

# First half-year 2019 Financial Report

2019 Semi-annual report of the Board of Directors .....	2
Airbus SE Unaudited Condensed Interim IFRS Consolidated Financial Information for the six-month period ended 30 June 2019 .....	4

## **Appendix: Review report of the independent auditor**

## 2019 Semi-annual report of the Board of Directors

### 1. Semi-annual report on activities

---

#### Main events in the first half-year of 2019

For an overview of the main events that occurred during the first half of 2019 and their impact on the Unaudited Condensed Interim IFRS Consolidated Financial Information of the Company for the six-month period ended 30 June 2019 (the "Semi-Annual Financial Statements"), please refer to the press release, which was approved by the Board of Directors on 30 July 2019 and will be issued on 31 July 2019, available on Airbus' website [www.airbus.com](http://www.airbus.com).

For further information and detail regarding the Company's activities, finances, financing, risk factors and corporate governance, please refer to the Company's website [www.airbus.com](http://www.airbus.com) and the documents posted thereon.

#### Related party transactions

Please refer to the notes to the Semi-Annual Financial Statements attached hereto (see "– Note 4: Related Party Transactions").

### 2. Risk factors

---

By systematically integrating Enterprise Risk Management ("ERM") across the company, the Company is mitigating risk and increasing opportunity, to support risk taking for value creation and competitiveness. Consequently, the company has made ERM a key management process, carefully followed by the Board of Directors.

The ERM system plays a key role to:

- make the business more robust and predictable,
- support operational decision making,
- improve the business results,
- reduce the exposure level to risks,
- ensure Airbus ERM compliance regarding the Dutch Corporate Governance Code.

For a description of the Enterprise Risk Management system, the main risks and uncertainties please refer to the:

- a. Airbus SE Report of the Board of Directors 2018 (sections 4.5 and 4.6)  
(<https://www.airbus.com/content/dam/events/annual-general-meeting/Report-of-the-Board-of-Directors-2018-Airbus-SE.pdf>), and
- b. Airbus SE Information Document (section "Risk Factors")  
(<https://www.airbus.com/content/dam/corporate-topics/financial-and-company-information/Airbus-SE-Information-Document-2018.pdf>)

### **3. Semi-Annual Financial Statements**

---

The Semi-Annual Financial Statements, including the review report by Ernst & Young Accountants LLP, are attached hereto.

### **4. Statement of the Board of Directors**

---

The Board of Directors of Airbus hereby declares that, to the best of its knowledge:

the Semi-Annual Financial Statements for the period ended 30 June 2019 give a true and fair view of the assets, liabilities, financial position and profits or losses of Airbus and undertakings included in the consolidation taken as a whole; and

this Semi-Annual Board Report (including the press release, which was approved by the Board of Directors on 30 July 2019 and will be issued on 31 July 2019) gives a true and fair view of the position as per the balance sheet date, and of the development and performance during the first half of the 2019 financial year and expected course of events of Airbus and undertakings included in the consolidation taken as a whole. This Semi-Annual Board Report has paid special attention to investments and circumstances upon which the development of revenues and profitability is dependent, as these have been described herein.

**30 July 2019,**

#### **The Board of Directors**

Denis Ranque, Chairman

Guillaume Faury, Chief Executive Officer

Victor Chu, Director

Jean-Pierre Clamadieu, Director

Ralph D. Crosby, Director

# 2

## Notes to the Airbus SE Unaudited Condensed Interim IFRS Consolidated Financial Statements

### 1. The Company

---

The accompanying Unaudited Condensed Interim IFRS Consolidated Financial Statements present the financial position and the results of operations of **Airbus SE** together with its subsidiaries referred to as “the Company”, a European public limited-liability company (*Societas Europaea*) with its seat (*statutaire zetel*) in Amsterdam, The Netherlands, its registered address at Mendelweg 30, 2333 CS Leiden, The Netherlands, and registered with the Dutch Commercial Register (Handelsregister) under number 24288945. The Company reportable segments are Airbus, Airbus Helicopters and Airbus Defence and Space (see “– Note 5: Segment Information”). The Company is listed on the European stock exchanges in Paris, Frankfurt am Main, Madrid, Barcelona, Valencia and Bilbao. The Unaudited Condensed Interim IFRS Consolidated Financial Statements were authorised for issue by the Company’s Board of Directors on 30 July 2019.

### 2. Accounting Policies

---

The Unaudited Condensed Interim Consolidated Financial Statements are prepared in accordance with International Financial Reporting Standards (“IFRS”), issued by the International Accounting Standards Board (“IASB”) as endorsed by the European Union (“EU”) as at 30 June 2019. They are prepared and reported in euro (“€”) and all values are rounded to the nearest million appropriately. Due to rounding, numbers presented may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

These unaudited Condensed Interim IFRS Consolidated Financial Statements are prepared in compliance with IAS 34 and should be read in conjunction with the IFRS Consolidated Financial Statements as of 31 December 2018. With the exception of the changes highlighted below and applied for the first time in the six-month period ended 30 June 2019, the Company’s accounting policies and methods are unchanged compared to 31 December 2018.

The Company has implemented the new standard IFRS 16 “Leases” and the new interpretation IFRIC 23 “Uncertainty over Income Tax Treatments” on 1 January 2019. As a result, the Company has changed its accounting policy for leases accounting and for classification and measurement of certain liabilities linked to uncertainty over income tax as detailed below.

The implementation of other amended standards has no material impact on the Unaudited Interim Condensed IFRS Consolidated Financial Statements as of 30 June 2019.

#### IFRS 16 “Leases”

In May 2016, the IASB published the new standard IFRS 16, which replaces the existing guidance on leases, including IAS 17 “Leases”, IFRIC 4 “Determining Whether an Arrangement Contains a Lease”, SIC-15 “Operating Leases—Incentives”, and SIC-27 “Evaluating the Substance of Transactions Involving the Legal Form of a Lease”. IFRS 16 introduces a uniform lessee accounting model. Applying that model, a lessee is required to recognise a right-of-use asset representing the lessee’s right to use the underlying asset and a financial liability representing the lessee’s obligation to make future lease payments.

