased CHF 19.8 billion. Compared to the end of 4Q18, brokerage payables increased CHF 7.0 billion, or 23%, mainly due to an increase in open trades with banks and customers. Long-term debt increased CHF 6.0 billion, or 4%, mainly driven by higher senior debt, primarily reflecting issuances and valuation adjustments, partially offset by maturities. Due to banks increased CHF 3.6 billion, or 23%, mainly driven by increases in time and demand deposits with banks. Customer deposits were stable. Central bank funds purchased, securities sold under repurchase agreements and securities lending transactions decreased CHF 4.0 billion, or 16%, primarily due to lower repurchase transactions with customers, partially offset by higher repurchase transactions with banks. Trading liabilities decreased CHF 2.6 billion, or 6%, reflecting decreases in short positions and derivative instruments. All other liabilities increased CHF 11.7 billion, or 12%, primarily reflecting increases of CHF 7.8 billion, or 19%, in obligation to return securities received as collateral and CHF 4.6 billion, or 21%, in short-term borrowings.

→ Refer to "Funding sources" in Liquidity and funding management – Funding management and "Capital management" for further information, including our funding of the balance sheet and the leverage ratio.

Off-balance sheet

We enter into off-balance sheet arrangements in the normal course of business. Off-balance sheet arrangements are transactions or other contractual arrangements with, or for the benefit of, an entity that is not consolidated. These transactions include derivative instruments, guarantees and similar arrangements, retained or contingent interests in assets transferred to an unconsolidated entity in connection with our involvement with special purpose entities (SPEs), and obligations and liabilities (including contingent obligations and liabilities) under variable interests in unconsolidated entities that provide financing, liquidity, credit and other support.

Report of Independent Registered Public Accounting Firm

To the shareholders and Board of Directors of Credit Suisse Group AG, Zurich

Results of Review of Interim Financial Information

We have reviewed the condensed consolidated balance sheet of Credit Suisse Group AG and subsidiaries ("the Group") as of March 31, 2019, the related condensed consolidated statements of operations, comprehensive income, changes in equity, and cash flows for the three-month periods ended March 31, 2019 and 2018, and the related notes (collectively, the consolidated interim financial information). Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial information for it to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Group as of December 31, 2018, and the related consolidated statements of operations, comprehensive income, changes in equity, and cash flows for the year then ended (not presented herein); and in our report dated March 22, 2019, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2018, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

This consolidated interim financial information is the responsibility of the Group's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Group in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our reviews in accordance with the standards of the PCAOB. A review of consolidated interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Notes to the condensed consolidated financial statements – unaudited

1 Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of Credit Suisse Group AG (the Group) are prepared in accordance with accounting principles generally accepted in the US (US GAAP) and are stated in Swiss francs (CHF). These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2018 included in the Credit Suisse Annual Report 2018.

→ Refer to "Note 1 – Summary of significant accounting policies" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for a description of the Group's significant accounting policies.

Certain financial information, which is normally included in annual consolidated financial statements prepared in accordance with US GAAP, but not required for interim reporting purposes, has been condensed or omitted. Certain reclassifications have been made to the prior period's consolidated financial statements to conform

to the current period's presentation. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the condensed consolidated financial statements for the periods presented. The 4Q18 consolidated statements of operations and comprehensive income and the 4Q18 consolidated statements of changes in equity have been added for the convenience of the reader and are not a required presentation under US GAAP. The results of operations for interim periods are not indicative of results for the entire year.

In preparing these condensed consolidated financial statements, management is required to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the condensed consolidated balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2 Recently issued accounting standards

Recently adopted accounting standards

The following provides the most relevant recently adopted accounting standards.

→ Refer to "Note 2 – Recently issued accounting standards" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for a description of accounting standards adopted in 2018.

ASC Topic 220 – Income Statements – Reporting Comprehensive Income

In January 2018, the Financial Accounting Standards Board (FASB) issued ASU 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" (ASU 2018-02), an update to Accounting Standards Codification (ASC) Topic 220 – Income Statement – Reporting Comprehensive Income. The amendments in ASU 2018-02 allowed a reclassification from accumulated other comprehensive income (AOCI) to retained earnings for the stranded tax effects resulting from the US Tax Cuts and Jobs Act. ASU 2018-02 was effective for annual reporting periods and interim periods within those periods beginning after December 15, 2018. Early adoption was permitted. The adoption of ASU 2018-02 on January 1, 2019 resulted in a net increase in retained earnings of CHF 64 million as a result of the reclassification from AOCI to retained earnings, which was the result of the re-measurement of deferred tax assets and liabilities associated with the change in tax rates.

ASC Topic 350 – Intangibles – Goodwill and Other

In August 2018, the FASB issued ASU 2018-15, "Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract" (ASU 2018-15), an update to ASC Subtopic 350-40 – Intangibles – Goodwill and Other – Internal-Use Software. The amendments in

ASU 2018-15 align the requirements for capitalizing costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. ASU 2018-15 is effective for annual reporting periods beginning after December 15, 2019, including interim periods within those annual reporting periods and can be applied either retrospectively or prospectively. Early adoption, including adoption in an interim period, was permitted. The Group elected to early adopt ASU 2018-15 prospectively on January 1, 2019. The adoption of ASU 2018-15 did not have a material impact on the Group's financial position, results of operations or cash flows.

ASC Topic 815 – Derivatives and Hedging

In August 2017, the FASB issued ASU 2017-12, "Targeted Improvements to Accounting for Hedging Activities" (ASU 2017-12), an update to ASC Topic 815 – Derivatives and Hedging. ASU 2017-12 made changes to the hedge accounting model intended to facilitate financial reporting that more closely reflected an entity's risk management activities and simplified application of hedge accounting. The amendments in ASU 2017-12 provided more hedging strategies that will be eligible for hedge accounting, eased the documentation and effectiveness assessment requirements and resulted in changes to the presentation and disclosure requirements of hedge accounting activities. ASU 2017-12 was effective for annual reporting periods beginning after December 15, 2018, and for the interim periods within those annual reporting periods. Early adoption, including adoption in an interim period, was permitted. The adoption of ASU 2017-12 on January 1, 2019 did not have a material impact on the Group's financial position, results of operations and cash flows.

In October 2018, the FASB issued ASU 2018-16, "Inclusion of the Secured Overnight Financing Rate (SOFR) Overnight Index Swap (OIS) Rate as a Benchmark Interest Rate for Hedge Accounting Purposes" (ASU 2018-16), an update to ASC Topic 815 – Derivatives and Hedging. ASU 2018-16 permitted the use of the OIS rate based on the SOFR as a US benchmark interest rate for hedge accounting purposes and was effective for the Group on January 1, 2019. The adoption of ASU 2018-16 on January 1, 2019 did not impact the Group's existing hedges.

ASC Topic 820 – Fair Value Measurement

In August 2018, the FASB issued ASU 2018-13, "Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement" (ASU 2018-13), an update to ASC Topic 820 – Fair Value Measurement. The amendments in ASU 2018-13 remove, modify and add certain disclosure requirements in ASC Topic 820, Fair Value Measurement. ASU 2018-13 is effective for annual reporting periods beginning after December 15, 2019 and for the interim periods within those annual reporting periods. Early adoption is permitted, including in an interim period, for any eliminated or modified disclosure requirements. The Group early adopted the provisions for removing and modifying certain disclosures upon issuance of ASU 2018-13. As these amendments relate to disclosures, the adoption did not have an impact on the Group's financial position, results of operations or cash flows. The Group is currently evaluating the impact of the adoption of the remaining amendments in ASU 2018-13.

ASC Topic 842 – Leases

In February 2016, the FASB issued ASU 2016-02, "Leases" (ASU 2016-02), creating ASC Topic 842 – Leases and superseding ASC Topic 840 – Leases. ASU 2016-02 set out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 also included disclosure requirements to provide more information about the amount, timing and uncertainty of cash flows arising from leases. Lessor accounting was substantially unchanged compared to the current accounting guidance. Under the current lessee accounting model the Group is required to distinguish between finance leases, which are recognized on the balance sheet, and operating leases, which are not. ASU 2016-02 required lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet irrespective of the lease classification.

The Group adopted ASU 2016-02 and its subsequent amendments on January 1, 2019 using the modified retrospective approach, with a transition adjustment recognized in retained earnings without restating comparatives. The Group elected the use of the package of practical expedients and the practical expedient to use hindsight.

As a result of adoption, the Group recognized lease liabilities and related right-of-use assets of approximately CHF 3.5 billion and CHF 3.3 billion, respectively. In addition, the Group recognized an increase in retained earnings of approximately CHF 0.2 billion, net of tax, which included the release of previously deferred gains on sale lease-back transactions and previously unrecognized impairment losses.

Standards to be adopted in future periods

ASC Topic 326 – Financial Instruments – Credit Losses

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments" (ASU 2016-13), creating ASC Topic 326 – Financial Instruments – Credit Losses. ASU 2016-13 is intended to improve financial reporting by requiring timelier recording of credit losses on financial assets measured at amortized cost basis including, but not limited to loans, net investments in leases recognized as lessor and off-balance sheet credit exposures. ASU 2016-13 eliminates the probable initial recognition threshold under the current incurred loss methodology for recognizing credit losses. Instead, ASU 2016-13 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. The Group will incorporate forward-looking information and macroeconomic factors into its credit loss estimates. ASU 2016-13 requires enhanced disclosures to help investors and other financial statement users to better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. As the Group is a US Securities and Exchange Commission filer, ASU 2016-13 and its subsequent amendments are effective for annual reporting periods beginning after December 15, 2019, including interim periods within those annual reporting periods. Early adoption is permitted for annual reporting periods, including interim periods within those annual reporting periods, beginning after December 15, 2018. The Group plans to adopt ASU 2016-13 and its subsequent amendments on January 1, 2020.

The Group has established a cross-functional implementation team and governance structure for the project. The Group has decided on a current expected credit loss (CECL) methodology and continues to adjust for key interpretive issues while monitoring the FASB's ongoing accounting standards development. The Group intends to utilize multiple macroeconomic scenarios in estimating expected credit losses. Furthermore, the Group will continue to monitor the scope assessment, as a basis to determine the requirements and data sourcing of the CECL models, and to develop, build and test the models until the effective date. Model validation commenced in 1Q19 and parallel runs are expected to begin in 3Q19.

The Group expects that the new CECL methodology would generally result in increased and more volatile allowance for loan losses. The main impact drivers include:

- the remaining life of the loans measured at amortized cost and the off-balance sheet credit exposures at the adoption date and subsequent reporting dates because of the new requirement to measure lifetime expected credit losses;
- the state of the economy at the adoption date and subsequent reporting dates because of the new requirement to incorporate reasonable and supportable forward-looking information and macroeconomic factors; and
- the credit quality of the loans measured at amortized cost and the off-balance sheet credit exposures at the adoption date and subsequent reporting dates.

