NOTES TO THE FINANCIAL STATEMENTS  
for the Year Ended 31 March 2022

1. STATUTORY INFORMATION

Redag Crop Protection Ltd is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Going Concern**

After making enquiries and considering current trade, future plans and forecasts, the directors have a reasonable expectation that the company will have adequate resources, both financial and management, to continue in operational existence for the foreseeable future. On this basis the directors consider it appropriate to prepare the financial statements on the going concern basis.

**Tangible fixed assets**

Tangible fixed assets are stated at cost less depreciation and impairment.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Laboratory equipment	- 33% on cost
Fixtures and fittings	- 33% on cost
Computer equipment	- 33% on cost

**Impairment of assets**

At each reporting date assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in the profit and loss.

Where an impairment loss subsequently reverses, the carrying amount of each asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

**Investments in subsidiaries**

Investments in subsidiary undertakings are recognised at cost.

**Financial instruments**

Trade and other debtors are initially recognised at the transaction price and thereafter stated at amortised cost using effective interest method, less impairment losses for bad and doubtful debts except where the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less impairment losses for bad and doubtful debts.

Short term trade creditors are measured at transaction price. Financial liabilities that have no stated interest rate and are payable within one year shall be measured at the undiscounted amount due. Other financial assets and liabilities shall be measured at amortised cost using the effective interest rate.

Share-based payments are recognised at fair value with the expense charged to the profit or loss account in the relevant expense category, when material.

NOTES TO THE FINANCIAL STATEMENTS - continued  
for the Year Ended 31 March 2022

2. **ACCOUNTING POLICIES - continued**

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Research and development**

Expenditure on research and development is written off in the year in which it is incurred.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the statement of financial position date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

**Short term employee benefits**

Short-term employee benefits are recognised as an expense in the period in which they are incurred.

The company operates a defined contribution pension scheme. Contributions payable for the year are charged in the income statement.

**Patents and licences**

Patents and licence costs are expensed to the profit and loss account in the period in which they are incurred.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 2 (2021 - 2) .
