Triple-S Steel Acquires Industrial Material Corporation

By [Metal Center News Staff](#) on [Nov 18, 2025](#)

Triple-S Steel has acquired the assets of Industrial Material Corporation, a Galveston, Texas-based service center. The company, founded in 1958, is now operating as Triple-S Steel, selling steel tubing, angle, sheet, plate and hardware and

accessories across Galveston County and the surrounding region.

"Industrial Material was founded by my father to serve Galveston and Galveston County with responsive, knowledgeable and flexible service," said Jayson Levy, president of IMC. "Triple-S shares these values. I'm excited they are purchasing the assets of IMC and its facility, so our customers continue to receive the dependable local service they expect, now with the strength of one of the largest family-owned service centers in the country."

IMC offers a number of value-added services, including cut-to-length, burn-to-spec, rolling, hole punching and more. It also provides in-house applications of zincs, epoxies, enamels and other coatings.

"After servicing Galveston-area customers for many years, Triple-S Steel is excited to have a physical footprint on the island," said Sam Stein, director of business development for Triple-S. "Jayson and the IMC team have been great to work with through the acquisition process and we look forward to doing more business with the Galveston community."

Triple-S will host a Grand Opening Event Nov. 17 at the location at 7701 Harborside Drive.

Houston-based Triple-S is North America's 11th largest service center company, with 2024 revenues of \$2.1 billion.