Upon adoption of the standard, the Group expects a cumulative adjustment to retained earnings for any changes in credit loss allowances. As the implementation progresses, the Group will continue to evaluate the extent of the impact of the adoption of

ASU 2016-13 and its subsequent amendments on the Group's financial position, results of operations, cash flows and related disclosures.

ASC Topic 715 – Compensation – Retirement Benefits

In August 2018, the FASB issued ASU 2018-14, "Changes to the Disclosure Requirements for Defined Benefit Plans" (ASU 2018-14), an update to ASC Topic 715 – Compensation—Retirement Benefits—Defined Benefit Plans—General (Subtopic 715-20): Disclosure Framework. ASU 2018-14 modifies the disclosure framework to improve disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. ASU 2018-14 is effective for annual reporting periods ending after December 15, 2020, with early adoption permitted. ASU 2018-14 should be applied on a retrospective approach for all periods presented. As these amendments relate only to disclosures, there will be no impact from the adoption of ASU 2018-14 on the Group's financial position, results of operations or cash flows.

3 Business developments and subsequent events

Business developments

There were no significant business developments for the Group in 1Q19.

Subsequent event

On April 3, 2019, Credit Suisse announced an amendment to its existing Swiss defined benefit pension plan and the introduction of a new Swiss defined contribution plan. Effective January 1, 2020,

savings contributions on gross salary components exceeding a certain threshold will be credited to a new Swiss defined contribution plan and no longer paid into the lump-sum component of the existing Swiss defined benefit pension plan. In the new Swiss defined contribution plan insured employees can select the investment strategy and will bear the investment risk. These changes are expected to result in a reduction of the Swiss pension plan liabilities and an increase in the overall funding surplus of the existing Swiss defined benefit pension plan of approximately CHF 430 million which will be recognized in 2Q19.

4 Segment information

The Group is a global financial services company domiciled in Switzerland and serves its clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by two other divisions specialized in investment banking capabilities: Global Markets and Investment Banking & Capital Markets. Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio

remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center. The segment information reflects the Group's reportable segments and the Corporate Center, which are managed and reported on a pre-tax basis.

→ Refer to "Note 4 – Segment information" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on segment information, revenue sharing and cost allocation and funding.

Utilization	–	–	–	(15)	(52)	(67)	(61)	(16)	(77)
Balance at end of period	0	0	0	156	190	346	204	108	312

¹ The following items for which expense accretion was accelerated in 4Q18 and 1Q18 due to the restructuring of the Group are not included in the restructuring provision: unsettled share-based compensation of CHF 1 million and CHF 26 million, respectively, which remain classified as a component of total shareholders' equity; unsettled pension obligations of CHF 16 million and CHF 27 million, respectively, which remain classified as pension liabilities; unsettled cash-based deferred compensation of CHF 3 million and CHF 8 million, respectively, which remain classified as compensation liabilities; and accelerated accumulated depreciation and impairment of CHF 54 million and CHF 0 million, respectively, which remain classified as premises and equipment. The settlement date for the unsettled share-based compensation remains unchanged at three years.

² In 1Q19, CHF 97 million were transferred to litigation provisions and CHF 59 million were transferred to other liabilities.

³ In 1Q19, CHF 167 million were transferred to right-of-use assets in accordance with ASU 2016-02 and CHF 23 million to other liabilities.

13 Earnings per share

in	1Q19	4Q18	1Q18
Basic net income/(loss) attributable to shareholders (CHF million)			
Net income attributable to shareholders for basic earnings per share	749	259	694
Net income attributable to shareholders for diluted earnings per share	749	259	694
Weighted-average shares outstanding (million)			
For basic earnings per share available for common shares	2,573.1	2,564.3	2,586.4
Dilutive share options and warrants	3.4	4.0	2.2
Dilutive share awards	45.3	52.1	65.1
For diluted earnings per share available for common shares ¹	2,621.8	2,620.4	2,653.7
Earnings/(loss) per share available for common shares (CHF)			
Basic earnings per share available for common shares	0.29	0.10	0.27
Diluted earnings per share available for common shares	0.29	0.10	0.26

¹ Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 6.7 million, 6.5 million and 11.6 million for 1Q19, 4Q18 and 1Q18, respectively.

14 Revenue from contracts with customers

The Group receives investment advisory and investment management fees for services provided in its wealth management businesses which are generally reflected in the line item 'Investment and portfolio management' in the table "Contracts with customers and disaggregation of revenues".

As a fund manager, the Group typically receives base management fees and may additionally receive performance-based management fees which are both recognized as 'Investment and portfolio management' revenues in the table "Contracts with customers and disaggregation of revenues".

The Group's capital markets businesses underwrite and sell securities on behalf of customers and receives underwriting fees.

The Group also offers brokerage services in its investment banking businesses, including global securities sales, trading and execution, prime brokerage and investment research. For the services provided, for example the execution of client trades in securities or derivatives, the Group typically earns a brokerage commission when the trade is executed.

Credit Suisse's investment banking businesses provide services that include advisory services to clients in connection with corporate finance activities. The term 'advisory' includes any type of service the Group provides in an advisory capacity. Revenues recognized from these services are reflected in the line item 'Other Services' in the table.

Contracts with customers and disaggregation of revenues

in	1Q19	4Q18	1Q18
Contracts with customers (CHF million)			
Investment and portfolio management	845	898	892
Other securities business	12	13	12
Underwriting	345	330	470
Brokerage	694	647	810
Other services	322	492	487
Total revenues from contracts with customers	2,218	2,380	2,671

The table above differs from "Note 6 – Commissions and fees" as it includes only those contracts with customers that are in scope of ASC Topic 606 – Revenue from Contracts with Customers.

Contract balances

end of / in	1Q19	4Q18	1Q18
Contract balances (CHF million)			
Contract receivables	839	791	758
Contract liabilities	58	56	67
Revenue recognized in the reporting period included in the contract liabilities balance at the beginning of period	7	16	13

The Group's contract terms are generally such that they do not result in any contract assets.

The Group did not recognize any revenue in the reporting period from performance obligations satisfied in previous periods.

Remaining performance obligations

ASC Topic 606's practical expedient allows the Group to exclude from its remaining performance obligations disclosure of any performance obligations which are part of a contract with an original expected duration of one year or less. Additionally any variable consideration, for which it is probable that a significant reversal in the amount of cumulative revenue recognized will occur when the uncertainty associated with the variable consideration

is subsequently resolved, is not subject to the remaining performance obligations disclosure because such variable consideration is not included in the transaction price (e.g., investment management fees). The Group determined that no material remaining performance obligations are in scope of the remaining performance obligations disclosure.

→ Refer to "Note 14 – Revenue from contracts with customers" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

15 Trading assets and liabilities

² As of the end of 1Q19 and 4Q18, real estate held for investment included foreclosed or repossessed real estate of CHF 3 million, all related to residential real estate.

³ Includes life settlement contracts at investment method and single premium immediate annuity contracts.

Equity securities at measurement alternative – impairments and adjustments

in / end of	1Q19	Cumulative	1Q18
Impairments and adjustments (CHF million)			
Impairments and downward adjustments	0	(7)	(3)

Equity securities without a readily determinable fair value held by subsidiaries that are considered investment companies are held by separate legal entities that are within the scope of ASC Topic 946 – Financial Services – Investment Companies. In addition, equity securities without a readily determinable fair value held by subsidiaries that are considered broker-dealer entities are held by separate legal entities that are within the scope of ASC Topic 940 – Financial Services – Brokers and Dealers. Equity securities without a readily determinable fair value include investments in entities that regularly calculate net asset value (NAV) per share or its equivalent.

→ Refer to "Note 31 – Financial instruments" for further information on such investments.

The Group performs a regular impairment analysis of real estate portfolios. If an impairment was identified, the carrying values of the impaired properties were written down to their respective fair values, establishing a new cost base. For these properties, the fair values were measured based on either discounted cash flow analyses or external market appraisals. No impairments were recorded on real estate held-for-investments in 1Q19, 4Q18 and 1Q18, respectively.

Accumulated depreciation related to real estate held-for-investment amounted to CHF 32 million and CHF 31 million for 1Q19 and 4Q18, respectively.

18 Loans, allowance for loan losses and credit quality

→ Refer to "Note 19 – Loans, allowance for loan losses and credit quality" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on loans, allowance for loan losses, credit quality, value of collateral and impaired loans.

Net book value (CHF million)						
Net book value	619	1,560	1,518	467	643	4,807

¹ Gross amounts include goodwill of CHF 12 million related to legacy business transferred to the former Strategic Resolution Unit in 4Q15 and fully written off at the time of transfer, in addition to the divisions disclosed.

In accordance with US GAAP, the Group continually assesses whether or not there has been a triggering event requiring a review of goodwill. The Group determined in 1Q19 that a goodwill triggering event occurred for the Asia Pacific – Markets, Global Markets and Investment Banking & Capital Markets reporting units.

Based on its goodwill impairment analysis performed as of March 31, 2019, the Group concluded that the estimated fair value for all of the reporting units with goodwill substantially exceeded their related carrying values and no impairment was necessary as of March 31, 2019.

The carrying value of each reporting unit for the purpose of the goodwill impairment test is determined by considering the reporting units' risk-weighted assets usage, leverage ratio exposure, deferred tax assets, goodwill and intangible assets. Any residual equity, after considering the total of these elements, is allocated to the reporting units on a pro-rata basis.

In estimating the fair value of its reporting units, the Group applied a combination of the market approach and the income approach. Under the market approach, consideration was given to price to projected earnings multiples or price to book value multiples for similarly traded companies and prices paid in recent transactions that have occurred in its industry or in related

industries. Under the income approach, a discount rate was applied that reflects the risk and uncertainty related to the reporting unit's projected cash flows, which were determined from the Group's financial plan.

In determining the estimated fair value, the Group relied upon its latest five-year strategic business plan which included significant management assumptions and estimates based on its view of current and future economic conditions and regulatory changes, and as approved by the Board of Directors.

The results of the impairment evaluation of each reporting unit's goodwill would be significantly impacted by adverse changes in the underlying parameters used in the valuation process. If actual outcomes adversely differ by a significant margin from its best estimates of the key economic assumptions and associated cash flows applied in the valuation of the reporting unit, the Group could potentially incur material impairment charges in the future.

21 Leases

The Group enters into both lessee and lessor arrangements. A lease is identified when a contract (or a part of a contract) exists that conveys the right to control the use of an identified asset for a period of time in exchange for consideration. In determining whether a contract contains a lease, the Group has assessed whether there is an identifiable asset and whether it has the right to control the use of the identified asset.

→ Refer to "Note 2 – Recently issued accounting standards" for further information.

Lessee arrangements

The Group recognizes right-of-use (ROU) assets, which are reported as other assets, and lease liabilities, which are reported as other liabilities or long-term debt. ROU assets represent the right to use an underlying asset for the lease term, and lease liabilities represent an obligation to make lease payments under the lease contract. ROU assets and lease liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term.

→ Refer to "Note 20 – Other assets and other liabilities" and "Note 22 – Long-term debt".

