## Report of Independent Auditors

The Board of Directors  
Liberty Mutual Holding Company Inc.

### **Opinion**

We have audited the consolidated financial statements of Liberty Mutual Holding Company Inc. (the Company), which comprise the consolidated balance sheets as of December 31, 2024 and 2023, and the related consolidated statements of income, comprehensive income, changes in total equity and cash flows for the years then ended, and the related notes (collectively referred to as the “consolidated financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

**Shape the future  
with confidence**

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Shape the future  
with confidence**

### **Other Information**

Management is responsible for the other information. The other information comprises the Q4 2024 Management's Discussion and Analysis of Financial Condition and Results of Operations, the Q4 2024 Earnings Release, and Q4 2024 Earnings Presentation, but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the consolidated financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the incurred and paid claims development information and the average historical claims duration information in Note 6 be presented to supplement the financial statements. Such information is the responsibility of management and, although not a part of the financial statements, is required by Financial Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# LIBERTY MUTUAL HOLDING COMPANY INC.

## Notes to Consolidated Financial Statements

(dollars in millions)

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Liberty Mutual Holding Company Inc., entities over which the Company exercises control including majority and wholly owned subsidiaries, and variable interest entities (“VIE”) when the Company is deemed the primary beneficiary (collectively “LMHC” or the “Company”). The minority ownership of consolidated affiliates is represented in equity as non-controlling interest. All material intercompany transactions and balances have been eliminated. Certain reclassifications have been made to the 2023 consolidated financial statements to conform to the 2024 presentation.

The accompanying consolidated financial statements have been prepared in conformity with the US generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company’s principal estimates include 1) unpaid claims and claim adjustment expense reserves, 2) reinsurance recoverables and associated credit loss allowance, 3) fair value determination of the investment portfolio, 4) impairment assessments of goodwill and intangible assets, 5) deferred income tax valuation allowance, and 6) pension and postretirement benefit obligations. While the amounts included in the consolidated financial statements reflect management’s best estimates and assumptions, these amounts ultimately could vary.

#### Nature of Operations

The Company conducts substantially all of its business through two businesses: US Retail Markets and Global Risk Solutions. A summary of each business follows:

US Retail Markets (“USRM”), with \$30,905 of revenues in 2024, offers automobile, homeowners and other types of property and casualty insurance coverage to individuals in the United States. USRM is organized into the following segments: Personal lines and Small Commercial lines.

Global Risk Solutions (“GRS”), with \$18,372 of revenues in 2024, offers a wide array of property, casualty, automobile, specialty, life and health and reinsurance products distributed through multiple channels globally. GRS is organized into the following segments: Liberty International Insurance, Liberty Mutual Reinsurance, North America, Global Surety and Other GRS.

#### Adoption of New Accounting Standards

Effective January 1, 2023, the Company adopted ASC 326, *Measurement of Credit Losses on Financial Instruments*. As a result, the Company used modified retrospective transition and estimates allowance for credit losses on items measured at amortized cost within the scope of ASC 326-20, including mortgage loans, private loans, unfunded commitments, reinsurance recoverables, and premium receivables, to reflect management’s estimate of expected credit losses considering historical losses, existing economic conditions, and reasonable and supportable forecasts. On January 1, 2023, the allowance for credit losses and liability for unfunded commitments increased by \$56 (pre-tax), and the cumulative effect to opening retained earnings was a reduction of \$(44). Adoption of ASC 326 for the AFS debt securities did not impact the transition adjustment as it is applied prospectively.

There are no accounting standards not yet adopted by the Company that are expected to have a material impact on the consolidated financial statements.

#### Accounting Policies

##### Investments

Fixed maturity securities classified as available for sale are debt securities that have principal payment schedules, are held for indefinite periods of time, and are used as a part of the Company’s capital strategy or sold in response to risk and reward characteristics, liquidity needs or similar economic factors. These securities are reported at fair value with changes in fair values, net of deferred income taxes, reported in accumulated other comprehensive income.

Equity securities include common equities and non-redeemable preferred stocks and are reported at quoted fair values. Changes in fair values, net of deferred income taxes, are reported in net income.

Starting January 1, 2023, the Company has a portfolio monitoring process to assess whether a credit loss exists. For an available for sale security in an unrealized loss position, the Company assesses whether management with the appropriate authority has decided to sell or it is more likely than not that the Company will be required to sell before recovery of the amortized cost basis. If the security meets either of these criteria, the allowance for credit losses is written off and the amortized cost basis is written down to the debt security’s fair value at the reporting date with any incremental impairment reported in earnings. If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the Company utilizes both qualitative and quantitative inputs to determine if a credit loss is expected. These factors include 1) the extent to which fair value is less than the amortized cost basis, 2) credit spreads for the security, 3) adverse conditions related to the security, the industry or geographic area, and 4) assessment of the issuer being able to make payments.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

When developing an estimate of cash flows expected to be collected, the Company considers available information relevant to the collectability of the security, including information about past events, current conditions, and reasonable and supportable forecasts. This information includes 1) remaining payment terms of the security, 2) prepayment speeds, and 3) value of the underlying collateral.

These considerations are part of the Company's portfolio monitoring process which includes a quarterly review of all securities to identify those whose fair value fell below their amortized cost basis by more than internally established thresholds. The securities identified, along with other securities for which the Company may have a concern, are evaluated to determine whether a credit loss exists. If the Company determines that a credit loss exists, an allowance for credit losses is recorded in the net realized gains (losses) line item of the statement of income, limited by the amount that the fair value is less than amortized cost basis. The Company calculates the present value of cash flows expected to be collected using the effective interest rate implicit in the security at the date of acquisition and compares it with the amortized cost basis of the security. The portion of the unrealized loss related to factors other than credit loss remains in other comprehensive income. Write-offs are deducted from the allowance in the period in which the securities are deemed uncollectible. Recoveries are recognized when received.

The Company is required to review its natural resource and other equity method investments when facts and circumstances indicate that carrying values may not be recoverable. In performing a quarterly review, the fair value of the Company's investment is estimated using indicators including, but not limited to, market comparables and analyses, commodity prices, and discounted cash flows and a realized loss is recognized for the excess, if any, of the investment's carrying value over its estimated fair value.

Realized gains and losses on sales of investments are recognized in income using the specific identification method. The Company reviews fixed maturity securities and other investments for impairment on a quarterly basis. Securities are reviewed for both quantitative and qualitative considerations including, but not limited to: 1) the extent of the decline in fair value below book value, 2) the duration of the decline, 3) significant adverse changes in the financial condition or near term prospects for the investment or issuer, 4) significant changes in the business climate or credit ratings of the issuer, 5) general market conditions and volatility, 6) industry factors, 7) the past impairment of the security holding or the issuer and 8) changes in foreign exchange.

Cash equivalents are short-term, highly liquid investments that are both readily convertible into known amounts of cash and so near to maturity that they present insignificant risk of changes in value due to changing interest rates. The Company's cash equivalents include debt securities purchased with maturities of three months or less at acquisition and are carried at amortized cost, which approximates fair value.

Short-term investments are debt securities with maturities at acquisition between three months and one year, are considered available for sale, and are reported at fair value with changes in fair values, net of deferred income taxes, reported in accumulated other comprehensive income.

Any VIE for which the Company is the primary beneficiary is consolidated into the Company's financial statements.

Other investments are comprised of loans, limited partnerships and other alternative investments. Loans are reported at amortized cost less an allowance for potentially uncollectible amounts. Limited partnerships and other alternative investments are reported using the equity method of accounting and, accordingly, the Company's share of earnings are included in net investment income. Due to the availability of financial statements, other alternative investments and limited partnership investment income is generally recorded on a three-month lag. The Company elects the fair value option on certain other investments and these investments are carried at fair value. Accordingly, changes in fair value are included in net investment income or net realized gains (losses) in the accompanying consolidated statements of income. Also included in other investments are equity investments in privately held businesses that are carried at fair value with changes in fair value reported in other comprehensive income.

Mortgage and private loans are held for investment and stated at amortized cost less an allowance for loan loss for potentially uncollectible amounts.

The Company's mortgage loans are commercial mortgage loans collateralized by real estate properties and totaled \$3,117 and \$3,348, net of credit loss allowances as of December 31, 2024 and 2023, respectively. Loan to value ratio and debt service coverage ratio are considered key credit quality indicators when estimating expected credit loss allowance for mortgage loans. Payments on mortgage loans were current as of December 31, 2024. The number of loans in the portfolio decreased from 2,431 as of December 31, 2023, to 2,165 as of December 31, 2024.

Private loans consist of lending to small businesses, pools of individual consumers, and individual companies. The Company's private loans totaled \$4,251 and \$2,987, net of credit loss allowance, as of December 31, 2024 and 2023, respectively, and are reported in the Other investments line item of the consolidated balance sheets. Credit rating is considered a key credit quality indicator when estimating expected credit loss allowances for private loans. Payments on private loans were current as of December 31, 2024.

Net investment income primarily consists of interest, dividends, and income from limited partnerships and certain other alternative investments. Interest income is recognized on an accrual basis using the effective interest method and dividend income is recognized at the ex-dividend date. Interest income for mortgage-backed fixed maturity securities is recognized using a constant effective yield based on anticipated prepayments over the economic life of the security. The mortgage-backed portfolio is accounted for under the retrospective method and prepayment assumptions are based on market expectations. When actual prepayments differ significantly from anticipated prepayments, the effective yield is recalculated to reflect actual payments to date and anticipated future payments and any resulting adjustment is included in net investment income.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

The Company has designated non-derivative foreign currency denominated long-term debt and the related accrued interest as hedges of its net investment in certain foreign operations. Accordingly, the foreign currency translation of the debt instrument and accrued interest is recorded in accumulated other comprehensive loss, offsetting the foreign currency translation adjustment of the related net investment that is also recorded in accumulated other comprehensive loss. As of December 31, 2024, the Company had €1,250 million of outstanding long-term debt and approximately €16 million of accrued interest designated as non-derivative hedges of its net investment in certain foreign operations. As of December 31, 2024, the foreign currency translation of the debt instrument and accrued interest recorded in accumulated other comprehensive loss was \$91.

The Company participates in a securities lending program to generate additional income, whereby certain domestic fixed maturity securities and equity securities are loaned for a short period of time from the Company's portfolio to qualifying third parties via a lending agent. Terms of the agreement are for borrowers of these securities to provide collateral of at least 102% of the market value of the loaned securities. Acceptable collateral may be in the form of cash or permitted securities as outlined in the securities lending agreement. The market value of the loaned securities is monitored, and additional collateral is obtained if the market value of the collateral falls below 102% of the market value of the loaned securities. Under the terms of the securities lending program, the lending agent indemnifies the Company against borrower defaults. The loaned securities remain a recorded asset of the Company; however, the Company records a liability for the amount of cash collateral held, representing its obligation to return the collateral related to the loaned securities.

All derivatives are recognized on the balance sheet at fair value and reported as other invested assets, other assets, or other liabilities. At the inception of the contract, the Company designates the derivative as either 1) a hedge of a fair value of a recognized asset ("fair value hedge"), 2) an economic hedge ("non-designated derivative"), or 3) a cash flow hedge.

The Company participated in foreign exchange forward contracts, exchange traded futures, and options in 2024 and 2023. Hedge accounting was applied for certain instruments when the derivative is highly effective in offsetting the change in fair value of the hedged item. Changes in fair value were recorded in other comprehensive income. For instruments where hedge accounting was not applied changes in fair value were recorded in net realized gains (losses) on the consolidated statements of income. These derivatives were not material to the Company's financial statements.

The Company entered into interest rate swap agreements that are classified as cash flow hedges. The effective portion of the gain or loss on these instruments is reported as a component of other comprehensive income and reclassified into earnings in the same period in which the hedged items affect earnings. The Company's cash flow hedges are 100% effective and are not material to the financial statements.

The Company owns fixed maturity securities that may have call, put, or conversion options embedded. These derivatives are not related to hedging and are not material to the Company's financial statements.

#### **Goodwill and Intangible Assets**

Goodwill is tested for impairment at least annually using either a qualitative or a quantitative process. Election of the approach can be made at the reporting unit level. As of December 31, 2024, the Company has two reporting units – USRM and GRS. The reporting unit has the option to skip the qualitative test and move directly to completion of the quantitative process. The qualitative approach can be used to evaluate if there are any indicators of impairment. Through this process, the reporting unit must determine if there is indication that it is more likely than not that the fair value of the reporting unit is less than its carrying amount, including goodwill. If it is determined that there is an indication of potential impairment, the reporting unit must complete the quantitative process. The quantitative approach is a two-step process. The first step is performed to identify potential impairment and, if necessary, the second step is performed for the purpose of measuring the amount of impairment, if any. Impairment is recognized only if the carrying amount is not recoverable from the discounted cash flows using a "market" rate and is measured as the difference between the carrying amount and the implied fair value. Other changes in the carrying amount of goodwill are primarily caused by acquisitions, dispositions, and foreign currency translation adjustments.