There are exemptions for short-term leases and leases of low-value assets. Lessor accounting remains comparable to that provided by the existing leases standard and hence lessors will continue to classify their leases as operating leases or finance leases.

The Company adopted the new standard IFRS 16 on 1 January 2019 using the modified retrospective method and therefore the cumulative effect of adopting IFRS 16 has been recognised as an adjustment to the opening balance of retained earnings which is nil at 1 January 2019, with no restatement of comparative information.

#### Identifying a lease

Under IFRS 16, the Company assesses whether a contract is or contains a lease based on the definition of a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a specified period of time in exchange for consideration.

On transition to IFRS 16, the Company elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The previous determination pursuant to IAS 17 and IFRIC 4 of whether a contract is a lease is thus maintained for existing contracts.

#### The Company as a lessee

As a lessee, the Company previously classified leases as operating or finance leases based on assessment of whether the risks and rewards incidental to ownership of the underlying asset were transferred. Under IFRS 16, the Company recognises right-of-use assets and lease liabilities for most of its leases. Leases which were classified as operating lessees under IAS 17 are now recognised on the balance sheet.

When applying IFRS 16 for the first time, the Company has used the following practical expedients for leases previously classified as operating leases under IAS 17:

- To apply a single discount rate to a portfolio of leases with reasonably similar characteristics,
- The right-of-use to the leased asset has generally been measured at the amount of the lease liability, using the discount rate at 1 January 2019. Where accrued lease liabilities existed, the right-of-use asset has been adjusted by the amount of the accrued lease liability under IFRS 16. At initial application of IFRS 16, the measurement of the right-of-use does not include initial direct costs. In some cases, the value of right-of-use assets may differ from the value of the liabilities due to offsetting against existing provisions or as a result of valuation allowances,
- Not to apply the new recognition requirements to short-term leases and to leases of low value assets as soon as the new standard is effective.

The Company's operating leases mainly relate to real estate assets, company cars and equipment. The most significant impact identified by the Company relates to its operating leases of real estate assets (such as land, warehouses, storage facilities and offices).

For leases that were classified as finance leases under IAS 17, the Company did not change the carrying amount of the right-of-use asset and the lease liability as of 31 December 2018, measured under IAS 17.

#### The Company as a lessor

The Company is not required to make any adjustments on transition to IFRS 16 for leases in which it acts as a lessor as IFRS 16 does not trigger any change on current accounting treatment.

#### Impacts on financial statements

The Company has presented right-of-use assets within "Property, plant and equipment" and lease liabilities within "Financing liabilities" and classified the principal portion of lease payments within financing activities and the interest portion within operating activities. When measuring lease liabilities, the Company discounts lease payments using its incremental borrowing rate at 1 January 2019. The weighted-average rate applied is 1.23%. At 1 January 2019, the impact of renewal options that are reasonably certain to be exercised has been assessed as not significant for the Company.

<i>(In € million)</i>	<b>1 January 2019</b>
<b>Operating lease commitment at 31 December 2018 as disclosed in the Company's consolidated financial statements</b>	<b>1,494</b>
Short-term and low-value leases recognised on a straight-line basis as expenses	(29)
Discounted effect using the incremental borrowing rate at 1 January 2019	(113)
Finance lease liabilities recognised as at 31 December 2018	330
<b>Lease liabilities recognised at 1 January 2019</b>	<b>1,682</b>

#### IFRIC 23 "Uncertainty over Income Tax Treatments"

In 2017, the IASB issued IFRIC 23 "Uncertainty over Income Tax Treatments". The interpretation clarifies the recognition and measurement requirements when there is uncertainty over income tax treatments. In assessing the uncertainty, an entity shall consider whether it is probable that a taxation authority will accept the uncertain tax treatment.

The Company adopted the interpretation on 1 January 2019 and has elected to apply the limited exemption in IFRIC 23 relating to transition for classification and measurement, and accordingly has not restated comparative periods in the year of initial application. As a consequence, any adjustments to the carrying amounts of tax liabilities are recognised at the beginning of the reporting period, with the difference recognised in opening equity. The impact is € 122 million as at transition date.

In addition, the uncertain tax liabilities formerly included under provisions have been reclassified to current income tax liabilities for € 326 million.

## Use of Estimates and Judgements

In preparing the Unaudited Condensed Interim IFRS Consolidated Financial Statements, management makes assumptions and estimates. These estimates are revised if the underlying circumstances have evolved or in light of new information. The underlying assumptions used for the main estimates are similar to those described in the Company's IFRS Consolidated Financial Statements as of 31 December 2018.

The exceptions are:

- the estimate of income tax liabilities which is determined in the interim financial statements using the estimated average annual effective income tax rate applied to the pre-tax income of the interim period; and
- estimates used to perform employee benefits valuation (see "– Note 17: Provisions").

## 3. Acquisitions and Disposals

---

### Acquisitions and Disposals

On 1 July 2018, Airbus has taken the control of C Series programme and acquired 50.01% Class A ownership units in to the **C Series Aircraft Limited Partnership** "CSALP", newly named Airbus Canada Limited Partnership ("ACLP"). Bombardier Inc. ("Bombardier") and Investissement Québec ("IQ") own 33.55 % and 16.44 % respectively as at 30 June 2019.

The opening balance sheet of ACLP has not been adjusted in the first half year 2019 and has been completed on 1 July 2019 in accordance with IFRS 3 "Business Combinations" after the one year period.

On March 2019, the Company has become party to a Note Purchase Agreement with **OneWeb Communications** for an amount of \$ 200 million. The new financing is funded in three equal tranches, of which two have been drawn as of June 2019 for an amount of € 122 million (\$ 133.3 million). The last tranche is planned for the fourth quarter 2019 for a remaining amount of \$ 66.6 million.