The Group enters into leases with fixed or variable lease payments, or with lease payments that depend on an index or a referenced rate. Lease payments at lease commencement which depend on an index or a referenced rate are considered to be unavoidable. Other variable lease payments, as well as subsequent changes in an index or referenced rate, are excluded from the lease liabilities. The Group's incremental borrowing rate, which is used in determining the present value of lease payments, is derived from information available at the lease commencement date. The incremental borrowing rate used for leases is a comparable rate that the Group would expect to pay if it were borrowing from a third party.

The Group primarily enters into operating leases. Operating leases result in a single lease cost, calculated such that the cost of the lease is allocated over the remaining lease term on a straight-line basis. Operating lease expenses are recognized in general and administrative expenses. For all leases other than real estate leases, the Group does not separate lease and non-lease components. The Group's finance leases in 1Q19 were not material.

For certain leases, there are options that permit the Group to extend or terminate these leases. Such options are only included in the measurement of ROU assets and lease liabilities when it is reasonably certain that the Group would exercise the extension option or would not exercise the termination option. The Group has entered into real estate and equipment leases. The Group has leases relating to a portfolio of residential solar panels that it subsequently subleased. Some of these leases contain early termination terms after the tenth year and renewal options from one to four years. Certain real estate leases include restrictions, for example, conditions relating to naming rights or signage.

Lease costs

in	1Q19
Lease costs (CHF million)	
Operating lease costs	114
Variable lease costs	2
Sublease income	(18)
Total lease costs	98

From time to time, the Group enters into sale-leaseback transactions in which an asset is sold and immediately leased back. If specific criteria are met, the asset is derecognized from the balance sheet and an operating lease is recognized. During 1Q19, the Group entered into two sale-leaseback transactions in respect of own property, each with a lease term of five years, and during

2018, the Group entered into one sale-leaseback transaction in respect of own property, with a lease term of ten years.

Other information pertaining to leases

in	1Q19
Other information (CHF million)	
Gains/(losses) on sale and leaseback transactions	30
Cash paid for amounts included in the measurement of operating lease liabilities recorded in operating cash flows	(141)

Changes to right-of-use assets due to lease modifications for operating leases	(1)

¹ Includes right-of-use assets relating to changes in classification of scope of variable interest entities.

The weighted average remaining lease terms and discount rates are based on all outstanding operating leases as well as their respective lease terms and remaining lease obligations.

Weighted average remaining lease term and discount rate

end of	1Q19
Operating leases	
Remaining lease term (years)	12.85
Discount rate (%)	3.04

The following table reflects the undiscounted cash flows from leases for the next five years and thereafter, based on the expected lease term.

Maturity of operating lease liabilities

end of	1Q19
Maturity (CHF million)	
Due within 1 year	508
Due between 1 and 2 years	465
Due between 2 and 3 years	369
Due between 3 and 4 years	342
Due between 4 and 5 years	312
Thereafter	2,204
Total	4,200
Future interest payable	(732)
Lease liabilities	3,468

Upon adoption of ASU 2016-02 and its subsequent amendments on January 1, 2019, the Group revised the future operating lease commitments to reflect the expected term of the leases. Previously, the operating lease commitments were based on the minimum contractual term of the lease.

Maturity of operating lease commitments

end of	4Q18
Maturity (CHF million)	
2019	503
2020	484
2021	381
2022	354
2023	320
Thereafter	2,209
Future operating lease commitments	4,251
Less minimum non-cancellable sublease rentals	(190)
Total net future minimum lease commitments	4,061

Lessor arrangements

In lessor arrangements, consideration in a contract is allocated to each separate lease component and each non-lease component on a relative basis in proportion to the stand-alone selling price. The stand-alone selling price is the price at which a customer would purchase the component separately. The Group enters into sales-type, direct financing and operating leases for real estate and equipment.

For sales-type and direct financing leases, which are classified as loans, the Group de-recognizes the underlying asset and recognizes a net investment in the lease. The net investment in the lease is calculated as the lease receivable plus the unguaranteed portion of the estimated residual value. The lease receivable is initially measured at the present value of the sum of the future lease payments receivable over the lease term and any portion of the estimated residual value at the end of the lease term that is guaranteed by either the lessee or an unrelated third party. The Group initially measures the unguaranteed residual value of the asset as the present value of the amount the lessor expects to derive from the underlying asset following the end of the lease term that is not guaranteed by the lessee or any other third party unrelated to the lessor. The discount rate used is the rate implicit in the lease.

→ Refer to "Note 18 – Loans, allowance for loan losses and credit quality" for further information on impaired loans.

For operating leases, the Group continues to recognize the underlying asset and depreciates the asset over its estimated useful life. Lease income is recognized on a straight-line basis over the lease term. Initial direct costs are deferred and expensed over the lease term. Lease payments are recorded when due and payable by the lessee.

Lease income	
in	1Q19
Lease income (CHF million)	
Interest income on sales-type lease receivables	1
Interest income on direct financing lease receivables	27
Lease income from operating leases	18
Variable lease income	1
Total lease income	47

The Group elected the practical expedient to not evaluate whether certain sales taxes and other similar taxes are lessor cost or lessee cost and excludes these costs from being reported as lease income with an associated expense.

The Group enters into leases with fixed or variable lease payments, or with lease payments that depend on an index or a referenced rate which are included in the net investment in the lease at lease commencement, as such payments are considered unavoidable. Other variable lease payments, as well as subsequent changes in an index or referenced rate, are excluded from the net investment in the lease.

For certain leases, there are options that permit the lessee to extend or renew these leases. Such options are only included in the measurement of lease receivables for sales-type and direct financing leases when it is reasonably certain that the lessee would exercise these options. Certain leases include termination options that allow lessees to terminate the leases within three months of the commencement date, with a notice period of 30 days. Certain leases include termination options that allow the Group to terminate the lease but do not provide the lessee with the same option. Certain leases include termination penalties, options to prepay the payments for the remaining lease term or

options that permit the lessee to purchase the leased asset at market value or at the greater of market value and the net present value of the remaining payments.

The Group has entered into a vehicle lease as a lessor with a member of the Board of Directors. The terms of the lease are similar to those with third parties.

24 Offsetting of financial assets and financial liabilities

The disclosures set out in the tables below include derivatives, reverse repurchase and repurchase agreements, and securities lending and borrowing transactions that:

- are offset in the Group's consolidated balance sheets; or
- are subject to an enforceable master netting agreement or similar agreement (enforceable master netting agreements), irrespective of whether they are offset in the Group's consolidated balance sheets.

Similar agreements include derivative clearing agreements, global master repurchase agreements and global master securities lending agreements.

Derivatives

The Group transacts bilateral over-the-counter (OTC) derivatives (OTC derivatives) mainly under International Swaps and Derivatives Association (ISDA) Master Agreements and Swiss Master Agreements for OTC derivative instruments. These agreements provide for the net settlement of all transactions under the agreement through a single payment in the event of default or termination under the agreement. They allow the Group to offset balances from derivative assets and liabilities as well as the receivables and payables to related cash collateral transacted with the same counterparty. Collateral for OTC derivatives is received and provided in the form of cash and marketable securities. Such collateral may be subject to the standard industry terms of an ISDA Credit Support Annex. The terms of an ISDA Credit Support Annex provide that securities received or provided as collateral may be pledged or sold during the term of the transactions and must be returned upon maturity of the transaction. These terms also give each counterparty the right to terminate the related transactions upon the other counterparty's failure to post collateral. Financial collateral received or pledged for OTC derivatives may also be subject to collateral agreements which restrict the use of financial collateral.

For derivatives transacted with exchanges (exchange-traded derivatives) and central clearing counterparties (OTC-cleared derivatives), positive and negative replacement values (PRV/NRV) and related cash collateral may be offset if the terms of the rules and regulations governing these exchanges and central clearing counterparties permit such netting and offset.

Where no such agreements or terms exist, fair values are recorded on a gross basis.

Exchange-traded derivatives or OTC-cleared derivatives, which are fully margined and for which the daily margin payments constitute settlement of the outstanding exposure, are not included in the offsetting disclosures because they are not subject to offsetting due to the daily settlement. The daily margin payments, which are not settled until the next settlement cycle is conducted, are presented in brokerage receivables or brokerage payables. The notional amount for these daily settled derivatives is included in the fair value of derivative instruments table in "Note 28 – Derivatives and hedging activities".

Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value. There is an exception for certain bifurcated hybrid debt instruments which the Group did not elect to account for at fair value. However, these bifurcated embedded derivatives are generally not subject to enforceable master netting agreements and are not recorded as derivative instruments under trading assets and liabilities or other assets and other liabilities. Information on bifurcated embedded derivatives has therefore not been included in the offsetting disclosures.

The following table presents the gross amount of derivatives subject to enforceable master netting agreements by contract and transaction type, the amount of offsetting, the amount of derivatives not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

¹ Primarily precious metals, commodity and energy products.

² Represents derivatives where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place.

Reverse repurchase and repurchase agreements and securities lending and borrowing transactions

Reverse repurchase and repurchase agreements are generally covered by global master repurchase agreements. In certain situations, for example, in the event of default, all contracts under the agreements are terminated and are settled net in one single payment. Global master repurchase agreements also include payment or settlement netting provisions in the normal course of business that state that all amounts in the same currency payable by each party to the other under any transaction or otherwise under the global master repurchase agreement on the same date shall be set off.

Transactions under such agreements are netted in the consolidated balance sheets if they are with the same counterparty, have the same maturity date, settle through the same clearing institution and are subject to the same enforceable master netting agreement. The amounts offset are measured on the same basis as the underlying transaction (i.e., on an accrual basis or fair value basis).

Securities lending and borrowing transactions are generally executed under global master securities lending agreements with netting terms similar to ISDA Master Agreements. In certain situations, for example in the event of default, all contracts under the agreement are terminated and are settled net in one single payment. Transactions under these agreements are netted in the consolidated balance sheets if they meet the same right of offset

criteria as for reverse repurchase and repurchase agreements. In general, most securities lending and borrowing transactions do not meet the criterion of having the same settlement date specified at inception of the transaction, and therefore they are not eligible for netting in the consolidated balance sheets. However, securities lending and borrowing transactions with explicit maturity dates may be eligible for netting in the consolidated balance sheets.

Reverse repurchase and repurchase agreements are collateralized principally by government securities, money market instruments and corporate bonds and have terms ranging from overnight to a longer or unspecified period of time. In the event of counterparty default, the reverse repurchase agreement or securities lending agreement provides the Group with the right to liquidate the collateral held. As is the case in the Group's normal course of business, a significant portion of the collateral received that may be sold or repledged was sold or repledged as of the end of 1Q19 and 4Q18. In certain circumstances, financial collateral received may be restricted during the term of the agreement (e.g., in tri-party arrangements).