In Q4 2024, the Safeco trade name intangible asset was reclassified from an indefinite-lived asset to a definite-lived asset. The reclassification triggered a review for impairment, resulting in an impairment charge of \$(127). The Company recognized no goodwill or intangible impairments in 2023.

Indefinite-lived intangible assets held by the Company are reviewed for impairment on at least an annual basis using a qualitative process. The classification of the asset as indefinite-lived is reassessed and an impairment is recognized if the carrying amount of the asset exceeds its fair value. Intangible assets that have finite useful lives are amortized over their useful lives. The carrying amounts of intangible assets with finite useful lives are reviewed regularly for indicators of impairment in value. Impairment is recognized only if the carrying amount of the intangible asset is not recoverable from its undiscounted cash flows and is measured as the difference between the carrying amount and the asset's fair value.

The Company has intangible assets included in other assets on the accompanying consolidated balance sheets related to State Auto Group, AmGeneral Insurance Berhad, AmTrust, QBE Holdings service agreement fees, Ironshore, Safeco, and Ohio Casualty Corporation ("Ohio Casualty") acquisitions that occurred in 2022, 2022, 2019, 2018, 2017, 2008, and 2007, respectively. The following table summarizes the carrying value of intangible assets the Company recognized in other assets on the consolidated balance sheets as of December 31, 2024 and 2023.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

<b>Total intangible assets</b>	<b>\$589</b>	<b>\$744</b>		

<sup>(1)</sup> Includes Safeco, Ohio Casualty, Ironshore, and State Auto.

The Company recognized \$28 and \$111 of amortization expense on intangible assets related to these acquisitions for the years ended December 31, 2024 and 2023, respectively. Amortization expense is reflected in operating costs and expenses on the accompanying consolidated statements of income. Estimated amortization expense is expected to be \$80, \$79, \$53, \$27 and \$27 for the years ended December 31, 2025 through 2029, respectively. The intangible assets above are net of accumulated amortization of \$366 and \$338 as of December 31, 2024 and 2023, respectively.

**Deferred Acquisition Costs**

Costs that are directly related to the successful acquisition or renewal of insurance contracts are deferred and amortized over the respective policy terms. All other acquisition related costs, including market research, training, administration, unsuccessful acquisition or renewal efforts, and product development are charged to expense as incurred. For short-duration contracts, acquisition costs include commissions, underwriting expenses and premium taxes and are amortized in proportion to earned premiums. Deferred acquisition costs are reviewed annually for recoverability. Investment income is considered in the recoverability assessment.

**Property and Equipment**

The costs of buildings, furniture, equipment and internally developed software are depreciated, principally on a straight-line basis, over their estimated useful lives (a maximum of 39.5 years for buildings, 10 years for furniture, 3-5 years for equipment, and generally 5 years for internally developed software). Property and equipment asset balances net of accumulated depreciation are included in other assets on the consolidated balance sheets. Depreciation expense is included in operating costs and expenses on the consolidated statements of income. Expenditures for maintenance and repairs are charged to income as incurred while expenditures for improvements are capitalized and depreciated.

**Insurance Liabilities and Reserves**

For short-duration contracts, the Company establishes reserves for unpaid claims and claim adjustment expenses covering events that occurred in 2024 and prior years. These reserves reflect estimates of the total cost of claims reported but not yet paid and the cost of claims not yet reported, as well as the estimated expenses necessary to settle the claims. Reserve estimates are based on past loss experience modified for current claim trends, as well as prevailing social, economic and legal conditions. Final claim payments, however, may ultimately differ from the established reserves since these payments might not occur for several years. Reserve estimates are continually reviewed and updated, and any resulting adjustments are reflected in current operating results. The Company does not discount reserves other than discounting on the long-term indemnity portion of workers compensation settled claims, the long-term disability portion of group accident and health claims as permitted by insurance regulations in certain states, the long-term portion of certain workers compensation claims of foreign subsidiaries, reserves related to periodic payment orders on certain automobile policies and specific asbestos structured settlements. Reserves are reduced for estimated amounts of salvage and subrogation and deductibles recoverable from policyholders. The Company discounts the long-term indemnity portion of workers compensation claims at risk-free discount rates determined by reference to the US Treasury yield curve. The weighted average discount rates were 4.4% and 4.5% for 2024 and 2023, respectively. The held discounted reserves on these unpaid workers compensation claims, net of all reinsurance, as of December 31, 2024 and 2023, were \$781 and \$785, respectively.

**Guaranty Funds**

Liabilities for guaranty fund and other insurance-related assessments are accrued when an assessment is probable, when it can be reasonably estimated, and when the event obligating the entity to pay an imposed or probable assessment has occurred. The liabilities for guaranty fund assessments are based on preceding year premium or multiple year's premiums depending upon the state law. Additionally, for those states that have

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

loss-based assessments, liabilities for workers' compensation loss-based assessments are reserved based on workers' compensation loss reserves and workers' compensation paid losses. Liabilities for guaranty fund and other insurance-related assessments are not discounted and are included as part of other liabilities in the accompanying consolidated balance sheets. As of December 31, 2024 and 2023, the liability balance was \$86 and \$90, respectively. As of December 31, 2024 and 2023, included in other assets were \$3 and \$3, respectively, of related assets for premium tax offsets or policy surcharges. The related asset is limited to the amount that is determined based on future premium collections or policy surcharges from policies in force. Current Guaranty Fund Association assessments are expected to be paid over one year while loss-based assessments are expected to be paid over a period ranging from one year to the life expectancy of certain workers' compensation claimants and the recoveries are expected to occur over the same period of time. Premium tax offsets are expected to be realized within one year.

#### **Long-Term Incentive and Performance Based Incentive Plans**

The Company maintains short-term and long-term incentive compensation plans. Long-term plans vest over the requisite service period, are based upon notional units and are accounted for under ASC 718, *Compensation – Stock Compensation*, using the intrinsic value method. Additionally, the Company provides performance-based incentive compensation to the majority of employees meeting the participation requirements of the respective plans. Compensation cost related to these plans is determined in accordance with plan formulas and recorded over the years the employee service is provided.

#### **Revenue Recognition**

For short-duration insurance contracts, premiums are reported as earned income generally on a pro-rata basis over the terms of the related policies. For retrospectively rated policies and contracts, premium estimates are continually reviewed and updated and any resulting adjustments are reflected in current operating results. For loss portfolio transfers, premiums are fully recognized as written and earned at contract inception.

#### **Reinsurance**

All assets and liabilities related to ceded reinsurance contracts are reported on a gross basis in the accompanying consolidated balance sheets. Prospective reinsurance premiums, claims, and claim adjustment expenses are accounted for on a basis consistent with the terms of the reinsured contracts. The accompanying consolidated statements of income reflect premiums, benefits, and settlement expenses net of reinsurance ceded.

Transactions that do not transfer risk are included in other assets or other liabilities. Ceded transactions that transfer risk but are retroactive are included in reinsurance recoverables. The excess of estimated liabilities for claims and claim costs over the consideration paid net of experience adjustments is established as a deferred gain at inception. The deferred amounts are subsequently amortized using the effective interest method over the expected settlement period. The periodic amortization is reflected in the accompanying consolidated statements of income through claims and claim adjustment expenses. In transactions where the consideration paid exceeds the estimated liabilities for claims and claim costs, a loss is recognized. If the adverse development net of experience adjustments exceeds the original loss, deferred gains are recorded. The deferred gains are subsequently recognized into earnings over the expected settlement period of the reserves. In transactions involving an acquisition whereas a reinsurance contract is entered into contemporaneously with the acquisition, the contract is accounted for as prospective reinsurance.

Amounts recoverable from reinsurers include unpaid losses estimated in a manner consistent with the claim liabilities associated with the reinsured business. The Company evaluates reinsurance collectability and a provision for uncollectible reinsurance is recorded where necessary.

#### **Translation of Foreign Currencies**

The Company translates the financial statements of its foreign operations into US dollars from the functional currency designated for each foreign unit, generally the currency of the primary economic environment in which that operation does its business. Assets and liabilities are translated into US dollars at period-end exchange rates, while income and expenses are translated using average rates for the period. Translation adjustments are recorded as a separate component of accumulated other comprehensive income, net of tax, to the extent applicable. Foreign currency amounts are re-measured to the functional currency, and the resulting foreign exchange gains or losses are reflected in earnings.

#### **Income Taxes**

The income tax provision is calculated under the liability method of accounting. The Company recognizes deferred income tax assets and liabilities for the expected future tax effects attributable to temporary differences between the financial statement and tax return bases of assets and liabilities based on enacted tax rates and other provisions of the tax laws. The effect of a change in tax laws or rates on deferred tax assets and liabilities is recognized in income in the period in which such change is enacted. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that all or some portion of the deferred tax assets will not be realized.

No additional income taxes have been provided for any undistributed foreign earnings or outside basis differences which continue to be indefinitely reinvested. Determining the amount of any related unrecognized deferred tax liability is not practicable.

As of December 31, 2024, the US Treasury Department and the Internal Revenue Service ("IRS") are still in the process of issuing various regulations in accordance with the Inflation Reduction Act ("IRA") of 2022. Accordingly, future adjustments to the financial statements may be necessary as further guidance and regulations are issued.

Global intangible low-taxed income ("GILTI") is treated by the Company as a period expense.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

**Fee and Other Revenues**

Fee and other revenues primarily consist of revenues from the Company's partner carrier referral programs, energy production operations, universal life cost of insurance and administrative fees, and service fees generated from processing business for involuntary assigned risk pools, self-insured customers, and risk retention groups. Service fees are earned on a pro-rata basis over the term of the related policies. The Company accounts for oil and gas sales from its interests in producing wells under the sales method. The sales method requires that the Company recognize revenue based on the amount of natural gas and oil sold to purchasers on its behalf, which may be different from the Company's entitled production based on its interest in the properties. Fee income from service contracts is recognized as the Company completes its performance obligations, which is primarily on a pro-rata basis over the contract service period or the underlying policy periods.

**Discontinued Operations**

Disposal of businesses that are considered strategic shifts in the Company's operations are reflected as discontinued operations in the accompanying consolidated financial statements.

**Accumulated Other Comprehensive Income (Loss)**

Accumulated other comprehensive income (loss) consists principally of unrealized gains and losses on certain investments in debt securities, foreign currency translation adjustments, and pension and postretirement liability adjustments.

The components of accumulated other comprehensive loss excluding non-controlling interest, net of related deferred acquisition costs and taxes, for the years ended December 31, 2024 and 2023 are as follows:

	<b>As of December 31,</b>	
	<b>2024</b>	<b>2023</b>
Unrealized loss on securities	\$(2,115)	\$(3,199)
Foreign currency translation and other adjustments	(621)	(623)
Pension and post-retirement liability funded status	(1,192)	(1,305)
Accumulated other comprehensive loss	\$(3,928)	\$(5,127)

The following tables presents the changes in the components of other comprehensive income (loss) for the years ended December 31, 2024 and 2023, respectively.

	<b>Unrealized gains on securities</b>	<b>Pension and post-retirement plans funded status</b>	<b>Foreign currency translation and other adjustments<sup>(1)</sup></b>	<b>Total</b>
<b>Year ended December 31, 2024</b>				
Change arising during the period	\$371	\$49	\$43	\$463

(1) Includes \$(10) of non-controlling interest

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

**(2) ACQUISITIONS, MERGERS AND DISPOSITIONS**

**Dispositions**

On July 29, 2024, the Company announced it had signed an agreement with Markerstudy Group to sell Hughes Insurance in Northern Ireland. The transaction closed November 4, 2024.

**Discontinued Operations**

Discontinued operations for the year ended December 31, 2024 include the resolution of potential open claims related to the Company's 2018 sale of Liberty Life Assurance Company of Boston.

**Liberty Seguros – Latin America & Western Europe**

On May 27, 2023, the Company announced the sale of Liberty Seguros' personal and small commercial business in Brazil (the Brazil transaction), Chile, Colombia, and Ecuador (collectively, the Andes transaction) to Talanx Group. On June 15, 2023, the Company announced the sale of Liberty Seguros' personal and small commercial business operations in Ireland, Northern Ireland, Portugal, and Spain (collectively, the Western Europe Market or "WEM" transaction) to Generali Group. The Brazil transaction closed on November 22, 2023, resulting in a total loss of \$(95), (including a cumulative translation adjustment loss of \$(464)). The WEM transaction closed January 31, 2024, resulting in a gain of \$755 (including a cumulative translation adjustment gain of \$88). The Andes transaction closed March 1, 2024, resulting in a loss of \$(143) (including a cumulative translation adjustment loss of \$(196)).