### Assets and Disposal Groups Classified as Held for Sale

As of 30 June 2019, the Company accounted for **assets and disposal group of assets classified as held for sale** in the amount of € 330 million (prior year-end: € 334 million). **Disposal group of liabilities classified as held for sale** as of 30 June 2019 amount to € 313 million (prior year-end: € 432 million), and relate to Alestis Areospace S.L. On 29 March 2019, the Company confirmed the agreement to sell its shares in Alestis Aerospace to Aciturri, a company headquartered in Miranda de Ebro, Spain. The closing of the transaction is subject to certain conditions' precedent that should be completed in the short term.

## 4. Related Party Transactions

---

The Company has entered into various transactions with related entities; carried out in the normal course of business.

## 5. Segment Information

---

The Company operates in three reportable segments which reflect the internal organisational and management structure according to the nature of the products and services provided.

- **Airbus** — Development, manufacturing, marketing and sale of commercial jet aircraft of more than 100 seats; aircraft conversion and related services; development, manufacturing, marketing and sale of regional turboprop aircraft and aircraft components. It also includes the holding function of the Company and its bank activities.
- **Airbus Helicopters** — Development, manufacturing, marketing and sale of civil and military helicopters; provision of helicopter related services.
- **Airbus Defence and Space** — Military Aircraft design, development, delivery, and support of military aircraft such as combat, mission, transport and tanker aircraft and their associated services. Space Systems design, development, delivery, and support of full range of civil and defence space systems for telecommunications, earth observations, navigation, science and orbital systems. Communication, Intelligence and Security provision of services around data processing from platforms, secure communication and cyber security. In addition, the main joint ventures design, develop, deliver, and support missile systems as well as space launcher systems. Unmanned Aerial Systems design, development, delivery and service support.

The following tables present information with respect to the Company's business segments. As a rule, inter-segment transfers are carried out on an arm's length basis. Inter-segment sales predominantly take place between Airbus and Airbus Defence and Space and between Airbus Helicopters and Airbus. Other activities not allocable to the reportable segments, together with consolidation effects, are disclosed in the column "Transversal/Eliminations".

The Company uses EBIT as a key indicator of its economic performance.

Airbus SE  
Unaudited Condensed Interim IFRS Consolidated Financial Information  
for the six-month period ended 30 June 2019

Business segment information for the six-month period ended 30 June 2019 is as follows:

<i>(In € million)</i>	Airbus	Airbus Helicopters	Airbus Defence and Space	Transversal / Eliminations	<b>Consolidated Airbus</b>
Total revenue	24,043	2,371	5,015	0	31,429

<b>Profit for the period</b>					<b>493</b>

## 6. Revenue and Gross Margin

**Revenue** increased by € +5,896 million to € 30,866 million (first half-year 2018: € 24,970 million). The increase is mainly driven by higher aircraft deliveries and a favourable foreign exchange impact at Airbus (€ +5,497 million).

Revenue by geographical areas based on the location of the customer is as follows:

<i>(In € million)</i>	<b>1 January - 30 June 2019</b>	1 January - 30 June 2018
Europe	9,699	8,001
Asia-Pacific	10,811	6,748
North America	5,583	5,167
Middle East	2,723	2,896
Latin America	789	546
Other countries	1,261	1,612
<b>Total</b>	<b>30,866</b>	<b>24,970</b>

The **gross margin** increased by € +1,372 million to € 4,612 million compared to € 3,240 million in the first half-year 2018. It mainly reflects A320 ramp-up, improved performance and a favourable foreign exchange impact at Airbus. The gross margin rate increased from 13.0% to 14.9%.

In the first half-year 2019, Airbus has delivered 53 A350 XWB aircraft. New order intakes, cancellations, delivery postponements and other contractual agreements to the end of June 2019 have been reflected in the financial statements.

The industrial ramp-up is progressing and associated risks continue to be closely monitored in line with the schedule, aircraft performance and overall cost envelope, as per customer commitments. Despite the progress made, challenges remain with recurring cost convergence as the ramp-up continues.

As of 31 December 2018, the Company's largest A380 operator reviewed its aircraft fleet strategy going forward and concluded it is forced to restructure and reduce its A380 order by 39 aircraft. The Company entered into discussions with the customer in late 2018 which finally resulted in the signature of a head of agreement on 11 February 2019. Without this customer's A380 order, the Company has no substantial order backlog and no basis to sustain A380 production, despite all sales and marketing efforts in recent years. As a consequence of this decision, deliveries of the A380 will cease in 2021.

At year-end 2018, in view of the above, the Company reassessed accordingly the expected market assumptions and the recoverability and depreciation method of specific assets allocated to the A380 programme. As a result, the Company impaired specific A380 assets in the amount of € 167 million, recognised an onerous contract provision for an amount of € 1,257 million and updated the measurement of refundable advances including interest accretion for a total amount of € 1,426 million. As a consequence, the recognition of the onerous contract provision as well as other specific provisions and the remeasurement of the liabilities affected the consolidated income statement before taxes by a net € 463 million in EBIT and positively impacted the other financial result by € 177 million as of 31 December 2018.

As of 30 June 2019, the Company recorded an additional net charge of € 82 million in EBIT as part of its continuous assessment of assets recoverability and quarterly review of onerous contract provision assumptions.

During the first half-year 2019, 7 A400M aircraft has been delivered, totalling 81 aircraft as of 30 June 2019. The Company continued with development activities toward achieving the revised capability roadmap with the achievement of an important development milestone according to schedule. Retrofit activities are progressing in line with the customer agreed plan.

In 2018, the Company has been working together with OCCAR and concluded the negotiations on a contract amendment following the signature of a Declaration of Intent ("DOI") in February 2018 agreeing on a Global re-baselining of the contract.

On 13 June 2019, the Global re-baselining contract has been signed by the parties.