The following table presents the gross amount of securities purchased under resale agreements and securities borrowing transactions subject to enforceable master netting agreements, the amount of offsetting, the amount of securities purchased under resale agreements and securities borrowing transactions not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

Offsetting of securities purchased under resale agreements and securities borrowing transactions

end of	1Q19			4Q18		
	Gross	Offsetting	Net book value	Gross	Offsetting	Net book value
Securities purchased under resale agreements and securities borrowing transactions (CHF billion)						
Securities purchased under resale agreements	81.2	(16.1)	65.1	86.6	(20.9)	65.7
Securities borrowing transactions	10.9	(1.4)	9.5	12.6	(2.2)	10.4
Total subject to enforceable master netting agreements	92.1	(17.5)	74.6	99.2	(23.1)	76.1
Total not subject to enforceable master netting agreements ¹	41.6	–	41.6	41.0	–	41.0
Total	133.7	(17.5)	116.2 ²	140.2	(23.1)	117.1 ²

¹ Represents securities purchased under resale agreements and securities borrowing transactions where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place.

² CHF 81,730 million and CHF 81,818 million of the total net amount as of the end of 1Q19 and 4Q18, respectively, are reported at fair value.

The following table presents the gross amount of securities sold under repurchase agreements and securities lending transactions subject to enforceable master netting agreements, the amount of offsetting, the amount of securities sold under repurchase

agreements and securities lending transactions not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

Offsetting of securities sold under repurchase agreements and securities lending transactions

end of	1Q19			4Q18		
	Gross	Offsetting	Net book value	Gross	Offsetting	Net book value
Securities sold under repurchase agreements and securities lending transactions (CHF billion)						
Securities sold under repurchase agreements	30.9	(16.9)	14.0	42.3	(22.5)	19.8
Securities lending transactions	4.7	(0.6)	4.1	4.2	(0.6)	3.6
Obligation to return securities received as collateral, at fair value	48.5	0.0	48.5	39.4	0.0	39.4
Total subject to enforceable master netting agreements	84.1	(17.5)	66.6	85.9	(23.1)	62.8
Total not subject to enforceable master netting agreements ¹	3.0	–	3.0	3.5	–	3.5
Total	87.1	(17.5)	69.6	89.4	(23.1)	66.3
of which securities sold under repurchase agreements and securities lending transactions	37.6	(17.5)	20.1 ²	47.7	(23.1)	24.6 ²
of which obligation to return securities received as collateral, at fair value	49.5	0.0	49.5	41.7	0.0	41.7

¹ Represents securities sold under repurchase agreements and securities lending transactions where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place.

² CHF 9,745 million and CHF 14,828 million of the total net amount as of the end of 1Q19 and 4Q18, respectively, are reported at fair value.

The following table presents the net amount presented in the consolidated balance sheets of financial assets and liabilities subject to enforceable master netting agreements and the gross amount of financial instruments and cash collateral not offset in the consolidated balance sheets. The table excludes derivatives, reverse repurchase and repurchase agreements and securities

lending and borrowing transactions not subject to enforceable master netting agreements where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place. Net exposure reflects risk mitigation in the form of collateral.

Amounts not offset in the consolidated balance sheets

end of	1Q19				4Q18			
	Net book value	Financial instruments ¹	Cash collateral received/pledged ¹	Net exposure	Net book value	Financial instruments ¹	Cash collateral received/pledged ¹	Net exposure
Financial assets subject to enforceable master netting agreements (CHF billion)								
Derivatives	14.7	4.5	0.0	10.2	14.6	4.5	0.1	10.0
Securities purchased under resale agreements	65.1	65.1	0.0	0.0	65.7	65.7	0.0	0.0
Securities borrowing transactions	9.5	7.0	0.0	2.5	10.4	10.0	0.0	0.4
Total financial assets subject to enforceable master netting agreements	89.3	76.6	0.0	12.7	90.7	80.2	0.1	10.4
Financial liabilities subject to enforceable master netting agreements (CHF billion)								
Derivatives	10.7	1.4	0.0	9.3	11.3	1.4	0.0	9.9
Securities sold under repurchase agreements	14.0	14.0	0.0	0.0	19.8	19.7	0.1	0.0
Securities lending transactions	4.1	3.5	0.0	0.6	3.6	3.2	0.0	0.4
Obligation to return securities received as collateral, at fair value	48.5	41.6	0.0	6.9	39.4	34.3	0.0	5.1
Total financial liabilities subject to enforceable master netting agreements	77.3	60.5	0.0	16.8	74.1	58.6	0.1	15.4

¹ The total amount reported in financial instruments (recognized financial assets and financial liabilities and non-cash financial collateral) and cash collateral is limited to the amount of the related instruments presented in the consolidated balance sheets and therefore any over-collateralization of these positions is not included.

Net exposure is subject to further credit mitigation through the transfer of the exposure to other market counterparties by the use of credit default swaps (CDS) and credit insurance contracts.

Therefore, the net exposure presented in the table above is not representative of the Group's counterparty exposure.

25 Tax

The 1Q19 income tax expense of CHF 313 million includes the impact of the estimated annual effective tax rate as well as the impact of items that need to be recorded in the specific interim period in which they occur. Further details are outlined in the tax expense reconciliation below.

Net deferred tax assets related to net operating losses, net deferred tax assets on temporary differences and net deferred tax liabilities are presented in the following manner. Nettable gross deferred tax liabilities are allocated on a pro-rata basis to gross deferred tax assets on net operating losses and gross deferred tax assets on temporary differences. This approach is aligned with the underlying treatment of netting gross deferred tax assets and liabilities under the Basel III framework. Valuation allowances have been allocated against such deferred tax assets on net operating losses first with any remainder allocated to such deferred tax assets on temporary differences. This presentation is considered the most appropriate disclosure given the underlying nature of the gross deferred tax balances.

As of March 31, 2019, the Group had accumulated undistributed earnings from foreign subsidiaries of CHF 11.9 billion which are considered indefinitely reinvested. The Group would need to accrue and pay taxes on these undistributed earnings if such earnings were repatriated. No deferred tax liability was recorded in respect of those amounts as these earnings are considered indefinitely reinvested. It is not practicable to estimate the amount of unrecognized deferred tax liabilities for these undistributed foreign earnings.

The Group is currently subject to ongoing tax audits, inquiries and litigation with the tax authorities in a number of jurisdictions, including Brazil, the Netherlands, the US, the UK and Switzerland. Although the timing of completion is uncertain, it is reasonably possible that some of these will be resolved within 12 months of the reporting date. It is reasonably possible that there will be a decrease between zero and CHF 87 million in unrecognized tax benefits within 12 months of the reporting date.

The Group remains open to examination from federal, state, provincial or similar local jurisdictions from the following years onward in these major countries: Brazil – 2014; the UK – 2012; Switzerland – 2011; the US – 2010; and the Netherlands – 2006.

Effective tax rate

Foreign tax rate differential	1
Other non-deductible expenses	84
Changes in deferred tax valuation allowance	(26)
Lower taxed income	(17)
Other	37
Income tax expense	313

Foreign tax rate differential

1Q19 included a foreign tax expense of CHF 1 million in respect of earnings in higher tax jurisdictions, such as the US, partially offset by earnings in lower tax jurisdictions, such as Singapore.

Other non-deductible expenses

1Q19 included the impact of CHF 61 million relating to the non-deductible interest expenses and non-deductible bank levy costs and CHF 13 million relating to a litigation matter. The remaining balance included various smaller items.

Changes in deferred tax valuation allowance

1Q19 included the impact of the estimated current year earnings, resulting in a decrease of valuation allowances of CHF 30 million mainly in respect of one of the Group's operating entities in the UK and an increase of valuation allowances of CHF 4 million mainly in respect of three of the Group's operating entities, one in the UK and two in Switzerland.

Lower taxed income

1Q19 primarily included the impacts of non-taxable life insurance income of CHF 12 million and CHF 6 million related to a beneficial earnings mix in two of the Group's operating entities in Switzerland. The remaining balance included various smaller items.

Other

1Q19 included a tax expense of CHF 26 million relating to the tax impact of transitional adjustments arising on the first adoption of IFRS 9 for own credit movements, CHF 14 million relating to prior year adjustments, and CHF 15 million relating to the US base erosion and anti-abuse tax (BEAT) and various smaller balances, partially offset by CHF 18 million relating to own-credit valuation movements and various smaller balances.

Deferred tax assets	4,920	4,943
of which net operating losses	1,614	1,647
of which deductible temporary differences	3,306	3,296
Deferred tax liabilities	(456)	(438)
Net deferred tax assets	4,464	4,505

26 Employee deferred compensation

The Group's current and previous deferred compensation plans include share awards, performance share awards, Contingent Capital Awards (CCA), Contingent Capital share awards and other cash awards.

→ Refer to "Note 29 – Employee deferred compensation" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

The following tables show the compensation expense for deferred compensation awards recognized in the consolidated statements of operations, the estimated unrecognized expense for deferred compensation awards granted in 1Q19 and prior periods and the remaining requisite service period over which the unrecognized expense will be recognized. The estimated unrecognized compensation expense was based on the fair value of each award on the grant date and included the current estimated outcome of relevant performance criteria and estimated future forfeitures but no estimate for future mark-to-market adjustments.

Deferred compensation expense

Contingent Capital share awards	0	0	1
Other cash awards	94	29	57
Total deferred compensation expense	430	263	367

Estimated unrecognized deferred compensation

end of	1Q19
Estimated unrecognized compensation expense (CHF million)	
Share awards	943
Performance share awards	565
Contingent Capital Awards	360
Other cash awards	263
Total	2,131
Weighted-average requisite service period (years)	
Aggregate remaining weighted-average requisite service period	1.5

Share awards

In 1Q19, the Group granted 59.2 million share awards at a weighted-average share price of CHF 11.67. Each share award granted entitles the holder of the award to receive one Group share, subject to service conditions. Share awards vest over three years with one third of the share awards vesting on each of the three anniversaries of the grant date (ratable vesting), with the exception of awards granted to individuals classified as risk managers or senior managers under the UK Prudential Regulatory Authority (PRA) Remuneration Code or similar regulations in other jurisdictions. Share awards granted to risk managers vest over five years with one fifth of the award vesting on each of the five anniversaries of the grant date, while share awards granted to senior managers vest over five years commencing on the third anniversary of the grant date, with one fifth of the award vesting on each of the third to seventh anniversaries of the grant date. Share awards are expensed over the service period of the awards. The value of the share awards is solely dependent on the Group share price at the time of delivery.

1Q19 activity

In 1Q19, the Group granted share awards, performance share awards and CCA as part of the 2018 deferred variable compensation. Expense recognition for these awards began in 1Q19 and will continue over the remaining service or vesting period of each respective award.

Performance share awards

In 1Q19, the Group granted 46.1 million performance share awards at a weighted-average share price of CHF 11.59. Performance share awards are similar to share awards, except that the full balance of outstanding performance share awards, including those awarded in prior years, are subject to performance-based malus provisions.