A business is classified as held for sale when management, having the authority to approve the action, commits to a plan to sell the business, the sale is probable to occur within one year at a price that is reasonable in relation to its current fair value, and other criteria are met. A business classified as held for sale is recorded at the lower of carrying amount or estimated fair value less costs to sell. When the carrying amount of the business exceeds its estimated fair value less cost to sell, a loss is recognized and updated each reporting period as appropriate. The results of operations classified as held for sale are reported as discontinued operations if the disposal represents a strategic shift that has or will have a major effect on the entity's operations and financial results. Discontinued operations reporting requires that the results for prior periods are retrospectively reclassified as discontinued operations, results of operations are reported in a single line (net of tax) in the consolidated statements of income, and assets and liabilities are reported as held for sale in the consolidated balance sheets for the period in which the business is classified as held for sale.

The Company met the criteria for held-for-sale and discontinued operations in Q2 2023, accordingly, for the twelve months ended December 31, 2024, and for all prior periods, the results of the disposal groups have been classified as discontinued operations in the consolidated statements of income. As of December 31, 2024 and December 31, 2023, the assets and liabilities attributable to the disposal groups are reflected in assets and liabilities held for sale on the accompanying consolidated balance sheets. As a result of meeting held-for-sale criteria, a loss of \$(141) was recorded in the second quarter of 2023.

The following tables detail the major assets and liabilities classified as held for sale in the consolidated balance sheets.

	<b>As of December 31, 2024</b>	<b>As of December 31, 2023</b>
<b>Assets:</b>		
Total investments	\$-	\$5,012
Cash and cash equivalents	-	235
Premium and other receivables	-	374
Reinsurance recoverables	-	33

**(3) INVESTMENTS**

**Components of Net Investment Income**

	<b>Years Ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Taxable interest income	\$3,114	\$2,710
Tax-exempt interest income	96	118
Dividends	54	36
Limited partnerships income	1,273	99
Mortgage loans	209	216
Other investments	423	193
Gross investment income	5,169	3,372
Investment expenses <sup>(1)</sup>	(427)	(414)
Net investment income	<u>\$4,742</u>	<u>\$2,958</u>

<sup>(1)</sup> Fees paid to external managers are included within the components of gross investment income.

**Net Realized Losses**

	<b>Years Ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Impairment losses	\$(176)	\$(78)
Other net realized losses	(1,037)	(303)
Valuation changes on equity investments, derivatives, other	172	85
Total net realized losses	<u>\$(1,041)</u>	<u>\$(296)</u>

**Components of Net Realized Losses**

	<b>Years Ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Fixed maturities		
Gross realized gains	\$316	\$265
Gross realized losses	(1,287)	(610)
Equities		
Gross realized gains	84	57
Gross realized losses	(34)	(34)
Derivatives		
Gross realized gains	222	155
Gross realized losses	(142)	(125)
Other		
Gross realized gains	265	161
Gross realized losses	(465)	(165)
Net realized losses	<u>\$(1,041)</u>	<u>\$(296)</u>

Included in the above realized losses are unrealized gains related to equity securities still held of \$146 and \$72 and for the twelve months ended December 31, 2024 and 2023, respectively.

During the years ended December 31, 2024 and 2023, the Company recorded \$(176) and \$(78) of impairment losses, respectively. Included in the impairment losses are impairment charges for assets measured at fair value on a non-recurring basis which are summarized in the following table for the years ended December 31, 2024 and 2023:

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

	<b>Years ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Natural Resources	\$-	\$7
Real Estate	(31)	(56)
Software	(18)	(17)
Intangibles	(127)	-
Total	\$(176)	\$(66)

The Company tests for impairment on its natural resource investments by comparing the undiscounted cash flows expected to be generated by a project to the property's carrying value. When a property's carrying value is greater than the expected future cash flows, impairment expense is recognized to the extent that the carrying value of the property exceeds its discounted expected cash flows.

In employing the discounted cash flow method described above, key inputs regarding natural resource investments are commodity prices, locational basis difference, production, project development costs, and the discount rate which are based on management's expectations about outcomes with respect to these variables. Specifically, the Company uses a long-term forward price curve and applies a discount rate to the projected future cash flows. Regarding the sensitivity of the key inputs, an increase in the locational basis difference, project development costs, or discount rate will lead to a decrease in fair value, and an increase in prices or production will lead to an increase in fair value.

During the years ended December 31, 2024 and 2023, proceeds from sales of fixed maturities available for sale were \$52,890 and \$13,072, respectively. The gross realized gains (losses) on sales of fixed maturities available for sale totaled \$233 and \$(1,158) in 2024 and \$64 and \$(361) in 2023. During the years ended December 31, 2024 and 2023, proceeds from sales of equities were \$1,142 and \$198, respectively. The gross realized gains (losses) on sales of equities totaled \$39 and \$(33) in 2024 and \$14 and \$(20) in 2023.

**Components of Change in Net Unrealized Investment Gains**

	<b>Years Ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Fixed maturities	\$1,359	\$2,704

<b>Total securities available for sale</b>	<b>\$72,729</b>	<b>\$(37)</b>	<b>\$471</b>	<b>\$(4,262)</b>	<b>\$68,901</b>

<sup>(1)</sup> Mortgage-backed securities ("MBS")

<sup>(2)</sup> Asset-backed securities ("ABS")

Approximately 59.4% of the Company's mortgage and asset-backed fixed maturity portfolio is explicitly backed by the US government (Government National Mortgage Association and Small Business Association) or by government-sponsored entities (Federal Home Loan Mortgage Corporation and Federal National Mortgage Association). Approximately 98.3% of the holdings are rated BBB and above. The commercial MBS portfolio is well diversified and of high quality with approximately 95.8% rated A or above.

As of December 31, 2024, no single issuer, excluding US Treasuries, agency securities and MBS, accounted for more than 0.57% of invested assets.

As of December 31, 2024 and 2023, securities carried at \$2,674 and \$2,719, respectively, were on deposit with state regulatory authorities as required by law.

As of December 31, 2024 and 2023, the fair values of fixed maturity securities and equity securities loaned were approximately \$3,722 and \$3,098, respectively. Cash and short-term investments received as collateral in connection with the loaned securities were approximately \$2,648 and \$2,675 as of December 31, 2024 and 2023, respectively. Investments other than cash and short-term investments received as collateral in connection with the loaned securities were approximately \$1,154 and \$490 as of December 31, 2024 and 2023, respectively.

The amortized cost and fair value of fixed maturities as of December 31, 2024 by contractual maturity are as follows:

	<b>Amortized Cost</b>	<b>Fair Value</b>
Due to mature:		
One year or less	\$4,521	\$4,494
Over one year through five years	24,365	23,808
Over five years through ten years	19,515	18,759
Over ten years	6,416	6,013
MBS and ABS of government and corporate agencies	18,531	17,685
<b>Total fixed maturities</b>	<b>\$73,348</b>	<b>\$70,759</b>

Expected maturities may differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Notes to Consolidated Financial Statements

(dollars in millions)

The following tables present the gross unrealized losses and fair value of fixed maturity securities by the length of time that individual securities have been in a continuous unrealized loss position for which an allowance for credit losses has not been recorded as of December 31, 2024 and 2023.

December 31, 2024	Less Than 12 Months		12 Months or Longer	
	Unrealized Losses	Fair Value of Investments with Unrealized Losses	Unrealized Losses	Fair Value of Investments with Unrealized Losses
US government and agency securities	\$(71)	\$4,155	\$(317)	\$4,300
Residential MBS	(39)	2,044	(507)	4,367
Commercial MBS	(11)	984	(191)	2,987
Other MBS and ABS	(6)	1,445	(145)	1,833
US state and municipal	(15)	1,158	(277)	3,029
Corporate and other	(160)	12,505	(994)	12,036
Foreign government securities	(16)	2,076	(104)	1,633
Total Securities Available for Sale	\$(318)	\$24,367	\$(2,535)	\$30,185

December 31, 2023	Less Than 12 Months		12 Months or Longer	
	Unrealized Losses	Fair Value of Investments with Unrealized Losses	Unrealized Losses	Fair Value of Investments with Unrealized Losses
US government and agency securities	\$(43)	\$803	\$(540)	\$6,772
Residential MBS	(52)	488	(472)	4,723
Commercial MBS	(10)	172	(258)	3,789
Other MBS and ABS	(2)	199	(259)	3,853
US state and municipal	(5)	351	(357)	4,118
Corporate and other	(269)	3,258	(1,770)	19,816
Foreign government securities	(8)	562	(217)	2,890
Total Securities Available for Sale	\$(389)	\$5,833	\$(3,873)	\$45,961

As of December 31, 2024, there were 6,126 securities that were in an unrealized loss position for 12 months or longer. The Company monitors the difference between the amortized cost and estimated fair value of fixed maturity securities to ascertain whether declines in value are temporary in nature. The Company currently does not have the intent to sell and has determined it is not more likely than not that it would be required to sell these fixed maturity securities before they recover their fair value.

The following table is a roll-forward of the allowance for credit losses for fixed income securities:

	2024	2023
Balance at January 1,	\$37	\$-
Credit losses on securities not previously reported	42	48
Change in credit losses on securities previously reported	-	-
Reductions of allowance related to sales	(47)	-
Write-offs	-	(11)
Balance at December 31,	\$32	\$37

The Company believes the unrealized loss position as of December 31, 2024 does not contain credit loss because 1) the Company did not intend to sell these fixed maturity available for sale securities; 2) it is not more likely than not that the Company will be required to sell the fixed maturity available for sale securities before recovery of their amortized cost basis; and 3) the difference between the present value of cash flows expected to be collected from the security and the amortized cost basis of the security was due to factors other than credit loss.

As of December 31, 2024, the unrealized losses associated with the US government and agency securities, US state and municipal, and Foreign government securities were attributable primarily to movement in interest rates and does not reflect a deterioration in the credit quality of the issuers.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

Credit ratings express opinions of the credit quality of a security. Securities rated investment grade (those rated BBB- or higher by Standard and Poor's, or S&P, or Baa3 or higher by Moody's) are generally considered to have a low credit risk. As of December 31, 2024, 94% of the fair value of the Company's Corporate bond and other securities were rated investment grade, and the portion of the Company's Corporate bond and other securities rated below investment grade had an amortized cost basis of \$4,690 and a fair value of \$4,566.

As of December 31, 2024, the unrealized losses associated with the Company's MBS and ABS securities were attributable primarily to movement in interest rates. The Company assessed allowance for credit losses using the present value of expected cash flows which incorporates key assumptions, including credit spreads for the security, adverse conditions related to the security, the industry, or geographic area and assessment of the issuer being able to make payments.

Accrued interest is excluded from the amortized cost basis of the securities and is reported in the Other assets line item of the consolidated balance sheets. As of December 31, 2024, accrued interest was \$500. For identifying and measuring an impairment, the Company monitors accrued interest receivables and writes them off by reversing interest income. No amounts were written off as of December 31, 2024.

#### Allowances on Loan Securities

The following table is a roll-forward of the allowance for credit losses for loan securities by segment:

	Mortgage	Private	Total
Balance at January 1, 2023	\$9	\$-	\$9
Adoption impact of ASC 326	21	28	49
Net increase/(decrease) due to credit losses	13	33	46
Balance at December 31, 2023	\$43	\$61	\$104
Net increase/(decrease) due to credit losses	(14)	25	11
Balance at December 31, 2024	\$29	\$86	\$115

#### Variable Interest Entities

The Company invests in limited partnerships and other entities subject to VIE analysis under the VIE subsections of ASC 810, *Consolidation*. The Company analyzes each investment to determine whether it is a VIE, and if so, whether the Company is the primary beneficiary, or a significant interest holder based on a qualitative and quantitative assessment. The Company evaluates the design of the entity, the risks to which the entity was designed to expose the variable interest holder and the extent of the Company's control of and variable interest in the VIE. As of December 31, 2024 and 2023, respectively, the Company has determined that it was not the primary beneficiary of any of its VIEs except for the Company's investment in its India joint venture, which is deemed immaterial.

The Company has variable interests in VIEs for which it is not the primary beneficiary and accounts for these VIEs under the equity method in accordance with ASC 323, *Investments – Equity Method and Joint Ventures*. The VIEs are principally private equity limited partnerships in which the Company has invested as a passive limited partner. The partnerships were deemed to be VIEs because the equity holders as a group lack the power to direct the activities that most significantly impact the respective entity's economic performance. The VIEs generate variability primarily from investment portfolio performance and that variability is passed to equity holders. The net carrying value of non-consolidated VIEs in which the Company has a variable interest was \$15,660 and \$13,168 as of December 31, 2024 and 2023, respectively, and the Company's maximum exposure to loss was \$24,191 and \$20,571 as of December 31, 2024 and 2023, respectively. The assets are included primarily in Other investments in the accompanying consolidated balance sheets. Maximum exposure to loss includes the carrying value and unfunded commitment of the VIE. The increase in the maximum exposure to loss from December 31, 2023 to 2024 is primarily related to valuation changes and new commitments to VIEs related to private credit and traditional private equity.