In the fourth quarter 2018, an update of the contract estimate at completion has triggered a net additional charge of € 436 million. This reflects the outcome of the negotiations, updated estimates on the export scenario during the launch contract phase of the A400M programme as well as applicable escalation and some cost increases. Risks remain on development of technical capabilities and the associated costs, on securing sufficient export orders in time, on aircraft operational reliability in particular with regards to engines, and on cost reductions as per the revised baseline. The year-end 2018 assessment remains unchanged as of 30 June 2019. A technical update during the first half-year 2019 mainly reflecting price escalation resulted in a charge of € 14 million.

Due to the prolonged suspension of defence export licenses to Saudi Arabia by the German Government, and the consequential inability of the Company to execute a customer contract, a € 208 million impairment charge has been recognised mainly on inventories and a € 107 million financial expense related to hedge ineffectiveness. The Company is engaging with its customer to agree a way forward on this contract. The outcome of these negotiations is presently unclear but could result in significant further financial risks.

## 7. Research and Development Expenses

---

**Research and development expenses** increased by € +20 million to € 1,423 million compared to € 1,403 million in the first half-year 2018. In addition, an amount of € 45 million of development costs has been capitalised, mainly related to Airbus Defence and Space programmes.

## 8. Share of Profit from Investments Accounted for under the Equity Method and Other Income from Investments

---

**Share of profit from investments under the equity method** and **other income from investments** decreased by € -41 million to € 69 million compared to € 110 million in the first half-year 2018.

## 9. Other Income and Other Expenses

---

**Other income** decreased by € -178 million to € 132 million compared to € 310 million in the first half-year 2018, mostly driven by the capital gain of € 159 million from the sale of Plant Holdings Inc. in 2018.

**Other expenses** increased by € +20 million to € -63 million compared to € -43 million in the first half-year 2018.

## 10. Total Financial Result

**Total financial result** improved by € +88 million to € -215 million compared to € -303 million in the first half-year 2018. This is mainly due to the positive impact from foreign exchange valuation of monetary items, partly offset by the revaluation of certain equity instruments under IFRS 9. The financial result includes the financial expense on hedge ineffectiveness (see “– Note 6: Revenue and Gross Margin”).

## 11. Income Taxes

The **income tax** expense of € -677 million (first half-year 2018: € -324 million) corresponds to an effective tax rate of 36.0% (first half-year 2018: 39.7%). This includes a deferred tax asset impairment, partially offset by the tax-free revaluation of certain equity investments under IFRS 9.

## 12. Earnings per Share

	1 January - 30 June 2019	1 January - 30 June 2018
Profit for the period attributable to equity owners of the parent (Net income)	€ 1,197 million	€ 496 million
Weighted average number of ordinary shares	776,291,117	774,129,413
<b>Basic earnings per share</b>	<b>€ 1.54</b>	<b>€ 0.64</b>

**Diluted earnings per share** – The Company’s categories of dilutive potential ordinary shares are share-settled Performance Units relating to **Long-Term Incentive Plans** (“LTIP”) and the **convertible bond** issued on 1 July 2015. During the first half-year 2019, the average price of the Company’s shares exceeded the exercise price of the share-settled Performance Units and therefore 921,803 shares (first half-year 2018: 672,955 shares) were considered in the calculation of diluted earnings per share. The dilutive effect of the convertible bond was also considered in the calculation of diluted earnings per share in the first half-year 2019, by adding back € 3 million of interest expense to the profit for the period attributable to equity owners of the parent (first half-year 2018: € 3 million) and by including 5,022,990 of dilutive potential ordinary shares.

	1 January - 30 June 2019	1 January - 30 June 2018
Profit for the period attributable to equity owners of the parent (Net income), adjusted for diluted calculation	€ 1,200 million	€ 499 million
Weighted average number of ordinary shares (diluted) <sup>(1)</sup>	782,235,910	779,825,358
<b>Diluted earnings per share</b>	<b>€ 1.53</b>	<b>€ 0.64</b>

(1) Dilution assumes conversion of all potential ordinary shares.

## 13. Intangible Assets and Property, Plant and Equipment

**Intangible assets** decreased by € -119 million to € 16,607 million (prior year-end: € 16,726 million). Intangible assets mainly relate to goodwill of € 13,041 million (prior year-end: € 13,039 million).

The annual impairment tests were performed in the fourth quarter 2018 and led to no impairment charge.

**Property, plant and equipment** increased by € +501 million to € 17,274 million (prior year-end: € 16,773 million), mainly due to the application of IFRS 16. Property, plant and equipment includes leased assets of € 129 million (prior-year end: € 45 million).

## 14. Investments Accounted for under the Equity Method

**Investments accounted for under the equity method** decreased by € -169 million to € 1,524 million (prior year-end: € 1,693 million) and mainly include the equity investments in ArianeGroup and MBDA.

## 15. Other Investments and Other Long-Term Financial Assets

<i>(In € million)</i>	30 June 2019	31 December 2018
Other investments	2,449	2,267
Other long-term financial assets	1,723	1,544
<b>Total non-current other investments and other long-term financial assets</b>	<b>4,172</b>	<b>3,811</b>
<b>Current portion of other long-term financial assets</b>	<b>420</b>	<b>489</b>
<b>Total</b>	<b>4,592</b>	<b>4,300</b>

**Other investments** mainly comprise the Company's participations. The significant participations at 30 June 2019 include the remaining investment in Dassault Aviation (Airbus share: 9.90%, prior year-end: 9.89%) amounting to € 1,046 million (prior year-end: € 999 million).

**Other long-term financial assets** and the **current portion of other long-term financial assets** include other loans in the amount of € 1,737 million as of 30 June 2019 (prior year-end: € 1,523 million), and the sales financing activities in the form of finance lease receivables and loans from aircraft financing.

