Independent Auditor's Report

To the Board of Directors
American Lightweight Materials Manufacturing
Innovation Institute

Report on the Audits of the Financial Statements

Opinion

We have audited the financial statements of American Lightweight Materials Manufacturing Innovation Institute (ALMMII), which comprise the statement of financial position as of December 31, 2022 and 2021 and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ALMMII as of December 31, 2022 and 2021 and the changes in its net assets, functional expenses, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of ALMMII and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As described in Note 5 to the financial statements, ALMMII adopted the provisions of Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)*, as of January 1, 2022. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ALMMII's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

To the Board of Directors
American Lightweight Materials Manufacturing
Innovation Institute

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of ALMMII's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ALMMII's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2023 on our consideration of ALMMII's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of ALMMII's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ALMMII's internal control over financial reporting and compliance.

December 31, 2022 and 2021

Note 1 - Nature of Business

American Lightweight Materials Manufacturing Innovation Institute (ALMMII), dba Lightweight Innovations for Tomorrow (LIFT), is a Michigan nonprofit corporation located in Detroit, Michigan, formed for the purpose of scientific research, education, development, and innovations of optimized, multimaterial lightweight structures. ALMMII was founded by University of Michigan (UofM), The Ohio State University (OSU), and Edison Welding Institute (EWI). ALMMII is part of the national network of manufacturing innovation institutes, a public-private partnership between the U.S. Department of Defense, industry, and academia, driving the U.S. mobility sector toward the future manufacturing revolution to support our nation's economy and enhance our national security.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of ALMMII are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Cash Equivalents

ALMMII considers all investments with an original maturity of three months or less when purchased to be cash equivalents. The amount of bank deposits (checking and savings accounts) that were insured by the FDIC totaled \$500,000 as of December 31, 2022 and 2021. ALMMII evaluates the financial institutions with which it deposits funds; however, it is not practical to insure all cash deposits.

Accounts Receivable

Accounts receivable are stated at net invoice amounts. During 2022 and 2021, certain receivables were identified as uncollectible and written off when identified by management. Based on management's review of outstanding receivable balances and historical collection information, management's best estimate is that all balances will be collected. Accordingly, ALMMII has not established an allowance for doubtful accounts.

Property and Equipment

Property and equipment are recorded at cost or fair value at the date of contribution for contributed or discounted property and equipment. The straight-line method is used for computing depreciation and amortization. Assets are depreciated over the shorter of their estimated useful lives or the remaining term on a government contract. The cost of leasehold improvements is depreciated over the lesser of the length of the related leases or the estimated useful lives of the assets. Costs of maintenance and repairs greater than \$5,000 are capitalized, while all other repairs and maintenance are charged to expense when incurred. The estimated useful lives of furniture and fixtures, office equipment, machinery and equipment, and computer software range from approximately 5 to 15 years.

Leases

ALMMII has operating leases for its facilities, as described in Note 5. ALMMII recognizes expense for operating leases on a straight-line basis over the lease term. ALMMII made a policy election not to separate lease and nonlease components for facility leases. Therefore, all payments are included in the calculation of the right-of-use asset and lease liability.

The right-of-use asset and liability are calculated considering available lease options and renewal terms. ALMMII elected to use the risk-free rate as the discount rate for calculating the right-of-use asset and lease liability in place of the incremental borrowing rate for its operating leases.

December 31, 2022 and 2021

Note 2 - Significant Accounting Policies (Continued)

Membership Dues

ALMMII generates revenue from contracts with customers from membership dues. Membership dues are reported at the amount that reflects the consideration to which ALMMII expects to be entitled in exchange for providing member benefits. Annual memberships are paid in a lump sum or in installments and billed a month prior to membership renewal. Members include corporate organizations and higher education institutions across the United States.

ALMMII has obligations to provide members with certain prepaid services and general member benefits. ALMMII has concluded that the prepaid services are a separate performance obligation since those would otherwise be charged to members. The remaining membership dues represent a single performance obligation, which includes access to ALMMII resources, invitations to join projects, and invitations to other ALMMII events that occur throughout the year. Prepaid services are recognized at a point in time when the services are provided to the member or when they expire at the end of the membership period. General member benefits are recognized monthly over the annual membership period. During the years ended December 31, 2022 and 2021, approximately 49 percent of membership revenue was recognized at a point in time and approximately 51 percent of membership revenue was recognized over time.