From time to time we have established certain special purpose entities, including trusts (which are deemed to be VIEs and which are referred to herein as "Warehouse SPVs"), to enter into credit facilities for the purpose of financing the purchase of loans or other receivables assets from third parties on a forward flow basis. Such Warehouse SPVs have entered into credit agreements and related agreements with one or more lenders (which may include affiliates of the Company), and with one or more third parties acting as administrative agent, trustee, collateral agent and in certain additional capacities. The assets of these consolidated Warehouse SPVs are not available to satisfy the claims of creditors of the Company. In addition, the creditors of such Warehouse SPVs have no recourse to the general credit or assets of the Company and the liabilities of such Warehouse SPVs can only be satisfied from the respective Warehouse SPVs' assets. As of December 31, 2024, the aggregate net asset value of all such Warehouse SPVs is \$710.

#### Limited Partnership Investments

As of December 31, 2024 and 2023, the carrying values of limited partnership investments were \$16,359 and \$13,764, respectively. These investments consist of traditional private equity partnerships, real estate partnerships, natural resources partnerships (primarily energy, metals and mining, and agriculture and timber), other partnership funds, and equity method investments. Included in the carrying values of limited partnership investments are \$616 and \$556 of limited partnership investments where the Company has elected the fair value option as of December 31, 2024 and 2023,

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

respectively. The Company's investments in limited partnership investments are long-term in nature. The Company believes these investments offer the potential for superior long-term returns and are appropriate in the overall context of a diversified portfolio.

**(4) DEFERRED ACQUISITION COSTS**

The following reflects the policy acquisition costs deferred for amortization against future income and related amortization charged to income:

	Years Ended December 31,	
	2024	2023
Balance at beginning of year	\$3,544	\$3,855
Acquisition costs deferred and other	6,032	5,704
Amortization charged to income	(6,040)	(6,015)
Balance at end of year	\$3,536	\$3,544

**(5) REINSURANCE**

In the ordinary course of business, the Company assumes reinsurance and cedes reinsurance to other insurers to reduce overall risk, including exposure to large losses and catastrophic events. The Company is also a member of various involuntary pools and associations and serves as a servicing carrier for residual market organizations.

A summary of reinsurance financial data reflected within the accompanying consolidated statements of income is presented below:

P&C	2024		2023	
	Written	Earned	Written	Earned
Direct	\$48,873	\$49,712	\$50,890	\$50,153
Assumed	4,649	4,480	3,764	3,593
Ceded	8,559	8,677	8,175	7,871
Net premiums	\$44,963	\$45,515	\$46,479	\$45,875

The Company reported reinsurance recoverables of \$19,212 and \$19,080 as of December 31, 2024 and 2023, respectively, net of allowance for credit losses of \$155 and \$152, respectively. The following table summarizes the Company's reinsurance recoverables by reinsurers' Standard & Poor's ("S&P") rating (or the rating of any guarantor) as of December 31, 2024:

S&P Rating	Reinsurance Recoverables	Collateral Held	Net Recoverables <sup>(1)</sup>
AAA	\$ -	\$ -	\$ -
AA+, AA, AA-	8,026	7,638	3,117
A+, A, A-	5,144	978	4,171
BBB+, BBB, BBB-	-	-	-
BB+ or below	-	-	-
Involuntary pools	2,940	-	2,940
Voluntary pools	164	124	162
Other <sup>(2)</sup>	3,093	4,660	761
Gross recoverables <sup>(3)</sup>	\$19,367	\$13,400	\$11,151
Less: allowance	155		
Net recoverables	\$19,212		

(1) Net recoverables represent gross recoverables less applicable collateral that can be specifically applied against recoverable balances.

(2) Includes \$1,046 and \$2,047 of reinsurance recoverables from non-rated reinsurers and captive and program business, respectively.

(3) Includes \$1,423 and \$17,944 of paid and unpaid reinsurance recoverables, respectively.

The Company remains contingently liable in the event reinsurers are unable to meet their obligations for paid and unpaid reinsurance recoverables and unearned premiums ceded under reinsurance agreements.

The reinsurance recoverables from state mandated involuntary pools and associations primarily represent the Company's servicing carrier business. As a servicing carrier, the Company retains no direct underwriting risk but instead cedes 100% of the involuntary market premium and losses back to the pool. Payment of losses is shared by the pool participants in proportion to their pool participation. Reinsurer credit risk with respect to any such involuntary pool or association is a function of the creditworthiness of all the pool participants.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured business. The Company evaluates and monitors the financial condition of its reinsurers under voluntary reinsurance arrangements to minimize its exposure to significant losses from reinsurer insolvencies. The Company reports its reinsurance recoverables net of an allowance for credit losses. The allowance is based upon the Company's ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors, including information relating to past events, current conditions, and reasonable and supportable forecasts. The Company assesses allowance for credit losses by individual reinsurers and uses a probability-of-default method. Write-offs of reinsurance recoverable are recorded in the period in which they are deemed uncollectible and are recorded against allowance for credit losses. The establishment of reinsurance recoverables and the related allowance for credit losses is also an inherently uncertain process involving estimates. Changes in these estimates could result in additional charges to the accompanying consolidated statements of income.

On November 5, 2019, Liberty Mutual Insurance Company ("LMIC") entered into a reinsurance transaction with National Indemnity Company ("NICO"), a subsidiary of Berkshire Hathaway Inc., on a combined aggregate excess of loss agreement for certain USRM US Business Lines and GRS National Insurance workers compensation liabilities, commercial auto liability and general liability excluding umbrella and warranty ("NICO Casualty Reinsurance Transaction"). The first layer of the contract attaches at \$300 below applicable held reserves at inception of \$8,342 of combined aggregate reserves. The second layer of the contract provides adverse development coverage for \$1,000 above a retention equal to \$8,742. The contract includes a sublimit of \$100 for certain general liability liabilities. At the closing of the NICO Casualty Reinsurance Transaction, but effective as of January 1, 2019, the Company ceded \$300 of existing undiscounted liabilities, paid NICO total consideration of \$462 and recorded a pre-tax loss of \$173. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2018 development on: 1) certain workers compensation liabilities arising under policies on the books of the Company's USRM US Business Lines and GRS National Insurance strategic business units as of December 31, 2018, as respects injuries or accidents occurring after December 31, 2013 and prior to January 1, 2019; 2) commercial auto liabilities arising under policies on the books of the Company's USRM US Business Lines and GRS National Insurance strategic business units as of December 31, 2018 as respects injuries or accidents occurring prior to January 1, 2019; and 3) general liability excluding umbrella and warranty arising under policies on the books of the Company's USRM US Business Lines and GRS National Insurance strategic business units as of December 31, 2018, as respects injuries or accidents occurring prior to January 1, 2019.

Since the NICO Casualty Reinsurance Transaction is accounted for as retroactive reinsurance in the Company's consolidated financial statements, to the extent there is unfavorable development of losses covered by this reinsurance, an additional reinsurance benefit is recognized in the consolidated statements of income until those benefits exceed the loss on the transaction. Reinsurance benefits will be deferred and are amortized into earnings over the period when underlying claims are settled.

As the aggregate development on the contract has exceeded the original pre-tax loss of \$173, deferred gains are now being recorded. The Company reported deferred gain amortization of \$21 and \$17 for the twelve months ended December 31, 2024 and December 31, 2023, respectively. As of December 31, 2024 and 2023, deferred gains were \$212 and \$237. Limits remaining on the contract as of December 31, 2024, were \$511.

In conjunction with the Ironshore acquisition and effective May 1, 2017, the Company entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement providing coverage for substantially all of Ironshore's reserves related to losses occurring prior to January 1, 2017. The first layer of the contract transfers \$400 of held reserves at inception, for which the Company established reinsurance recoverables on the consolidated balance sheets. The second layer of the contract provides adverse development coverage for 95% of \$500 above a retention equal to \$3,006, minus paid losses between January 1, 2017 and May 1, 2017, which retention approximates the total held reserves on the covered business on Ironshore's opening balance sheet. The contract includes a sublimit of \$277 for certain construction liability liabilities. The Company paid NICO consideration of \$550, including interest accrued at the time of the settlement. The contract is accounted for on a prospective basis. Limits remaining on the contracts in total, and for construction liability liabilities, respectively, were \$454 and \$0 as of December 31, 2024.

On July 17, 2014, LMIC entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement for substantially all of the Company's US workers compensation, asbestos and environmental liabilities (the "NICO Reinsurance Transaction"), attaching at \$12,522 of combined aggregate reserves, with an aggregate limit of \$6,500 and sublimits of \$3,100 for asbestos and environmental liabilities and \$4,507 for certain workers compensation liabilities. At the closing of the NICO Reinsurance Transaction, but effective as of January 1, 2014, the Company ceded \$3,320 of existing undiscounted liabilities under this retroactive reinsurance agreement. NICO will provide \$3,180 of additional aggregate adverse development reinsurance. The Company paid NICO total consideration of \$3,046 and recorded a pre-tax loss of \$128. With respect to the ceded asbestos and environmental business, NICO has been given authority to handle claims, subject to the Company's oversight and control. With respect to the ceded workers compensation business, the Company will continue to handle claims. The contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2013 development on: 1) asbestos and environmental liabilities arising under policies of insurance and reinsurance with effective dates prior to January 1, 2005; and 2) workers compensation liabilities arising out of policies on the books of the Company's former Commercial Insurance Strategic Business Unit as of December 31, 2013, as respects injuries or accidents occurring prior to January 1, 2014.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

During 2024, the company had net reserve releases driven by favorable development in workers compensation, partially offset by unfavorable development in asbestos and environmental, including the impact of an updated estimate for discount held. This resulted in the net position of the contract changing from a gain of \$33 as of December 31, 2023 to a net zero position as of December 31, 2024.

The Company reported deferred gain amortization of \$0 and \$(3) for the twelve months ended December 31, 2024, and December 31, 2023, respectively. As of December 31, 2024 and 2023, deferred gains were \$0 and \$19. Limits remaining on the contract in total, and for asbestos and environmental liabilities, respectively, were \$3,216 and \$82 as of December 31, 2024.

In addition, the Company has an aggregate reinsurance recoverable from Nationwide Indemnity Company in the amount of \$995 and \$1,120 as of December 31, 2024 and 2023, respectively. The reinsurance recoverable is guaranteed by Nationwide Mutual Insurance Company, which has a financial strength rating of A+ from S&P. Additionally, the Company has significant reinsurance recoverable concentrations with Swiss Re Group, Berkshire Hathaway Insurance Group, Everest Re Group and Lloyd's of London totaling \$946, \$669, \$670, and \$631, respectively, as of December 31, 2024, net of offsetting collateral under the contracts.

#### **Catastrophe Exposure**

The Company writes insurance and reinsurance contracts that cover catastrophic events, both natural and man-made. Although the Company purchases reinsurance to mitigate its exposure to certain catastrophic events, claims from catastrophic events could cause substantial volatility in its financial results for any fiscal year and have a material adverse effect on its financial condition.

On November 26, 2002, the Terrorism Risk Insurance Act of 2002 ("the Terrorism Act") was enacted into Federal law and established the Terrorism Risk Insurance Program ("the Program"), a temporary Federal program in the Department of the Treasury, that provided for a system of shared public and private compensation for certain insured losses resulting from acts of terrorism or war committed by or on behalf of a foreign interest. The Program was scheduled to terminate on December 31, 2005. In December 2005, the Terrorism Risk Insurance Extension Act of 2005 ("the Terrorism Extension Act") was enacted into Federal law, reauthorizing the prior program through December 31, 2007, while reducing the Federal role under the Program. In December 2007, the Terrorism Risk Insurance Program Reauthorization Act of 2007 was enacted into Federal law, extending coverage to include domestic acts of terrorism and reauthorizing the Program through December 31, 2014. In January 2015, the Terrorism Risk Insurance Program Reauthorization Act of 2015 ("the 2015 Reauthorization") was enacted into Federal law, extending the effectiveness of the Terrorism Act through December 31, 2020, while further reducing the Federal role under the program. In December 2019, the Terrorism Risk Insurance Program Reauthorization Act of 2019 ("the 2019 Reauthorization") was enacted into Federal law, further extending the effectiveness of the Terrorism Act through December 31, 2027. The five acts are hereinafter collectively referred to as "the Acts."