## 16. Inventories

**Inventories** of € 34,776 million (prior year-end: € 31,891 million) increased by € +2,885 million. This is mainly driven by Airbus (€ +2,212 million), and reflects an increase in work in progress associated with A320 programme ramp-up, and Airbus Helicopters (€ +700 million).

## 17. Provisions

<i>(In € million)</i>	30 June 2019	31 December 2018
Provisions for pensions	10,075	7,072
Other provisions	10,388	11,816
<b>Total</b>	<b>20,463</b>	<b>18,888</b>
<i>thereof non-current portion</i>	<i>14,465</i>	<i>11,571</i>
<i>thereof current portion</i>	<i>5,998</i>	<i>7,317</i>

### Provisions for pensions

As of 30 June 2019, the further weakening of interest rates in Germany, France, Canada and the UK resulted in a total net increase in pension liability of € 1,104 million.

In light of the prolonged decline in interest rates and without any sign of change in this trend in a foreseeable future coupled with experience gained over recent years, management has revised its demographic assumptions related to the behaviour of beneficiaries under the German pension plan. This resulted in a net increase in pension liability of € 1,793 million.

These changes in accounting estimates have been recognised through other comprehensive income.

**Other provisions** are presented net of programme losses against inventories.

A restructuring provision associated with the re-organisation of the Company of € 160 million was recorded at year-end 2016, following the communication of the plan to the employees and the European Works Council in November 2016. The French social plan was agreed between the Company and the works council in June 2017. The German social plan was agreed between the Company and the works councils in September 2017, and the reconciliation of interests were finalized on 21 February 2018.

In Airbus Helicopters, the restructuring plan launched in 2016 was signed by the three representative trade unions and validated by the Work Administration Agency (DIRECCTE) in March 2017.

Included in other provisions is an estimate of the related net future costs related to the H225 Super Puma accident in 2016.

## 18. Other Financial Assets and Other Financial Liabilities

### Other Financial Assets

<i>(In € million)</i>	30 June 2019	31 December 2018
Positive fair values of derivative financial instruments	884	1,031
Others	79	77
<b>Total non-current other financial assets</b>	<b>963</b>	<b>1,108</b>
Receivables from related companies	809	1,082
Positive fair values of derivative financial instruments	160	286
Others	431	443
<b>Total current other financial assets</b>	<b>1,400</b>	<b>1,811</b>
<b>Total</b>	<b>2,363</b>	<b>2,919</b>

### Other Financial Liabilities

<i>(In € million)</i>	30 June 2019	31 December 2018
Liabilities for derivative financial instruments	1,729	1,132
European Governments' refundable advances	3,658	4,233
Others	2,764	2,644
<b>Total non-current other financial liabilities</b>	<b>8,151</b>	<b>8,009</b>
Liabilities for derivative financial instruments	769	1,623
European Governments' refundable advances	886	344
Liabilities to related companies	156	175
Others	342	320
<b>Total current other financial liabilities</b>	<b>2,153</b>	<b>2,462</b>
<b>Total</b>	<b>10,304</b>	<b>10,471</b>

The allocation of European Governments' refundable advances between non-current and current presented in the Financial Statements ended 31 March 2019 has been updated as at 30 June 2019 based on the applicable contractual repayment dates. Consequently, there is a reallocation from current to non-current in the period. The total amount of European Governments' refundable advances is unaffected.

## 19. Other Assets and Other Liabilities

### Other Assets

<i>(In € million)</i>	30 June 2019	31 December 2018
Cost to fulfil a contract	463	777
Prepaid expenses	28	33
Others	65	78
<b>Total non-current other assets</b>	<b>556</b>	<b>888</b>
Value added tax claims	2,237	3,255
Cost to fulfil a contract	667	464
Prepaid expenses	399	121
Others	598	406
<b>Total current other assets</b>	<b>3,901</b>	<b>4,246</b>
<b>Total</b>	<b>4,457</b>	<b>5,134</b>

### Other Liabilities

<i>(In € million)</i>	30 June 2019	31 December 2018
Others	398	460
<b>Total non-current other liabilities</b>	<b>398</b>	<b>460</b>
Tax liabilities (excluding income tax)	1,729	2,706
Others	2,775	2,582
<b>Total current other liabilities</b>	<b>4,504</b>	<b>5,288</b>
<b>Total</b>	<b>4,902</b>	<b>5,748</b>

## 20. Total Equity

The Company's shares are exclusively ordinary shares with a par value of € 1.00. The following table shows the development of the number of shares issued and fully paid:

<i>(In number of shares)</i>	<b>30 June 2019</b>	31 December 2018
<b>Issued as at 1 January</b>	<b>776,367,881</b>	<b>774,556,062</b>
Issued for ESOP	1,728,840	1,811,819
<b>Issued at end of period</b>	<b>778,096,721</b>	<b>776,367,881</b>
Treasury shares	(599,799)	(636,924)
<b>Outstanding at end of period</b>	<b>777,496,922</b>	<b>775,730,957</b>

Holders of ordinary shares are entitled to dividends and to one vote per share at general meetings of the Company.

**Equity attributable to equity owners of the parent** (including purchased treasury shares) amounts to € 7,434 million (prior year-end: € 9,724 million) representing a decrease of € -2,290 million. This is due to a dividend payment of € -1,280 million (€ 1.65 per share), and a decrease in other comprehensive income, principally related to a change in actuarial gains and losses of € -2,425 million, partly compensated by a net income for the period of € 1,197 million.

The **non-controlling interests** ("NCI") from non-wholly owned subsidiaries increased to € -2 million as of 30 June 2019 (prior year-end: € -5 million). These NCI do not have a material interest in the Company's activities and cash flows.

## 21. Net Cash

The net cash position provides financial flexibility to fund the Company's operations, to react to business needs and risk profile and to return capital to the shareholders.