Membership fees billed but unpaid are recorded as a receivable. At December 31, 2022 and 2021, membership fees billed but unpaid were \$5,417 and \$39,167, respectively. At January 1, 2021, membership fees billed but unpaid were \$61,750. Membership fees collected in advance are recorded as contract liability - deferred membership. At January 1, 2021, contract liability - deferred membership was \$2,740,579.

Contributions

Unconditional promises to give cash and other assets to ALMMII are reported at fair value on the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value on the date the gift becomes unconditional or is received. The gifts are reported as contributions with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or the purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as net assets released from restrictions.

ALMMII receives conditional contributions from federal and state sources for the purpose of ongoing research that are not recognized as revenue within the statement of activities and changes in net assets until the conditions are met. ALMMII's revenue is derived from cost-reimbursable and milestone-based federal contracts and grants, primarily from the Department of Defense.

For cost-reimbursable grants, amounts received are recognized as revenue in the statement of activities and changes in net assets as grants and awards when ALMMII has incurred expenditures in compliance with specific contract or grant provisions. Conditional grant and award moneys received in excess of that earned are recorded as unearned revenue. ALMMII received cost-reimbursable grants of approximately \$20,417,000 and \$13,400,000 that have been recognized for the years ended December 31, 2022 and 2021, respectively, as qualifying expenditures have been incurred. The amount pledged through conditional contributions not yet recognized as revenue is approximately \$16,700,000 as of December 31, 2022 and 2021.

For milestone-based grants, amounts received are recognized as revenue in the statement of activities and changes in net assets as grants and awards when ALMMII has met the milestones requirements described in the contracts. ALMMII received milestone-based grants of approximately \$11,100,000 and \$15,900,000 as of December 31, 2022 and 2021, respectively. The amount pledged through conditional contributions not yet recognized as revenue is approximately \$21,000,000 and \$22,100,000 as of December 31, 2022 and 2021, respectively.

December 31, 2022 and 2021

Note 2 - Significant Accounting Policies (Continued)

ALMMII also receives conditional contributions from donors that are not recognized as revenue within the statement of activities and changes in net assets until the conditions are met. ALMMII recognized conditional contributions from donors of approximately \$1,600,000 and \$1,800,000 for the years ended December 31, 2022 and 2021, respectively, as conditions imposed for in-kind software licenses have been met. The amount pledged and recorded as unearned revenue not yet recognized as revenue is approximately \$3,800,000 and \$5,400,000 as of December 31, 2022 and 2021, respectively.

Classification of Net Assets

The net assets of ALMMII are classified based on the presence or absence of donor-imposed restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions or for which the donor-imposed restrictions have expired or been fulfilled. Net assets in this category may be expended for any purpose in performing the primary objectives of ALMMII.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of ALMMII or by the passage of time. Other donor restrictions are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity.

Earnings, gains, and losses on donor-restricted net assets are classified as net assets without donor restrictions unless specifically restricted by the donor or by applicable state law.

Concentration of Credit Risk

ALMMII's main revenue is from government grants and in-kind contributions. As of and for the years ended December 31, 2022 and 2021, approximately 75 percent and 85 percent, respectively, of accounts receivable and 71 percent and 56 percent, respectively, of revenue is related to federal grants with the Office of Naval Research. For the years ended December 31, 2022 and 2021, approximately 11 percent and 22 percent, respectively, of revenue is related to federal grants with the Army Contracting Command.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

ALMMII is a not-for-profit corporation and is exempt from tax under the provisions of Internal Revenue Code Section 501(c)(3).

Functional Allocation of Expenses

The costs of providing the program and support services have been reported on a functional basis in the statement of activities and changes in net assets. Accordingly, certain costs have been allocated among cost of research services and supporting services benefited. Wages and related personnel expenses are allocated based on time and effort, rent and building expenses are allocated based on square footage, and depreciation is based on the assets' intended use. Although the methods of allocation used are considered appropriate, other methods could be used that would produce different amounts.

December 31, 2022 and 2021

Note 2 - Significant Accounting Policies (Continued)

Upcoming Accounting Pronouncement

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*. The ASU includes changes to the accounting and measurement of financial assets, including ALMMII's accounts receivable and held-to-maturity debt securities, by requiring ALMMII to recognize an allowance for all expected losses over the life of the financial asset at origination. This is different from the current practice where an allowance is not recognized until the losses are considered probable. Credit losses are recognized through the recording of an allowance rather than as a write-down of the carrying value. The new guidance will be effective for ALMMII's year ending December 31, 2023. Upon adoption, the ASU will be applied using a modified retrospective transition method to the beginning of the earliest period presented. ALMMII is still evaluating the anticipated impact.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 25, 2023, which is the date the financial statements were available to be issued.