Contingent Capital Awards

In 1Q19, the Group awarded CHF 299 million of CCA. CCA are scheduled to vest on the third anniversary of the grant date, other than those granted to individuals classified as risk managers or senior managers under the UK PRA Remuneration Code or similar regulations in other jurisdictions, where CCA vest on the fifth and seventh anniversaries of the grant date, respectively, and will be expensed over the vesting period.

Share-based award activity

Number of awards (in millions)	1Q19		
	Share awards	Performance share awards	Contingent Capital share awards
Share-based award activities			
Balance at beginning of period	83.2	51.7	3.4
Granted	59.2	46.1	0.0
Settled	(2.8)	0.0	0.0
Forfeited	(0.4)	(0.1)	0.0
Balance at end of period	139.2	97.7	3.4
of which vested	39.4	26.0	3.4
of which unvested	99.8	71.7	0.0

27 Pension and other post-retirement benefits

The Group sponsors defined contribution pension plans, defined benefit pension plans and other post-retirement defined benefit plans. The Group contributed and recognized expense of CHF 41 million, CHF 33 million and CHF 42 million related to its defined contribution pension plans in 1Q19, 4Q18 and 1Q18, respectively.

→ Refer to "Note 31 – Pension and other post-retirement benefits" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

The Group expects to contribute CHF 429 million to the Swiss and international defined benefit plans and other post-retirement defined benefit plans in 2019. As of the end of 1Q19, CHF 143 million of contributions have been made.

Components of net periodic benefit costs

in	1Q19	4Q18	1Q18
Net periodic benefit costs/(credits) (CHF million)			
Service costs on benefit obligation	67	64	65
Interest costs on benefit obligation	46	37	39
Expected return on plan assets	(125)	(149)	(149)
Amortization of recognized prior service cost/(credit)	(30)	(32)	(32)
Amortization of recognized actuarial losses	76	92	89
Settlement losses/(gains)	0	36	(1)
Curtailment losses/(gains)	0	0	(7)
Special termination benefits	8	13	7
Net periodic benefit costs	42	61	11

Service costs on benefit obligation are reflected in compensation and benefits. Other components of net periodic benefit costs are reflected in general and administrative expenses or, until the end of 4Q18, in restructuring expenses.

28 Derivatives and hedging activities

→ Refer to "Note 32 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

relationship. Notional amounts have also been provided as an indication of the volume of derivative activity within the Group.

Fair value of derivative instruments

The tables below present gross derivative replacement values by type of contract and balance sheet location and whether the derivative is used for trading purposes or in a qualifying hedging

Information on bifurcated embedded derivatives has not been included in these tables. Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value.

→ Refer to "Note 31 – Financial instruments" for further information.

Gains/(losses) reclassified from the cumulative translation adjustments section of AOCI into other revenues	0	(2)	0

The Group includes all derivative instruments not included in hedge accounting relationships in its trading activities.

→ Refer to "Note 7 – Trading revenues" for gains and losses on trading activities by product type.

Disclosures relating to contingent credit risk

Certain of the Group's derivative instruments contain provisions that require it to maintain a specified credit rating from each of the major credit rating agencies. If the ratings fall below the level specified in the contract, the counterparties to the agreements could request payment of additional collateral on those derivative instruments that are in a net liability position. Certain of the derivative contracts also provide for termination of the contract, generally upon a downgrade of either the Group or the counterparty. Such derivative contracts are reflected at close-out costs.

The following table provides the Group's current net exposure from contingent credit risk relating to derivative contracts with

bilateral counterparties and SPEs that include credit support agreements, the related collateral posted and the additional collateral required in a one-notch, two-notch and a three-notch downgrade event, respectively. The table also includes derivative contracts with contingent credit risk features without credit support agreements that have accelerated termination event conditions. The current net exposure for derivative contracts with bilateral counterparties and contracts with accelerated termination event conditions is the aggregate fair value of derivative instruments that were in a net liability position. For SPEs, the current net exposure is the contractual amount that is used to determine the collateral payable in the event of a downgrade. The contractual amount could include both the NRV and a percentage of the notional value of the derivative.

Contingent credit risk

end of	1Q19				4Q18

Credit derivatives

→ Refer to "Note 32 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on credit derivatives.

underlyings are related to the credit risk of a specified entity (or a group of entities) or an index based on the credit risk of a group of entities and (b) that exposes the seller to potential loss from credit risk-related events specified in the contract.

Credit protection sold/purchased

The following tables do not include all credit derivatives and differ from the credit derivatives in the "Fair value of derivative instruments" tables. This is due to the exclusion of certain credit derivative instruments under US GAAP, which defines a credit derivative as a derivative instrument (a) in which one or more of its

Total return swaps (TRS) of CHF 9.7 billion as of the end of 1Q19 and 4Q18, were also excluded because a TRS does not expose the seller to potential loss from credit risk-related events specified in the contract. A TRS only provides protection against a loss in asset value and not against additional amounts as a result of specific credit events.

¹ Represents credit protection purchased with identical underlyings and recoveries.

² Based on internal ratings of BBB and above.

³ Includes synthetic securitized loan portfolios.

Credit protection sold

Credit protection sold is the maximum potential payout, which is based on the notional value of derivatives and represents the amount of future payments that the Group would be required to make as a result of credit risk-related events.

Credit protection purchased

Credit protection purchased represents those instruments where the underlying reference instrument is identical to the reference instrument of the credit protection sold.

Other protection purchased

In the normal course of business, the Group purchases protection to offset the risk of credit protection sold that may have similar, but not identical, reference instruments and may use similar, but not identical, products, which reduces the total credit derivative exposure. Other protection purchased is based on the notional value of the instruments.

Fair value of credit protection sold

The fair values of the credit protection sold give an indication of the amount of payment risk, as the negative fair values increase when the potential payment under the derivative contracts becomes more probable.

The following table reconciles the notional amount of credit derivatives included in the table "Fair value of derivative instruments" to the table "Credit protection sold/purchased".

Credit derivatives

end of	1Q19	4Q18
Credit derivatives (CHF billion)		
Credit protection sold	246.9	201.6
Credit protection purchased	237.2	195.1
Other protection purchased	65.2	63.0
Other instruments ¹	9.7	9.7
Total credit derivatives	559.0	469.4

¹ Consists of total return swaps and other derivative instruments.

The segregation of the future payments by maturity range and underlying risk gives an indication of the current status of the potential for performance under the derivative contracts.

Maturity of credit protection sold

end of	Maturity less than 1 year	Maturity between 1 to 5 years	Maturity greater than 5 years	Total
1Q19 (CHF billion)

Total instruments	41.9	135.5	24.2	201.6

29 Guarantees and commitments

Guarantees

In the ordinary course of business, guarantees are provided that contingently obligate the Group to make payments to third parties if the counterparty fails to fulfill its obligation under a borrowing or other contractual arrangement. The total gross amount disclosed within the Guarantees table reflects the maximum potential payment under the guarantees. The carrying value represents the higher of the initial fair value (generally the related fee received or receivable) less cumulative amortization and the Group's current best estimate of payments that will be required under existing guarantee arrangements.

Guarantees provided by the Group are classified as follows: credit guarantees and similar instruments, performance guarantees and similar instruments, derivatives and other guarantees.

→ Refer to "Guarantees" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a detailed description of guarantees.

Guarantees

end of	Maturity less than 1 year	Maturity greater than 1 year	Total gross amount	Total net amount ¹	Carrying value	Collateral received
1Q19 (CHF million)						
Credit guarantees and similar instruments	1,943	1,264	3,207	3,105	13	1,746
Performance guarantees and similar instruments	4,897	2,320	7,217	6,414	42	3,147
Derivatives ²	12,819	7,446	20,265	20,265	634	– ³
Other guarantees	4,926	2,069	6,995	6,922	53	3,986
Total guarantees	24,585	13,099	37,684	36,706	742	8,879
4Q18 (CHF million)						
Credit guarantees and similar instruments	2,228	1,055	3,283	3,194	14	1,748
Performance guarantees and similar instruments	5,008	2,136	7,144	6,278	44	3,153
Derivatives ²	17,594	6,029	23,623	23,623	919	– ³
Other guarantees	4,325	2,562	6,887	6,814	56	4,169
Total guarantees	29,155	11,782	40,937	39,909	1,033	9,070

¹ Total net amount is computed as the gross amount less any participations.

² Excludes derivative contracts with certain active commercial and investment banks and certain other counterparties, as such contracts can be cash settled and the Group had no basis to conclude it was probable that the counterparties held, at inception, the underlying instruments.

³ Collateral for derivatives accounted for as guarantees is not significant.

Deposit-taking banks and securities dealers in Switzerland and certain other European countries are required to ensure the payout of privileged deposits in case of specified restrictions or compulsory liquidation of a deposit-taking bank. In Switzerland, deposit-taking banks and securities dealers jointly guarantee an amount of up to CHF 6 billion. Upon occurrence of a payout event triggered by a specified restriction of business imposed by FINMA or by the compulsory liquidation of another deposit-taking bank, the Group's contribution will be calculated based on its share of privileged deposits in proportion to total privileged deposits. Based on FINMA's estimate for the Group's banking subsidiaries in Switzerland, the Group's share in the deposit insurance guarantee program for the period July 1, 2018 to June 30, 2019 is CHF 0.5 billion. These deposit insurance guarantees were reflected in other guarantees.

Representations and warranties on residential mortgage loans sold

In connection with the Global Markets division's sale of US residential mortgage loans, the Group has provided certain representations and warranties relating to the loans sold. The Group has provided these representations and warranties relating to sales of loans to institutional investors, primarily banks, and non-agency, or private label, securitizations. The loans sold are primarily loans that the Group has purchased from other parties. The scope of representations and warranties, if any, depends on the transaction, but can include: ownership of the mortgage loans and legal capacity to sell the loans; loan-to-value ratios and other characteristics of the property, the borrower and the loan; validity of the liens securing the loans and absence of delinquent taxes or related liens; conformity to underwriting standards and completeness of documentation; and origination in compliance with law. If it is determined that representations and warranties were

breached, the Group may be required to repurchase the related loans or indemnify the investors to make them whole for losses. Whether the Group will incur a loss in connection with repurchases and make whole payments depends on: the extent to which claims are made; the validity of such claims made within the statute of limitations (including the likelihood and ability to enforce claims); whether the Group can successfully claim against parties that sold loans to the Group and made representations and warranties to the Group; the residential real estate market, including the number of defaults; and whether the obligations of the securitization vehicles were guaranteed or insured by third parties.

During the first three months of 2019, the Group received repurchase claims for residential mortgage loans that were not significant, and loans repurchased during this period and related losses were not material. The balance of outstanding repurchase claims as of the end of 1Q19 was not significant.

Repurchase claims on residential mortgage loans sold that are subject to arbitration or litigation proceedings, or become so during the reporting period, are not included in this Guarantees and commitments disclosure but are addressed in litigation and related loss contingencies and provisions. The Group is involved in

litigation relating to representations and warranties on residential mortgages sold.

→ Refer to "Note 33 – Litigation" for further information.