<i>(In € million)</i>	<b>30 June 2019</b>	31 December 2018
Cash and cash equivalents	5,218	9,413
Current securities	1,911	2,132
Non-current securities	10,720	10,662
<b>Gross cash position</b>	<b>17,849</b>	<b>22,207</b>
Short-term financing liabilities	(2,649)	(1,463)
Long-term financing liabilities	(8,635)	(7,463)
<b>Total</b>	<b>6,565</b>	<b>13,281</b>

The **net cash** position on 30 June 2019 amounted to € 6,565 (prior year-end: € 13,281 million), with a gross cash position of € 17,849 million (prior year-end: € 22,207 million).

### Cash and Cash Equivalents

Cash and cash equivalents are composed of the following elements:

<i>(In € million)</i>	<b>30 June 2019</b>	31 December 2018
Bank account and petty cash	1,805	1,862
Short-term securities (at fair value through profit and loss)	2,562	6,576
Short-term securities (at fair value through OCI)	872	984
Others	1	6
<b>Total cash and cash equivalents</b>	<b>5,240</b>	<b>9,428</b>
Recognised in disposal groups classified as held for sale	22	15
<b>Recognised in cash and cash equivalents</b>	<b>5,218</b>	<b>9,413</b>

Only securities with a maturity of three months or less from the date of the acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, are recognised in cash equivalents.

## Financing Liabilities

<i>(In € million)</i>	30 June 2019	31 December 2018
Bonds and commercial papers	6,945	6,659
Liabilities to financial institutions	216	267
Loans	160	229
Finance lease liabilities	1,314	307
Others <sup>(1)</sup>	0	1
<b>Total long-term financing liabilities</b>	<b>8,635</b>	<b>7,463</b>
Bonds and commercial papers	746	0
Liabilities to financial institutions	101	86
Loans	133	70
Finance lease liabilities	256	23
Others <sup>(1)</sup>	1,413	1,284
<b>Total short-term financing liabilities</b>	<b>2,649</b>	<b>1,463</b>
<b>Total</b>	<b>11,284</b>	<b>8,926</b>

(1) Included in "others" are financing liabilities to joint ventures.

**Long-term financing liabilities**, mainly comprising bonds and finance lease liabilities, increased by €+1,172 million to € 8,635 million (prior year-end: € 7,463 million), mainly due to the application of IFRS 16.

**Short-term financing liabilities** increased by € +1,186 million to € 2,649 million (prior year-end: € 1,463 million). The increase in short-term financing liabilities is mainly related to the issuance of bonds and the application of IFRS 16.

## 22. Financial Instruments

The following table presents the composition of derivative financial instruments:

<i>(In € million)</i>	30 June 2019	31 December 2018
Non-current positive fair values	884	1,031
Current positive fair values	160	286
<b>Total positive fair values of derivative financial instruments</b>	<b>1,044</b>	<b>1,317</b>
Non-current negative fair values	(1,729)	(1,132)
Current negative fair values	(769)	(1,623)
<b>Total negative fair values of derivative financial instruments</b>	<b>(2,498)</b>	<b>(2,755)</b>
<b>Total net fair values of derivative financial instruments</b>	<b>(1,454)</b>	<b>(1,438)</b>

The total net fair value of derivative financial instruments decreased by € -16 million to € -1,454 million (prior year-end: € -1,438 million) as a result of the strengthening of the US dollar versus the euro associated with the mark to market valuation of the hedge portfolio.

The volume of hedged US dollar-contracts was US\$ 87.4 billion as at 30 June 2019 (prior year-end: US\$ 81.9 billion). The US dollar spot rate was 1.14 US\$/€ and 1.15 US\$/€ at 30 June 2019 and at 31 December 2018, respectively. The average US dollar hedge rate for the hedge portfolio of the Company improved to 1.23 US\$/€ as at 30 June 2019 compared to 1.24 US\$/€ as at 31 December 2018.

### Carrying Amounts and Fair Values of Financial Instruments

Fair values of financial instruments have been determined with reference to available market information at the end of the reporting period and the valuation methodologies as described in detail in Note 35.2 to the 2018 IFRS Consolidated Financial Statements. For the first half-year 2019, the Company has applied the same methodologies for the fair value measurement of financial instruments. In addition, the Company has remeasured non-listed equity investments for which no quoted market prices are available at fair value and determined the fair values of these equity investments using common valuation methods such as net asset values or a comparable company valuation multiples technique.

Carrying amount is a reasonable approximation of fair value for all classes of financial instruments listed in the first table of Note 35.2 to the 2018 IFRS Consolidated Financial Statements, with the exception of:

<i>(In € million)</i>	30 June 2019		31 December 2018	
	Book Value	Fair Value	Book Value	Fair Value
Financing liabilities				
Bonds and commercial papers	(7,691)	(7,877)	(6,659)	(6,781)
Liabilities to financial institutions and others	(2,023)	(2,025)	(1,937)	(1,941)

## Fair Value Hierarchy

Depending on the extent the inputs used to measure fair values rely on observable market data, fair value measurements may be hierarchised according to the following levels of input:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;
- Level 2: inputs other than quoted prices that are observable for the asset or liability – fair values measured based on Level 2 input typically rely on observable market data such as interest rates, foreign exchange rates, credit spreads or volatilities;
- Level 3: inputs for the asset or liability that are not based on observable market data – fair values measured based on Level 3 input rely to a significant extent on estimates derived from the Company's own data and may require the use of assumptions that are inherently judgemental and involve various limitations.

The fair values disclosed for financial instruments accounted for at amortised cost reflect Level 2 input. Otherwise, fair values are determined mostly based on Level 1 and Level 2 input and to a minor extent on Level 3 input.

