Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements and generally accepted accounting principles and regulations in force in Luxembourg applicable to commercial companies, including the adoption of the law of December 19, 2002 and the law of December 10, 2010 concerning the accounting and annual accounts of Luxembourg companies.

Accounting policies and valuation rules are, besides the ones laid down by the law, determined and applied by the Board of Directors.

Notes to the annual accounts as at December 31, 2020

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant accounting policies

The main valuation rules applied by the Company are the following:

2.2.1 Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.2 Transferable securities

Transferable securities are valued at the lower of purchase cost, including expenses incidental thereto and calculated on the basis of weighted average prices method.

They are expressed in the currency in which the annual accounts are prepared. A value adjustment is recorded where the market value is lower than the purchase cost. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

The market value corresponds to the last available quote on the valuation day for transferable securities listed on a stock exchange or dealt in on another regulated market.

2.2.3 Foreign currency translation

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historic exchange rate or the value determined on the basis of the exchange rates effective at the balance sheet date. The unrealised exchange losses are recorded in the profit and loss account. The realised exchange gains are recorded in the profit and loss account at the moment of their realisation.

2.2.4 Value adjustments

Value adjustments are deducted directly from the related asset.

2.2.5 Debts

Debts are valued at their nominal value.

Where the amount repayable on account is greater than the amount received, the difference is shown as an asset and is written off over the period of the debt on a linear method.