For a loss to be covered under the Program (subject losses), the loss must meet certain aggregate industry loss minimums and must be the result of an event that is certified as an act of terrorism by the US Secretary of the Treasury. The annual aggregate industry loss minimum is \$100 through 2015. The original Program excluded from participation certain of the following types of insurance: Federal crop insurance, private mortgage insurance, financial guaranty insurance, medical malpractice insurance, health or life insurance, flood insurance, and reinsurance. The Terrorism Extension Act exempted from coverage certain additional types of insurance, including commercial automobile, professional liability (other than directors and officers), surety, burglary and theft, and farm-owners multi-peril. In the case of a war declared by Congress, only workers compensation losses are covered by the Acts. The Acts generally require that all commercial property casualty insurers licensed in the United States participate in the Program. The 2015 Reauthorization increased the loss minimum by \$20 annually until it reaches \$200 in 2020 and will remain at that threshold thereafter until 2027 as a result of the 2019 Reauthorization. Under the 2015 Reauthorization, a participating insurer was entitled through 2015 to be reimbursed by the Federal Government for 85% of subject losses, after an insurer deductible, subject to an annual cap. Under the 2015 Reauthorization, the Federal reimbursement percentage decreases by 1% annually starting at 85% in 2016 to 80% in 2020 and will remain at that threshold thereafter until 2027 as a result of the 2019 Reauthorization. The 2019 Reauthorization did not change the program cap of \$100,000 or the Company's deductible which remains at 20% of the Company's prior year earned premium for the covered lines.

The deductible for any calendar year is equal to 20% of the insurer's direct earned premiums for covered lines for the preceding calendar year. The Company's estimated deductible under the Program is \$2,298 for 2025. The annual cap limits the amount of aggregate subject losses for all participating insurers to \$100,000. Once subject losses have reached the \$100,000 aggregate during a program year, participating insurers will not be liable under the Program for additional covered terrorism losses for that program year. The Company has had no terrorism-related losses since the Program was established. Because the interpretation of the Acts is untested, there is substantial uncertainty as to how they will be applied to specific circumstances. It is also possible that future legislative action could change the Acts. Further, given the unpredictable frequency and severity of terrorism losses, as well as the limited terrorism coverage in the Company's own reinsurance program, future losses from acts of terrorism, particularly "unconventional" acts of terrorism involving nuclear, biological, chemical or radiological events, could be material to the Company's operating results, financial position and/or liquidity in future periods. The Company will continue to manage this type of catastrophic risk by monitoring and controlling terrorism risk aggregations to the best of its ability.

#### **Catastrophes**

Catastrophes are an inherent risk of the property-casualty insurance business and have contributed to material period-to-period fluctuations in the Company's results of operations and financial position. Catastrophe losses are severe losses resulting from natural and man-made events, including

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

risks such as fire, earthquake, windstorm, explosion, terrorism, and other similar events. The extent of losses from a catastrophe is a function of both the total amount of insured exposure in an area affected by the event and the severity of the event. The level of catastrophe losses experienced in any period cannot be predicted and can be material to the results of operations and financial position of the Company.

#### **Non-Catastrophe Reinsurance**

The Company purchases facultative and treaty reinsurance protection on a per risk, per policy, per loss and/or per occurrence basis. Treaty coverage is provided on a pro rata and excess of loss basis for portions of the Company's property, marine, terrorism, energy, third party motor, cyber, financial risk, surety, aviation and casualty lines portfolios.

#### **Catastrophe Reinsurance**

For 2024, the Company has property catastrophe reinsurance coverage for its domestic business and certain specialty operations including: 1) hurricanes and earthquake reinsurance covering a substantial portion of \$3,600 of loss in excess of \$1,000 of retained loss in the United States, Canada and the Caribbean, excluding certain reinsurance exposures (the initial \$1,600 of this limit is available on an All Perils basis); 2) per occurrence and aggregate excess of loss coverage targeting our reinsurance exposures; and 3) quota share reinsurance programs. These programs are structured to meet the Company's established tolerances under its Enterprise Risk Management Program.

The Company purchases property catastrophe reinsurance coverage for the international property books to protect against international catastrophe events.

The Company purchases workers compensation catastrophe reinsurance, including coverage for its domestic commercial operations and certain specialty operations' US exposures. This program provides significant reinsurance protection in excess of \$200 per occurrence retention, including coverage for terrorism events and/or losses for a single event at a single insured location in excess of \$75.

#### **Catastrophe Bond Reinsurance**

On December 23, 2024, the Company entered into three multi-year property catastrophe reinsurance agreements, effective January 1, 2025, with Mystic Re IV Ltd. ("Mystic IV"), a Bermuda domiciled reinsurer, to provide a total of \$325 of reinsurance coverage for the Company and its affiliates for named storms covering the US, Canada, and Caribbean, and earthquakes covering the US, Canada, and Caribbean. The reinsurance agreements are fully collateralized. Such collateral is provided by Mystic IV using proceeds from issuance of certain catastrophe bonds. Two of the reinsurance agreements provide per occurrence indemnity coverage (with Severe Weather and Fire excluded), and one of the reinsurance agreements provides annual aggregate indemnity coverage (inclusive of Severe Weather and Fire). The Company has not recorded any recoveries under this program.

On December 19, 2023, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2024, with Mystic Re IV Ltd. ("Mystic IV"), a Bermuda domiciled reinsurer, to provide a total of \$300 of reinsurance coverage for the Company and its affiliates for named storms covering the US, Puerto Rico and US Virgin Islands, and earthquakes covering the US and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic Re IV Ltd using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence coverage based on a weighted industry insured loss index. This loss index is weighted to align with the Company's commercial property and assumed reinsurance portfolios. The Company has not recorded any recoveries under this program.

On December 16, 2022, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2023, with Mystic IV to provide a total of \$150 of reinsurance coverage for the Company and its affiliates for named storms and earthquakes covering US, Caribbean and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence indemnity coverage. The Company has not recorded any recoveries under this program.

On June 16, 2021, the Company entered into a multi-year property catastrophe reinsurance agreement, effective July 1, 2021, with Mystic IV to provide a total of \$300 of reinsurance coverage for the Company and its affiliates for named storms and earthquakes covering US, Caribbean and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence indemnity coverage. The Company has not recorded any recoveries under this program.

#### **Florida Hurricane Catastrophe Fund**

The Company participates in the Florida Hurricane Catastrophe Fund ("FHCF"), a state-mandated catastrophe fund that provides reimbursement to insurers for a portion of their Florida hurricane losses. FHCF resources may be insufficient to meet the obligations of FHCF. Limits, premium and reimbursements from FHCF apply on a per company basis. If losses fall disproportionately on one insurance entity within the Company, recovery from FHCF could be less than anticipated. On June 1, 2024, the Company renewed coverage for 90% of approximately \$53 excess of \$25. Recoveries from FHCF inure to the sole benefit of the Company. If the Company fails to recover as anticipated from FHCF there could be an adverse effect on the Company's business, financial condition or results of operations.

#### **(6) UNPAID CLAIMS AND CLAIM ADJUSTMENT EXPENSES**

The Company establishes reserves for payment of claims and claim adjustment expenses that arise from the policies issued. As required by applicable accounting rules, no reserves are established until a loss, including a loss from a catastrophe, occurs. The Company's reserves are segmented into

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

three major categories: reserves for reported claims (estimates made by claims adjusters); incurred but not reported claims reserves (“IBNR”) representing reserves for unreported claims and supplemental reserves for reported claims; and reserves for the costs to settle claims. The Company establishes its reserves net of salvage and subrogation by line of business or coverage and year in which losses occur.

Establishing loss reserves, including loss reserves for catastrophic events that have occurred, is an estimation process. Many factors can ultimately affect the final settlement of a claim and, therefore, the necessary reserve. Changes in the law, results of litigation, medical costs, the costs of repair materials, and labor rates can all affect ultimate claim costs. In addition, time can be a critical part of reserving determinations since the longer the span between the incidence of a loss and the payment or settlement of the claim, the more variable the ultimate settlement can be. Accordingly, “short-tail” claims, such as property damage claims, tend to be easier to estimate than “long-tail” claims, such as workers compensation or general liability claims.

As information develops that varies from past experience, provides additional data, or augments data that previously was not considered sufficient for use in determining reserves, changes in the Company’s estimate of ultimate liabilities may be required. The effects of these changes are reflected in current operating results.

In order to establish a reserve for IBNR claims, the actuarial teams within each of the segments use their experience and knowledge of the lines of business to estimate the potential future development of the incurred claims. The Company uses a number of actuarial methods and assumptions to develop an estimate of ultimate claim liabilities. Generally, these are a combination of exposure and experience based actuarial methods and review of other pertinent and available information from claims, underwriting, product and finance. Exposure based actuarial methods consider historical loss ratios and adjust for rate changes, premium and loss trends, industry trends and other information. These methods are typically used when developing an actuarial central estimate for more recent policy periods when claims data is insufficient to produce a reliable indication. As claims data becomes more reliable for a given policy period, more consideration is given to experience methods which review and monitor actual paid and reported development.

A comprehensive actuarial reserve review is performed for each product line at least once a year. The process and methods used for each product line vary depending on the circumstances and include input from claims, underwriting, product and finance. Each quarter the actuarial central estimate for each product line is reviewed and updated based upon development and presented to the reserving committee to conclude on the Company’s best estimate of ultimate claim liabilities.

Activity in property and casualty unpaid claims and claim adjustment expenses of the Company are summarized as follows:

	<u>2024</u>	<u>2023</u>
Balance as of January 1	\$80,177	\$76,986
Less: unpaid reinsurance recoverables <sup>(1)</sup>	13,616	13,575
Net balance as of January 1	66,561	63,411
Balance attributable to acquisitions and dispositions	-	-
Incurred attributable to:		
Current year	30,125	34,433
Prior years <sup>(2)</sup>	890	(87)
Discount accretion attributable to prior years	39	11
Total incurred	<u>31,054</u>	<u>34,357</u>
Paid attributable to:		
Current year	14,998	17,684
Prior years	13,895	13,621
Total paid	<u>28,893</u>	<u>31,305</u>
Amortization of deferred retroactive reinsurance gain	12	24
Net adjustment due to foreign exchange	(410)	74
Add: unpaid reinsurance recoverables <sup>(1)</sup>	13,778	13,616
Balance as of December 31	<u>\$82,102</u>	<u>\$80,177</u>

<sup>(1)</sup> In addition to the unpaid reinsurance recoverable balances noted above, and as a result of retroactive reinsurance agreements, the Company has recorded retroactive reinsurance recoverable balances of \$4,182 and \$4,286 as of December 31, 2024 and 2023, respectively.

<sup>(2)</sup> Does not include decreases in allowance related to reinsurance recoverables due to prior year development of \$1 and \$15 as of December 31, 2024 and 2023, respectively.

In 2024, the change in incurred attributable to prior years, excluding asbestos and environmental and amortization of deferred retroactive loss, is primarily attributable to unfavorable development on casualty/general liability, commercial multi peril/fire, specialty insurance, and reinsurance lines of business, partially offset by favorable development in workers’ compensation and personal auto lines of business. In 2023, the change in incurred attributable to prior years, excluding asbestos and environmental and amortization of deferred retroactive loss, is primarily attributable to favorable development on homeowners, workers’ compensation, and specialty lines of business, partially offset by unfavorable development on the casualty/general liability, reinsurance, and personal auto lines of business.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

For certain commercial lines of insurance, the Company offers experience-rated insurance contracts whereby the ultimate premium is dependent upon the claims incurred. As of December 31, 2024 and 2023, the Company held \$2,070 and \$1,928, respectively, of unpaid claims and claim adjustment expenses related to experience-rated contracts. Premiums receivable included accrued retrospective and unbilled audit premiums of \$195 and \$180 as of December 31, 2024 and 2023, respectively. For the years ended December 31, 2024 and 2023, the Company recognized an increase of premium income of \$123 and \$340, respectively, relating to prior years.

Unpaid claims and claim adjustment expenses are recorded net of anticipated salvage and subrogation of \$1,321 and \$1,478 as of December 31, 2024 and 2023, respectively.

As of December 31, 2024 and 2023, the reserve for unpaid claim reserves was reduced by \$9,886 and \$8,912, respectively, for large dollar deductibles. Large dollar deductibles billed and recoverable were \$431 and \$434 as of December 31, 2024 and 2023, respectively.

The following is information about incurred and paid claims development as of December 31, 2024, net of reinsurance, as well as cumulative claim frequency and the total of incurred-but-not-reported liabilities plus expected development on reported claims included within the net incurred claims amounts.

Supplementary information provided includes information about incurred and paid claims development for the years ended December 31, 2015, to 2023, and information about average historical claims duration as of December 31, 2024. Due to the composition of the Company, comprising organically grown and acquired business, there is a mixture of claim count definitions. However, these definitions have been consistently applied throughout the history shown. We have disclosed our claim count methodologies below, unless it is impracticable to do so.