Note 3 - Property and Equipment

Property and equipment are summarized as follows:

	2022	2021
Machinery and equipment	\$ 24,951,803	\$ 24,142,703
Furniture and fixtures	1,097,331	1,058,706
Computer equipment and software	11,664,028	11,665,989
Leasehold improvements	9,251,254	9,194,054
Total cost	46,964,416	46,061,452
Accumulated depreciation	19,221,118	15,133,656
Net property and equipment	<u>\$ 27,743,298</u>	<u>\$ 30,927,796</u>

Depreciation expense for 2022 and 2021 was \$4,089,422 and \$3,700,372, respectively.

Note 4 - Contributed Nonfinancial Assets

Effective January 1, 2022, ALMMII adopted Financial Accounting Standards Board Accounting Standards Update No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The ASU requires additional disclosures to support clearer financial information about important noncash contributions that charities and other not-for-profit organizations receive, known as gifts in kind (GIKs).

ALMMII receives contributed nonfinancial assets, such as technical support, equipment, software, and other various contributions, in support of the organization. Donated items and services received by ALMMII and used in its programs have been reflected in the financial statements at their estimated fair values based on actual labor rates paid by contributors, hourly rates for professional services, and list prices of equipment and software.

Notes to Financial Statements

December 31, 2022 and 2021

Note 4 - Contributed Nonfinancial Assets (Continued)

ALMMII recorded the following contributed nonfinancial assets on the statement of activities and changes in net assets for the years ended December 31, 2022 and 2021:

	2022	2021
Software	\$ 1,800,400	\$ 1,800,400
Technical support	256,215	221,024
Subrecipient cost share	866,606	134,361
Total contributed nonfinancial assets	<u>\$ 2,923,221</u>	<u>\$ 2,155,785</u>

Note 5 - Leases

Effective January 1, 2022, ALMMII adopted Financial Accounting Standards Board Accounting Standards Update No. 2016-02, *Leases (Topic 842)*. The ASU requires lessees to recognize a right-of-use asset and related lease liability for all leases, with a limited exception for short-term leases. Leases will be classified as either finance or operating, with the classification affecting the pattern of expense recognition in the statement of operations. ALMMII elected to adopt the ASU using the modified retrospective method as of January 1, 2022 and applied the following practical expedients:

- ALMMII did not reassess if expired or existing contracts are or contain a lease.
- ALMMII did not reassess the lease classification for expired or existing leases.
- ALMMII did not reassess initial direct costs of existing leases.

As a result of the adoption of the ASU, ALMMII recorded a right-of-use asset and a lease liability of approximately \$5,700,000. There was no impact on net assets as a result of adopting the new ASU.

ALMMII is obligated under operating leases for two facilities, expiring in 2024 and 2030. One of the facility lease agreements includes a renewal through January 30, 2030, which ALMMII is reasonably certain to renew at commencement. The right-of-use asset and related lease liability have been calculated using a discount rate of 1.55 and 0.78 percent and a term of 97 and 27 months, respectively, for each building location. Total rent expense under these leases was approximately \$880,000 for 2022, of which \$825,449 was paid in cash.

Future minimum annual commitments under these operating leases are as follows:

Years Ending December 31	Amount
2023	\$ 847,052
2024	727,587
2025	696,926
2026	710,927
2027	725,146
Thereafter	<u>1,557,063</u>
Total	5,264,701
Less amount representing interest	<u>277,076</u>
Present value of net minimum lease payments	<u>\$ 4,987,625</u>

December 31, 2022 and 2021

Note 6 - Employee Benefit Plan

ALMMII sponsors a 401(k) plan for all eligible full-time employees. ALMMII contributes a discretionary employer matching contribution to each eligible participant equal to 50 percent of the first 8 percent of compensation deferred by each employee. An additional safe harbor contribution of 3 percent of compensation is made to each participant's account. Total expenses related to this plan were \$302,363 and \$227,528 for the years ended December 31, 2022 and 2021, respectively.

Note 7 - Related Party Transactions

ALMMII was co-founded by OSU, UofM, and EWI. ALMMII has entered into subcontract agreements with these related parties to provide certain technical advisory services with various expiration dates through 2021 and 2022. The following is a description of transactions between ALMMII and related parties:

Accounts Payable

At December 31, 2022 and 2021, ALMMII had accounts payable to OSU totaling \$3,652 and \$0, to UofM totaling \$60,396 and \$0, and to EWI totaling \$100,000 and \$0, respectively. All these amounts are included in the statement of financial position as accounts payable to related parties.