The following table presents the carrying amounts of the financial instruments held at fair value across the three levels of the **fair value hierarchy**:

<i>(In € million)</i>	30 June 2019				31 December 2018			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
<b>Financial assets measured at fair value</b>								
Equity instruments	1,941	0	508	2,449	1,778	0	489	2,267
Derivative instruments	0	921	123	1,044	0	1,152	165	1,317
Securities	10,794	1,837	0	12,631	10,721	2,073	0	12,794
Cash equivalents	2,562	872	0	3,434	6,576	984	0	7,560
<b>Total</b>	<b>15,297</b>	<b>3,630</b>	<b>631</b>	<b>19,558</b>	<b>19,075</b>	<b>4,209</b>	<b>654</b>	<b>23,938</b>
<b>Financial liabilities measured at fair value</b>								
Derivative instruments	0	(2,489)	(9)	(2,498)	0	(2,729)	(26)	(2,755)
Other financial liabilities	0	0	(2,386)	(2,386)	0	0	(2,300)	(2,300)
<b>Total</b>	<b>0</b>	<b>(2,489)</b>	<b>(2,395)</b>	<b>(4,884)</b>	<b>0</b>	<b>(2,729)</b>	<b>(2,326)</b>	<b>(5,055)</b>

The financial liabilities measured at fair value that are classified as Level 3 consist mainly of the written put options on non-controlling interests resulting from the acquisition of ACLP. There has been no material changes in the valuation of the Level 3 financial instruments during the first half-year 2019.

## 23. Litigation and Claims

The Company is involved from time to time in various legal and arbitration proceedings in the ordinary course of its business, the most significant of which are described below. Other than as described below, the Company is not aware of any material governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened), during a period covering at least the previous twelve months which may have, or have had in the recent past significant effects on Airbus SE's or the Company's financial position or profitability.

If the Company concludes that the disclosures relative to contingent liabilities can be expected to prejudice seriously its position in a dispute with other parties, the Company limits its disclosures to the nature of the dispute.

### WTO

Although the Company is not a party, the Company is supporting the European Commission in litigation before the WTO. Following its unilateral withdrawal from the 1992 EU-US Agreement on Trade in Large Civil Aircraft, the US lodged a request on 6 October 2004 to initiate proceedings before the WTO. On the same day, the EU launched a parallel WTO case against the US in relation to its subsidies to Boeing. On 19 December 2014, the European Union requested WTO consultations on the extension until the end of 2040 of subsidies originally granted by the State of Washington to Boeing and other US aerospace firms until 2024.

On 1 June 2011, the WTO adopted the Appellate Body's final report in the case brought by the US assessing funding to Airbus from European governments. On 1 December 2011, the EU informed the WTO that it had taken appropriate steps to bring its measures fully into conformity with its WTO obligations, and to comply with the WTO's recommendations and rulings. Because the US did not agree, the matter was referred to the WTO for further review pursuant to WTO rules. A decision was published in May 2018 in which the WTO clarified that the EU and the Company have achieved compliance in respect of the majority of the subsidies at issue but considered that some remaining obligations required minor adjustments, which have since been addressed by the EU. Because the US did not agree on the EU compliance efforts, the US requested the resumption of Article 22.6 arbitration proceedings to quantify the amount of countermeasures against the EU. In September 2018, the US requested an annual amount of countermeasures of US\$ 11.2 billion. The Company considers the US' request unjustified given the measures taken to comply with the Appellate Body decision of May 2018. The Company has worked with the European Commission and the Member State governments to fully implement the WTO findings in the Appellate Body's decision and asserts that the new measures taken render the sanctions request moot. On 9 April 2019, the United States Trade Representative ("USTR") published for public consultation a preliminary list of products from the EU to which it may seek to apply duties pursuant to the May 2018 decision, which includes new aircraft and helicopters as well as major components for aircraft

manufacturing in the US. The actual amount of duties to which the US may be entitled will be determined at the conclusion of the Article 22.6 arbitration proceedings in accordance with the WTO rules.

The potential imposition of any import duties (and the amount thereof) or other countermeasures against the EU following the Article 22.6 arbitration proceedings will depend on the USTR, and could have a material impact on the financial statements, business and operations of the Company. At this stage it is too early to determine the extent of any financial impact on the Company. Duties on the importation of Airbus products into the US could result in (i) increased costs for the aerospace and airline industries as well as other industries that rely on air transport, (ii) weakening demand for new aircraft and negatively affecting the financial condition of air carriers and lessors, (iii) decisions to defer, reject or reschedule the delivery of new aircraft or limit the routes upon which new aircraft will be used, (iv) increased costs to consumers, (v) retaliation by the EU with its own import duties to be applied to US products, and/or (vi) damage to the Company's business or reputation via negative publicity adversely affecting the Company's prospects in the commercial market place.

On 23 March 2012, the WTO adopted the Appellate Body's final report in the case brought by the EU assessing funding to Boeing from the US. On 23 September 2012, the US informed the WTO that it had taken appropriate steps to bring its measures fully into conformity with its WTO obligations, and to comply with the WTO's recommendations and rulings. Because the EU did not agree, the matter was referred to the WTO for further review pursuant to WTO rules. The Appellate Body published its decision in March 2019 in which the WTO rejected the US's arguments and preserved the EU's win before the panel. The Appellate Body also found that additional US federal and state programmes constitute illegal subsidies. Now that the Appellate Body report has been adopted, the EU have requested resumption of an arbitration concerning the amount of annually-recurring countermeasures it is permitted to take against the importation of US products. On 17 April 2019, the EU published a public consultation on a preliminary list of products from the US on which the EU may take countermeasures. The actual amount of duties to which the EU may be entitled will be determined at the conclusion of the Article 22.6 arbitration proceedings. In the event that the US does indeed impose duties on Airbus aircraft, the imposition of equivalent or greater tariffs on aircraft imports into Europe is likely.

Exact timing of further steps in the WTO litigation process is subject to further rulings and to negotiations between the US and the EU.

## **GPT**

In August 2012, the UK Serious Fraud Office ("SFO") announced that it had opened a formal criminal investigation in relation to GPT Special Project Management Ltd ("GPT"), a subsidiary operating in Saudi Arabia that the Company acquired in 2007. The investigation relates to issues initially raised by a whistleblower concerning contractual arrangements originating prior to GPT's acquisition and continuing thereafter. The Company has engaged with the SFO throughout and continues to actively cooperate with the investigation.