Disclosures about claim development by accident year are presented for the number of years for which claims incurred typically remain outstanding, up to 10 years.

The impact of current and prior year acquisitions and dispositions are presented on a retrospective basis.

**Asbestos and Environmental Reserves**

As of December 31, 2024 and 2023, the Company’s unpaid claims and claim adjustment expense reserves, net of associated reinsurance recoverables, includes \$1,123 and \$1,179, respectively, for asbestos and environmental-related claims before consideration of the NICO Reinsurance Transaction.

Net asbestos losses paid in 2024 and 2023 were \$137 and \$103, respectively. The Company incurred \$85 and \$28 of asbestos reserves before consideration of the NICO Reinsurance Transaction, net of change in allowance for doubtful accounts during the years ended December 31, 2024 and 2023, respectively.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

Net environmental losses paid in 2024 and 2023 were \$92 and \$30, respectively. The Company incurred \$88 and \$85 of environmental reserves before consideration of the NICO Reinsurance Transaction, net of change in allowance for doubtful accounts during the years ended December 31, 2024 and 2023, respectively.

(4) The par value call date and final fixed rate interest payment date is March 15, 2037, subject to certain requirements.

(5) The par value call date and final fixed rate interest payment date is June 15, 2038, subject to certain requirements.

**Debt Transactions and In-Force Credit Facilities**

On May 23, 2024, €500 million of Liberty Mutual Group, Inc. (“LMGI”) 3.625% Notes were paid at maturity. These Notes were redeemed early.

On March 27, 2024, €500 million of Liberty Mutual Finance Europe DAC 1.75% Notes were paid at maturity.

On June 15, 2023, \$547 of LMGI 4.25% Notes were paid at maturity.

On April 18, 2022, LMGI amended and restated its five-year unsecured revolving credit facility of \$1,000 with an expiration date of April 18, 2027. To date, no funds have been borrowed under the facility.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

LMIC, Peerless Insurance Company (“PIC”), Liberty Mutual Fire Insurance Company (“LMFIC”), Employers Insurance Company of Wausau (“EICOW”), Safeco Insurance Company of America (“SICOA”), and Ohio Casualty Insurance Company (“OCIC”) are members of the Federal Home Loan Bank (“FHLB”). On March 21, 2012, LMFIC borrowed \$150 at a rate of 3.91% with a maturity date of March 22, 2032. On March 23, 2012 and April 2, 2012, LMIC borrowed \$127 at a rate of 4.24% with a maturity date of March 23, 2032 and \$23 at a rate of 4.25% with a maturity date of April 2, 2032, respectively. As of December 31, 2024, all outstanding FHLB borrowings are fully collateralized.

State Automobile Mutual Insurance Company (“SAM”), State Auto Property & Casualty Insurance Company (“SPC”), and Rockhill Insurance Company memberships were cancelled on August 25, 2023. Final cancellation of FHLB memberships have a five-year waiting period, so final membership expiration dates are August 25, 2028. Ironshore Indemnity Insurance (“III”) and Ironshore Specialty Insurance Company (“ISIC”) memberships were cancelled on February 24 and 25, 2020, respectively. III’s five-year waiting period was waived by FHLB, so final membership cancellation was effective on February 9, 2022. For ISIC, the effective date of its final membership cancellation was February 25, 2025.

Payments of interest and principal of the surplus notes are expressly subordinate to all policyholder claims and other obligations of LMIC. Accordingly, interest and principal payments are contingent upon prior approval of the Commissioner of Insurance of the Commonwealth of Massachusetts.

#### Facility Agreement for Senior Notes Issuance

In November 2024, LMGI entered into a 30-year facility agreement with a Delaware trust upon completion of the sale of \$1,250 of trust securities by that Delaware trust in a Rule 144A private placement. The trust invested the proceeds from the sale of the trust securities in a portfolio of principal and/or interest strips of US Treasury securities. The facility agreement provides the Company the right to issue and sell to the trust from time to time up to an aggregate principal amount outstanding at any one time of \$1,250 of the Company’s 6.266% senior notes, which would be due August 15, 2054, in exchange for a corresponding amount of US Treasury securities held by the trust. These senior notes will not be issued unless and until the issuance right is exercised. In return, the Company agreed to pay a semi-annual facility fee to the trust at a rate of 1.7787% per year applied to the maximum amount of senior notes that the Company could issue and sell to the trust. The Company may also direct the trust to grant the right to exercise the issuance right with respect to all or a designated amount of the senior notes to one or more assignees (who are our consolidated subsidiaries or persons to whom we have an obligation).

The issuance right will be exercised automatically in full upon the Company’s failure to make certain payments to the trust, such as paying the facility fee or reimbursing the trust for its expenses, if the failure to pay is not cured within 30 days, or upon certain bankruptcy events involving the company. The Company is also required to exercise this issuance right if its consolidated stockholders’ equity, calculated in accordance with US GAAP but excluding accumulated other comprehensive income and equity of non-controlling interests, falls below \$8,000, subject to adjustment from time to time in certain cases, and upon certain other events described in the facility agreement.

Prior to any involuntary exercise of the issuance right, the Company has the right to repurchase any or all of the 6.266% senior notes then held by the trust in exchange for US Treasury securities. The Company may redeem any outstanding 6.266% senior notes, in whole or in part, prior to their maturity. Prior to May 15, 2054, the redemption price will equal the greater of par or a make-whole redemption price. On or after May 15, 2054, any outstanding 6.266% senior notes may be redeemed at par.

As of December 31, 2024, no senior notes have been issued under the facility agreement.

#### Interest

The Company paid \$492 and \$505 of interest in 2024 and 2023, respectively.

#### (8) INCOME TAXES

The components of US Federal, state and foreign income tax expense from continuing operations are:

Years ended December 31,	2024	2023
Current tax expense (benefit):		
US Federal	\$605	\$82
US Federal net operating loss utilization	(57)	(36)
State	49	13
Foreign	242	207
Total current tax expense	839	266
Deferred tax expense (benefit):		
US Federal	242	(226)
Foreign	(21)	(5)
Total deferred tax expense (benefit)	221	(231)
Total US Federal, state and foreign income tax expense	\$1,060	\$35

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

A reconciliation of the income tax expense attributable to continuing operations computed at the US Federal statutory tax rate to the income tax expense as included in the consolidated statements of income is as follows:

<b>Years ended December 31,</b>	<b>2024</b>	<b>2023</b>
Expected US Federal income tax expense	\$995	\$43
Tax effect of:		
Nontaxable investment income	(16)	(20)
Change in valuation allowance	(32)	63
Establishment of deferred tax asset	-	(23)
Revision to estimates	(11)	(22)
General business credits	(62)	(23)
State income taxes, net	39	10
Foreign rate differential	11	1
US impact from foreign operations	128	22
Foreign other	-	(5)
Other	8	(11)
Total income tax expense	<u>\$1,060</u>	<u>\$35</u>

The significant components of the deferred income tax assets and liabilities at December 31 are summarized as follows:

	<b>2024</b>	<b>2023</b>
Deferred tax assets:		
Unearned premium reserves	\$885	\$930
Unpaid claims discount	708	651
Employee benefits	594	618
Net operating losses	166	183
Investments	71	100
Credits	67	90
Other accrued expenses	106	103
Other	215	218
	<u>2,812</u>	<u>2,893</u>
Less: valuation allowance	(108)	(138)
Total deferred tax assets	<u>2,704</u>	<u>2,755</u>
Deferred tax liabilities:		
Deferred acquisition costs	636	637
Intangibles	143	177
Depreciation/amortization	50	103
Investments	433	-
Other	336	239
Total deferred tax liabilities	<u>1,598</u>	<u>1,156</u>
Net deferred tax assets/(liabilities)	<u>\$1,106</u>	<u>\$1,599</u>

On December 27, 2023, the Government of Bermuda enacted the Corporate Income Tax Act of 2023, which will apply a 15% corporate income tax to certain Bermuda businesses beginning on January 1, 2025. Upon the enactment of this legislation, the Company recorded a deferred tax asset of \$23. A full valuation allowance of the same amount was recorded as incremental Bermuda taxes are not anticipated to be incurred for purposes of utilizing the future deductions. For the year ended December 31, 2024, the deferred tax asset and offsetting valuation allowance increased to \$26.

For the year ended December 31, 2024, the decrease in the valuation allowance is primarily due to utilization of prior year foreign tax credits carryforwards of \$41, partially offset by the establishment of a \$11 valuation allowance on other US and foreign deferred tax assets that are not expected to be realized. Management believes it is more likely than not the remaining net deferred tax assets will be realized.

The Company's subsidiaries have foreign tax credit carry forwards of \$67 and gross net operating loss carry forwards of \$703 as of December 31, 2024. With respect to the foreign tax credit carryforwards, \$2 will begin to expire in 2025 and \$65 will begin to expire in 2033 if not utilized. The gross net operating loss carryforwards available in the US and various non-US tax jurisdictions will begin to expire, if not utilized, as follows:

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

Year	Total
2026	\$7
2027	16
Thereafter or indefinite	680
Total	<u>\$703</u>

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

Balance at December 31, 2023	\$42
Additions for tax positions related to current year	14
Additions for tax positions of prior years	19
Reductions for tax positions of prior years	(1)
Lapse of statute of limitations	(6)
Balance at December 31, 2024	<u>\$68</u>

Included in the balance at December 31, 2024, is \$68 related to tax positions that would impact the effective tax rate.

The Company recognizes interest and penalties related to unrecognized tax benefits in US Federal, state, and foreign income tax expense. For the years ended December 31, 2024 and 2023, the Company recognized \$6 and \$5 of interest and penalties, respectively. The Company had approximately \$30 and \$24 of interest and penalties accrued as of December 31, 2024 and 2023, respectively.

The US Federal statute of limitations has expired through the 2020 tax year; however, certain years remain open for impacts of the Tax Cuts and Jobs Act of 2017. The Company is currently under IRS examination for the 2021 tax year and has foreign entities that are open for examination in their local countries for tax years after 2013. Any adjustments that may result from the examinations of these income tax returns are not expected to have a material impact on the financial position, liquidity, or results of operations of the Company.

The Company does not expect any significant changes to its liability for unrecognized tax benefits during the next twelve months.

**(9) BENEFIT PLANS**

The Company sponsors non-contributory defined benefit pension plans (“the Plans”) covering substantially all US employees. The benefits and eligibility are based on age, years of service, and the employee’s final average compensation, as more fully described in the Plans. Some foreign subsidiaries also sponsor defined benefit pension plans. In 2014, the Company added a new cash balance benefit formula for all eligible US employees and froze credited service under the plan’s final average pay formula. In 2016, the Company announced changes to the US pension plan which included freezing the final average pay formula effective December 31, 2020, and increasing pay credits under the cash balance formula from 4.5% to 5.0% of eligible pay effective January 1, 2018.

The Company sponsors non-qualified supplemental pension plans for selected highly compensated employees to restore the pension benefits they would be entitled to under the Company’s US tax qualified, defined benefit pension plan had it not been for limits imposed by the Internal Revenue Code. The supplemental plans are unfunded.

The Company also provides certain postretirement healthcare and life insurance benefits (“Postretirement”) covering substantially all US employees. In 2014, the Company’s US postretirement medical and dental cost sharing arrangement changed to a defined contribution model with an annual dollar contribution amount based on age and years of eligible credited service. Life insurance benefits are based on a participant’s final compensation subject to the plan maximum. The postretirement plan is unfunded. In 2016, the Company announced employees hired on or after January 1, 2018, will not be eligible for coverage under the US postretirement health and life insurance plans. In 2017, the Company announced changes to the US postretirement health plan which included the transition of Medicare-eligible retirees to the Medicare marketplace exchange effective January 1, 2018.

Assets of the US tax-qualified, defined benefit pension plans consist primarily of investments held in a master trust with The Bank of New York Mellon. Assets of the plan are invested primarily in fixed income securities and in diversified public equities. As of December 31, 2024 and 2023, no assets of the plans were held in separate accounts of the Company.

The Company sponsors defined contribution plans for substantially all US (401(k) plan) employees who meet eligibility requirements. During 2024 and 2023, employees could contribute a percentage of their annual compensation on a before and after-tax basis, subject to Federal limitations. Company contributions are based on the employee’s contribution amount. In 2024 and 2023, the Company incurred matching contributions of \$141 and \$153, respectively, including the supplemental defined contribution plans.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

Compensation expense related to the Company's long-term and short-term incentive compensation plans was \$1,317 and \$870 for the years ended December 31, 2024 and 2023, respectively.

The following table sets forth the assets, obligations, and assumptions associated with the US pension and postretirement benefits.

