

Securiton is your partner  
for sophisticated fire  
detection all over the world.

**Company Profile**

## Securiton AG

Securiton is your professional partner for sophisticated fire detection in existing and new export markets.

Founded in 1948, we are a global specialist and offer the best solutions to our customers. Securiton distributes its products worldwide through a network of partners and subsidiaries. We not only support our sales partners in achieving their performance goals through training and technical assistance, we also regularly measure their satisfaction. The close relationship with partners around the world is an increasingly important factor in maintaining a high standard of product availability for customers and anticipating future customer needs. Securiton is affiliated with the Alarm and Security Systems Section of the Securitas Group Switzerland and is a member of the Swiss Association of Security System Installers (SES).

Founded in 1948, we are a leading supplier of alarm and security systems in Switzerland. Amid a challenging market, Securiton posted a solid turnover of CHF 194 million. With 28 locations worldwide, our strong customer orientation is genuine. Securiton's workforce comprises more than 760 employees, all working together for a safe future.

## Swiss Securitas Group

Ranked number one for safety and security in the Swiss market, Swiss Securitas Group is one of the world's most experienced and all-embracing providers of safety and security solutions. Founded in 1907, it now comprises 26 companies employing in excess of 16 000 people. Swiss Securitas Group's versatility enables it to keep generating synergies and developing products and services. Because it offers safety and security solutions from a single source, customers can be sure of receiving the optimum solution, whatever their requirements.

## Swiss base

We maintain strong local connections in all parts of Switzerland through a network of offices and sub-offices.

## International reach

As a global specialist for sophisticated fire detection in export markets, we market our solutions worldwide through a network of partners as well as subsidiaries and investment companies. We have branch offices or local employees in Mexico, Brazil, Spain, India, Malaysia and China.

## Quality

Securiton AG as a whole is certified in accordance with ISO standards 9001, 14001 and 45001 and thus meets globally applicable standards with regard to quality management, environmental management, and occupational health and safety management systems. We do not compromise when it comes to quality: we set high standards for our work and deliver high-quality, durable products. We are a member of the Swiss Association of Security System Installers (SES) and a proven specialist for fire protection, intrusion protection, access control and video surveillance and monitoring.