Disposal-related contingencies and other indemnifications

The Group has certain guarantees for which its maximum contingent liability cannot be quantified. These guarantees include disposal-related contingencies in connection with the sale of assets or businesses, and other indemnifications. These guarantees are not reflected in the "Guarantees" table.

→ Refer to "Disposal-related contingencies and other indemnifications" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a description of these guarantees.

Other commitments

Other commitments of the Group are classified as follows: irrevocable commitments under documentary credits, irrevocable loan commitments, forward reverse repurchase agreements and other commitments.

→ Refer to "Other commitments" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a description of these commitments.

Other commitments

¹ Total net amount is computed as the gross amount less any participations.

² Irrevocable loan commitments do not include a total gross amount of CHF 119,054 million and CHF 113,580 million of unused credit limits as of the end of 1Q19 and 4Q18 respectively, which were revocable at the Group's sole discretion upon notice to the client.

30 Transfers of financial assets and variable interest entities

In the normal course of business, the Group enters into transactions with, and makes use of, SPEs. An SPE is an entity in the form of a trust or other legal structure designed to fulfill a specific limited need of the company that organized it and is generally structured to isolate the SPE's assets from creditors of other entities, including the Group. The principal uses of SPEs are to assist the Group and its clients in securitizing financial assets and creating investment products. The Group also uses SPEs for other client-driven activity, such as to facilitate financings, and for Group tax or regulatory purposes.

Transfers of financial assets

Securitizations

The majority of the Group's securitization activities involve mortgages and mortgage-related securities and are predominantly transacted using SPEs. In a typical securitization, the SPE purchases assets financed by proceeds received from the SPE's issuance of debt and equity instruments, certificates, CP and other notes of indebtedness. These assets and liabilities are recorded on the balance sheet of the SPE and not reflected on the Group's consolidated balance sheet, unless either the Group sold the assets to the entity and the accounting requirements for sale were not met or the Group consolidates the SPE.

The Group purchases commercial and residential mortgages for the purpose of securitization and sells these mortgage loans to SPEs. These SPEs issue commercial mortgage-backed securities (CMBS), residential mortgage-backed securities (RMBS) and asset-backed securities (ABS) that are collateralized by the assets transferred to the SPE and that pay a return based on the returns on those assets. Investors in these mortgage-backed securities or ABS typically have recourse to the assets in the SPEs. Third-party guarantees may further enhance the creditworthiness of the assets. The investors and the SPEs have no recourse to the Group's assets. The Group is typically an underwriter of, and makes a market in, these securities.

The Group also transacts in re-securitizations of previously issued RMBS securities. Typically, certificates issued out of an existing securitization vehicle are sold into a newly created and separate securitization vehicle. Often, these re-securitizations are initiated in order to re-securitize an existing security to give the investor an investment with different risk ratings or characteristics.

The Group also uses SPEs for other asset-backed financings relating to client-driven activity and for Group tax or regulatory purposes. Types of structures included in this category include managed collateralized loan obligations (CLOs), CLOs, leveraged finance, repack and other types of transactions, including life insurance structures, emerging market structures set up for financing, loan participation or loan origination purposes, and other alternative structures created for the purpose of investing in venture capital-like investments. CLOs are collateralized by loans transferred to the CLO vehicle and pay a return based on the returns on the loans. Leveraged finance structures are used to assist in the syndication of certain loans held by the Group, while repack structures are designed to give a client collateralized exposure to specific cash flows or credit risk backed by collateral purchased from the Group. In these asset-backed financing structures, investors typically only have recourse to the collateral of the SPE and do not have recourse to the Group's assets.

When the Group transfers assets into an SPE, it must assess whether that transfer is accounted for as a sale of the assets. Transfers of assets may not meet sale requirements if the assets have not been legally isolated from the Group and/or if the Group's continuing involvement is deemed to give it effective control over the assets. If the transfer is not deemed a sale, it is instead accounted for as a secured borrowing, with the transferred assets as collateral.

Gains and losses on securitization transactions depend, in part, on the carrying values of mortgages and loans involved in the transfer and are allocated between the assets sold and any beneficial interests retained according to the relative fair values at the date of sale.

The Group does not retain material servicing responsibilities from securitization activities.

The following table provides the gains or losses and proceeds from the transfer of assets relating to 1Q19 and 1Q18 securitizations of financial assets that qualify for sale accounting and subsequent derecognition, along with the cash flows between the Group and the SPEs used in any securitizations in which the Group still has continuing involvement, regardless of when the securitization occurred.

Securizations

in	1Q19	1Q18
Gains/(losses) and cash flows (CHF million)		
CMBS		
Net gain/(loss) ¹	(2)	5
Proceeds from transfer of assets	1,504	1,675
Cash received on interests that continue to be held	9	8
RMBS		
Net gain/(loss) ¹	(4)	(6)
Proceeds from transfer of assets	5,729	2,950
Purchases of previously transferred financial assets or its underlying collateral	0	(1)
Servicing fees	1	1
Cash received on interests that continue to be held	50	299
Other asset-backed financings		
Net gain ¹	17	11
Proceeds from transfer of assets	1,295	1,626
Purchases of previously transferred financial assets or its underlying collateral	(61)	(128)
Fees ²	36	36
Cash received on interests that continue to be held	1	1

¹ Includes underwriting revenues, deferred origination fees, gains or losses on the sale of collateral to the SPE and gains or losses on the sale of newly issued securities to third parties, but excludes net interest income on assets prior to the securitization. The gains or losses on the sale of the collateral is the difference between the fair value on the day prior to the securitization pricing date and the sale price of the loans.

² Represents management fees and performance fees earned for investment management services provided to managed CLOs.

Continuing involvement in transferred financial assets

The Group may have continuing involvement in the financial assets that are transferred to an SPE which may take several forms, including, but not limited to, servicing, recourse and guarantee arrangements, agreements to purchase or redeem transferred assets, derivative instruments, pledges of collateral and beneficial interests in the transferred assets.

→ Refer to "Transfer of financial assets" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Transfer of financial assets and variable interest entities in the Credit Suisse Annual Report 2018 for a detailed description of continuing involvement in transferred financial assets.

The following table provides the outstanding principal balance of assets to which the Group continued to be exposed after the transfer of the financial assets to any SPE and the total assets of the SPE as of the end of 1Q19 and 4Q18, regardless of when the transfer of assets occurred.

Principal amounts outstanding and total assets of SPEs resulting from continuing involvement

end of	1Q19	4Q18
CHF million		
CMBS		
Principal amount outstanding	23,718	25,330
Total assets of SPE	32,345	35,760
RMBS		
Principal amount outstanding	45,805	40,253
Total assets of SPE	46,782	41,242
Other asset-backed financings		
Principal amount outstanding	23,171	23,036
Total assets of SPE	48,438	47,542

Principal amount outstanding relates to assets transferred from the Group and does not include principal amounts for assets transferred from third parties.

Fair value of beneficial interests

The fair value measurement of the beneficial interests held at the time of transfer and as of the reporting date that result from any continuing involvement is determined using fair value estimation techniques, such as the present value of estimated future cash flows that incorporate assumptions that market participants customarily use in these valuation techniques. The fair value of the assets or liabilities that result from any continuing involvement does not include any benefits from financial instruments that the Group may utilize to hedge the inherent risks.

Key economic assumptions at the time of transfer

→ Refer to "Note 31 – Financial instruments" for further information on the fair value hierarchy.

Key economic assumptions used in measuring fair value of beneficial interests at time of transfer

at time of transfer, in	1Q19		1Q18	
	CMBS	RMBS	CMBS	RMBS
CHF million, except where indicated				
Fair value of beneficial interests	91	425	249	975
of which level 2	91	380	249	933
of which level 3	0	45	0	42
Weighted-average life, in years	5.5	5.1	4.8	7.0
Prepayment speed assumption (rate per annum), in % ¹	– ²	2.0–19.8	– ²	5.8–13.5
Cash flow discount rate (rate per annum), in % ³	3.0–5.4	2.7–7.7	3.6–8.8	3.0–12.1
Expected credit losses (rate per annum), in % ⁴	0.0–0.0	1.7–3.4	0.0–0.0	3.2–5.5

Transfers of assets in which the Group does not have beneficial interests are not included in this table.

¹ Prepayment speed assumption (PSA) is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the constant prepayment rate (CPR) assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

² To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

³ The rate is based on the weighted-average yield on the beneficial interests.

⁴ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

Key economic assumptions as of the reporting date

The following table provides the sensitivity analysis of key economic assumptions used in measuring the fair value of beneficial interests held in SPEs as of the end of 1Q19 and 4Q18.

Key economic assumptions used in measuring fair value of beneficial interests held in SPEs

end of	1Q19			4Q18		
	CMBS ¹	RMBS	Other asset-backed financing activities ²	CMBS ¹	RMBS	Other asset-backed financing activities ²
CHF million, except where indicated

of which non-investment grade	146	274	20	112	307	26
Weighted-average life, in years	4.7	6.9	5.3	5.7	7.9	5.6
Prepayment speed assumption (rate per annum), in % ³	–	2.0–19.8	–	–	2.0–20.0	–
Impact on fair value from 10% adverse change	–	(20.8)	–	–	(22.3)	–
Impact on fair value from 20% adverse change	–	(41.7)	–	–	(43.2)	–
Cash flow discount rate (rate per annum), in % ⁴	2.9–17.7	2.7–24.5	0.8–21.2	3.4–14.3	3.0–21.3	1.0–21.2
Impact on fair value from 10% adverse change	(9.8)	(40.5)	(2.4)	(20.7)	(52.1)	(2.9)
Impact on fair value from 20% adverse change	(19.3)	(78.7)	(4.7)	(37.6)	(101.3)	(5.7)
Expected credit losses (rate per annum), in % ⁵	0.6–5.6	0.2–22.2	0.9–21.2	0.8–4.7	0.6–18.8	1.0–21.2
Impact on fair value from 10% adverse change	(5.1)	(22.5)	(2.3)	(10.2)	(23.8)	(2.4)
Impact on fair value from 20% adverse change	(10.1)	(44.2)	(4.5)	(17.3)	(46.7)	(4.8)

¹ To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

² CDOs and CLOs within this category are generally structured to be protected from prepayment risk.

³ PSA is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the CPR assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

⁴ The rate is based on the weighted-average yield on the beneficial interests.

⁵ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

These sensitivities are hypothetical and do not reflect economic hedging activities. Changes in fair value based on a 10% or 20% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the beneficial interests is calculated without changing any other assumption. In practice, changes in one assumption may result in changes in other assumptions (for example, increases in market interest rates may result in lower prepayments and increased credit losses), which might magnify or counteract the sensitivities.

Transfers of financial assets where sale treatment was not achieved

The following table provides the carrying amounts of transferred financial assets and the related liabilities where sale treatment was not achieved as of the end of 1Q19 and 4Q18.

→ Refer to "Note 32 – Assets pledged and collateral" for further information.