	<b>Pension</b>		<b>Supplemental Pension</b>		<b>Postretirement</b>	
	<b>2024</b>	<b>2023</b>	<b>2024</b>	<b>2023</b>	<b>2024</b>	<b>2023</b>

Notes to Consolidated Financial Statements

(dollars in millions)

The net benefit costs for the years ended December 31, 2024 and 2023 include the following components:

<b>December 31, 2024</b>	<b>Pension</b>	<b>Supplemental Pension</b>	<b>Postretirement</b>
Components of net periodic benefit costs:			
Service costs	\$194	\$8	\$8
Interest costs	336	18	37
Expected return on plan assets	(501)	-	-
Amortization of unrecognized:			
Net loss (gain)	136	7	(13)
Prior service cost	(23)	(3)	(12)
<b>Net periodic benefit costs</b>	<b>\$142</b>	<b>\$30</b>	<b>\$20</b>

<b>December 31, 2023</b>	<b>Pension</b>	<b>Supplemental Pension</b>	<b>Postretirement</b>
Components of net periodic benefit costs:			
Service costs	\$188	\$8	\$8
Interest costs	346	18	38
Expected return on plan assets	(489)	-	-
Amortization of unrecognized:			
Net loss (gain)	158	6	(12)
Prior service cost	(23)	(3)	(12)
<b>Net periodic benefit costs<sup>(1)</sup></b>	<b>\$180</b>	<b>\$29</b>	<b>\$22</b>

(1) All components of net periodic benefits costs are reporting in operating costs and expenses on the accompanying consolidated statements of income.

The measurement date used to determine pension and other postretirement is December 31, 2024.

Weighted-average actuarial assumptions for benefit obligations are set forth in the following table:

<b>December 31,</b>	<b>2024</b>	<b>2023</b>
<b>Pension</b>		
Discount rate	5.71%	5.03%
Rate of compensation increase	4.90%	4.90%
Cash balance interest crediting rate	4.75%	4.00%
<b>Supplemental Pension</b>		
Discount rate	5.70%	5.04%
Rate of compensation increase	5.80%	5.80%
Cash balance interest crediting rate	4.75%	4.00%
<b>Postretirement</b>		
Discount rate	5.75%	5.06%

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

Weighted-average actuarial assumptions for net periodic benefit costs are set forth in the following table:

<b>December 31,</b>	<b>2024</b>	<b>2023</b>
<b>Pension</b>		
Discount rate	5.03%	5.23%
Interest cost effective interest rate	4.92%	5.11%
Service cost discount rate	5.00%	5.18%
Expected return on plan assets	7.50%	7.50%
Rate of compensation increase	4.90%	4.90%
Cash balance interest crediting rate	4.00%	4.00%
<b>Supplemental Pension</b>		
Discount rate	5.03%	5.22%
Interest cost effective interest rate	4.93%	5.10%
Service cost discount rate	5.14%	5.33%
Rate of compensation increase	5.80%	5.80%
Cash balance interest crediting rate	4.00%	4.00%
<b>Postretirement</b>		
Discount rate	5.06%	5.25%
Interest cost effective interest rate	4.94%	5.13%
Service cost discount rate	5.18%	5.36%

On an annual basis, the Company reviews the discount rate assumption used to determine the benefit obligations and the composition of various yield curves to ensure that the assumed discount rate reflects the Company's best estimate of the rate of return inherent in a portfolio of high-quality debt instruments that would provide the cash flows necessary to settle the Company's projected benefit payments.

The discount rate assumption used to determine the benefit obligations was based on a yield curve approach where the cash flows related to the benefit plans' liability stream were discounted at an interest rate specifically applicable to the timing of the cash flows. The company calculates service cost by discounting the future cash flows attributable to the current year of service using spot rates specifically applicable to the timing of the cash flows. Interest cost is determined by multiplying each benefit obligation cash flow by the spot rate applicable to that timing of the cash flow.

In choosing the expected long-term rate of return on plan assets, the Company's Retirement Committee considered the historical returns of equity and fixed income markets in conjunction with current economic and financial market conditions.

The Company calculates the market-related value of assets used in determining the expected return on plan assets component of net periodic pension cost. For asset classes such as investment grade fixed income securities and derivatives in the Immunizing Portfolio, changes in the fair value of these assets are recognized immediately for purposes of the market-related value. However, the Company recognizes changes in the fair value of the asset classes in the Growth Portfolio over a five-year period. These assets include public equities, private equity, common collective trust funds, non-investment grade fixed income, and emerging market fixed income.

Effective December 31, 2022 the Company adopted the scale AonEndemicMP21.

**Plan Assets**

The Company's overall investment strategy for the US pension plan's assets is to achieve a diversified mix of asset types, fund strategies, and fund managers. The US pension plan's primary investment goal is to maximize return within reasonable and prudent levels of risk while also considering the liability obligations of the Plan and the risks associated with such liabilities.

The US pension plan's assets are administered by the Liberty Mutual Retirement Committee, which has the fiduciary responsibility for management of the US pension plan's assets in accordance with the Liberty Mutual Retirement Benefit Plan Investment Policy Statement. Effective October 18, 2022, the Liberty Mutual Retirement Committee amended the Investment Policy Statement.

The US pension plan's assets are held in a trust and managed by LMIC, a wholly owned subsidiary of the Company and by its subadvisor, Liberty Mutual Group Asset Management, Inc., which is also a wholly owned subsidiary of the Company.

The investment plan assets consist of three portfolios, an Immunizing Portfolio, a Growth Portfolio, and a Cash Portfolio. The Immunizing Portfolio is designed to hedge the Plan's liability risks, specifically to offset changes in the Plan's liability value due to market-related risk factors such as changes in interest rates and credit spreads. The Growth Portfolio is invested in a diversified group of assets that seeks to generate a return in excess of the Plan's liabilities, within an acceptable level of risk. The target allocation for the plan's assets is: 55% Immunizing Portfolio, 44% Growth Portfolio, and 1% Cash Portfolio.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

(dollars in millions)

The investment strategy of the Immunizing Portfolio is to mitigate the plan's liabilities using core fixed income instruments, such as corporate and sovereign bonds, swaps, and futures contracts.

The investment strategy of the Growth Portfolio is to maximize return over the long term using public equities, private equity, real estate, private debt, infrastructure, non-investment grade fixed income, and emerging market fixed income.

The following tables sets forth by level, within the fair value hierarchy, the Plans' assets at fair value as of December 31, 2024 and 2023.

**Fair Value Measurements as of December 31, 2024**

<b>Asset Category</b>	<b>Total</b>	<b>Quoted Prices in Active Markets for Identical Assets Level 1<sup>(1)</sup></b>	<b>Significant Observable Inputs Level 2<sup>(1)</sup></b>	<b>Significant Unobservable Inputs Level 3<sup>(1)</sup></b>

Limited Partnerships	1,600	-	-	1,600
Other assets	4	-	4	-
<b>Total</b>	<b>\$6,815</b>	<b>\$1,193</b>	<b>\$4,022</b>	<b>\$1,600</b>

(1) See Note 10 for description of the Fair Value Measurement inputs. Pension Limited Partnerships are valued at the latest fair value reported by the General Partner adjusted by cash flows. Also, the common collective trust assets are valued based on Net Asset Value ("NAV") from BlackRock.

(2) Cash equivalents in Level 2 include accrued income and other of \$42.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

The Plans' investments in limited partnerships are recorded at the carrying value as reported by the external fund managers, which is believed to approximate the fair value of the investments. The Company had Level 3 purchases for limited partnerships of \$223 and \$111 as of December 31, 2024 and 2023, respectively.

#### Cash Flows

*Contributions* - The Company contributed \$0 to the qualified plans, and directly funded \$32 to retirees in the supplemental pension plans in 2024. In addition, the Company directly funded \$53 to retirees in the postretirement benefit plans in 2024.

The Company expects to contribute approximately \$235 to the qualified plans, to directly fund \$26 to retirees in the supplemental pension plans, and to directly fund \$44 to the postretirement benefit plans in 2024.

*Expected Future Benefit Payments* - The following benefit payments, which reflect expected future service as appropriate, are expected to be paid:

	Pension	Supplemental Pension	Postretirement Plans
2025	428	26	44
2026	452	38	44
2027	477	24	45
2028	497	25	46
2029	516	25	47
2030-2034	2,823	137	248

#### (10) FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach, which generally utilizes market transaction data for identical or similar instruments.

The hierarchy level assigned to each security in the Company's available for sale portfolio is based on the Company's assessment of the transparency and reliability of the inputs used in the valuation of each instrument at the measurement date. The highest priority is given to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Securities are classified based on the lowest level of input that is significant to the fair value measurement. The three hierarchy levels are defined as follows:

- Level 1 — Valuations based on unadjusted quoted market prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 — Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets or liabilities at the measurement date, quoted prices in markets that are not active, or other inputs that are observable, either directly or indirectly.
- Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement and involve management judgment. The unobservable inputs reflect the Company's estimates of the assumptions that market participants would use in valuing the assets and liabilities.

The availability of observable inputs can vary from financial instrument to financial instrument and is affected by a wide variety of factors, including, for example, the type of financial instrument, whether the financial instrument is new and not yet established in the marketplace, and other characteristics particular to the financial instrument. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires significantly more judgment. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for instruments categorized in Level 3.

The Company is responsible for the determination of fair value and the supporting assumptions and methodologies. The Company gains assurance on the overall reasonableness and consistent application of valuation methodologies and inputs and compliance with accounting standards through the execution of various processes and controls designed to ensure that the Company's assets and liabilities are appropriately valued. For fair values received from third parties or internally estimated, the Company's processes are designed to determine that the valuation methodologies and inputs are appropriate and consistently applied, the assumptions are reasonable and consistent with the objective of determining fair value, and the fair values are accurately recorded. For example, on a continuing basis, the Company assesses the reasonableness of individual fair values that have stale security prices or that exceed certain thresholds as compared to previous fair values received from valuation service providers or brokers or derived from internal models. The Company performs procedures to understand and assess the methodologies, processes and controls of valuation service providers. In addition, the Company may validate the reasonableness of fair values by comparing information obtained from valuation service providers or brokers to other third-party valuation sources for selected securities.

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

The Company used the following methods and assumptions in estimating the fair value of its financial instruments as well as the general classification of such financial instruments pursuant to the above fair value hierarchy:

#### **Fixed Maturities**

At each valuation date, the Company uses various valuation techniques to estimate the fair value of its fixed maturities portfolio. The primary method for valuing the Company's securities is through independent third-party valuation service providers. For positions where valuations are not available from independent third-party valuation service providers, the Company utilizes broker quotes and internal pricing methods to determine fair values. The Company obtains a single non-binding price quote from a broker familiar with the security who, similar to the Company's valuation service providers, may consider transactions or activity in similar securities, as applicable, among other information. The brokers providing price quotes are generally from the brokerage divisions of leading financial institutions with market making, underwriting and distribution expertise regarding the security subject to valuation. The evaluation and prioritization of these valuation sources is systematic and predetermined resulting in a single quote or price for each financial instrument. The following describes the techniques generally used to determine the fair value of the Company's fixed maturities by asset class:

#### **US Government and Agency Securities**

US government and agency securities consist primarily of bonds issued by the US Treasury and mortgage pass-through agencies such as the Federal Home Loan Bank, the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation. As the fair values of the Company's US Treasury securities are based on active markets and unadjusted market prices, they are classified within Level 1. The fair value of US government agency securities is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, reported trades, bids, offers and credit spreads. Accordingly, the fair value of US government agency securities is classified within Level 2.

#### **Mortgage-Backed Securities**

The Company's portfolio of residential and commercial MBS is originated by both agencies and non-agencies, the majority of which are pass-through securities issued by US government agencies. The fair value of MBS is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, contractual cash flows, prepayment speeds, collateral performance and credit spreads. Accordingly, the fair value of MBS is primarily classified within Level 2.

#### **Asset-Backed Securities**

ABS include mostly investment-grade bonds backed by pools of loans with a variety of underlying collateral, including automobile loan receivables, credit card receivables, and collateralized loan obligation securities originated by a variety of financial institutions. The fair value of ABS is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, contractual cash flows, prepayment speeds, collateral performance and credit spreads. Accordingly, the fair value of ABS is primarily classified within Level 2.

#### **Municipal Securities**

The Company's municipal portfolio is comprised of bonds issued by US domiciled state and municipal entities. The fair value of municipal securities is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, binding broker quotes, issuer ratings, reported trades and credit spreads. Accordingly, the fair value of municipal securities is primarily classified within Level 2.