Expenses

For the years ended December 31, 2022 and 2021, ALMMII had incurred expenses with OSU totaling \$38,284 and \$21,117, with UofM totaling \$60,396 and \$10,181, and with EWI totaling \$350,000 and \$80,355, respectively.

Note 8 - Liquidity and Availability of Financial Resources

The following reflects ALMMII's financial assets as of December 31, 2022 and 2021, reduced by amounts not available for general use because of contractual or donor-imposed restrictions within one year of the statement of financial position date:

	2022	2021
Cash and cash equivalents	\$ 18,951,002	\$ 12,566,111
Accounts receivable	3,723,661	4,285,720
Financial assets - At year end	22,674,663	16,851,831
Less those unavailable for general expenditures within one year due to contractual or donor-imposed restrictions - Restricted by donor with time or purpose restrictions	21,600	37,500
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 22,653,063</u>	<u>\$ 16,814,331</u>

Due to the nature of its business, ALMMII maintains financial assets in the form of cash to support normal operating expenses for a period up to 180 days. ALMMII has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. ALMMII has a committed line of credit in the amount of \$4 million at December 31, 2022 and 2021 that it could draw upon if needed, as further disclosed in Note 9.

ALMMII also realizes there could be unanticipated liquidity needs.

December 31, 2022 and 2021

Note 9 - Line of Credit

Under a line of credit agreement with a bank, ALMMII has available borrowings of \$4,000,000 that expire in September 2023, with the intention to renew for another year. Borrowings are limited to formulas based on the lesser of maximum borrowings, eligible accounts receivable, or liquidation value of specific equipment. Interest is payable monthly at the greater of 3.50 percent or the highest bank prime rate recorded in *The Wall Street Journal* in its general guide to money rates (an effective rate of 3.50 and 2.41 percent at December 31, 2022 and 2021, respectively). Effective June 2022, interest is payable monthly at a variable interest rate set by the bank to be no less than 3.00 percent (an effective rate of 4.00 percent at the time of opening the line of credit). The line of credit is collateralized by substantially all assets of ALMMII.

At December 31, 2022, ALMMII was in violation of the requirement to provide audited financial statements within 180 days of year end. The bank has waived that requirement of the agreement as of and for the period ended December 31, 2022.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

To the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

We have audited the financial statements of American Lightweight Materials Manufacturing Innovation Institute as of and for the year ended December 31, 2022 and have issued our report thereon dated September 25, 2023, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. We have not performed any procedures with respect to the audited financial statements subsequent to September 25, 2023.

The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis, as required by the Uniform Guidance, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

September 25, 2023

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of American Lightweight Materials Manufacturing Innovation Institute (ALMMII), which comprise the statement of financial position as of December 31, 2022 and the related statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements and have issued our report thereon dated September 25, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered ALMMII's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of ALMMII's internal control. Accordingly, we do not express an opinion on the effectiveness of ALMMII's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the ALMMII's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether ALMMII's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of ALMMII's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ALMMII's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Plante & Moreau, PLLC

September 25, 2023

Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance
Required by the Uniform Guidance

Independent Auditor's Report

To the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited American Lightweight Materials Manufacturing Innovation Institute's (ALMMII) compliance with the types of compliance requirements identified as subject to audit in the Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on ALMMII's major federal program for the year ended December 31, 2022. ALMMII's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, ALMMII complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of ALMMII and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of ALMMII's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to ALMMII's federal program.

To the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on ALMMII's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about ALMMII's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding ALMMII's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of ALMMII's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of ALMMII's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Board of Directors
American Lightweight Materials
Manufacturing Innovation Institute

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See notes to schedule of expenditures of federal awards.

Notes to Schedule of Expenditures of Federal Awards

Year Ended December 31, 2022

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of American Lightweight Materials Manufacturing Innovation Institute (ALMMII) under programs of the federal government for the year ended December 31, 2022. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of ALMMII, it is not intended to and does not present the financial position, changes in net assets, functional expenses, or cash flows of ALMMII.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

ALMMII has elected to use the 10 percent *de minimis* indirect cost rate on certain grants, where it is included in the agreement, to recover indirect costs, as allowed under the Uniform Guidance.