CHF million		
Other asset-backed financings		
Trading assets	261	255
Liability to SPE, included in other liabilities	(261)	(255)

Securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings

For securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings, US GAAP requires the disclosure of the collateral pledged and the associated risks to which a transferor continues to be exposed after the transfer. This provides an understanding of the nature and risks of short-term collateralized financing obtained through these types of transactions.

Securities sold under repurchase agreements and securities lending transactions represent collateralized financing transactions used to earn net interest income, increase liquidity or facilitate trading activities. These transactions are collateralized principally by government debt securities, corporate debt securities, asset-backed securities, equity securities and other collateral and have terms ranging from on demand to a longer period of time.

In the event of the Group's default or a decline in fair value of collateral pledged, the repurchase agreement provides the counterparty with the right to liquidate the collateral held or request additional collateral. Similarly, in the event of the Group's default, the securities lending transaction provides the counterparty the right to liquidate the securities borrowed.

The following tables provide the gross obligation relating to securities sold under repurchase agreements, securities lending transactions and obligation to return securities received as collateral by the class of collateral pledged and by remaining contractual maturity as of the end of 1Q19 and 4Q18.

¹ Includes contracts with no contractual maturity that may contain termination arrangements subject to a notice period.

² Includes overnight transactions.

→ Refer to "Note 24 – Offsetting of financial assets and financial liabilities" for further information on the gross amount of securities sold under repurchase agreements, securities lending transactions and obligation to return securities received as collateral and the net amounts disclosed in the consolidated balance sheets.

Variable interest entities

As a normal part of its business, the Group engages in various transactions that include entities that are considered variable interest entities (VIEs) and are grouped into three primary categories: collateralized debt obligations (CDOs)/CLOs, CP conduits and financial intermediation.

→ Refer to "Variable interest entities" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Transfer of financial assets and variable interest entities in the Credit Suisse Annual Report 2018 for a detailed description of VIEs, CDO/CLOs, CP conduit or financial intermediation.

Collateralized debt and loan obligations

The Group engages in CDO/CLO transactions to meet client and investor needs, earn fees and sell financial assets and, in the case of CLOs, loans. The Group may act as underwriter, placement agent or asset manager and may warehouse assets prior to the closing of a transaction.

Commercial paper conduit

The Group acts as the administrator and provider of liquidity and credit enhancement facilities for Alpine Securitization Ltd (Alpine), a multi-seller asset-backed CP conduit used for client and Group financing purposes. Alpine discloses to CP investors certain portfolio and asset data and submits its portfolio to rating agencies for public ratings. This CP conduit purchases assets such as loans and receivables or enters into reverse repurchase agreements and finances such activities through the issuance of CP backed by these assets. The CP conduit can enter into liquidity facilities with third-party entities pursuant to which it may be required to purchase assets from these entities to provide them with liquidity and credit support. The financing transactions are structured to provide credit support to the CP conduit in the form of over-collateralization and other asset-specific enhancements. Alpine is a separate legal entity that is wholly owned by the Group. However, its assets are available to satisfy only the claims

of its creditors. In addition, the Group, as administrator and liquidity facility provider, has significant exposure to and power over the activities of Alpine. Alpine is considered a VIE for accounting purposes and the Group is deemed the primary beneficiary and consolidates this entity.

The overall average maturity of Alpine's outstanding CP was approximately 109 days as of the end of 1Q19. Alpine was rated A-1(sf) by Standard & Poor's and P-1(sf) by Moody's and had exposures mainly in a reverse repurchase agreement with a Group entity, consumer loans and car loans.

The Group's commitment to this CP conduit consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Group to provide short-term financing to the CP conduit or to purchase assets from the CP conduit in certain circumstances, including a lack of liquidity in the CP market such that the CP conduit cannot refinance its obligations or, in some cases, a default of an underlying asset. The asset-specific credit enhancements provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Group reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit.

The Group's economic risks associated with the CP conduit are included in the Group's risk management framework including counterparty, economic risk capital and scenario analysis.

Financial intermediation

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients.

Financial intermediation consists of securitizations, funds, loans and other vehicles.

Consolidated VIEs

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients. The Group consolidates all VIEs related to financial intermediation for which it was the primary beneficiary.

The consolidated VIEs table provides the carrying amounts and classifications of the assets and liabilities of consolidated VIEs as of the end of 1Q19 and 4Q18.

¹ Includes residential and commercial mortgage-backed securities previously reported in investment securities which have been reclassified to trading assets as these securities are carried at fair value under the fair value option.

² Premises and equipment were previously presented separately in the consolidated balance sheet.

Non-consolidated VIEs

The non-consolidated VIEs table provides the carrying amounts and classification of the assets of variable interests recorded in the Group's consolidated balance sheets, maximum exposure to loss and total assets of the non-consolidated VIEs.

Certain VIEs have not been included in the following table, including VIEs structured by third parties in which the Group's interest

is in the form of securities held in the Group's inventory, certain repurchase financings to funds and single-asset financing vehicles not sponsored by the Group to which the Group provides financing but has very little risk of loss due to over-collateralization and/or guarantees, failed sales where the Group does not have any other holdings and other entities out of scope.

→ Refer to "Variable interest entities" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Transfer of financial assets and variable interest entities in the Credit Suisse Annual Report 2018 for further information on non-consolidated VIEs.

31 Financial instruments

The disclosure of the Group's financial instruments below includes the following sections:

- Concentration of credit risk;
- Fair value measurement (including fair value hierarchy, transfers between levels; level 3 reconciliation; qualitative and quantitative disclosures of valuation techniques and nonrecurring fair value changes);
- Fair value option; and
- Disclosures about fair value of financial instruments not carried at fair value.

Concentrations of credit risk

Credit risk concentrations arise when a number of counterparties are engaged in similar business activities, are located in the same geographic region or when there are similar economic features that would cause their ability to meet contractual obligations to be similarly impacted by changes in economic conditions.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's concentrations of credit risk.

Fair value measurement

A significant portion of the Group's financial instruments is carried at fair value. Deterioration of financial markets could significantly impact the fair value of these financial instruments and the results of operations.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on fair value measurement of financial instruments and the definition of the levels of the fair value hierarchy.

Qualitative disclosures of valuation techniques

Information on the valuation techniques and significant unobservable inputs of the various financial instruments and the sensitivity of fair value measurements to changes in significant unobservable inputs, should be read in conjunction with the tables "Quantitative information about level 3 assets at fair value" and "Quantitative information about level 3 liabilities at fair value".

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's valuation techniques.

Gains and losses on assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (level 3)

in	1Q19			1Q18		
	Trading revenues	Other revenues	Total revenues	Trading revenues	Other revenues	Total revenues
Gains and losses on assets and liabilities (CHF million)						
Net realized/unrealized gains/(losses) included in net revenues	(909)	(92)	(1,001) ¹	213	(44)	169 ¹
Whereof:						
Unrealized gains/(losses) relating to assets and liabilities still held as of the reporting date	(858)	1	(857)	150	(1)	149

¹ Excludes net realized/unrealized gains/(losses) attributable to foreign currency translation impact.

Both observable and unobservable inputs may be used to determine the fair value of positions that have been classified within level 3. As a result, the unrealized gains and losses for assets and liabilities within level 3 presented in the table above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Group employs various economic hedging techniques in order to manage risks, including risks in level 3 positions. Such techniques may include the purchase or sale of financial instruments that are classified in levels 1 and/or 2. The realized and unrealized gains and losses for assets and liabilities in level 3 presented in the table above do not reflect the related realized or unrealized gains and losses arising on economic hedging instruments classified in levels 1 and/or 2.

Transfers in and out of level 3

Transfers into level 3 assets during 1Q19 were CHF 701 million, primarily from trading assets and loans. These transfers were primarily in the financing and credit businesses due to limited observability of pricing data. Transfers out of level 3 assets during 1Q19 were CHF 1,089 million, primarily in trading assets and loans. These transfers were primarily in the financing and credit businesses as well as in the Asset Resolution Unit due to increased observability of pricing data and increased availability of pricing information from external providers.

Uncertainty of fair value measurements at the reporting date from the use of significant unobservable inputs

For level 3 assets with significant unobservable inputs of buyback probability, contingent probability, correlation, earnings before interest, taxes, depreciation and amortization (EBITDA) multiple,

funding spread, mortality rate, price, recovery rate, volatility or volatility skew, in general, an increase in the significant unobservable input would increase the fair value. For level 3 assets with significant unobservable inputs of capitalization rate, credit spread, default rate, discount rate, gap risk, market implied life expectancy (for life settlement and premium finance instruments) or prepayment rate, in general, an increase in the significant unobservable input would decrease the fair value.

For level 3 liabilities, in general, an increase in the related significant unobservable inputs would have an inverse impact on fair value. An increase in the significant unobservable inputs contingent probability, credit spread or gap risk would increase the fair value. An increase in the significant unobservable inputs buyback probability, correlation, discount rate, price, prepayment rate or volatility would decrease the fair value.

Interrelationships between significant unobservable inputs

Except as noted above, there are no material interrelationships between the significant unobservable inputs for the financial instruments. As the significant unobservable inputs move independently, generally an increase or decrease in one significant unobservable input will have no impact on the other significant unobservable inputs.

Quantitative disclosures of valuation techniques

The following tables provide the representative range of minimum and maximum values and the associated weighted averages of each significant unobservable input for level 3 assets and liabilities by the related valuation technique most significant to the related financial instrument.

Qualitative discussion of the ranges of significant unobservable inputs

The level of aggregation and diversity within the financial instruments disclosed in the tables above results in certain ranges of significant inputs being wide and unevenly distributed across asset and liability categories.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's qualitative discussion of the ranges of significant unobservable inputs.

Investment funds measured at NAV per share

Investments in funds held in trading assets and trading liabilities primarily include positions held in equity funds of funds as an economic hedge for structured notes and derivatives issued to clients that reference the same underlying risk and liquidity terms of the fund. A majority of these funds have limitations imposed on the amount of withdrawals from the fund during the redemption period due to illiquidity of the investments. In other instances, the withdrawal amounts may vary depending on the redemption

notice period and are usually larger for the longer redemption notice periods. In addition, penalties may apply if redemption is within a certain time period from initial investment.

Investments in funds held in other investments principally involve private equity securities and, to a lesser extent, publicly traded securities and fund of funds. Several of these investments have redemption restrictions subject to the discretion of the board of directors of the fund and/or redemption is permitted without restriction, but is limited to a certain percentage of total assets or only after a certain date.

For those funds held in trading assets and trading liabilities and funds held in other investments that are nonredeemable, the underlying assets of such funds are expected to be liquidated over the life of the fund, which is generally up to 10 years.

The following table pertains to investments in certain entities that calculate NAV per share or its equivalent, primarily private equity and hedge funds. These investments do not have a readily determinable fair value and are measured at fair value using NAV.

¹ 47% of the redeemable fair value amount of equity funds is redeemable on demand with a notice period primarily of less than 30 days, 43% is redeemable on a monthly basis with a notice period of primarily more than 30 days and 10% is redeemable on a quarterly basis with a notice period of primarily more than 60 days.