#### **Corporate Debt and Other Securities**

Corporate debt securities consist primarily of investment-grade debt of a wide variety of corporate issuers and industries. The fair value of corporate and other securities is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, new issuances, issuer ratings, reported trades of identical or comparable securities, bids, offers and credit spreads. Accordingly, the fair value of corporate and other securities is primarily classified within Level 2. In the event third-party vendor valuation is not available, prices are determined using non-binding price quotes from a broker familiar with the security. In this instance, the valuation inputs are generally unobservable and the fair value is classified within Level 3.

#### **Foreign Government Securities**

Foreign government securities include bonds issued or guaranteed by foreign governments. The fair value of foreign government securities is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, binding broker quotes, issuer ratings, reported trades of identical or comparable securities and credit spreads. Accordingly, the fair value of foreign government securities is primarily classified within Level 2. In the event third-party vendor valuation is not available, prices are determined using non-binding price quotes from a broker familiar with the security. In this instance, the valuation inputs are generally unobservable and the fair value is classified within Level 3.

#### **Equity Securities**

Equity securities include common and preferred stocks. Common stocks with fair values based on quoted market prices in active markets are classified within Level 1. Common stocks with fair values determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active are classified within Level 2. The fair value of preferred stock is generally determined using observable

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

market inputs that include quoted prices for identical or similar assets in markets that are not active. Accordingly, the fair value of preferred stock is primarily classified within Level 2. In the event third-party vendor valuation is not available, prices are determined using non-binding price quotes from a broker familiar with the security. In this instance, the valuation inputs are generally unobservable and the fair value is classified within Level 3.

#### **Short-Term Investments**

The fair value of short-term investments is generally determined using observable market inputs that include quoted prices for identical or similar assets in markets that are not active, benchmark yields, new issuances, issuer ratings, reported trades of identical or comparable securities, bids, offers and credit spreads. Accordingly, the fair value of short-term investments is primarily classified within Level 2 of the fair value hierarchy.

#### **Other Investments**

Other investments include primarily foreign cash deposits, equity investments in privately held businesses and limited partnerships where the Company has elected the fair value option. Cash deposits are primarily valued using quoted prices for similar instruments in active markets; these assets are categorized within Level 2 of the fair value hierarchy. Equity investments in privately held businesses are valued using internal management estimates; they are categorized within Level 3 of the hierarchy. Components of valuation include assumptions related to default rate, prepayment rate, recovery rate, and discount rate, some of which are based on unobservable or less observable inputs. Loans, limited partnership and other equity method investments, which represent the remainder of the other investment balance on the accompanying consolidated balance sheets are not subject to these disclosures and therefore are excluded from the table in this note.

#### **Other Assets and Other Liabilities**

Other assets primarily consist of fixed maturities, short-term investments, and equity securities of captive companies sponsored by the Company. These assets are measured based on the methodology for individual securities as discussed above.

Additionally, other assets and other liabilities classified within Level 2 and Level 3 represent the Company's derivatives which can be exchanged or traded over-the-counter ("OTC"). OTC derivatives are valued using market transactions and other market evidence whenever possible, including market-based inputs to models, model calibration to market clearing transactions, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. When models are used, the selection of a particular model to value an OTC derivative depends on the contractual terms of, and specific risks inherent in the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures of volatility, prepayment rates and correlations of such inputs. For OTC derivatives that trade in liquid markets, such as generic forwards, swaps and options, model inputs can generally be corroborated by observable market data by correlation or other means, and model selection does not involve significant management judgment.

#### **Life Insurance Obligations**

Life insurance obligations include certain variable annuity contracts that provide guaranteed minimum income benefits. These benefits are accounted for as embedded derivatives and are bifurcated from the host contract and carried at fair value. The fair value of these embedded derivatives is computed on a recurring basis using assumptions predominately classified as Level 3 (significant unobservable) inputs. While some inputs are observable in the market, such as risk-free rates, volatility and historical equity returns, the underlying future policyholder behavior inputs are highly unobservable. The significant policyholder behavior assumptions include lapse and the underlying annuitization rate.

**LIBERTY MUTUAL HOLDING COMPANY INC.**

Notes to Consolidated Financial Statements

**Changes in Level 3 Recurring Fair Value Measurements**

The following tables summarize the fair values of assets on a recurring basis classified as Level 3 within the fair value hierarchy:

	As of December 31, 2024			As of December 31, 2023		
	Purchases	Transfer in to Level 3	Transfer out of Level 3	Purchases	Transfer in to Level 3	Transfer out of Level 3
<b>Assets, at Fair Value</b>						
US government and agency securities	\$-	\$-	\$-	\$-	\$-	\$-
Residential MBS	-	-	-	-	-	-
Commercial MBS	20	-	-	81	-	-
Other MBS and ABS	6	-	-	-	-	(33)
US state and municipal	93	4	-	-	2	(154)
Corporate and other	134	28	(4)	149	75	(57)
Foreign government securities	-	5	(5)	6	-	-
Redeemable Preferred Stock	116	-	-	109	(17)	-
Total fixed maturities	369	37	(9)	345	60	(244)
Common stock	42	7	(8)	111	1	(1)
Preferred stock	-	-	-	-	-	(1)
Total equity securities	42	7	(8)	111	1	(2)
Short-term investments	-	-	-	38	-	(38)
Other investments	891	4	-	427	16	(8)
Total assets	\$1,302	\$48	\$(17)	\$921	\$77	\$(292)
<b>Liabilities, at Fair Value</b>						
Life insurance obligations	\$15	\$-	\$-	\$10	\$-	\$-
Total liabilities	\$15	\$-	\$-	\$10	\$-	\$-

Transfers into and out of Level 3 were primarily due to changes in the observability of pricing inputs.

**Fair Value Option**

The Company has elected to apply the fair value option to certain financial instruments in limited circumstances. The fair value option election is made on an instrument by instrument basis. All periodic changes in the fair value of the elected instruments are reflected in the accompanying consolidated statements of income. The impact of the fair value option election is less than 1% of total invested assets.

The Company has not applied ASC 820 to non-financial assets and liabilities.

**(11) COMMITMENTS AND CONTINGENT LIABILITIES**

Various lawsuits against the Company have arisen in the normal course of business. Contingent liabilities arising from litigation, income taxes, and other matters are not considered material in relation to the financial position of the Company.

The Company is contingently liable for structured settlement obligations for which it has accepted assignments. The loss contingency would arise if the issuer of the guarantee contract related to the structured settlement liabilities were unable to fulfil their obligations. At December 31, 2024 and 2023, the contingent liability was \$1,066 and \$1,150, respectively.

As of December 31, 2024, the Company had unfunded commitments in traditional private equity partnerships, real estate, private credit, natural resources, and other of \$3,120, \$2,635, \$3,718, \$1,418, (\$1,385 of which is related to energy transition and infrastructure), and \$372, respectively.

The Company holds unfunded commitments related to commercial mortgage loans. The liability for expected credit losses related to these unfunded commitments is reported in Other liabilities and is measured in a manner consistent with the approach of the funded mortgage loan portfolio. As of December 31, 2024 the amount of the liability for expected credit losses of unfunded commitments was \$22.

As of December 31, 2024, the Company had \$459 of undrawn letter of credit outstanding secured by assets of \$438.

**(12) LEASES**

The Company's leases consist principally of real estate operating leases that are recognized on a straight-line basis over the term of the lease. A right-of-use asset and lease liability is recognized as part of other assets and other liabilities, respectively, in the consolidated balance sheets.

Lease Cost	As of December 31, 2024	As of December 31, 2023
Operating leases	\$141	\$140
Short-term leases <sup>(1)</sup>	1	1
Lease expense	142	141
Less: Sublease income <sup>(2)</sup>	55	48
<b>Net lease cost</b>	<b>\$87</b>	<b>\$93</b>

**Other Information on Operating Leases**

Cash payments to settle a lease liability reported in cash flow	\$91	\$98
---	------	------

**Right-Of-Use Assets Obtained in Exchange for New Leases Liability**

Weighted average discount rate	1.5%	1.1%
Weighted average remaining lease term in years	5.4 years	5.5 years

(1) Leases with an initial term of twelve months or less are not recorded on the balance sheet.

(2) Sublease income consists of rent from third parties of office space and is recognized as part of fee and other revenues in the consolidated statements of income.

The following table presents the contractual maturities of the Company's operating lease liabilities:

2025	\$73
2026	54
2027	43
2028	33
2029	19
Thereafter	35
Total undiscounted lease payments	257
Less: present value adjustment	24
Operating lease liability	\$233

The capital lease obligation as of December 31, 2024 and 2023, was \$0 and \$12, respectively, and is included in other liabilities in the accompanying consolidated balance sheets. Amortization of the lease obligation was \$12 and \$47 for the years ended December 31, 2024 and 2023, respectively. In 2021, the Company entered into an arrangement to sell and leaseback certain furniture and equipment. The interest rate on this lease was 1.23%. The transaction was accounted for as a capital lease. As of December 31, 2024, the Company's lease obligation under the sale-leaseback agreement has been fully amortized.

**(13) POLICYHOLDERS' EQUITY**

The statutory surplus of the Company's domestic insurance companies was \$32,208 and \$27,677 as of December 31, 2024 and 2023, respectively. The statutory net income of the Company's domestic insurance companies was \$4,563 and \$700 for the years ended December 31, 2024 and 2023, respectively. The Company's domestic insurance subsidiaries prepare statutory basis financial statements in accordance with the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC APP"), subject to any deviations prescribed or permitted by the insurance commissioners of the various insurance companies' states of domicile. The Company does not have any material permitted practices that deviate from the NAIC APP.

**Dividends**

The insurance subsidiaries' ability to pay dividends is restricted under applicable insurance law and regulations and may only be paid from unassigned surplus. Under the insurance laws of the domiciliary states of the insurance subsidiaries, an insurer may make an ordinary dividend payment if its surplus as regards to policyholders, following such dividend, is reasonable in relation to its outstanding liabilities, is adequate to meet its financial needs and does not exceed the insurer's unassigned surplus. However, no insurer may pay an extraordinary dividend without the approval or

## LIBERTY MUTUAL HOLDING COMPANY INC.

### Notes to Consolidated Financial Statements

(dollars in millions)

nondisapproval of the domiciliary insurance regulatory authority. Insurance subsidiaries owned directly by LMGI are LMIC, Liberty Mutual Personal Insurance Company (“LMPICO”), LMFIC, EICOW and SAM.

Under the insurance laws of Massachusetts, the domiciliary state of LMIC, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer’s surplus as regards policyholders as of the preceding December 31, or the insurer’s net income for the 12-month period ending on the preceding December 31. Under the insurance laws of New Hampshire, the domiciliary state of LMPICO, an extraordinary dividend is defined as 1) a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of a) 10% of the insurer’s surplus as regards policyholders as of the preceding December 31, or b) the insurer’s net income, excluding realized capital gains, for the calendar year preceding the date of the dividend, but not including pro rata distributions of any class of the insurer’s own securities, or 2) the aggregate of the insurer’s net income from the previous two calendar years that has not already been paid out as dividends, excluding realized capital gains and any dividends paid in the previous two calendar years. Under the insurance laws of Wisconsin, the domiciliary state of LMFIC and EICOW, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of a) 10% of the insurer’s surplus with regard to policyholders as of the preceding December 31, or b) the greater of 1) the insurer’s net income for the calendar year preceding the date of the dividend, minus realized capital gains for that calendar year, or 2) the aggregate of the insurer’s net income for the three calendar years preceding the date of the dividend, minus realized capital gains for those calendar years and minus dividends paid within the first two of the preceding three calendar years. Under the insurance laws of Ohio, the domiciliary state of SAM, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of a) 10% of the insurer’s surplus as regards policyholders as of the preceding December 31, or b) the insurer’s net income for the 12-month period ending on the preceding December 31.

Changes in the extraordinary dividend regulation of the domiciliary states of LMIC, LMPICO, LMFIC, EICOW and SAM could negatively affect LMGI’s ability to pay principal and interest on the notes held at LMGI, as could a redomestication or merger of LMIC, LMPICO, LMFIC, EICOW, or SAM to a different domiciliary state. The maximum dividend payout in 2025 that may be made prior to regulatory approval is \$3,825.

#### **(14) SUBSEQUENT EVENTS**

There were a series of severe wildfires that impacted areas of Southern California in January 2025. The Company’s preliminary pre-tax estimate of catastrophe losses relating to these California wildfires is approximately \$1,200. The preliminary amount includes estimated assessments from the California FAIR Plan and reinsurance net of reinstatement premium. These values do not consider any subrogation. The catastrophe losses will be recorded in the Company’s Q1 2025 financial statements.

On March 2, 2025, the Company announced the agreement to sell its operations in Thailand and Vietnam to Chubb Limited. The Thailand transaction is expected to close by the second quarter of 2025 and the Vietnam transaction is expected to close in 2026, subject to certain closing conditions and regulatory approvals.

Management has assessed material subsequent events through March 5, 2025, the date the financial statements were available to be issued.
