For the financial year ending 31 March 2022 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Director's responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The director acknowledges his responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006 and in accordance with the provisions of FRS 102 Section 1A - small entities.

These financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the Profit and loss account has been taken.

The financial statements of Portico Consulting Limited were approved and authorised for issue by the director on 18 August 2022

## Notes to the Unaudited Financial Statements for the Year Ended 31 March 2022

### 1 General information

Portico Consulting Limited (the 'company') is a private company limited by share capital, incorporated in England and Wales under the Companies Act. The address of the registered office is given on page 1.

### 2 Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

#### Going concern

The financial statements have been prepared on a going concern basis. The directors believe that the company has sufficient financial resources to be able to continue to trade over the next twelve months.

#### Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

#### Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

The functional currency of the company is considered to be pound sterling (£) because that is the currency of the primary economic environment in which the company operates. The financial statements are presented in pound sterling (£).

#### Judgements and key sources of estimation uncertainty

In the opinion of the directors, no critical judgements which have the most significant effect on the amounts recognised in the financial statements, were made in the process of applying the company's accounting policies.

#### Financial instruments

The company only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

#### Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the provision of services in the ordinary course of the Company's activities net of value added tax, returns, rebates and discounts. The Company recognises revenue when the amount of revenue can be reliably measured, and it is probable that future economic benefits will flow to the entity. Licence fee income is spread evenly over the period to which it relates.

## Notes to the Unaudited Financial Statements for the Year Ended 31 March 2022 (continued)

### 2 Accounting policies (continued)

#### Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

#### Tangible fixed assets

Tangible fixed assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible fixed assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

<b>Asset class</b>	<b>Depreciation method and rate</b>
Equipment, fixtures and fittings	25% reducing balance
Computer equipment	33 1/3% reducing balance

#### Cash and cash equivalents

Cash and cash equivalents comprise cash held at bank.

#### Receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business.

Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

## Notes to the Unaudited Financial Statements for the Year Ended 31 March 2022 (continued)

### 2 Accounting policies (continued)

#### Trade Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Payables are classified as current liabilities if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement of the payable for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

#### Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

### 3 Staff numbers

The average number of persons employed by the company (including the director) during the year, was 13 (2021 - 13).