## **Eurofighter Austria**

In February 2017, the Austrian Federal Ministry of Defence raised criminal allegations against Airbus Defence and Space GmbH and Eurofighter Jagdflugzeug GmbH for wilful deception and fraud in the context of the sale of the Eurofighter aircraft to Austria and respective damage claims. After the Austrian Federal Ministry of Defence raised its criminal allegations, the Austrian public prosecutor opened an investigation against Airbus Defence and Space GmbH, Eurofighter Jagdflugzeug GmbH and former and current employees of the two entities. The Company has filed several submissions to the Vienna Public Prosecutor in response to the allegations of deception in the procurement of Eurofighter combat aircraft made by the Austrian Defence Minister. The Company is cooperating fully with the authorities.

## **Investigation by the UK SFO and France's PNF and Related Commercial Litigation**

In the context of review and enhancement of its internal compliance improvement programme, the Company discovered misstatements and omissions relating to information provided in respect of third party consultants in certain applications for export credit financing for the Company's customers. In early 2016, the Company informed the UK, German and French Export Credit Agencies ("ECAs") of the irregularities it had discovered. The Company made a similar disclosure to the UK Serious Fraud Office ("SFO"). In August 2016, the SFO informed the Company that it had opened an investigation into allegations of fraud, bribery and corruption in the civil aviation business of Airbus relating to irregularities concerning third party consultants (business partners). In March 2017, France's Parquet National Financier ("PNF") informed the Company that it had also opened a preliminary investigation into the same subject and that the two authorities would act in coordination going forward. The Company is cooperating fully with both authorities including in respect of potential issues across the Company's business. As part of the Company's engagement with the US authorities, the latter have requested information relating to conduct forming part of the SFO/PNF investigation that could fall within US jurisdiction. The Company is cooperating with the US authorities in close coordination with the SFO and PNF. The investigations and any penalties potentially levied as a result could have negative consequences for the Company. The potential imposition of any monetary penalty (and the amount thereof) or other sanction including tax liability arising from the investigations will depend on the ultimate factual and legal findings of the investigation, and could have a material impact on the financial statements, business and operations of the Company. However, at this stage it is too early to determine the likelihood or extent of any such possible consequence. Investigations of this nature could also result in (i) civil claims or claims by shareholders against the Company (ii) adverse consequences on the Company's ability to obtain or continue financing for current or future projects (iii) limitations on the eligibility of group companies for certain public sector contracts and/or (iv) damage to the Company's business or reputation via negative publicity adversely affecting the Company's prospects in the commercial market place.

In light of these investigations, the Company enhanced certain of its policies, procedures and practices, including ethics and compliance and export control. The Company has revised and implemented improved procedures, including those with respect to its engagement of consultants and other third parties, in particular in respect of sales support activities. The Company believes that these enhancements to its controls and practices will best position it for the future, particularly in light of advancements in regulatory standards.

Several consultants and other third parties have initiated commercial litigation and arbitration against the Company seeking relief. The enhancement of its controls and practices has led to additional commercial litigation and arbitration against the Company and may lead to other civil law or criminal law consequences in the future, which could have a material impact on the financial statements, however at this stage it is too early to determine the likelihood or extent of any liability.

### **ECA Financing**

The Company and the ECAs reached agreement on a process under which it is able to resume making applications for ECA-backed financing for its customers across the Company on a case-by-case basis for a limited number of transactions.

### **Other Investigations**

The Company is cooperating fully with the authorities in a judicial investigation in France related to Kazakhstan. In this spirit, the Company asked to be interviewed by the investigating magistrates and has been granted the status of “assisted witness” in the investigation.

The Company is cooperating with French judicial authorities pursuant to a request for mutual legal assistance made by the government of Tunisia in connection with historical aircraft sales.

Following a review of its US regulatory compliance procedures, the Company discovered and subsequently informed relevant US authorities of its findings concerning certain inaccuracies in filings made with the US Department of State pursuant to Part 130 of the US International Traffic in Arms Regulations (“ITAR”) (a US export control regulation). The Company is cooperating with the US authorities. The Company is unable to reasonably estimate the time it may take to resolve the matter or the amount or range of potential loss, penalty or other government action, if any, that may be incurred in connection with this matter.

### **Other Disputes**

In the course of a commercial dispute, the Company received a statement of claim by the Republic of China (Taiwan) alleging liability for refunding part of the purchase price of a large contract for the supply of missiles by subsidiary Matra Défense S.A.S., which the customer claims it was not obliged to pay. An arbitral award was rendered on 12 January 2018 with a principal amount of € 104 million plus interest and costs against Matra Défense S.A.S. Post-award proceedings are currently underway.

## **24. Number of Employees**

	Airbus	Airbus Helicopters	Airbus Defence and Space	<b>Consolidated Airbus</b>
<b>30 June 2019</b>	82,892	19,951	33,500	<b>136,343</b>
31 December 2018	80,924	19,745	33,002	133,671

## **25. Events after the Reporting Date**

The transaction with Aciturri Aeronáutica S.L. in relation to Alestis Aerospace S.L. has been closed pursuant the signature of the final agreement on 30 July 2019.

## Review report

To: the board of directors of Airbus SE

### Introduction

We have reviewed the accompanying condensed consolidated interim financial information of Airbus SE, Amsterdam, which comprises the condensed consolidated statement of financial position as at 30 June 2019, the condensed consolidated statements of comprehensive income, changes in equity, and cash flows for the six-month period ended 30 June 2019, and the notes, comprising a summary of the significant accounting policies and other explanatory information. The board of directors is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope

We conducted our review in accordance with Dutch law including standard 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Dutch auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information for the six-month period ended 30 June 2019 is not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting", as adopted by the European Union.

Amsterdam, 30 July 2019