² 46% of the redeemable fair value amount of equity funds is redeemable on demand with a notice period primarily of less than 30 days, 40% is redeemable on a monthly basis with a notice period of primarily more than 30 days, 13% is redeemable on a quarterly basis with a notice period primarily of more than 45 days and 1% is redeemable on an annual basis with a notice period of less than 30 days.

³ 72% of the redeemable fair value amount of hedge funds is redeemable on a quarterly basis with a notice period primarily of more than 60 days and 28% is redeemable on demand with a notice period primarily of less than 30 days.

⁴ 65% of the redeemable fair value amount of hedge funds is redeemable on a quarterly basis with a notice period primarily of more than 60 days and 35% is redeemable on demand with a notice period primarily of less than 30 days.

⁵ Includes CHF 40 million and CHF 102 million attributable to noncontrolling interests as of the end of 1Q19 and 4Q18, respectively.

⁶ Includes CHF 23 million attributable to noncontrolling interests as of the end of 4Q18.

Assets measured at fair value on a nonrecurring basis

Certain assets and liabilities are measured at fair value on a non-recurring basis; that is, they are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances, for example, when there is evidence of impairment. Nonrecurring measurements are completed as of the end of the period unless otherwise stated.

There were no material assets measured at fair value on a non-recurring basis in 1Q19 and 4Q18.

The Group typically uses nonfinancial assets measured at fair value on a recurring or nonrecurring basis in a manner that reflects their highest and best use.

Fair value option

The Group has availed itself of the simplification in accounting offered under the fair value option. This has been accomplished generally by electing the fair value option, both at initial adoption and for subsequent transactions, on items impacted by the hedge accounting requirements of US GAAP. For instruments for which hedge accounting could not be achieved but for which the Group is economically hedged, the Group has generally elected the fair value option. Where the Group manages an activity on a fair value basis but previously has been unable to achieve fair value accounting, the Group has generally utilized the fair value option to align its risk management reporting to its financial accounting.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's election of the fair value option.

32 Assets pledged and collateral

The Group pledges assets mainly for repurchase agreements and other securities financing. Certain pledged assets may be encumbered, meaning they have the right to be sold or repledged. The encumbered assets are disclosed on the consolidated balance sheet.

Assets pledged

end of	1Q19	4Q18
CHF million		
Total assets pledged or assigned as collateral	128,585	117,895
of which encumbered	71,194	58,672

Collateral

The Group receives cash and securities in connection with resale agreements, securities borrowing and loans, derivative transactions and margined broker loans. A significant portion of the collateral and securities received by the Group was sold or repledged in connection with repurchase agreements, securities sold not yet purchased, securities borrowings and loans, pledges to clearing organizations, segregation requirements under securities laws and regulations, derivative transactions and bank loans.

Collateral

end of	1Q19	4Q18
CHF million		
Fair value of collateral received with the right to sell or repledge	431,863	406,389
of which sold or repledged	204,020	193,267

33 Litigation

The Group is involved in a number of judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses. The Group's material proceedings, related provisions and estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions are described in *Note 39 – Litigation in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018* and updated in subsequent quarterly reports (including those discussed below). Some of these proceedings have been brought on behalf of various classes of claimants and seek damages of material and/or indeterminate amounts.

The Group accrues loss contingency litigation provisions and takes a charge to income in connection with certain proceedings when losses, additional losses or ranges of loss are probable and reasonably estimable. The Group also accrues litigation provisions for the estimated fees and expenses of external lawyers and other service providers in relation to such proceedings, including in cases for which it has not accrued a loss contingency provision. The Group accrues these fee and expense litigation provisions and takes a charge to income in connection therewith when such fees and expenses are probable and reasonably estimable. The Group reviews its legal proceedings each quarter to determine the adequacy of its litigation provisions and may increase or release provisions based on management's judgment and the advice of counsel. The establishment of additional provisions or releases of litigation provisions may be necessary in the future as developments in such proceedings warrant.

The specific matters described include (a) proceedings where the Group has accrued a loss contingency provision, given that it is probable that a loss may be incurred and such loss is reasonably estimable; and (b) proceedings where the Group has not accrued such a loss contingency provision for various reasons, including, but not limited to, the fact that any related losses are not reasonably estimable. The description of certain of the matters includes a statement that the Group has established a loss contingency provision and discloses the amount of such provision; for the other matters no such statement is made. With respect to the matters for which no such statement is made, either (a) the Group has not established a loss contingency provision, in which case the matter is treated as a contingent liability under the applicable accounting standard, or (b) the Group has established such a provision but believes that disclosure of that fact would violate confidentiality obligations to which the Group is subject or otherwise compromise attorney-client privilege, work product protection or other protections against disclosure or compromise the Group's management of the matter. The future outflow of funds in respect of any matter for which the Group has accrued loss contingency provisions cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that is reflected on the Group's balance sheet.

It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. Estimates, by their nature, are based on judgment and currently available information and involve a variety of factors, including, but not limited to, the type and nature of the proceeding, the progress of the matter, the advice of counsel, the Group's defenses and its experience in similar matters, as well as its assessment of matters, including settlements, involving other defendants in similar or related cases or proceedings. Factual and legal determinations, many of which are complex, must be made before a loss, additional losses or ranges of loss can be reasonably estimated for any proceeding.

Most matters pending against the Group seek damages of an indeterminate amount. While certain matters specify the damages claimed, such claimed amount may not represent the Group's reasonably possible losses. For certain of the proceedings discussed the Group has disclosed the amount of damages claimed and certain other quantifiable information that is publicly available.

The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for the proceedings discussed in Note 39 referenced above and updated in quarterly reports (including below) for which the Group believes an estimate is possible is zero to CHF 1.4 billion.

In 1Q19, the Group recorded net litigation provisions of CHF 56 million. After taking into account its litigation provisions, the Group believes, based on currently available information and advice of counsel, that the results of its legal proceedings, in the aggregate, will not have a material adverse effect on the Group's financial condition. However, in light of the inherent uncertainties of such proceedings, including those brought by regulators or other governmental authorities, the ultimate cost to the Group of resolving such proceedings may exceed current litigation provisions and any excess may be material to its operating results for any particular period, depending, in part, upon the operating results for such period.

Rates-related matters

Civil litigation

USD LIBOR litigation

In the multi-district litigation before the US District Court for the Southern District of New York (SDNY), on March 25, 2019, the SDNY granted in part and denied in part defendants' motions to dismiss various actions and certain plaintiffs' motions for leave to amend their complaints. The SDNY's decision narrowed the claims in several of the remaining individual investor actions on grounds relating to personal jurisdiction, the statute of limitations and the merits.

On April 30, 2019, in the one matter that is not consolidated in the multi-district litigation, the United States Court of Appeals for the Second Circuit affirmed the SDNY's March 20, 2018 decision that dismissed the case.

Foreign exchange litigation

On April 1, 2019, in the civil action filed on November 13, 2018 in the SDNY, defendants filed motions to dismiss. On April 23, 2019, plaintiffs sought leave to file a second amended complaint in lieu of responding to defendants' motions. On April 26, 2019, the SDNY ordered plaintiffs to file their proposed second amended complaint subject to defendants' right to oppose the amendment and to renew their motions to dismiss.

Bank Bill Swap litigation

On April 3, 2019, in the putative class action brought in the SDNY alleging manipulation of the Australian Bank Bill Swap reference rate, plaintiffs filed a second amended complaint.

Freddie Mac and Fannie Mae bonds litigation

On April 3, 2019, the SDNY consolidated the putative class action complaints alleging a conspiracy among financial institutions to fix prices for unsecured bonds issued by Freddie Mac and Fannie Mae.

OTC trading cases

On March 20, 2019, in the consolidated multi-district litigation relating to interest rate swaps, plaintiffs filed a fourth amended consolidated class action complaint.

ATA litigation

On March 28, 2019, the SDNY granted the motion to dismiss filed by Credit Suisse AG and other defendants in the lawsuit alleging claims under the United States Anti-Terrorism Act (ATA). On April 22, 2019, plaintiffs filed a motion for leave to amend their complaint.

On April 11, 2019, another action alleging claims under the ATA was filed in the US District Court for the Eastern District of New York (EDNY) that is related to, and makes allegations materially similar to, the other ATA cases already pending in the EDNY.

ETN-related litigation

On March 29, 2019, in the individual action brought in the EDNY by a purchaser of VelocityShares Daily Inverse VIX Short Term Exchange Traded Notes linked to the S&P 500 VIX Short-Term Futures Index due December 4, 2030, plaintiff voluntarily dismissed its action and filed a substantially similar complaint in the SDNY.

SWM

On March 22, 2019, the trial court (the Regional Court of Frankfurt am Main) dismissed in their entirety claims against Credit Suisse International brought by the German public utility company Stadtwerke München GmbH in connection with a series of interest rate swaps entered into between 2008 and 2012.

34 Subsidiary guarantee information

Certain wholly owned finance subsidiaries of the Group, including Credit Suisse Group Funding (Guernsey) Limited, which is a Guernsey incorporated non-cellular company limited by shares, have issued securities fully and unconditionally guaranteed by the Group. There are various legal and regulatory requirements, including the satisfaction of a solvency test under Guernsey law for the Guernsey subsidiary, applicable to some of the Group's subsidiaries that may limit their ability to pay dividends or distributions and make loans and advances to the Group.

The Group and the Bank have issued full, unconditional and several guarantees of Credit Suisse (USA), Inc.'s outstanding SEC-registered debt securities. In accordance with the guarantees, if Credit Suisse (USA), Inc. fails to make any timely payment under the agreements governing such debt securities, the holders of the debt securities may demand payment from either the Group or the Bank, without first proceeding against Credit Suisse (USA), Inc. The guarantee from the Group is subordinated to senior liabilities. Credit Suisse (USA), Inc. is an indirect, wholly owned subsidiary of the Group.

Cautionary statement regarding forward-looking information

This document contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, targets or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market volatility and interest rate fluctuations and developments affecting interest rate levels;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery or downturn in the EU, the US or other developed countries or in emerging markets in 2019 and beyond;
- the direct and indirect impacts of deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by credit rating agencies in respect of us, sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our strategic goals, including those related to our targets and financial goals;
- the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, exchange rate, trade and tax policies, as well as currency fluctuations;

- political and social developments, including war, civil unrest or terrorist activity;
- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- the risk of cyber attacks, information or security breaches or technology failures on our business or operations;
- the adverse resolution of litigation, regulatory proceedings and other contingencies;
- actions taken by regulators with respect to our business and practices and possible resulting changes to our business organization, practices and policies in countries in which we conduct our operations;
- the effects of changes in laws, regulations or accounting or tax standards, policies or practices in countries in which we conduct our operations;
- the potential effects of changes in our legal entity structure;
- competition or changes in our competitive position in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to maintain our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets; and
- other unforeseen or unexpected events and our success at managing these and the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk factors” in I – Information on the company in our Annual Report 2018.
